U. S. CONSULS MAY RETURN SOON TO MEXICAN POSTS

Pershing Orders Evicted Americans From Juarez to Stay in El Paso

[Associated Press by Federal Wireless] WASHINGTON, D. C., Dec. 24.—Unless there are some unexpected developments in Northern Mexico to interfere with present plans, the American consular officials withdrawn by the state department from these sections under the jurisdiction of the Villa government are soon to return to their various posts to resume their work.

Reports from El Paso indicate expected trouble in Juarez again, the American residents of that border city having been ordered out by the Mexican military officials. Gen. Pershing has ordered these evicted persons to remain in El Paso. Traffic across the international bridge has been discontinued.

The largest remaining force of Villistas in the field, that under Gen. Rodriguez, who has some four thousand men, is reported to be preparing for an invasion of the state of Sinaloa, while Gen. Flores is to lead two thousand Carranzistas towards Guaymas, against the Yaquis. Flores will leave Douglas today with his force, while Gen. Calles, with four thousand more Carranzistas, will follow shortly. These generals are under orders to round up all the Yaquis and place them, under guards, on reservations. The reservation plan is to be made a permanency.

Laredo reports announce the occupation of Chihuahua City by the Carranzistas.

EDISON OFFERS PLANS FOR BIG LABORATORY

[Associated Press by Federal Wireless] NEW YORK, N. Y., Dec. 24.—Thomas A. Edison, the famous inventor, who is chairman of the naval advisory board, at a meeting of that board here yesterday announced that he was ready to furnish, at his own expense, plans and specifications for a proposed laboratory for physical research, at which could be developed naval inventions submitted. A suitable laboratory could be built and equipped at a cost of \$1,400,000 according to Mr. Edison's estimates.

HAS UNBOUNDED FAITH IN SUCCESS OF MISSION

[Associated Press by Federal Wireless] CHICAGO, Ill., Dec. 24.—Henry Ford, cabling to Jane Addams from Christonia, says: "The rumors that there has been dissension in our party are unfounded. The journalists imagined the stories they sent out. My faith in the success of our mission is unshaken."

VAST NUMBER OF CASES HANDLED IN LOWER COURT

Police Judge Monsarrat Passes on Approximately 6000 Cases During Year

Thus far in 1915 there have been issued from the clerk's office at the police station 2880 warrants and complaints, and before the end of the year it is estimated there will have been issued 3000 complaints and warrants. All of these are handled by Clerk Jack Kalkiele, with the assistance of Fred Weed and Joseph Nobrega, and involve besides the issuance of the first papers, summons for witnesses, records of trials and continuances and appeals and other book-keeping.

Complaints and warrants often carry the names of any number of people up to 20 and 30, and a casual estimate places the total number of people who have appeared in the police court this year at not less than 6000. All of these cases are handled by Prosecuting Attorney Chillingworth and heard by Judge Monsarrat.

Just now a statement is being prepared showing the cases heard, the convictions, and acquittals and the amount received in fines in the police court, with other data bearing on police court business. The report will be completed about the first of the year and submitted to the supervisors.

Cases Always Waiting. The police court calendar is congested with business, and there are always from 40 to 70 cases awaiting trial. Yesterday Attorney Chillingworth said there were more than a dozen cases on the calendar that would take from a half to a whole day to try, and several dozen that should be given an hour or more each, while there will be, by the time court meets again Monday, probably 100 of the kind of cases that take only 10 to 20 minutes to try.

Judge Monsarrat sits in police court cases in the morning and in civil cases in the afternoon. Attorneys who attend the police court think the only way to solve the problem of disposing of cases is to appoint an additional judge.

In 1914 the number of cases to the end of the year was 2685, and if the list reaches 3000 this year, as expected, it will mean an increase of 335 cases, which in itself is half enough for any court to handle, attorneys say.

Revenue returns in the police court have not yet been figured, but an approximate estimate places the income from fines at from \$20,000 to \$25,000 for the year.

Forty-three officers and electricians from United States navy yards are being taught at West Orange, N. J., how to operate Thomas A. Edison's new submarine storage battery.

CHILDREN FLOCK TO SEE BIG TREE AT PLAYGROUNDS

More than 600 children flocked to the Beretania playgrounds to enjoy the Christmas tree provided by the Free Kindergarten Children's Aid Association. Ice cream and candy was served to the youngsters, and a big Christmas tree, under the supervision of Mrs. Norma Adams, was immensely enjoyed.

There were folk dances by the children, given in costume, and some of the older Hawaiian girls had a Hawaiian pageant.

Those who assisted Mrs. Adams were Miss Kopke, Miss Bertha Kopke, Miss Alice Hoogs, Miss Margaret Shaw, Miss Lehua Ulumalele, Mrs. Berry and Mrs. E. Lewis.

FINANCIAL EXPERT DISCUSSES WAR LOSS

[Associated Press by Federal Wireless] NEW YORK, N. Y., Dec. 23.—Sir George Paish, the noted British economist and statistical expert, who is recognized as one of the leading financial authorities of Europe, said today that the war involves no destruction of accumulated British wealth, that the loss is mainly in "uncreated wealth," shells instead of homes being destroyed and warships instead of railways. He estimates the loss in unproductive expenditure at four hundred million pounds per annum.

POWDER FUMES KILL THREE IN CALIFORNIA

[Associated Press by Federal Wireless] BRANDY CITY, California, December 24.—A portion of a stock of eleven tons of dynamite was exploded here yesterday, the balance falling to explode but being set afire. Workmen who attempted to approach the burning powder were overcome by the fumes. Three of the men so overcome have died and five others are in the hospital, in a precarious condition.

CACHE OF GERMAN GOLD DUG UP AT TSINGTAU

[Associated Press by Federal Wireless] TOKIO, Japan, December 23.—Japanese workmen, excavating near the site of a German fort at Tsingtau, uncovered a cache of German gold, totaling two million yen. It is supposed that this gold was buried by the German commander of the fortress before it was surrendered to the Japanese, being the balance of the treasury funds in his hands. The money has been turned over to the Japanese government.

Robert L. Sterling of Beaver, Pa., a former member of the Pennsylvania legislature, died at Beaver from blood poisoning caused by a tight shoe that hurt his foot.

WOOD REBUKES INQUIRY BOARD IN FIRST CASE

Commander of Eastern Department Dissents From Courtmartial Findings

[Associated Press by Federal Wireless] NEW YORK, N. Y., Dec. 24.—Mal. Gen. Wood, commanding officer of the Eastern department, to whom was submitted the findings of the court martial before whom Col. Robert L. Hirst, commander of the 3rd Infantry, was tried, has issued a rebuke to the members of the court for their decision, which declares Col. Hirst not guilty of the charges filed against him.

ARIZONANS WANT U. S. BOUNDARY LINE STRAIGHTENED OUT

PHOENIX, Arizona, December 24.—The commercial bodies of Arizona are urging by telegrams to members of congress that a boundary commission be appointed to establish the southern line of the United States, from the Rio Grande River to the Pacific Ocean, along the thirty-first parallel, straightening the line between the United States and Mexico and bringing under the American flag those sections of Northern Mexico now owned in very large part by American citizens.

IN WAR ARENA

BIG TEUTON DRIVE INTO GREECE IS PLANNED

LONDON, Eng., Dec. 24.—That a combined Austro-German and Bulgarian advance is to be made into Greece at once is the belief in Athens, where it is reported that the Teutons have communicated with the Greek officials and outlined their plans. The Central Powers expect to reach the Allies' positions before Saloniki by January 15, after which their occupation of that portion of Grecian Macedonia will depend upon the length of time it takes them to drive the Allies back to their ships and clear Greece of both French and British. They agree to leave Greece once the Allies have been cleared out.

It is reported that the Austro-Germans are fortifying a line in the Sajak of Novipasar, on their Montenegrin front. This is taken as an indication that the Teuton offensive against Montenegro is concluded.

Yesterday, according to an Athens report, an Austrian aeroplane flew across the line and reached within three miles of Saloniki, dropping five bombs on the village of Apapli.

An Overseas despatch from Berlin states that the Bulgarian king, who has been touring Serbian Macedonia, has been everywhere greeted with the enthusiasm of the populace and hailed as the Liberator.

POPE DEPLORES MAN'S WEAKNESS

ROME, Italy, Dec. 24.—The pope, addressing a Christmas letter to Cardinal Vanutelli, dean of the Sacred College, states that it is to be regretted that man's weakness which has caused the European conflagration is preventing the rejoicings that belong to the season of Christmas. The pope expresses the hope that the Christmas season of 1916 will find peace on earth reestablished.

TURKS CLAIM REVOLTS RIFE IN INDIA

BERLIN, Germany, Dec. 24.—Constantinople despatches announce that the revolution in India against the British is growing and has now reached such proportions that the British regiments in the country cannot make headway towards its suppression. The native regiments ordered to attack the revolutionists have mutinied and gone over to the cause of the revolt.

BERLIN DENIES KAISER IS SERIOUSLY ILL

LONDON, Eng., Dec. 24.—Rotterdam despatches, while stating that the news has been officially denied in Berlin, give prominence to a report that Berlin rumors that the kaiser is facing a serious operation for cancer, which cannot be long delayed.

WOOLEN FACTORY IS OFFERED TO DENVER

DENVER, Colo.—Officials of the Denver Manufacturers' Association have received several letters from William Hanke of Cleveland, Ohio, who is interested in establishing a woolen mill in Denver. According to his letters, Hanke has plenty of money and is an experienced woolen fabric manufacturer.

"I understand the Western markets," he writes, "for I have worked in the factories in Utah and Oregon. I am told there is an abandoned cotton mill in your city, which I believe could be converted easily into a woolen mill. I would like to cooperate with anyone who is interested in the proposition and can furnish a large sum of money for the development of a first-class mill."

FORMER JANITOR FACES CHARGE OF PETTY THIEVING

The mystery of the disappearance of sums of money and articles of value from offices in the judiciary building during the last few months is believed to be cleared up through the arrest yesterday of Dan Kaiawe, former janitor in the building, who is believed by the police to be the one who committed the thefts.

Kaiawe was arrested by Detective Sergeant Kelielt in the judiciary building shortly after 2 o'clock yesterday. Ten dollars in gold and silver, which was stolen from Clerk Kaeli Aona's desk, was recovered. It is alleged by the police that Kaiawe is accountable for the theft of a child's bank, containing \$10, from Probation Officer John Anderson's desk; of \$10 belonging to John Marcellino, former clerk in Judge Whitney's court, and several articles of value.

U. S. ENGINEERS ISSUE ENCOURAGING REPORT

[Associated Press by Federal Wireless] WASHINGTON, D. C., December 24.—The report of the bureau of steam engineering of the navy department was issued yesterday. It announces that the work of carrying on improvements with the machinery of the ships of the navy was last year handicapped by lack of available funds.

Reporting on the work of the established radio stations and on the work of installing the other stations sanctioned by congress, the report states that the expectations have been more than realized with the Darien station at the canal, while satisfactory progress is being made on the installation of the stations at Pearl Harbor, Hawaii, and Cavite, Philippines.

Contracts have been awarded, the report states, for the installation of naval wireless plants at the Tutuila and Guam naval stations.

Colonel Roosevelt's name has been taken from the Nebraska primary ballot as a Republican candidate for president. This was at the request of the former president.

MUNITION TRADE LURES CANADA TO MAKE BIG PLANS

Dominion Eager to Become Principal Source of Supplies for Allied Nations

OTTAWA, Ont.—Announcement is made today that an ambitious munitions plan is under way in Canada. It is proposed to tremendously extend the Canadian capacity for producing projectiles; to have a very substantial proportion of the Russian, French and British shell orders filled in Canada, and to have the business financed by the banking houses and other financial institutions of the Dominion.

The plan will mean that instead of borrowing from Great Britain, Canada will make advances of credit and funds to England.

Shell orders which have been filled or which are being filled in Canada have reached the total of \$500,000,000. More than 250 manufacturing firms are engaged upon the work, and it is estimated that Canadian firms have installed over \$30,000,000 worth of special machinery.

In Europe the munition needs of France, Russia and Great Britain are syndicated for the promotion of greater efficiency. In Canada the munition business is to be organized in such a way that a large order for munitions can be handled to this country and taken care of in the most expeditious and economical manner.

Heretofore payment has been made from British funds placed with the Canadian government. Hereafter the business probably will be financed in Canada; British bills of exchange being taken by the Canadian banks or by a banking and financial syndicate organized under government supervision and payments made to the munition manufacturers by that syndicate.

Messrs. Hitchings and Brand, who recently came to Canada as the authorized representatives of Lloyd George, British minister of munitions, are now working out the details of the plan, and, it is stated, are meeting with success.

LANSING GETS STRONG EVIDENCE IN 'WAR-PLOTS'

Rumor Declares Secretary is Now in Possession of Incriminating Letters

[Associated Press by Federal Wireless] HOT SPRINGS, Va., Dec. 24.—Important letters from Secretary Lansing were received by the president yesterday, and while no announcements were made it is understood that the correspondence dealt with the situation that has developed over the alleged activities of Charge d'Affaires Zweidnick, in charge of the Austrian embassy.

Recent reports from Washington are to the effect that Secretary Lansing has come into possession of a photographic copy of a letter which Charge d'Affaires Zweidnick is alleged to have written, advising Consul General Number at New York to procure neutral passports "at reasonable expense" enabling Austrian revolutionists to repatriate.

The secretary of state also communicated to the president, it is understood, the result of his recent conference with Col. E. M. House, who is leaving for Europe on a personal diplomatic errand for the president.

Colonel House is not coming here to see the president personally.

Yesterday the president visited the golf links and played a round, the secret service men in the Wilson party acting as caddies for the occasion.

The various congratulatory messages which have reached the president from foreign rulers, concerning his wedding, have all been turned over to the state department for acknowledgment and suitable reply.

QUAKES SHAKE UP GUATEMALA CITY

GUATEMALA CITY, Dec. 24.—Twenty earthquakes, many of them severe, have been experienced here during the past 48 hours. So far as reports have been received from the affected sections the damage done has not been serious.

A Real Family Car At A Low Price

No other automobile at anywhere near the price offers half the advantages of this new Overland. It has a powerful motor; electric starting and lighting system; 104 inch (2642 mm.) wheelbase; cantilever springs; large tires; demountable rims; streamline body design.

In every respect it compares favorably with many cars costing much more money.

And it is not only in purchase price that you save. The unusually light weight of the car—only 2160 pounds—makes it exceedingly economical in operation.

Yet it is surprisingly roomy, providing ample accommodations for five adults.

It is a real family car in every respect. And anyone in the family can drive it.

SPECIFICATIONS:

Long Stroke Block Motor	Demountable, detachable rims— one extra	Nickel and polished aluminum trimmings
Electric Starter—Electric Lights	Rear Axle, floating type	Electric engine starter and generator, electric horn, rear and dash lamps and headlight dimmers, storage battery.
High Tension Magneto Ignition	Large, powerful brakes	One man Mohair hood cover; magnetic speedometer; electric horn; combination rear light and license bracket; hinged rug rail; foot rest; tyre carrier in rear; full set of tools; tyre repair kit; jack and pump.
Electric switches on steering column	Thermo-Syphon cooling	
Right hand drive—center levers	Body, streamline with one-piece cowl	
Instrument Board on Cowl Dash	Rain-vision Windshield, ventilating type built-in	
Cantilever Rear Springs	Crowned fenders	
Deep, Soft Upholstery, High Back Seats	Lustrous black finish	
Wheelbase 104 inches (2642 mm.)		
Large tires, 31"x4"
