

BITTER FIGHTS ON WEST FRONT TO TAKE HILLS

Germans Report Hartmanns-Weilerkopf Recaptured; Say East Front Unchanged

The following cablegrams from official German sources were received yesterday:

"German Headquarters Report, January 8—Eight Germans conquered by surprise a trench on the south of Hartmannsweilerkopf, capturing 60 chas-seurs. On most part of the west front activity is hindered by bad weather."

Yesterday's Situation.

"German Headquarters Report, Jan. 9—South of Hartmannsweilerkopf near Hirtstein the Germans yesterday took the last trenches which on December 21 fell into the enemy's hands, imprisoning 20 officers and 1083 chas-seurs. Fifteen machine guns were also taken."

Today's Situation.

The following cablegram from official German sources was received today:

"German Headquarters, January 10—The Germans northwest of Massiges, near the farm of Malson de Champagne, conquered several hundred meters of the enemy's positions and trenches. Four hundred and twenty-three French, among whom are seven officers, are captured. Five machine guns, one large and seven small mine throwers, were taken."

"The French counter attack westward of the farm failed."

"A German air-craft division attacked the enemy's rear-guard establishments in Furnes."

"On the east front the general situation is unchanged. The advance of stronger Russian detachments near Belostanny was repulsed."

AKEO ASSAULT HEARING GOES OVER ONE WEEK

At the request of counsel for Joe M. Genella, who claims Policeman Robert Akeo struck him with his club a week ago without provocation, the case against Akeo was continued today for one week.

Judge Monsarrat objected to the long continuance but finally granted it on the understanding that no further delay would be asked for.

Genella was present with six of his comrades who it is said saw the fight and will testify against Akeo. Akeo had on hand several witnesses who will take the stand in his behalf. Genella's counsel said he wants to look up more witnesses before the case goes to trial.

Reports have been circulated that the grand jury is to take up the case and investigate the alleged assaults on soldiers of Peter Hose and Akeo. This, say officials of the police department, will be welcomed by them as they want the facts to be brought out fully.

In the absence of the sheriff, Deputy Sheriff Asch this morning expressed regret that the Akeo case had to be delayed.

COMMITTEE WILL SEND \$1000 TO AID POLISH SUFFERERS FROM WAR

A round thousand dollars, given by the people of Hawaii, will be forwarded within a few days to the Guaranty Trust Company of New York City expressly for Polish relief.

The money now is in the hands of James A. Rath, secretary-treasurer of the local War-Relief Committee.

The first appeal for relief for the men, women and children of war-ridden Poland reached Hawaii only a short time ago and the money now in hand for this purpose shows that the response in Hawaii has been speedy and generous. Mr. Rath reports that, to date, about \$80,000 has been sent out from Hawaii to assist war sufferers in various parts of Europe.

At 10 o'clock Wednesday morning the Matsonia will sail for San Francisco, taking the next mail for the states.

There were 30 vessels in port here yesterday. Of them, 10 were German and eight American.

Enoch Wood Perry, former United States consul at Venice, and well known artist, died in a New York hospital.

J. A. WILDER TO TALK AT KAUALI OF BOY SCOUTS

Leader of Movement is Making an Energetic Campaign to Build Up Organization

Another step in the movement recently begun by James A. Wilder to build up an organization of Boy Scouts in Hawaii which will be a credit to the territory will be the rally and meetings on Kauai which are to be held the last week in January to perfect the troops on the Garden Island. Mr. Wilder is to make a speech to citizens on Kauai January 28.

"I am going to tell them just what the movement means," Mr. Wilder said, speaking of the work on Kauai. "I am going to point out to them that the Boy Scout movement will produce good citizens with high ideals and the idea of helpfulness, bravery when it is called for, self sacrifice, and the ability to take care of themselves under all circumstances."

"Years ago the idea was to work for boys. Then it changed to work with boys. The Scout movement means letting boys work. It teaches them to do things, not to expect their teachers to do them; to want knowledge of all the things a scout must know, because it is honorable to know these things, and still more honor to apply them."

Pledges of Scouts.

"There are three chief pledges of the scouts which will in themselves make a good man of any boy. These are three of the principal things 100,000 boys in the organization have pledged themselves to do.

"To do his duty to God and to his country and to obey the scout law."

"To help other people at all times."

"To keep himself physically strong and morally straight."

PUNAHOU STUDENTS WITH FEVER OF 100 WILL BE SENT HOME

When are coughs and colds contagious? This is the question to which the school authorities at Punahou have been trying to find an answer.

The question had so many difficulties that the trustees of Oahu College asked the executive committee of the Hawaiian Medical Society to suggest a method of procedure which would be practicable in handling all cases.

The medical men recommended that any child having a rise of temperature to 100 degrees Fahrenheit should be sent home. This regulation is based more on the child's own condition and less upon the danger to others. The physicians state, however, that most of the contagious cases of coughs and colds will be discovered in this way. The plan recommended by the Medical Society will be put into effect at Punahou as soon as possible after the opening of the winter term.

Forty Year Old Tree Uprooted at Punahou

Torn up by the roots last Saturday afternoon, a large pepper tree, more than 40 years of age, still lies on the spot on which it fell, on the Punahou campus. When the wind was at its height last Saturday afternoon, a gale coming down from Manoa valley caught the tree and tearing it up by the roots, caused it to fall on a road, blocking all traffic.

In the Makiki district several large algarobas have also been torn up from their foundations by the wind, while the same thing has occurred in the Punui valley.
