MONTENEGRO IS FORCED TO EVACUATE CAPITAL

PARIS, France, Jan. 13.—Cettinje, the capital of Montenegro, and up to now believed virtually impregnable, will soon be no longer in the hands of the king and his people. The Austrian advance is so rapid from the Adriatic seacoast that the capital is already doomed.

Austrian troops, including strong artillery forces, from Cattaro and Budua have reached Riechiez, only five miles from Antivari, and the latter town is now under bombardment from the long-range guns which the Austrians have taken on their advance. It is only a matter of time before Antivari will fall.

NEW SHIPPING COMPANY WILL AID ALL LINES

Sammons Says American International Corporation Will Back Industrial Ventures

That he found the American International Corporation willing "to assist suitable industrial enterprises," as well as attend to its steamship lines, was stated this afternoon by Thomas Sammons, consul-general for the United States, at Shanghai.

This corporation was recently formed in New York, and capitalized at \$50,000,000, for the purpose of operating a transpacific steamer line, provided assistance could be secured from Congress, in the shape of subsidies, a mail contract, or amendment of the clauses of the Seamen's Law deemed injurious to American shipping.

"I talked with several officials of the corporation in the states," said Mr. Sammons, "and I found them actively preparing to assist industrial undertakings, and furnish the capital for suitable enterprises, both in the United States and foreign countries."

The consul-general also said he found in his trip of four months through the states that an active interest is being taken in shipping problems and the development of the American merchant marine. He stated that chambers of commerce in all leading American cities are convinced that Congress should grant aid by such means as will assist American shipping.

Mr. Sammons refused to discuss the Chinese revolution. "I have been in the East 11 years," he said. "Every diplomat knows what that means."

The consul-general said he is delighted with Honolulu. "Your city seems to have grown appreciably since July," he remarked. "Hawaii is being talked of much more throughout the states, as an excellent place to visit either summer or winter."

Mr. Sammons arrived on the U. S. army transport Sheridan this morning from San Francisco, accompanied by Mrs. Sammons. They have visited the principal cities of the United States.

Mr. and Mrs. Sammons were entertained today by J. S. McCandless, an intimate friend of the consul-general. They will continue on to Manila on the transport, and return to Mr. Sammons' post at Shanghai.

Mr. Sammons said he didn't care to make any forecasts on the presidential campaign outlook.

She is sailing at 5 o'clock this afternoon, taking mail for China and the Philippines.

Coming to Honolulu on the liner were M. Q. Fong, secretary of the China Mail, and also secretary of the Chinese Chamber of Commerce of San Francisco. BANDIT WEARIES M'DUFFIE WITH TALE OF CRIMES

Yee Yo Keuk Tells Chief of Detectives of Long String of Bold Robberies

Yee Yo Keuk this afternoon told Chief of Detectives Arthur McDuffie of a string of burglaries which he admits he is guilty until McDuffie got tired of hearing of them. Keuk, when he was told that no more details of his career of crime were wanted, had admitted 10 robberies, including hold-ups, and had confessed to taking money, watches, clothing, food and jewelry from various places.

Keuk was taken to McDuffie's office by a policeman and a detective, and was kept closely guarded. He limped upstairs with the aid of crutches, as the wound in his left leg is still painful. The wound in his neck has healed.

The Korean bandit is fat and in good health, and except for the wound in his leg has recovered from the effects of the battle in which he was shot and in which he shot McDuffie. McDuffie can now walk short distances without the use of crutches.

Keuk still denies that he killed Chee Yung Yer, a Chinese rent collector employed by E. C. Winston, who was found dead in his room at Beretania and King streets December 9, when Keuk was captured.

Keuk has been indicted by the grand jury and will probably be tried within a week or 10 days on charges of burglary. If he will confess to one robbery, which he has not yet admitted, he may be sent to prison for life for entering a house and threatening one of the inmates with a revolver.

INSANE MOTHER CHOKES HER FIVE YEAR OLD CHILD

The husband, T. Mizuta, who is the proprietor of an umbrella store on Fort street, stated today that he had feared that his wife might in-

UNLESS TARIFF IS CHANGED BIG INDUSTRY DIES

Colorado Would Close Down All But One Beet Sugar Mill, Says F. G. Bonfils

INDUSTRY OUTRANKING RICH GOLD MINES NOW

Denver Newspaperman Thinks Wilson Will Be Forced to Take Hand in Mexico

"If the tariff law providing for free sugar on May 1 is not amended," says F. G. Bonfils of Denver. "Colorado will close down all but one of her big beet sugar mills, and practically go out of the sugar business. One mill would probably keep running for the local trade."

Mr. Bonfils, one of the owners of the Denver Post, arrived yesterday with Mrs. Bonfils on the Great Northern, and is stopping at the Moana. "Our sugar industry has come to be foremost of all our industries in Colorado," continues Mr. Bonfils. "Colorado has long been famous for her output of gold and silver, but the beet sugar business, as far as dollars and cents go, is now ahead of the mines."

"We produced last year," he says, "5,000,000 sacks, or 500,000,000 pounds of beet sugar. Practically all the people of Colorado want the tariff maintained, as you may well believe."

With free trade, Mr. Bonfils says, Colorado could not begin to compete with the cheap labor of Cuba. Colorado land sells for practically \$200 an acre, and Cuba land for from \$40 to \$50 an acre. Free sugar would drive the Colorado sugar men out of business at once.

Asked concerning the Mexican situation as viewed from the Pike's Peak state, Bonfils says that it is only a question of time when President Wilson's "watchful waiting" policy must end, and the United States take an active hand to bring the present condition of things to a close.

"Mexico is in the feudal ages still," he says. "There are a thousand little cliques here and there over the country, and I do not believe that they will ever settle things of their own accord."

"Though Mexico is a republic theoretically, the people of Mexico have been strangely backward in any advance toward a republican form of government, and willingness to let the majority rule. It is only a question of time until we must interfere."

ASHFORD WANTS CENSORSHIP OF PICTURES HERE

In Charge to Grand Jury Judge Says Crime is Due to Movies; Raps Candy Carts

In his charge today to the 1916 territorial grand jury, Circuit Judge Ashford suggested that it take steps toward the establishment of a more rigid censorship of motion pictures shown in Honolulu theaters. In this connection he called attention to the many cases which have come before the juvenile court where boys and girls have committed crime in their endeavor to impersonate the "heroes" of the screen.

Judge Ashford also berated the push carts which sell cheap candy and lunches to school children; urged that the jury ascertain the causes of the many law violations by dealers in illicit liquor, and suggested that some system be arranged whereby the cheap grades of wines which are brought into Honolulu from California may be inspected.

Nineteen members of the grand jury answered rollcall. It was expected that William H. McClellan would be appointed foreman.

The Inter-Island Steam Navigation Company, acting for itself and for the steamer Nihoa and the members of its crew, has filed in federal court a libel against the American schooner Mawema, asking that it recover \$4000 for services rendered the latter vessel. The petition alleges that on January 9, this year, the Mawema broke loose from the Hilo wharf and that services to the extent of \$4000 were rendered it by the Nihoa.

The children, and was never away from home for a long period. Mrs. Mizuta is now in jail, and the inquest will be held tomorrow afternoon at 2 o'clock.

[Associated Press by Federal Wireless]
LONDON, Eng., Jan. 13.—According to a despatch from Rome, the Kaiser's illness has become so serious that his sister, Queen Sophie of Greece, has been summoned by telegraph from Athens to the bedside of her brother, whose malady is said to be alarming. STORMS HAMPER TELEGRAPH LINES OVER MAINLAND

[Associated Press by Federal Wireless]
CHICAGO, Ill., Jan. 13.—The severe storms in the Middle West and Canada are continuing today. The temperatures are falling even lower and there are many reports of high winds. The snow is still falling and in several places is deeper than for many years. Temperatures ranging from 20 to 50 degrees below zero are reported at various points. The telegraph wires of a large part of the country are out of commission.

THINK GERMAN SPIES BACK OF ATTEMPT TO ASSASSINATE OKUMA

[Special Cable to Hawaii Shimp]
TOKIO, Japan, Jan. 13.—The Japanese government believes that the attempted assassination of Count Okuma was the work of a German spy. The man has not been arrested as yet, but the facts that have been gathered show that the work was accomplished by some one familiar with the German situation.

Count Okuma has continually urged an aggressive campaign against the Germans politically and commercially, and the opinion in this city is that the enemies of the premier have decided that Okuma must cease his attacks on Germany through legislative channels.

REBELLION IN ORIENT BEING PUT DOWN, SAYS NEWS FROM HONGKONG

[Associated Press by Federal Wireless]
LONDON, Eng., Jan. 13.—Many revolutionists were killed on January 6 and 7 in bloody engagements in the districts of Tamsui, Potonga, Yentzuwo and Peki, according to a despatch to Reuter's Telegram Agency from Hongkong. The revolutionists were routed.

The telegraph news above is obscure. Apparently it refers to Chinese rebellion but Tamsui is a city of Formosa, which is under Japanese military and civil rule. Potonga is in Kwangtung, according to local Chinese. It is hardly likely that Chinese federal troops have been in Formosa, nor is it likely that there has been a revolt in Japanese-governed Formosa.

Opening of bids on the city improvement project in Manoa district is set for Friday, January 21.

MOVE TO URGE ROOSEVELT TO ASK CONGRESS FOR CHANGE IN POLICY OF WATCHFUL WAITING

Regiment of Thousand Mining Men May Strike Into Chihuahua to Capture Bandits Who Wreaked Bloody Deed

[Associated Press Service by Federal Wireless]
WASHINGTON, D. C., Jan. 13.—Secretary of State Lansing has again issued a warning to Americans to leave the revolutionary districts of Mexico. He also says that if final proper steps are not taken to safeguard lives and property there, there is the possibility of an issue arising between the United States and Carranza. The utterance is regarded as significant of a determination to enforce protection for Americans.

EL PASO, Tex., Jan. 13.—Reports telegraphed to the state department from local authorities express the belief that Gen. "Pan ho" Villa is personally backing an organized campaign having as its object the extermination of Americans in Chihuahua. His motive is said to be revenge on the United States because it recognized his rival, Carranza, and a hope also that he will bring intervention by the United States and a breakdown of the Carranza government.

Preparations are being made to ship to their homes the bodies of the men massacred in Chihuahua.

It is reported by those who have come across the border that less than 500 Carranza men are on duty as guards in Chihuahua. Mine officials are very apprehensive for the safety of foreigners in Santa Barbara. There is much peril in the mining districts, as bandits are reported to be headed there. The employes of the American Smelting Company in Chihuahua and Durango have been ordered out, following the warning issued by the state department.

Expedition Across Mexican Border To Punish Villa Men Is Planned

EL PASO, Texas, Jan. 13.—Daily and almost hourly reports of fresh outrages upon American citizens and other foreigners in Mexico have stirred Texas to the point of intervention by a civilian punitive force, made up from the determined men of the mining-camps who can be assembled here.

A plan has been evolved by the leaders of the movement to form a regiment of a thousand mining-men, arm and equip them for a stay in the field, and enter Mexico with the avowed purpose of capturing the bandits responsible for the massacre of eighteen Americans at Chihuahua on Tuesday.

An unconfirmed report reached here today that ten Americans and two English women had been slain at Madera by a lawless band calling themselves Villistas. One of the two English women reported killed is the wife of Captain John Leftbridge, a retired English army officer living at Madera.

Members of the party conveying the remains of the mining-men killed Tuesday now fear that two others, who are unaccounted for, have also fallen victim to the reckless and murderous robbers who freely infest the region. The two missing men are Frank Woods and Ben Snell, who are known to have been near the scene of the massacre. They have not been heard from since it took place.

General Salazar, who has been identified with various Mexican factions, and who has been residing here, has fled from Texas to Juarez. The feeling against the Mexicans is growing so that he doubted his safety in El Paso.

Texas Citizens Want Roosevelt to Use Influence to Secure Action

EL PASO, Texas, Jan. 13.—Public sentiment against further delay in securing prompt retribution for the killing of Americans in Mexico has grown so high here that a petition is being circulated asking that Col. Roosevelt use his influence with Congress to "change the policy of the government which has heretofore refused to exercise its paternal duty to protect American life and property abroad."

Persons with property interests in Mexico are not being allowed to sign the petition. It is aimed to make it clear that the document is a protest against lack of action in punishing those who have taken American life across the border and ruthlessly destroyed property, but that it has no basis in financial interest.

A report which reached El Paso today is that Americans in Chihuahua are fighting against the band led by Gen. Jose Roderigues, who was reported in command of the Villistas who killed the mining-men on Tuesday. It is reported that numbers of the Roderigues men have been killed and that the Americans are calling for help, fearing that they will be massacred by superior numbers.

Another report is that Roderigues has been captured by a force which included 125 Americans and which was led by Maximiliano Marquez, an employe of the Hearst ranch interests at Babriocora. This force, together with a few Carranza soldiers, is said to be trying to keep order at Madera. Roderigues and his men, it is rumored, met the defenders at Madera in a pitched battle.

Another American Known to be Killed; Washington Is Informed

WASHINGTON, D. C., Jan. 13.—The killing of Carl Kramer, an American, has been officially reported in despatches sent to Washington by Collector of Customs Cobb of El Paso. Kramer was shot by Mexican bandits near Guerra.

The state department is further informed that at the massacre on Tuesday of 18 American mining-men two Villa colonels were in command.
