NINE

## GAME FISHING IN TERRITORY GETS IMPETUS

### Work of Visitors in Local Waters Will Prove Big Boost for Sport

Considerable impetus has been given Hawaii's newest sport, that of game fishing, by the work done in local waters by James W. Jump, who holds the world's record for the biggest catch of yellow-fin tuna in one day, and A. C. ("Soapy") Brodie, director of the Catalina, Cal., Tuna Club, who left for the mainland in the Great Northern Tuesday after investigating the game fishing field here.

Both Mr. Jump and Mr. Brodie did considerable fishing while here, and expressed themselves as being impressed with the possibilities for sport which the islands have to offer tourist anglers.

"There are some things that have got to be done, however, and which will make the path smooth for the visitor when he arrives," said Mr. Jump, prior to his departure. "More proper boats, stationed at various points in the islands, are badly needed. Reliable weighers at points where boats are available must also be appointed by the Hawaii Tuna Club.

"Then there must be better facilities for obtaining information relative to fishing than are now available. An elaborate folder is all very well in its way, but it must have something to back it up, beside the fish in the sea. The wealthy sportsman will, in all probability, get in touch with some of Hawaii's big men who are justly famed for their hospitality, and who are only too glad to afford visiting anglers with whom they may get acquainted every facility in their power to enable them to enjoy their favorite sport.

Personally, I have had a splendid time here and have enjoyed splendid sport. I like the place and I like the people, and I intend to return in the fall for another campaign which may take me to the outlying islands of the group.

Mr. Brodie said: "We can only fish part of the year at Catalina, while in Hawaii I understand that there is fishing all the year round, which will mean that before very long Honolulu will be a sort of annex of Catalina, as far as fishing is concerned, and from which I have seen and heard, I'm not at all certain that Catalina won't one day be regarded as an annex of Honolulu by big game fishermen."

## TULLY SURE HE WILL DISCOVER ACTRESS HERE

### Richard Tully, author of "The Bird of Paradise," "The Rose of the Rancho," and other popular plays, was a passenger on the Great Northern Tuesday afternoon, returning to San Francisco. He was accompanied by Mrs. Tully, who had completed her first visit to Hawaii.

Among the presents that were received by the playwright during his stay here was a feather lei presented by Queen Liliuokalani, which is highly prized by the author of the Hawaiian production. "You cannot appreciate how much I enjoy the gift, and will always keep it with me where it will bring the fondest associations of Hawaii," said Mr. Tully.

Mr. Tully was also presented with a ukulele by the Hawaii Promotion Committee and W. D. Adams. The Hawaiian coat of arms was stamped on the instrument, and will be used in all of the productions of "The Bird of Paradise."

"Hawaii will surely produce a real actress, and I will be only too glad to have her as a star in 'The Bird of Paradise.' I talked with a number of young ladies and found that with the proper coaching, some of them would develop into real stars. It will not be long before the leading role of 'The Bird of Paradise' is played by a Hawaiian girl," he concluded.

Report of the emergency physician for March shows 325 treatments administered to 154 patients. He answered 61 ambulance calls and made three autopsies.

## THEATRICAL OFFERINGS

### DRAMA OF BLUE RIDGE AT HAWAII

"In the Heart of the Blue Ridge," a dramatization of the novel by Waldron Bailey and featuring the inimitable Clara Kimball Young, is the feature offering for the week-end at the Hawaii Theater. In addition, Charlie Chaplin appears in "The Tramp," one of the best laugh-getting vehicles of this eccentric comedian. In "The Tramp" Chaplin is seen to good advantage for the reason that the role was created especially for his particular comedy and he simply walks through the part and appears to "act natural."

### WEIRD MYSTERY IN EMPIRE FILM

Maria Walcamp in "The Mysterious Contrav" is rated a most attractive figure on the screen. Miss Walcamp was selected by Henry McRae, the producer of this melodramatic offering, as its particular star. Two acts of the play, dealing with a series of startling adventures, will be a feature at the Empire theater tonight.

Professor Coxhelm, famous in the world of scientific research, claims to have discovered the principle which defies the laws of gravitation. He embodied his inventive genius to a purpose which makes flying an easy task. William Clifford, R. Deraselle and Lule Warrenton are among a star cast of artists. The theme to which the drama has been applied is perhaps one of the most unique as well as weird yet filmed. McRae will be remembered by Honoluluans as head of a company of moving picture players who spent several months in Hawaii when they gathered a large number of scenes that later were incorporated in screen successes.

## PERSHING'S MEN FIGHT IN RAGS AND SANDALS

### Carranza's Dilatoriness Causing Much Suffering; Hurry Call For Fresh Kits

(Associated Press by Federal Wireles) WASHINGTON, D. C., April 6.—Carranza is deliberately delaying granting permission for American military use of Mexican railroads in the hope that the expedition now searching for Gen. Villa will give up the chase and leave Mexico. This is the opinion now held in some official circles in Washington, and is rapidly becoming accepted generally.

The reports from the front, where Gen. Pershing's men are fighting against a barren country, unbelievably rough and broken, give some idea of what American troops have had to encounter since they left the border line. Already their clothes are giving out, and their shoes have been cut to shreds by the thorny mesquite and cactus through which they have been riding. Many of the men are wearing sandals with rope soles, such as the peons of Mexico wear, and their uniforms have been patched or replaced by fragments of clothing purchased from the natives. Gen. Pershing has issued a hurry call for fresh kits with which to clothe his men.

Despatches from El Paso last night reasserted that Villa has been wounded and is in hiding between Bachivina and Satava. The fact that the bandit chief has not been reported as having reached Parral is thought here to confirm the report of his wound.

## 'YANKEE GIRL' IS LIBERTY FEATURE

Another big musical comedy star, singing comedienne and well-beloved American actress, has joined the ranks of film stars, and will be seen at the Liberty theater for three days only, commencing this evening. Blanche Ring is the latest convert to the celluloid drama, and makes her initial appearance in "The Yankee Girl," her greatest stage success. George V. Hobart is author of the comedy drama and his offerings to current fiction and the stage are among the best in the past decade. It is a story in which "a glass of champagne to much settles a copper feud in the tropics."

"The Yankee Girl" has been taken from the painted scenery of the stage and placed in natural settings, a real yacht on a real ocean replacing the work of the artist of the paint pot and brush. Real Spanish surroundings have also been provided to help work out the delightfully interesting plot, and Blanche Ring, the actress, is every bit as gifted as her only rival, Blanche Ring, the musical comedy star. Figuring in an entirely new field and deprived of the usual resources whereby she has been accustomed to get her effects Miss Ring by sheer face acting makes the spectators love her as much as of old. Film critics of the mainland are loud in their praises of "The Yankee Girl," with its original star, as portrayed for the screen.

## TREDA BARA FINE IN STRONG DRAMA

The sensation of the film world—Treda Bara—comes to the Bijou theater again tonight in her latest international success, "The Clemenceau Case," and is said to be even better in this offering than she was in her last remarkable presentation of "A Fool There Was." Miss Bara, at the present time, enjoys a position of prominence as a film artist that is second to none. She has won recognition in the leading photo-play magazines of the country and a number of prominent daily, weekly and monthly publications, not exclusively devoted to the photo-drama, have given her a great deal of space.

"The Clemenceau Case" is equally as sensational as the picturization of Kipling's now famous novel. Treda Bara in that offering appeared as the "vampire woman." In "The Clemenceau Case" she is again seen in a "vampire" role. It is in these roles that Miss Bara has established herself and become the most sensational actress appearing on the screen at the present time.

## Gain of \$6,555 Is Revealed By Postal Figures

### First Quarter Receipts \$57,000 Against \$50,000 for Same Period in 1915

Honolulu's postoffice receipts grew \$6,555 in the first quarter of 1916, over the same period of 1915, according to figures made public yesterday by Assistant Postmaster William C. Peterson.

Gross receipts of the Honolulu postoffice for the first quarter of 1916, from January 1 to March 31, inclusive, were \$57,111.05. For the corresponding period in 1915, they were only \$50,556.05.

Actual receipts of the local postoffice for the year from March 31, 1915, to March 31, 1916, were \$161,373.73. For the same length of time, March 31, 1914, to March 31, 1915, they were only \$138,456.13. This is an increase of \$22,917.60 for the year, a healthy gain in every way.

## POISONER WAITE DENIES INSANITY PLEA, AND IS READY TO PAY PENALTY

(Associated Press by Federal Wireles) NEW YORK, N. Y., April 6.—Dr. Arthur Waite, dentist and tennis player of repute, who has confessed to the poisoning of his father-in-law and mother-in-law, issued a statement from his prison, refusing to accept the plea of insanity which his family and friends have been preparing for him, and declaring that he intends to pay the penalty for his crime.

## PREBLE PETTY OFFICER TO APPEAL TO DANIELS?

(Associated Press by Federal Wireles) SAN DIEGO, Cal., April 6.—Chief Boatswain's Mate Nick Burnmeister, who is reported to have been found directly responsible for the explosion on board the torpedo boat destroyer Preble, on March 4, since being missing from his post since Sunday, and it was reported among his friends yesterday that he has gone to Washington to appeal direct to Secretary Daniels. Unless he reports within ten days he will become automatically and technically a deserter from the navy.

Send you girls and boys to the Star-Bulletin's free Moving Picture Show at the Liberty Theater tomorrow. They'll enjoy themselves every second. Don't let them miss it. —THE AD MAN.

## 'CARMEN' AT LIBERTY SUNDAY

"Carmen," as presented in the films by Geraldine Farrar, comes to the Liberty theater next Sunday evening for a limited engagement. The set is every indication that a new record will be announced during the run of this sensational offering. The "Carmen" of the films differs slightly from the usual operatic offering inasmuch as there is added a number of spectacular scenes made possible only through the camera.

One of the most thrilling of the many thrillers offered in this photo-play is the scene in which Don Jose, following the death of Carmen, rides off into the mountains on horseback and commits suicide by leaping from a cliff. This scene was enacted at Ausable chasm in the Adirondacks with Arthur Jarvis of Brooklyn "doubling" for the daring jumping feat. The leap was made from a cliff 80 feet high and Jarvis suffered a broken leg in the fall. The horse, an old circus performer known as Torador, made the leap uninjured.

According to eye-witnesses of the daring leap the horse balked at the first leap and only after several attempts was the rider able to "go over." Horse and rider turned one whole somersault in the air. A few seconds after the splash the horse came to the surface and began to swim to shore; a few seconds later the rider appeared, pale and somewhat weak. He was dragged into a waiting boat, where his injuries were discovered. After treatment he was rushed to New York City to a hospital, where he shortly recovered.

This is but one example of the many unusual scenes that have made Geraldine Farrar's "Carmen" the talk of the photo-play world during the last year.

## HAWAII CANNOT OFFER JOBS TO MANY VISITORS

### Territory Only For Those Who Come Here With Money or Have Positions

"Hawaii—The Paradise of the Pacific—for those who have a job." I have been almost tempted to place this phrase in all the communications to the mainland in "big type," said Albert P. Taylor of the Hawaii Promotion Committee today.

The Hawaii Promotion Committee receives letters every day from men in search of all kinds of employment, from young ladies who have a knowledge of stenography and bookkeeping, and from all sections of the country the mails bring requests for positions.

"Hawaii is being advertised extensively throughout the mainland, and the many tourists have brought home tales of the lures of the Paradise of the Pacific. At the same time it has brought to the attention of the men and women out of work on the mainland stories of the wealth of Hawaii," said Mr. Taylor.

"In every letter that leaves this office to a tourist bureau I have said that Hawaii has nothing to offer the young man or woman out of a job. This fact has been impressed upon the men who are sending tourists to Hawaii.

"During a month's time I receive letters of every description from young men who have announced that they wish to come to Hawaii and are in search of a position. One man writes that he is a bookkeeper, another that he is a plumber. In fact, the letters received cover every department of labor.

"Honolulu has not enough work to offer the inquirer. When the letters are received I turn them over to business concerns here and then write to the young man, stating that it would not be wise for him to come here unless he is assured of a position or has enough money to pay all of his expenses for some time.

"Every boat brings in a few who have come here with the expectations of securing a position for the asking, and they are disappointed. When they do go back to the mainland they become 'knockers,' not boosters. There are many in the city at the present time out of work, and a number of them have not enough money to get back to the mainland. It is a sad condition, and those writing to the mainland are urged to impress the fact that there are few positions here," he concluded.

"Many Men Out of Work." "I have three calls each day for men looking for work," said Samuel Robley of the Y. M. C. A. today when asked about the employment situation here. "I believe that there are at the present time 100 men out of work in this city and the majority of them are from the mainland. A man should have a position before he comes here, and then the labor question will be solved.

## ORCHESTRA WILL BE FEATURE AT 'Y' OPEN HOUSE

### Fourteen pieces form the Y. M. C. A. orchestra, which gives its second concert Friday night at the "open house" at the association building. Such players as Edwin H. Ideler, instructor of violin at Punahou, and Capt. Henry Berger, former leader of the Hawaiian band, are among the personnel.

The concert, which takes place in the gymnasium at 7:30 o'clock, follows the "Ladies' Night" in the cafeteria and an hour and a half concert of Hawaiian music by a local quintet club. Selections from Rolfe, Victor Herbert, Henru Ghys and Howard are among the numbers on the program. In all there are three first violins, two second violins, viola, cello, flute, clarinet, cornet, trombone, drums and piano. The first violins are Edwin H. Ideler, Ralph Cuthbertson and Maurice Ray; second violins, Francis Bowers and H. D. Lee; viola, Harry Roberts; cello, George Tait; bass, Capt. Henry Berger; flute, Sven Larsen; clarinet, Albert Brown; cornet, G. J. Boisse; trombone, Fred W. Behling; drums, W. C. Parsons, and piano, A. E. Larimer.

As in all the Y. M. C. A. "open houses," there is no admission to the members and friends of the association, the only expense of the evening being the cafeteria dinner. The selections that will be played by the orchestra are as follows: Chinese Novelty March, "Ah Sin"..... Rolfe Selections from "The Red Mill"..... Victor Herbert "Amaryllis" Air Louis XIII..... Henri Ghys Medley Overture, "The Grand Slam" (Introducing late popular airs.) Aloha Oe Waltzes..... Howard

## IN WAR ARENA

### BRITISH TAKE TURK TRENCHES IN MESOPOTAMIA.

LONDON, England, April 6.—Despatches for the Turks in Mesopotamia and Armenia were recorded in the official despatches yesterday from the British commander of the relieving forces on the Tigris and from the Russian headquarters at Erzerum.

Gen. Lake, commanding the British below Kut-el-Amara, reports that a portion of his command moved against the Turkish positions at Uml-Henna and captured them, driving out the Turks and occupying the lines.

The Grand Duke is proceeding rapidly in his advance west from Erzerum. The main Turkish army, said to be reinforced and well prepared, is believed to be assembling for the defense of the Hanjin pass, which the Russians must force to gain their next objective, the important junction city of Sivas.

WASHINGTON GETS EVIDENCE OF SUSSEX TORPEDOING. LONDON, England, April 6.—Further proof that the cross-channel steamer Sussex was torpedoed by a German submarine, in spite of the presence of Americans and women and children on board, was sent to the authorities at Washington yesterday. Part of the evidence was a number of fragments of metal believed to have been part of the torpedo that wrecked the ship.

Another development in the submarine situation came when American Consul Frost at Queenstown reported to the state department at Washington that the British steamer Ben Gairn was sunk by shell-fire from a Teutonic submarine after having received warning of her coming destruction. Her crew, among whom there were two Americans, escaped without injury.

TEUTON DRIVE ON RIGA FAILS, SAYS PETROGRAD. LONDON, England, April 6.—Despatches from Petrograd claim that after a futile effort to break the Slav lines at any point south of Riga the Germans under von Hindenburg have tried to push back the Russian flank, southeast of the town. So far this also has been without tangible result, although the reports say that the fighting is still going fiercely on.

## WOMAN CASHIER FACES EMBEZZLEMENT CHARGE

BERKELEY, Cal., April 6.—Mrs. Ella McGreer, who for the past 14 years had held the responsible position of teller and assistant cashier for the People's Water Company, was arrested last night on a warrant charging her with the embezzlement of \$84 of the company's funds. It is alleged that this is only one of a number of items upon which Mrs. McGreer may be charged; the auditor of her accounts stating that a total shortage of \$380 has been discovered in her accounts.

## Y. M. C. A. NIGHT SCHOOL HAS LARGE ENROLLMENT

Secretary Rolla K. Thomas has announced that the enrollment for the Y. M. C. A. night school up to and including today exceeds the record made last year. From May 1, 1915, to April 5, 1916, 527 students have been enrolled in different classes. For the new term the number of students entering is 112.

## AMERICA MUST BE PREPARED OR EAT HUMBLE PIE

### Senator Williams Declares Protests Must Be Backed Up With Armed Force

(Associated Press by Federal Wireles) WASHINGTON, D. C., April 6.—No matter who wins in the European war the United States will have trouble after that conflict is over, unless it is completely prepared to resist bullying or is willing to eat humble pie and accept what the stronger nations dole out to it.

Such was the gist of the statement made to the senate yesterday afternoon by John Sharp Williams, senator from Mississippi.

## MEAT PACKERS DENY UNREASONABLE PROFITS

WASHINGTON, D. C., April 6.—The house judiciary sub-committee yesterday resumed its hearing of the charges brought against the meat packing industries of the United States by Former Governor Stubbs of Kansas, and other representatives of the producers. Testimony was taken to show that conditions are intolerable.

The packers also had witnesses on hand and their evidence went to show that, despite the high prices now prevailing, the meat packers are not making an unreasonable profit. Mr. Meeker, one of the officials of Armour & Co., told the sub-committee that the packers are really losing on hindleg beef, but manage to get it back and a fair profit by the sale of by-products.

## TURKS APPEAL TO U. S. RED CROSS FOR RELIEF

NEW YORK, N. Y., April 6.—Telegrams from the Turkish government to the American Red Cross officials have been received, rescinding its dictum refusing admission to foreign relief corps and appealing for any assistance that can be sent.
