

THE figures which show Goodyear Tires to be equipment on 21 per cent of the cars counted in 71 cities can have but one meaning, and that is decidedly clear:—

Goodyear is the favored tire with the great majority of tire buyers.

The basis of this emphatic preference cannot be price; for many brands sell for less than Goodyear.

It is Goodyear quality and Goodyear features of construction—which make Goodyear Tires go farther, last longer, and so cost you less in the end.

An appeal to assist the New England branch of the American Fund for French Wounded is made to residents of Honolulu by David Rice of Boston, who expresses the hope that a committee will be formed in Honolulu to take charge of the local subscriptions.
