The defendants were discharged in the lower court.

## THEFT OF GOLD AT NAALEHU P. O. STILL UNSOLVED

Although no definite clue has been obtained, indications are that the robbery of \$1000 in gold from the Naalehu, Hawaii, postoffice, was committed by some one who had a thorough knowledge of the store in which the robbery was committed.

Postoffice Inspector Thomas J. Flavin, who returned on the Mauna Kea today from Hilo after working on the case for more than a week, said no well-defined clue had been obtained. The money stolen was all in \$10 gold pieces. It was being sent to Hutchinson Plantation for which the Naalehu postmaster, Basil Apiki, is time-keeper.

The key to the metal express box in which the bag of gold was placed after it had arrived from Honolulu, was left lying on the postoffice table through carelessness. After the robbery it disappeared and has not been seen since. The postoffice is located in the store of Charles H. Aki & Company, Ltd., a Chinese firm.

## H. MIYAKE TO VISIT IN JAPAN

When the Nippon Maru sails for the Orient this afternoon, among its passengers will be H. Miyake, who is returning to Japan for a three months' visit. Mr. Miyake has been closely identified with practically every progressive Japanese movement that has been initiated in Honolulu during the past 24 years, and has always stood for ideals that have marked him out as a broad-gauged man of affairs.

Mr. Miyake is the owner of one of the finest collections of Japanese prints in existence. A close student of Oriental art all his life, he is possibly one of the very best judges of ancient Nipponese prints, and has often been called upon to settle disputes that have arisen regarding the authenticity of different specimens.

## NEW MEMORIAL BOASTS LATEST LIGHT SYSTEM

Electric in Auditorium Alone Equivalent to Power of 6750 Candles

A strong feature of the new Mission Memorial building on King street is the lighting fixtures and arrangements as installed by the Hawaiian Electric Company, which sent as far East as Chicago in order to secure the paraphernalia with which to carry out its striking designs.

Good light and plenty of it is one of the big building's most urgent necessities, as the new home of the Hawaiian board is to be the scene of many night meetings, and the big auditorium, the home of the Young People's League, doubtless will be called into use several evenings each week.

The genius of the electrician probably is most forcefully brought out in the auditorium, where the very latest electrical fixtures, manufactured by the National X-Ray Reflector Company, are installed. This is a system of indirect lighting, there being nine separate fixtures in the main part of the auditorium.

Over the stage at the Hotel street end of the auditorium are two fixtures of the same type. These fixtures are sufficient to afford a brilliant light throughout the entire building, and it is estimated that, when burning, the incandescents represent the light that would be given by 6750 candles. The porcelain containers, suspended from the ceiling, are tinted yellow, which matches the interior decorations and the stained windows.

Around the balcony in the King street section of the building are seven large fixtures, each containing three lights. This forms a system of semi-indirect lighting. In the Sunday school and board rooms the same system is carried out, the other offices and rooms being equipped with ordinary chain pendant lights.

## BARTLETT'S WIFE ASKING DIVORCE; HE'S UNLOCATED

(Continued from page one)

has been of sufficient ability to provide suitable maintenance, but that for a continuous period of more than 60 days next preceding the date of the petition, to wit, the month of August, 1915, the libelee has neglected to provide suitable maintenance or any maintenance whatever, and still continues and neglects so to do.

That the libelee departed from the territory of Hawaii in the month of May, 1915, is further declared, and has ever since and is now absent from the territory of Hawaii, and during this period the libellant and libelee have lived separate and apart.

The libellant does not know the present whereabouts of the libelee, and for a long time past has not known his whereabouts, according to her statement to the court. The petition ends with a prayer for final divorce.

High Sheriff Jarrett received the divorce papers after they had been filed in the circuit court. It was stated at the sheriff's office today that the papers will be returned to the court on Monday as not served, on the ground that the libelee can not be found.

According to the law the libellant must, if no word from the libelee has been received in the meantime, make affidavit that she has inquired and has not ascertained his whereabouts. Following this the petition is sent to the court for publication once a week for six weeks. Thirty days after the final publication a hearing on the divorce is held.

Bartlett is under indictment on six counts of forgery and embezzlement and the authorities have no knowledge of his whereabouts. On the rumor that he was near Tia Juana, Mexico, Deputy Sheriff Asch made a trip to the coast last fall, but did not get his man nor see him, being unable, as he told afterward, to go after Bartlett in Mexico on account of the attitude of the authorities there.

It was said at that time that Bartlett was accompanied by the notorious "Jack" McGrath, also a fugitive from local justice. McGrath broke jail nearly a year ago and got away from the islands.

Mrs. Bartlett visited Honolulu a few weeks ago and was here for a few days only, returning to the coast. While here she kept mostly to her hotel. It was understood she was making arrangements for the filing of the divorce papers.
