### CHAMBERLAIN BILL GAINING STEADY FAVOR

180,000 Men Peace Strength, 250,000 in War, is Plan Which is Virtually Agreed to

HOUSE AND SENATE DEADLOCK IS BREAKING  
Scheme for Expansion as Provided in Upper House Measure Will Give Country Much Larger Force Than Hay Bill

WASHINGTON, D. C., May 1.—After days and nights of deadlocked discussion, the house and senate conferees on the army reorganization bill have virtually agreed upon a plan which will give the country an army of 180,000 in peace times.

With the plans for expansion provided in the Chamberlain bill as passed by the senate, the scheme which is now being agreed upon will produce 250,000 men when the organizations are filled to war strength.

It is apparent that the "bigger army" plan as provided in the Chamberlain bill is winning its way as against the Hay bill, which was passed by the house and would give an army peace strength of about 140,000.

The Chamberlain bill originally provided a peace strength within five years of 178,000 men of all arms, or approximately 165,000 fighting troops. The full war strength originally was to be 225,000. The army would consist of 65 infantry, 25 cavalry and 21 field artillery regiments, in addition to the staff and other special corps and the coast artillery.

Advices Saturday night said that the conferees might eliminate the volunteer army feature and preserve the national guard feature of the reorganization bill. Nothing further was done about this by the conferees today.

### KLAW SUGGESTS MAKING VOLCANO DRIVERS GUIDES

After seeing everything worth seeing in Europe, Marc Klaw, the New York theatrical man, returned yesterday from Kilauea Volcano and today made the following pertinent suggestions for the Promotion Committee and Hawaii Publicity Commission to act upon:

Train all chauffeurs taking tourists to the crater, so that they will be efficient guides. Make sure that drivers are equipped with adequate information as to the places passed on the trip.

Publish an accurate and comprehensive guide book or Baedeker, so that tourists can, if necessary, find their own way around and know what they are looking at. Such guide books are furnished travelers making trips on steamers up the Rhine, and even in Northern Africa guide books enable tourists going from Algeria to Tunis to know what they are seeing without asking a single question of their guide.

"I saw the Volcano in a storm and during a fog," said Mr. Klaw. "It was the most wonderful sight I have ever seen, or that anyone has ever seen. I missed seeing the best parts of the crater because I had a Japanese chauffeur who couldn't talk English and didn't know the trails. Down in Hilo my driver was white, but there was such a vacancy in his head that if he had opened his mouth he would have set up a draft that would have killed him."

### LORD-YOUNG LOWEST BIDDER ON REMOVAL OF WHARF; TWO BIDS

There were only two bidders when bids for the removal and re-erection of the quarantine wharf were opened at 12:30 this afternoon by Dr. F. E. Trotter, chief quarantine officer for the territory of Hawaii.

The Lord-Young Engineering Company was the lowest bidder, at \$29,647. The bid of John A. Hughes was \$33,775. The bids will be sent to Washington by Dr. Trotter, with recommendations for award.

The contract calls for removal of the quarantine wharf to a point on Sand Island about 300 feet south of the present location, and the re-erection of the wharf and the quarantine building it supports. The space where the wharf now stands will be dredged to the depth of the rest of the harbor.

### 'SPY' LINCOLN MUST RETURN TO ENGLISH COURT

Man Who Announced Himself in Germany's Service Loses Legal Fight

### SUPREME COURT HOLDS FORGERY CHARGES O. K.

Austrian Who Became Member of British Parliament Has Strange Career

WASHINGTON, D. C., May 1.—Ending one of the most extraordinary cases that has grown out of the war with Europe, involving belligerent subjects and the United States, the supreme court today held that Ignatius T. T. Lincoln, self-confessed German spy, must return to England for trial upon the charge of forgery.

Lincoln fled from London to New York shortly after the outbreak of the war. He is a Jew, born under the name of Trebitsch, and an Austrian. He went to England many years ago, became a naturalized Briton and was elected to Parliament. After fleeing to New York he announced that he was a German spy for Germany while in England and the hero of many intrigues.

Following this he was arrested in New York on two charges of forgery, being apprehended at the request of the British government, which stated that he had forged bills of exchange. He declared that he was the victim of a political conspiracy and that the forgery charges were only to get him back into the power of the British.

While in detention, he was allowed considerable liberty and escaped on January 15, but was re-arrested by department of justice agents on February 15, and the supreme court shortly after took under consideration his appeal from the decision which held that he must return to England for trial on the forgery charge.

### No Immediate Recall of U. S. Men in Mexico

Conference Between President and Lansing Followed By Instructions to Generals on the Border

WASHINGTON, D. C., May 1.—The United States does not intend to comply with any Mexican demand which includes immediate withdrawal of the punitive expedition against Gen. Vidia. This much was made certain today when additional instructions were sent by Secretary of War Baker to Chief of Staff Gen. Scott and Gen. Frederick Funston, on the border, that the conference discussion with the Carranza representatives must not be based on any immediate recall of Pershing's troops.

The action was taken after a conference between the president and Secretary of State Lansing. After the conference it was given out that the situation is "satisfactory."

EL PASO, Tex., May 1.—Gen. Funston announced today that only one more conference with Gen. Alvaro Obregon will be held, and that will perhaps be tomorrow.

NEW YORK, N. Y., May 1.—Fans in this city witnessed a great afternoon which resulted in a victory for the Trolley Dodgers, sending them to first place in the National League race, and the Giants dug a deeper hole in the damp, dark cellar. McGraw's pitching staff is wrecked at present, and without any star moundmen the Giants are doomed to remain at the bottom.

Washington jumped to first place in the American League by virtue of their win over the Red Sox. The Cleveland team, which was expected to fight it out with the Athletics for last place, is now tied with the Tigers and Red Sox. Philadelphia moved up closer to the Browns by defeating the Yankees today. The scores of the games today are as follows:

### JAPANESE DROWN BY HUNDREDS IN BAD DAM-BREAK

Collapse of Yawata Reservoir Submerges Large Part of City

### PRINCIPAL BUILDINGS, MANY OTHERS, WRECKED

First Experience of Nippon in Disaster of This Kind

(Special Cable to Nippon Jiji)  
TOKIO, Japan, May 1.—Hundreds were drowned and thousands were made homeless yesterday at Yawata, when the great dam at the Yawata Iron Works collapsed and completely submerged a section of the manufacturing city.

The total loss of life is not known as yet, but 17 bodies have been recovered. This is the first flood in the history of Japan caused by the breaking of a dam. The reservoir was one of the largest in all Japan, and architects announced that it was built to stand the test of centuries.

The people of the little city were not prepared for the flood, as the reservoir is on a hill near the city. A cry of "Flood" and "Run for your lives" was the first news of the impending disaster, and one Japanese made an effort to warn the populace, but even as his words were shouted the mass of water reached the city and none escaped.

Houses were wrecked and hundreds of the people were injured by falling walls and flying timbers. Five of the principal buildings of the city were totally wrecked, while 550 buildings were completely submerged. As the flood gained its height residents could be seen grasping timbers, while others not so fortunate were dashed against the walls and drowned.

Troops stationed at Kokoma hurried to the scene, while police and fire-fighters aided in rescuing the women and children. Bodies are being recovered and the work of caring for the injured has been handled by volunteer physicians and nurses.

The Yawata Iron Works is the largest in Japan and employs thousands of men. The buildings cover many acres, which have been completely submerged. It is expected that the Yawata Iron Works will renew operations as soon as the necessary repairs can be made.

### REBEL LEADERS HOIST WHITE FLAG IN DUBLIN; ELSEWHERE RAGGED FIGHT IS MAINTAINED

450 MEN WHO FOUGHT FOR WEEK IN CENTRAL STRONGHOLD GIVE IN—VIOLENT ACTION ON WEST FRONT—HEAVY BRITISH LOSS IN MESOPOTAMIA, GERMANS CLAIM—FIRE DAMAGES BIG FRENCH GUNWORKS

BERLIN, Germany, May 1.—Germany's reply to the final demand of the United States in the submarine crisis may come tomorrow. At least another day's deliberations at military headquarters is expected before the answer is decided. This is deduced from the fact that Ambassador Gerard telegraphed from military headquarters today that he is uncertain when he will return to Berlin.

LONDON, Eng., May 1.—It is officially announced today that all rebel leaders in Dublin have surrendered after a week of revolt and the loss of numerous lives. The British forces were steadily crushing the rebels, who took an opportunity to give up.

DUBLIN, Ireland, May 1.—Following the example of their leaders in surrendering, 450 of the Sinn Fein followers who have fought for a week in a stronghold in the central part of the city, today marched from their barricaded houses and shops, carrying a white flag and ready to throw down their arms.

In some sections of the city there is still some "sniping" at the British soldiers who patrol the streets, but the general fighting is over. The leaders of the revolt, Pearce and James Connolly, have been taken prisoners. Both are wounded.

The greatest disturbances which now remain, outside Dublin, are in the county of Meath. Here and in a few other places the rebels are continuing their activities. In Sackville and adjacent streets a few girders are left standing as the remnants of the houses torn, burned or shot to pieces; the post-office is only a smoldering framework and every window in the law courts has been shattered. Books and furniture were taken from several buildings and used as barricades.

### GERMAN OFFICIAL CABLEGRAMS

GERMAN HEADQUARTERS, April 30.—The English today several times repeated their attack against Givency and Gohelle, but without success. North of Somme and northwest of Oiz, patrol engagements were successful for the Germans.

Left of Meuse: Strong French forces yesterday evening attacked German positions on the heights of Northonne and adjoining lines north of Caurettes forest. After tenacious fighting on the east slope of the height, the attack was repulsed. On the Right river, the enemy's advance northwest of Thiamont failed. A German flyer above Verdun sector in an engagement against three adversaries shot down one of them.

In the Eastern war theater—South of Narocz lake, in the night time, four more Russian cannons, one machine gun and 83 prisoners were taken.

GERMAN HEADQUARTERS, May 1.—The western theater situation is generally unchanged. Near height Morthomme yesterday there was violent fighting. German air squadrons bombarded extensively the enemy's lodging place for troops and magazines west of Verdun. A French biplane east of Royons was shot down in an air fight. The inmates were dead. The eastern and Balkan theaters report nothing important.
