

MILLIONS FROM SUGAR INDUSTRY WILL BE SHARED WITH LABORERS

(Continued from Page 1.)

be paid monthly, and the balance at the end of the bonus year.

For example: Assuming a cultivation contractor works 30 days a month; he will receive monthly 20 per cent of \$24 or \$4.80 as an advance on his bonus and the balance of the bonus, whatever it may be, at the termination of the annual bonus period.

This bonus does not affect in any manner his regular contract earnings. It is suggested that these changes go into effect as of April 1, 1916, and the first settlement thereunder made on the May pay day for the months of April and May.

It is also recommended that the wages of the newly arrived Filipinos be advanced from \$18 to \$20 per month.

The announcement is worded as plainly and succinctly as it can be worded. In brief, the two main features are:

1. A 50 per cent increase in the present bonus rate. This is a straight raise in compensation for all laborers entitled to participate in the bonus system.

The bonus percentage rate heretofore existing will be operative for five months of this bonus year; the new rate will be operative for the other seven months. The bonus year begins each November 1, and runs to the following October 31, inasmuch as the new plan is to go into effect on April 1, 1916, the bonus for November 1, 1915, to April 1, 1916, or five months, will be under the old rate, and the bonus for the remainder of the bonus year, or until November 1, 1916, will be under the new rate.

The second main feature is the division of the bonus so that a portion of it will be paid monthly. An advance payment on account of the bonus of 20 per cent of the month's earnings will be paid monthly in addition to such earnings. The balance of the bonus will be paid at the end of the bonus period.

No straight increase in the rate of wages is made. The Filipinos, recently arrived, who have been getting \$18 advanced to \$20, so as to put them on the same basis as the older hands, and the planters will continue the agreement to return them to the Philippines at the end of their contracts, providing they perform the conditions thereof.

A reported explanation of the new compensation plan published by the Advertiser this morning was said by those who worked out the scheme in detail to be a hopeless distortion of the facts.

Outside of the official announcement of President Bottomley the whole explanation given by the Advertiser was entirely wrong and misleading and should not under any circumstances be taken as a correct statement of what we have decided upon," said Chairman Tenny of the labor committee of the Hawaiian Sugar Planters' Association today.

It was stated that the announcement by Mr. Bottomley contains every essential fact so worded as to prevent misunderstanding on the part of anyone who would study it.

Commenting on the new plan President Bottomley this morning said to the Star-Bulletin:

"We hope and believe that we have devised a plan of profit-sharing which will prove satisfactory to all—to both sides—to the laborer and to the planter. The association is perfectly willing to share the increased profits, which are now being enjoyed, with the labor that helps to produce such profits. That is to say, we want to share with that class of labor which we

RUBBER TOO COSTLY TO BE THROWN AWAY, KOREAN DISCOVERS

Chung Gee, a Korean, was sentenced this morning in police court to serve six months for stealing rubber from the Auto Supply Company and selling it to a Japanese junk dealer. Gee admitted taking the junk but said he thought it had been thrown away.

The case of Ah Chew, for non-support of his wife; Antonio Lewis, for assault; and William Madelon, for driving a motor car without a license, will be tried in a month. The case of Pedro Pineda, a Filipino alleged to have stolen over \$200 from a plantation laborer, was postponed until next Tuesday. His bond was set at \$1000.

LOCAL STOCK MARKET PRICES HOLD STRONG

Beyond the report of a sale of 50 shares of Pacific Sugar Mill stock at an advance of 2 1/2 points over the last reported sale, there was no salient feature in the local stock market. The same tone of strength was to be found.

Sales between boards were upwards of 3300 shares and for the day amounted to 3544.

Has Faith in Remedy

Mrs. M. S. Carlson of Wakefield, Neb., testifies to the relief she experienced from the use of Fruita and Traxo:

"I used Fruita and Traxo with very good results, having passed almost a cupful of gall-stones with the first bottle. My skin is clear now and I have a good appetite. I have lots of faith in Fruita and Traxo."

Fruita is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clear the bowels of their impurities. Traxo is a powerful tonic-stimulant that acts on the liver and kidneys, stimulates the flow of bile to aid digestion and removes bile from the general circulation.

For the convenience of the public, arrangements have been made to supply Fruita and Traxo through representative druggists. In Honolulu they can be obtained at Benson, Smith & Co., Ltd.

Stuart Still Absent; Case Is Continued

Territorial officials interested in the Wilder injunction suit now being staged in the local circuit court, are beginning to feel that they have had something "slipped over" on them.

It was which Judge Stuart inspired when he announced a brief span of five days in which to file an answer to his decision on their demurrers, now seems, they say, rather undue through the fact that the judge left forthwith for a vacation trip on the island of Hawaii.

In the Stuart court this morning with Judge Astford sitting on the bench, the same little "Waltz me around again, Willie" stunt was repeated as on Tuesday, the judge declaring the case continued until Saturday morning at 10 o'clock.

Maybe Judge Stuart will be back Saturday, and maybe he won't. Those souls who haunt the judiciary corridors seem willing to bet for the most part on the latter possibility. The judge has worked hard and needs a long rest, they say.

Forbes was in the court room this morning, and with Judge Astford, the clerk, court reporter and Robert W. Breckons, Wilder's attorney, made up most of the crowd. Attorney Arthur G. Smith of the territorial office arrived a moment after the session had broken up, and Wilder himself is headed for the mainland.

'BOY DAY' WILL BE CELEBRATED BY JAPANESE

Japanese in the city are taking a deep interest in Boy Day, which occurs tomorrow. The ceremony of Boy Day is always held on the fifth day of the fifth month and in each house where a boy is born during that year a banner is floated in honor of the occasion.

Japanese, as a rule, have not held strictly to this custom, as many of the families who have boys fly the banners in honor of the babies in other homes. This custom is common in Japan, but is very seldom followed on the mainland.

The Japanese have likened the boy to the carp, a strong, sturdy up-stream swimming fish, and the meaning gives an insight into the life in the home among the Japanese. It has always been a rule to build up the boy, and the strong man will come later.

The Hawaii Promotion Committee has called the attention of the tourists to this celebration as being unique, and in all of the literature sent out prominent mention is given to Japanese Boy Day.

STUDENTS FROM KAUAL HEAR OF Y. M. C. A. WORK

Students attending schools in Honolulu from Kauai gathered at Cooke hall last evening for a supper and entertainment given by the Y. M. C. A. The meeting was called to acquaint the students with the idea of the policy of the Y. M. C. A. on Kauai.

Charles E. Loomis, who will become Y. M. C. A. secretary at Kauai, presided at the meeting and explained to the students the purposes and objects of the work of the association which will be established on the Garden Island.

A. E. Larimer, in a talk to the students, outlined many of the policies which have made for better workers and explained how the students could act in helping the association work. Opportunity brings obligations, said Mr. Larimer, and he asked the students to work to become leaders in the Y. M. C. A. on Kauai.

Glenn Jackson gave the boys an idea of how to promote the athletic work on Kauai, and how to interest the young men in taking part in all branches of athletics. Lloyd R. Killam spoke on the Y. M. C. A. world organization.

Special musical features were introduced at the meeting. The following program was given: Mandolin solo, Y. D. Doty; "At the Ball Game," W. H. Hutton; "Volley Ball in the Gym," Glenn E. Jackson. Two reels of movies were also displayed.

NAVAL MILITIA RIFLES COME FROM WASHINGTON

One hundred and twenty army rifles similar to those now in use by the National Guard, have been received by the Naval Militia from Washington, D. C. Accompanying them are bayonets, rifle and other equipment will be issued next Sunday morning. A 23-foot launch and two 30-foot cutters are on their way to Hawaii for the militia.

The steamer has 5246 tons for Honolulu, 756 for Hilo, 848 for Port Allen and 129 for Kaaupali.

MANY APPLYING FOR PROBATION OFFICER'S JOB

Ten applications up to 10 o'clock this morning and prospects for several more before noon is the rate at which men are seeking the office of probation officer in the juvenile court.

Judge Whitney said today that he had picked no one for the position as yet.

John C. Anderson, former probation officer, whose name was connected last week with an irregularity in the accounts of a certain estate which he was handling, tendered his resignation to Judge Whitney at the latter's request Monday, turning in his keys at that time.

"Anderson paid in the amount of the irregularity to the court clerk," Judge Whitney said today, "but I did not feel that a matter of this kind allowed my keeping him in the court as an officer."

Inquiry for Anderson at his home today elicited the information that he is out in the country at the Waiuku rice mill. He was expected back some time this afternoon.

The disclosure of an irregularity in the business of an estate of which Anderson was administrator, the news of which was first published in the Star-Bulletin, led Anderson to pay \$1300 to Henry Smith, clerk of the circuit court, late last week. It was understood that Anderson had been given until last Saturday to clear up the irregularity.

QUERY ANSWERS

Where did Mark Twain live when a resident of Honolulu?—Tourist. Most of the time at Walkiki.

Is Henry Ford a widower?—Buxom, Nuuuanu, No.

Where is Ninth avenue?—Newcomer. In Kalamuki, between Eighth and Tenth.

Orlando, Waltuku.—The relative you mention can visit you as long as she likes. Treat her with the utmost consideration. Of course, call her "Mother."

I am in serious trouble. I am keeping company with a most estimable young lady in Manoa; think a great deal of her and know that she thinks the same of me.

But her mother is especially hostile to me; will hardly speak and treats me with the greatest discourtesy.

I have tried in every way to overcome her dislike, have taken her with us on Auto rides, to the opera, and to the sewing pictures, but I still feel that chilliness. What can I do?—Reginald.

Have you tried candy? Call this evening with two large boxes, one for the mother and one for the daughter, and we venture that you will have clear sailing.

Manager Morgan of the Honolulu Drug Company has advised us that they have just received a splendid assortment of the justly famed ORANGE BLOSSOM CANDY, consisting of chocolates, bonbons and taffies. —Adv.

DR. SUN YAT SEN RETURNS TO CHINA

Japanese Despatch Declares Exiled Leader Joins Others Against President Yuan

(Special Cable to Nippu Jiji.) TOKIO, May 4.—Dr. Sun Yat Sen, former president of the Chinese Republic, returned to China yesterday after three years spent in exile in Japan. Upon reaching Shanghai he was received by delegates from all the southern provinces, and immediately went into conference.

During the second revolution Dr. Sun Yat Sen and Gen. Hwang Hsing were at the head of the revolutionists. Gen. Hwang was stationed at Nanking with revolutionary troops. In a hot battle the revolutionists were defeated by Yuan Shih-Kai's troops and the two leaders were forced to leave China.

After many narrow escapes the revolutionists managed to reach Fukien, where they took a small steamer for Formosa. Later they went to Japan, where Dr. Sun Yat Sen remained. Gen. Hwang going to the United States, where he remained for three years. During this time he was instrumental in raising a large fund for the revolutionists.

Dr. Sun remained in Tokio, living at Reinan-zaka in this city. He seldom left his home, and during his three years' residence in this city was seldom seen by foreigners. Yuan Shih-Kai is said to have sent a number of assassins to the house on Reinan-zaka to visit the former president, but the house was carefully guarded and although Dr. Sun had many narrow escapes, he was not injured.

Dr. Sun secretly slipped out of Tokio on a Chinese boat, and until he arrived at Shanghai, the Tokio police and the citizens of this city were unaware that he had left Japan. Not a trace of his departure could be found.

Upon his arrival in Shanghai Dr. Sun conferred with Chang Chi, one of the leaders of the revolution, and the former president in a statement said that he would make every effort to persuade Gen. Hwang and other leaders to join together in a fight against Yuan Shih-Kai. Diplomats state that Dr. Sun's appearance upon the scene means the speedy downfall of the Yuan government.

(Special Cable to Liberty News.) SHANGHAI, May 4.—This city is the center of interest in all China today. "Dr. Sun Yat Sen has arrived in Shanghai" is the cry that is heard in every walk of life. The former president has come to his people after three years' exile in Japan.

Dr. Sun Yat Sen did not look any worse for his three years spent away from his people. He wore the same determined look that was noticeable when the second revolution was started. "China will come into its own," was the expression he used when asked about the political situation.

Immediately upon his arrival Dr. Sun was closeted with a number of the leaders of the revolution, among them being Chang Chi, one of the leading men of China. At the meeting the leaders discussed in detail the plans to be formed for carrying out the fight against Yuan Shih-Kai. "Unity of aim and purpose" was the slogan of the representatives.

Dr. Sun in an address before the members stated that he would be pleased to welcome Gen. Hwang Hsing to Shanghai, and that any differences that might have arisen during the Nanking campaign will be erased, and that the republicans of China will be united in the campaign against the despotic reign of Yuan Shih-Kai.

Shortly after the meeting was held 15 governors of Chinese provinces telegraphed to Yuan asking him to resign at once. The coming of Dr. Sun has given the revolutionists confidence, and with the return of Hwang Hsing, who is expected here soon, it is certain that an active campaign will begin at once.

"Dr. Sun Yat Sen and Gen. Hwang Hsing will do much for China," said Col. Gen. D. J. Wudan today, when asked what effect the return of Dr. Sun Yat Sen would have on the progress of the revolution. "It will be a great moral victory. Provinces which have wavered will now cast their lot with the true republicans, and the people will make such a campaign."

EXCEPTION TO RULING BY STUART SUSTAINED

For the second time within the last few days an exception taken to ruling in Judge Stuart's court has been sustained by the supreme court, the case today being that of Joseph P. Mendonca against the Japanese bank and K. Samura. The case decided today was argued April 25.

It has been decided that a defendant cannot, in an action of assumpsit against several defendants, "plead on the ground that the declaration shows no cause for action against another defendant." A demurrer of this sort was sustained by the lower court. When the plaintiff refused to amend the court thereafter made and entered its order and judgment sustaining the demurrer and dismissing the complaint.
