### Permanent Relief For Chronic Constipation

Knowledge and Practice of Correct Daily Habit the Great Essential.

Constipation is a condition affecting all classes of all people and can be permanently relieved only by acquiring habits of regularity.

The most natural time for the eliminative process is in the morning, when both the muscular and nervous systems are relaxed by sleep and rest. When relief does not come readily, it is an excellent plan to take a mild laxative at bedtime. Cathartics and purgatives that by the violence of their quick action shock and disturb the system, should not be employed.

An effective laxative remedy that is very dependable, and which does not gripe or otherwise disturb the organs involved, is found in a combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin that can be bought at the drug store for fifty cents a bottle.

Mrs. C. C. Allen, 215 Foam St., New Monterey, Calif., wrote to Dr. Caldwell that she "found Dr. Caldwell's Syrup Pepsin just what was needed for constipation and distress of the stomach after eating. It should be in

every household."

### TO LEAVE PALAMA WORK AND SAIL AWAY IN JULY

Miss Evelyn Cunningham, in charge of girls' work at the Palama Settlement, will leave Honolulu in July, probably never to return. No successor has been selected.

For five years Miss Cunningham has been interested at the Palama Settlement. She started as a teacher in the primary, then took charge of playgrounds and for the last year has been in complete charge of girls' work. She has become a great friend of the Palama girls and her departure will be regretted by every one there. Miss Cunningham has been especially successful in theatrical work at the settlement and has personally directed many successful plays and arranged the stage settings and costumes.

"Miss Cunningham has asked for a year's furlough," said Mrs. James A. Rath yesterday, "but we are afraid it means she is going for good. We shall have a difficult time to fill her place and have made no definite selection."
