

MAUI PEOPLE WILL HELP SWELL KAMEHAMEHA DAY CROWDS HERE

Secretary Brown Given Assurance of Large Attendance; Polo Team May Come

[Special Star-Bulletin Correspondence.]
WAILUKU, Maui, May 25.—Urging that Maui join in helping to revive the importance of Kamehameha Day in the Islands, and that to this end the people of this county for the present year unite with Honolulu in making the day a big occasion, Raymond C. Brown, secretary of the Honolulu Chamber of Commerce, addressed a well attended meeting of the Maui Chamber of Commerce Tuesday afternoon.

Secretary Brown's remarks were listened to with interest and he was assured that Maui will be well represented at the celebration.

F. F. Baldwin stated that it is possible that the Maui polo team may play in Honolulu on Saturday or Monday during the Kamehameha Day celebration.

CHANGE PUNAHOU PAGEANT PLANS; ADVANCED A DAY

General Outline of Events for 75th Anniversary is Decided Upon

An important change has been made in the program for the notable 75th anniversary exercises which Punahou will hold in June. The pageant, one of the central features of the program, has been moved from Thursday to Wednesday, June 21, at 3:30 p. m.

The general outline of the program is now as follows:
Tuesday, June 20.—Formal exercises in evening under auspices of the Oahu College corporation, place and detailed program to be announced later. The principal feature of this day will be the address by Prof. William Lyon Phelps of Yale, anniversary speaker.

Wednesday, June 21.—Anniversary pageant at 3:30 p. m. on campus. Evening free.

Thursday, June 22.—Punahou day, on the campus, beginning about 9:30 o'clock. Reception of alumni, students, ex-students, friends, etc. Games of the olden and more modern days, illustrated by alumni and students. Basket lunch on campus. Alumni meeting at noon. In afternoon exhibition of student activities—esthetic dancing and gymnastics by the girls, followed by drill of the Punahou cadet companies. This drill will be for the W. R. Cass cups, one being presented for the best company of the academy and one for the best company of the preparatory school. The cups are perpetual trophies, the name of the winning company and its captain to be put on each cup after the annual award.

Influential businessmen who are Punahou graduates are planning to ask the large business houses to close during the time of the pageant and also during Punahou Day, so that the employees will be free to attend the exercises.

A wage increase of 7 per cent to all employees not members of any union was announced by the Norfolk & Western Railroad Co.

FUND FOR CAMP RECEIVED BUT MORE REQUIRED

Money is needed by the Palama Settlement to conduct its summer camp at Waialua. Fundworker James A. Rath has started a campaign for the necessary funds and nearly \$200 has been donated already.

"We don't set any limit on the amount," said Mr. Rath today, "for the more we get the more people we can take care of."

The camp is conducted every summer by the Palama Settlement for the benefit of sick children and women in need of a change of environment or an outing who cannot pay for it themselves. The camp accommodates about 50 persons at one time. About five relays are handled each summer, making a total of 250 people benefited.

"We are in need of a wash house at the camp, also some lanais for the cottages," said Mr. Rath, "and several minor improvements which all cost money. We are not putting on a systematic campaign for funds; we're simply asking in person and by letter for help. Any amount will be appreciated."

The camp will be opened June 26 to continue for 10 weeks. It is right on the beach and can be easily enlarged if enough money is obtained.

DOWSETT PROPERTY IMPROVEMENTS ARE NEARLY COMPLETED

Grading and the installation of sewer, gas and water mains have been completed in the Dowsett company's new subdivision in Nuuanu valley and today concrete was poured for the roadway which leads through it over a mile in length. When this work is completed, at the end of about six weeks, the subdivision will be opened for sale.

The concrete will constitute a six-inch base for the highway and there will be a cushion coat of asphalt. This is the first job of concrete paving done for a really promoting concern in Honolulu.

'INSANE NOT TO GET GOOD ROADS,' DECLARES BOCKUS

Honolulu Becoming Notorious on Coast, Many Complaints, He Says

"Honolulu's roads are notorious on the coast and the people there simply can't understand why we should be hurting our tourist business as we are by failure to mend the faults," declared Charles G. Bockus, who returned this week from San Francisco.

"They think Honolulu is insane to tolerate such a condition and no Honoluluans can get away from here and realize what good roads are without agreeing with them."

"I used to think that Honolulu was short of amusements—that we weren't offering the visitor enough. If that was the case some years ago it certainly isn't today, with the Hawaiian climate, scenery, outdoor amusements, social events and recreation of various sorts. We lack just one thing—just one feature—in comparison with California, for instance. That is decent roads."

"The Honolulu who goes to the coast gets this dinned into his ears all the time from people who like the islands immensely but will not endure our roads. Also, he gets it from people who come here and stay a short time because they are fascinated with Hawaii, but who won't bring their autos here and who will advise other people not to expect fairly decent roads."

"I know this is an old subject, but it is more alive now than ever before for we are in a position to get an enormous tourist trade if we'll only wake up and get the roads we need."

TEACHINGS OF MRS. EDDY WILL BE DISCUSSED

Tonight at the "Peace Palace," King street, near the Opera House, Christian Science will be discussed from the standpoint of whether it is truth or error. A fair examination of this popular teaching will be given by Evangelist McCord, in which both the Bible and the Christian Science text book, "Science and Health, with Key to the Scriptures," by Mrs. Mary Baker Eddy, will be used. This will be an interesting opportunity for all to determine for themselves as to the standing of Christian Science from a Bible standpoint.

Mr. McCord says this popularism is showing phenomenal growth and the finest churches on the mainland are being built by Christian Scientists. Are these tens of thousands of people being deceived and are they being offered a stone instead of bread? These and kindred questions will be answered at the "Peace Palace" tonight, to which all are cordially invited, and the seats are free.

SUPERVISORS PICK CONVENIENT SITE FOR NEW COMFORT STATION

Site for a comfort station that will be convenient to race track patrons on Kamehameha Day and at the same time useful all the rest of the year was selected by the supervisors' committee on parks and the mayor yesterday afternoon. It is to be situated underneath the banyan tree between the two tennis courts across from the public baths. At first it was proposed to build it on the Diamond Head side of the tree, but Supervisor F. M. Hatch convinced the mayor and the members of the committee that the Ewa side of the tree was the place for it, so there it will be.

The structure is to cost approximately \$1000 and will be erected by the Hawaiian Polo and Racing Association. Its cost will be repaid to the association by the city from the 10 per cent tax on the proceeds of the races. As this has averaged about \$200 a year it will take about five years' taxes, but the supervisors figure that they are getting a good bargain.

John Wise, superintendent of the park, states that the tennis players who use the courts are in favor of the location, so the only objection to the site voiced at the meeting Tuesday night was removed.

TWO RACES WILL DISCUSS PROBLEMS IN EDUCATION

American and Japanese educators will meet in the near future to discuss the various problems that have to be faced in the education of the children. At the suggestion of Consul-general R. Moroi the Central Board of Japanese Language schools was organized. The Japanese representative feels that a general meeting of the pedagogues of both races will do much to solve the question of education and American citizenship.

Money Couldn't Buy It

The relief he personally experienced moved Mr. W. F. Briggs, Konawa, Okla., to write to the Pinus laboratories a letter of appreciation, in which he says:

"Fruitola and Traxo helped me so much I am advising all who suffer with gall-stones to try them. Money wouldn't buy what this medicine has done for me."

Fruitola is an intestinal lubricant that softens the congested masses, disintegrates the hardened particles that cause so much suffering and expels the accumulated waste to the intense relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day to restore the system that has been weakened by constant suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

Fruitola and Traxo are prepared in the Pinus laboratories at Monticello, Ill., and arrangements have been made to supply them through representative druggists. In Honolulu they can be obtained at Benson, Smith & Co., Ltd.
