## WILSON SPURNED AS MEDIATOR IN TEUTON ASSEMBLY

### Dr. Stresemann Charges President Has Openly Favored Enemies of Fatherland

(Associated Press by Federal Wireless)  
BERLIN, Germany, June 1.—Germany will not consider President Wilson as a mediator between herself and her foes, no matter how badly she may come to desire peace, according to a fiery speech made in the Reichstag yesterday by Dr. Gustav Stresemann. The address was received with applause by the chamber.

Dr. Stresemann declared that Germany rejected the idea that President Wilson is available as a peace mediator.

"Indeed but an exceedingly small number of Germans would vote to accept any offer which he might make to us," declared the speaker.

"He has made it possible for our enemies to keep going by his policies and his actions," added the speaker.

Allied With Enemies.

"He has intensified the possibilities of our manufacturing munitions of war to be used against us in our battle for existence, and he has done everything that lay in his power to aid them, short of coming out into the open against us."

"In spite of the stand he has taken," he said, "President Wilson has done nothing to see that we get shipments of provisions, and when we made use of the submarine, our only weapon of defense with which to meet the campaign of starvation which the British government adopted against us, President Wilson immediately proceeded to exert all his power to force us to discontinue the use of that weapon, even going so far as to threaten us with a breaking off of all diplomatic relations and a possible war."

In conclusion Dr. Stresemann declared that the German government would not reject the mediation of "any really neutral power."

## 'WEASEL WORDS' OF WILSON ARE MERE PLATTITUDES

### Roosevelt Doubts Sincerity of President's Attitude on Universal Training

(Associated Press by Federal Wireless)  
St. LOUIS, Mo., June 1.—President Wilson's Memorial Day address came in for some stinging comment from Roosevelt in his address here yesterday. It was weak, and worse than weak, asserted the former President, who insisted that Mr. Wilson had used "weasel words" that sucked the life-blood out of his phrases and made them meaningless.

Wilson's Speech Shredded.

"When he speaks of universal voluntary training," continued Mr. Roosevelt, "he contradicts himself in the very phrase." In dealing with this part of Mr. Wilson's talk, the former President drew an analogy between "universal voluntary training" and the "tranny law, which makes universal attendance at school of all children a compulsory thing."

"Mr. Wilson," said the Colonel, with his famous smile, "would make that law to read obligatorily upon all children except such as wanted to remain away."

Like William Jennings Bryan and Henry Ford, personally, I like them very much," continued the speaker, "but, honestly, I am not prepared to take the mental joy-rides that would be necessary should I attempt to take their peace doctrine seriously."

## VAST WEALTH UNLOCKED BY SANITARY CONQUEST OF PANAMA

COL. COETHALS and US ENGINEERS INSPECTING CANAL

The United States army at Panama has shown the way for the sanitary conquest of the tropics and the unlocking of tremendous stores of natural riches, according to Surgeon General William C. Gorgas. The remaining problem for the utilization of this wealth, he says, has to do with its fair distribution after it has been produced.

"We have successfully combated every tropical disease," he says, "and have shown that the man from the temperate zone can live and work near the equator with a fair degree of comfort and entire safety, if he follows reasonable precautions."

"Our success is certain to turn attention to the tremendous agricultural possibilities of certain regions that have heretofore had scanty development, owing to the white man's fear of climatic diseases. Two tropical valleys, those of the Amazon and the Congo, are capable of producing

more foodstuffs than is now produced in the entire world.

"While modern sanitation can solve the question of labor for the development of the tropics, I doubt if such enterprises would be worth while under prevailing systems of land ownership. The worker and the consumer would benefit little, if any, by abundant production. The land owner would get the lion's share."

"Low wages in themselves create problems of sanitation. Feudal conditions of land tenure in the tropics are quite as responsible for disease as is the climate. If I were to prescribe the best sanitary measure for any locality, I would say to double wages. A tax on land values big enough to prevent land speculation and stop individual and corporate getting rich out of ground rents, is the best means that I can suggest to increase the worker's share."

## CARRANZA SAYS SECOND INVASION DIRECT AFFRONT

### Asks For Immediate Withdrawal of Punitive Expedition From Mexico

(Associated Press by Federal Wireless)  
WASHINGTON, D. C., June 1.—The second United States expedition into Mexico, which has stirred the wrath of Gen. Carranza and his staff, civil and military, even more than the first, in the note presented to the state department yesterday by Dr. Arredondo, claims are made that "the administration at Washington asserted this second expedition was undertaken with the consent of the Mexican consul at Del Rio, Tex. Be that as it may, this act was utterly untenable and can be considered in no other light than that of an invasion of this country and a direct affront."

The note, after taking several other features of the expeditionary force in consideration in Mexico, concludes as follows:

"This government therefore invites the United States to put an end to the unsupportable situation and to act in accordance with its own repeated protestations and declarations of friendship for Mexico by the immediate withdrawal of Gen. Pershing's command and of all other commands which may be at present in this republic."

## FIGHT IS ON WITH COAST STEVEDORES

PORTLAND, Ore., June 1.—Orders from San Francisco were received at the local agency of the San Francisco and Portland Steamship Company, instructing it not to continue the loading of the coastwise steamer Beaver, for her outward trip south.

This step is taken to avoid tying up the ship by demands for freight space should the dockworkers go on strike, as threatened today.

Local shipowners declare that the freight rates on coastwise business do not justify the increase demanded by the men, who want 55 cents an hour and \$1 an hour on all overtime work.

It is still hoped the strike may be averted, but the outlook is declared to be extremely gloomy.

## MANY TOURISTS SEE VOLCANO SPECTACLE

The Volcano House is "chockful" of tourists to see the volcano, says Charles F. Chillingworth, deputy county attorney, who is home from a trip to the Big Island.

Chillingworth did not see Mauna Loa, but watched Kilauea, and says it was a grand sight. "At the Volcano House there were 106 people on Friday night," he says, "and many of these were sleeping on billiard tables."

The roads over the lava flow are like marble and one can go 55 miles an hour with an ordinary machine and never feel the vibration, says Chillingworth. He doesn't think much of other roads on the island.

## ADMIRAL MURRAY DEAD

(Associated Press by Federal Wireless)  
SAN FRANCISCO, Cal., June 1.—Rear-Admiral John F. Murray, U. S. N., the first commandant of the naval station, Honolulu, who assisted in the purchase of the land at Pearl Harbor required for the establishment of a naval station and dockyard there, died on Tuesday from the results of a stroke of apoplexy which he suffered a month ago.

Admiral Murray had a distinguished record. He entered the navy as a volunteer during the Civil War and was, at its close, regularly commissioned as a reward for the services he had rendered.

## EXPLORER SHACKLETON SAFE AT FALKLAND IS.

(Associated Press by Federal Wireless)  
LONDON, Eng., June 1.—Despatches from Port Stanley, Falkland Islands, received here last night, announced the arrival at that port of Sir Ernest Shackleton, the Antarctic explorer, with the other members of his expedition. Sir Ernest was expected back last March, and the first news of his expedition was received in April, when word came of his safety.

## MEXICAN MINISTER ARRIVES IN JAPAN

(Special Cable to Nippon Jiji)  
TOKYO, Japan, June 1.—Senor P. Romero, the newly appointed Mexican minister to Japan, arrived in Yokohama last night in the steamer Empress of Russia, from Vancouver. He is expected to pay his respects to the Mikado within a few days, and to present his credentials from Gen. Carranza. Senor Romero intended to come by the Kiyo Maru, but was unable to secure a cabin in that steamer and changed his plans so as to sail from Vancouver.

## PUNAHOU PAGEANT PLANS MOVING STEADILY; REHEARSALS CALLED

### Military Drill to Be Feature on Thursday Afternoon June 22

### NOTICE TO PARTICIPANTS IN THE PUNAHOU PAGEANT

All taking part in the episodes of the Punahou pageant are requested to reserve time according to the schedule published below in this paper. It is imperative that all should know their lines and should attend rehearsals. Full and prompt attendance will economize the time of all those concerned. As few rehearsals are called as possible and a schedule of them will be published regularly.

L. YOUNG CORRETHERS,  
Pageant Master.

(Special Star-Bulletin Correspondence)  
OAHU COLLEGE, June 1.—The change in the program for the Punahou 75th anniversary has caused the public drill and competition of the military cadets to be the last thing on the program on Thursday afternoon, June 22.

There will be several forms of competition. There will be the signal corps demonstration, the knot-tying contest; then after all men have been eliminated down to a half dozen, these six will publicly compete in individual drill exercises; there will be a short company drilling contest—marching, facing, manual of arms, calisthenics, etc.

After the contests there will be assembly of the battalions and a short series of movements and exercises by all companies together. This will be followed by the final event of the pageant—week—the parade led by the Hawaiian Band.

The purpose of this public drill is to show what military training has done for the Punahou students. They have worked faithfully since the first of January, drilling two short periods per week. This, of course, is not to be compared with the thoroughness of daily drill and constant military life of the barracks, but it has unquestionably had many good effects already. It has improved the bearing of the boys and it has been a source of considerable instruction in a new field.

On the day of the parade the reviewing stand will contain many prominent alumni and friends. At this time the various cups and honors will be presented to the individuals and companies for rifle shooting and drilling. The military drill will be preceded by aesthetic dancing by the academy girls.

### Pageant Rehearsals

Punahou pageant rehearsals this week are as follows:

Thursday, June 1: 5 p. m. at Chas. R. Bishop Hall. Episode 10, The Reunion in the 80's.

Friday, June 2: 5 p. m. in Chas. R. Bishop Hall. Episode 11, The Procession of the 75 Classes. The committee has tried to reach everybody by a notice through the mail. Please come to the meeting in any event, whether the notice has reached you or not.

Friday, June 2: 7:30 p. m. on Alexander Field (in Chas. R. Bishop Hall if it rains). Very important rehearsal, including student groups. Episodes 1, 2 and 3; the Hawaiian group, including "Pohakoua." Episode 5, The Early Trustees. Episode 7, Punahou Becomes Oahu College. Episode 8, Punahou Debating Society. Episode 9, Twenty-fifth Anniversary, including the dances. Episode 10, Reunion in the 80's.

The episodes with the younger children will be rehearsed first. Stations will be marked off for members of different episodes. Please find your station and remain in it until your episode is called. A committee will be in charge.

### ACID STOMACHS ARE DANGEROUS

Nine-tenths of All Stomach Trouble Said to Be Due to Acidity.

A Physician's Advice on Cause and Cure.

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due to times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisulphated magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments are useless, so long as the contents of the stomach remain acid; remove the acidity, and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisulphated magnesia from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.
