What we must do in America is not to attack our judges, but to educate them.—Louis D. Brandeis.

SEVENTEEN

POLITICAL POT IS BOILING OVER IN WINDY CITY

Indications Point to Roosevelt Steadily Gaining in Affections of Party

(Associated Press by Federal Wireless) CHICAGO, Ill., June 3.—The city is humming like a political bee hive and the politicians are arriving in greater numbers daily. A careful survey of the entire situation indicates that the real fight at the convention is to be between Justice Hughes and former President Theodore Roosevelt. None of the other candidates have developed more than the usual "favorite son" strength and some of them are apparently losing most of that. There were numerous conferences of the party leaders here last yesterday, but so far as could be learned no agreement regarding the candidates was reached.

BOURBONS FLOCK TO ST. LOUIS CONVENTION

ST. LOUIS, Mo., June 3.—St. Louis is fast taking on the crowded and excited air of a big convention city. Democratic politicians are coming here by swarms, filling the hotels and the streets with their talk. This is all of Wilson and politics, with a scattering of minor factional fights to be decided by the national committee, which will begin its hearings soon. It was announced last night that Martin Glynn has been selected as temporary chairman of the convention and J. Bruce Kremer, national committeeman of Montana, has been chosen temporary secretary.

IN WAR ARENA

IKSKULL BRIDGEHEAD AGAIN OBJECT OF TEUTON GUNS

LONDON, Eng., June 3.—Petograd officially reports that the fighting on the eastern front, whether the Kaiser himself is said to have gone, has resumed after a brief lull. The bridgehead at Ikskull was once more bombarded by the German guns, but the Russian loss is said to have been negligible. At other points on the northeastern line the heavy guns were busy all day, searching for a weak spot in the Russian fortifications.

Near New Zealand there were a number of infantry assaults by the Germans which the Russians report having repulsed.

On the Italian front the Italians report desperate fighting between the Adige river and Brenta river, where the Austrians have been attempting to continue the offensive. Here the foes were held safely, says Rome, which also announces that the Austrian attacks in the neighborhood of a oslo, and southeast of Arsiere were beaten back with heavy losses to the attackers. Bombardments are reported elsewhere on the Italian line.

Constantinople sends out a report via Berlin that the Russians under the Grand Duke Nicholas have been compelled to retire their center more than 20 kilometers as a result of the Turkish and German attacks.

FRENCH DOWN TEUTON AERIE IN SENSATIONAL FIGHT

PARIS, France, June 3.—A squadron of French aeroplanes, which rose to meet off an attack by German airplanes on Bar le Duc, pursued the Teuton machines over their own lines and succeeded in bringing down two of them, after a sensational aerial combat that was watched and cheered by both armies.

KAISER TOURS EAST FRONT

BERLIN, Germany, June 3.—It was officially announced here last night by the German war office that the German emperor has left the city on a tour of the eastern front.

AMERICAN AND BRITISH SUBJECTS KILLED BY RIOTOUS NICARAGUANS

(Associated Press by Federal Wireless) CORINTO, Nicaragua, June 3.—A number of American citizens and British subjects were killed last Thursday in riots following a strike of the employees of the London Pacific Petroleum Company at Talara, Peru, according to the United States cruiser Raleigh, stationed here. The strikers have threatened to burn the plant, and the government has reported that it is unable to control the situation. The town of Talara is situated 500 miles north of Callao, and in a remote district of the mountain range.

MARQUISE MAEDA RUSHES TO HUSBAND

(Special Marconigram to Nippu Jiji.) SAN FRANCISCO, Cal., June 3.—Anxious to reach the side of her husband as soon as possible, Marquise T. Maeda, with her party, chartered a solid Pullman special train, at a cost of \$3000, to rush across the country to New York, where it is expected to catch a Transatlantic steamer for Europe. Efforts will be made to cut down the time for the transcontinental trip.

ANNOUNCE FINAL EXAMINATIONS IN SCHOOLS OF CITY

Tests to Determine Eligibility for Promotion Begin June 14 and Close June 21

Dates for the final examinations in the public schools, in which the pupils will be tested on the year's work to determine whether they are eligible for promotion, were announced Friday by the department of public instruction. The following instructions have been sent to principals: "Principals will give assistants the proper examination questions each morning at the time scheduled. The time allotments in the schedule will be strictly adhered to. Pupils who pass satisfactorily will be promoted according to the regulations. "All pupils in grade one are to be given the opportunity to try the examinations. No pupils will be excused from the examination except for absences from school under this department. The examinations may be given orally, in part, to grade one. "In rooms having more than one grade all pupils must be allowed the full and exact time allotted." The examination dates are as follows:

- June 14. Arithmetic—Grades 1 and 2, 9 to 10 o'clock; grades 3 and 4, 9 to 10:30 o'clock; grades 5, 6, 7 and 8, 9 to 11 o'clock.
- Spelling—Grades 1 and 2, 10:30 to 11 o'clock; grades 3 and 4, 11 to 11:30 o'clock; grades 5 to 8, 11:30 to 12 o'clock.
- June 15. Geography—Grades 1 to 4, 9 to 10 o'clock; grades 5 to 8, 9 to 11 o'clock.
- June 16. Hygiene and sanitation—Grades 1 to 4, 9 to 10 o'clock; grades 5 to 8, 9 to 11 o'clock.
- June 19. Story work—Grades 1 to 4, 9 to 10:30 o'clock. History stories—Grade 5, 9 to 11 o'clock. History—Grades 6 to 8, 9 to 11 o'clock.
- June 20. Language—Grades 1 to 3, 9 to 10 o'clock; grades 4 to 5, 9 to 10:30 o'clock. Grammar and composition—Grades 6 to 8, 9 to 11:30 o'clock.
- June 21. Grammar—Grades 7 to 8, 9 to 11 o'clock.

CORNER STONE OF COTTAGE TO BE LAID WEDNESDAY

Another step in the progress of the Salvation Army girls' home will be marked next Wednesday, June 7, when the corner stone for a second cottage is laid. This cottage will be of great value in the excellent work which the Salvation Army girls' school is carrying on. The new cottage, which should be completed by September, will cost nearly \$8000, and is made possible by the generosity of Mrs. J. P. Cooke, Mrs. H. W. Baldwin of Maui and G. P. Wilcox. It will be used as a promotion cottage for older girls and will be especially adapted to domestic science work. There attention will be paid to cooking and setting table and serving. There has been especial need felt for these facilities. The new building will house in the basement a dispensary and a work room for the girls. Above there will be kitchen, dining room, living room, guest room, dressing rooms and baths. There will be four sleeping porches which will be used by the girls.

GAVIRA PLEASSED WITH CONFERENCE RESULTS

(Associated Press by Federal Wireless) JUAREZ, Mex., June 3.—Gen. Gavira, commander of the Carranza forces in the state of Chihuahua, returned here last night after his conferences with Gen. Pershing regarding the plans for cooperation of the Carranza and American troops against the bands of Villista outlaws. "The conference was most satisfactory in every respect," said Gavira. "I have accomplished all that I expected to accomplish by my meeting with Gen. Pershing."

JAPAN'S AMBASSADOR TO BRITAIN TO BE RECALLED

(Special Cable to Nippu Jiji) TOKIO, Japan, June 3.—Marquis K. Inoue, Japanese ambassador to Great Britain, will be called home by the Japanese government within a few weeks. His health is said to have been growing poor for some time and he cannot long support the burdens of his office. It is believed in diplomatic circles here that Baron S. Makino, former minister of foreign affairs, will be appointed to take the vacant place in London.

TRAINING OF CHILDREN IN REGULAR HABITS VITAL, SAYS SECOND PRIZE-WINNING PAPER

Mrs. W. H. Thoene, in Article Written for Star-Bulletin's Competition, Gives Practical Hints for Honolulu Mothers

(The Star-Bulletin publishes herewith the second prize-winning article in the contest for Honolulu mothers, who were invited to give practical hints upon the care of children. The first prize-winner, by Mrs. Julia Nuges, was published last week. That of Mrs. W. H. Thoene, second prize-winner, is given below. Mrs. Thoene is the mother of nine children, all of whom are living.)

CARE OF THE CHILD FROM ITS BIRTH UNTIL READY FOR SCHOOL

The first thing I did to my children when they were about a week old was to train them into regular habits; that is to bathe them at 9 in the morning and then after they are all cleaned and dressed I feed them and then put them to sleep. If it is a nice warm day I let them sleep in their carriage on the porch so that they can get a lot of fresh air, but if it is not a very warm day or if it is very windy I put them to sleep in their crib with the windows open for fresh air. I never believe it is proper to rock the child asleep or put it in a lamp in the room. I simply put it in its bed and leave it there until it falls asleep. If this is done in the beginning the child will give no trouble, but if the child has been used to being rocked to sleep it will give a lot of trouble at first when it is put to sleep in this way, but it will finally get used to it.

A child that is nursed by its mother should be fed more often than a child fed with a bottle, because when a child is nursed by a mother one never knows how much it drinks, while a child who takes a bottle nearly always empties it. Babies nursed by a bottle will get very sick if the bottles are not kept very clean. Boil them in hot water and boil the nipples, too, and this will help to keep the germs off. A mother should see that the child's bowels move regularly every day, especially when they begin to get teeth. When the first teeth of a child come the child is usually ill and a mother should use her own judgment as to what the child should have to help

soften the aching gums. It is not wise to depend too much upon what the doctor says, because he does not know the child's habits as well as the mother and nearly always has to guess how ill it is. If the child is getting teeth it should be kept warm and watched very closely so that it doesn't eat anything out of place, because its gums are aching and it wants to put everything it finds into its mouth. Whenever my children have a stomach ache I give them a little peppermint in their milk and it stops instantly. When the child begins to want to stand it should not be forced to stand because its feet will get all out of proportion. When it begins to walk it should be given more nourishing food than milk because it needs more strength. Once a day it should be taken for a walk. The afternoon is the best time because when it comes back and you sponge it and then give it its supper you will be surprised at its appetite. It should be kept out of doors as much as possible. As it gets older and eats more food it should be given something to purify its blood. I usually give my children sulphur and molasses and they never get boils or any kind of skin disease upon their bodies. When the child is old enough to go to school then one has to be careful, because they begin to catch diseases such as measles, mumps, chickenpox and the whooping cough. These diseases cannot be avoided because they catch them from the other children. When the child is young it should be taught to breathe through its nose and not its mouth and then it will not suffer from throat diseases

WINS SECOND PRIZE FOR PAPER ON BABIES

Mrs. W. H. Thoene.

or tuberculosis when it gets older. It should also be taught to drink filtered water and not unfiltered water.

If the child is trained to do these things when it is young it will remember them when it grows older and goes to school and will not be sick. All my children were trained in this way and they are very seldom sick, the oldest being 18 and the youngest 2.

Men, Books, People & Things by Edgar Allan Poe

HONOLULU HAWAII

I have received from Congressman Kent of California a copy of his recent bill to standardize the treatment of tuberculosis in the United States, to provide federal aid in caring for indigent tuberculous persons, and for other purposes. In his letter Mr. Kent says: This bill is the result of careful study and consultation, not only with leading medical men, but also with the secretary of the treasury and the surgeon-general, Dr. Rupert Blue. The provisions are simple and obvious. One object of the bill is to standardize the treatment of tuberculosis by means of federal assistance with the voluntary cooperation of the states. No one in the medical profession can doubt the wisdom of preventing the migration of indigent victims of tuberculosis, another worthy object of accomplishment. This migration is a hideous cruelty and is contrary to all recent developments of medical science as applied to this disease.

To England for the British West Indies and Honduras. "Intrinsically the Philippines are vastly more valuable. But on account of their situation they are less valuable to us than Demerara would be. To make the bargain more equal and to complete the territorial readjustment, the British West Indies and Honduras should be included. That would still leave the advantage on the British side, for the area of the Philippines is 120,000 square miles and their population 9,000,000, while the area of British Guiana, Honduras and the West Indies is 111,000 and their population 2,000,100."

NOTED DIVINE'S VISIT AWAITED

A reception to Rev. Henry Sloane Coffin, D. D., pastor of the Madison Avenue Presbyterian Church of New York City, is to be given by the Men's League and Women's Society of Central Union church on Tuesday evening, June 13, in the church parlors. The guests will meet for an informal social hour and then adjourn to the parish house, where dinner will be served under the direction of a committee of ladies from the Women's Society. Special music will be a feature of the evening and the crowning event will be a brief address by the guest of honor. Dr. Coffin and his wife are on their way to China and will reach Honolulu on the Wilhelmina June 6, remaining here until the 17th, when they will proceed on the Tenyo Maru. Dr. Coffin is a member of the class of '97 Yale, a classmate of H. A. F. Judd and other Honolulu men, who are all planning a full program of good times while the Coffins are here. All members of the Men's League and Women's Society, with their wives and husbands, are cordially invited to be present and meet this distinguished

minister, who is said to be one of the most prominent of New York divines. Dr. Coffin's personality, moreover, is so delightful that this opportunity of meeting him is a rare privilege.

WOMAN'S BOARD ANNUAL MEETING

The annual meeting of the Woman's Board of Missions of the Pacific Islands will be held in the Bible school rooms of Central Union church Tuesday morning, June 6, at 10 o'clock. The devotional exercises will be conducted by Rev. Norman C. Schenck, followed by the annual report from the secretaries, treasurer, auxiliaries and the superintendents of the five departments of the board. The new constitution and bylaws will be read for final ratification by the members. The annual appropriation will be voted and the usual election of officers will take place. A luncheon will be served in the parish house at 12:15, to which the gentlemen are cordially invited. Two or three short after-luncheon addresses will be made. There will be no afternoon service. An urgent invitation is extended to every lady in the church to attend this meeting, as well as to all visitors

FAVORS GUIDANCE OF FUTURE MOVIE STARS

Juvenile Judge William L. Whitney is in favor of some organization being appointed as guardian and advisor for girls who may enter the services of the proposed moving picture "city" in Honolulu. The more supervision these girls have the better it will be, the judge said today. "I don't know whether this moving picture business now being contemplated will present further temptation to these girls or not."

SUMMER SEASON SCHEDULE NEAR TO COMPLETION

The new schedules for the summer activities of the Young Women's Christian Association are reaching completion. New swimming classes are being formed under the direction of Miss Ruth Stacker, which will continue throughout the summer. The Homestead is preparing for its usual large number of applicants from the teachers and visitors who come to Honolulu from the other islands to spend vacations and to attend Normal. The various clubs are making plans to provide vacation and social activities during the summer. The most important general decision so far reached is the plan for the summer camp at Pearl City. Mrs. W. F. Frear has again most generously offered the use of her attractive home on the bay and the association will be able to accommodate about 35 girls each week during the season. The camp will open July 1, at a rate that will be within the reach of almost any girl for a vacation of one or two weeks. The various clubs of the extension department have been given special invitations to select a particular week to be reserved when as many members as may be able to go with the leader of the club will be guests of the camp.

According to the Torgovo-Promyshennaya Gazette (Petrograd) the total output of petroleum in Russia in 1915 amounted to 372,000,000 pounds, about 63,000,000 barrels of 42 gallons at the United States Geological Survey rate of 8.33 pounds to the barrel), as compared with 357,000,000 pounds (87,000,000 barrels) in 1914.

In the city who are interested in the broad work of this board. The Hawaiian department will be reported upon by Miss Latschar, the superintendent; the Japanese by Miss Gulick, the Portuguese by Mrs. Soares, the Chinese by Mrs. MacKenzie; the Aurora Band and Lina Kokua will present as usual their reports by the presidents of their respective societies. Mrs. Weaver, as special delegate to the child welfare central committee, will present a report from that body. Mrs. Erdman will have charge of special music for the meeting.

HONOLULU BIBLE TRAINING SCHOOL IN 11TH COMMENCEMENT SUNDAY

Pretty Biblical Drama Will Be Presented in Connection With Exercises

With 17 students in the graduating class, the 11th annual commencement of the Honolulu Bible Training School, which was organized and which has been fostered by Theodore Richards, will be held at 11 o'clock tomorrow morning in the Kawaiahao church, taking the place of the regular Sunday morning service.

The Honolulu Bible Training School is considered one of the most important of the many Christian enterprises in Honolulu, inasmuch as it touches the entire territory. The students are young people enrolled in the Normal school, high school, and Oahu College, who are receiving their education in the city. Eventually they go out teaching, for after the course is completed they are competent and trained Sunday school teachers who carry into active practice their learnings into the country districts from which they come.

Following are the teachers of the training school: Theodore Richards, Miss Ida Macdonald, Mrs. Lila G. Marshall, Miss Ruth Shaw, Miss Emily V. Wariner and Richard Whitcomb. The class of 1916, which will be graduated tomorrow, is composed of the following: Elizabeth Fuller, Lakana Kaumau, Sarah Kaaba, Alice Kaolu, Irma Kong, Elizabeth Yuen Nim, Harriett Paule, Jennie Purdy, Anita Whitlock, Yone Yoshioka, Lani Akina, Susan Chu, Yun Nyuk Moo, K. Nakata, Lee Pok Sil, George Daifuku and James Akimo.

The training school now has an enrollment of 100 students with prospects of an increase in attendance during the coming year. A feature of the exercises tomorrow will be the introduction by Mr. Richards of Miss

Mora Caborn of the Moody Bible Institute, who arrived in Honolulu this week and who will assist in the work of the school next year.

Another pretty feature will be a Biblical presentation in seven scenes, developing in dramatic form the life of Moses. The action of the presentation will be as follows: Scene 1, the oppression of the people of Moses' time; second scene, the child Moses being placed in the river and his rescue by the princess; third scene, Moses in the burning bush; fourth scene, Moses and Aaron before Pharaoh; fifth scene, flight of the people; sixth scene, the tables of the law on Mt. Sinai; seventh scene, Moses kneeling in prayer.

Between the scenes will be displayed craven drawings under the direction of Mrs. Marshall. These scenes are of marked value, the value lying in the suggestion to the young teachers who will be handicapped in matters of entertainment and Biblical instruction in country places.

The program will be as follows: Processional—"Marching, Marching, Processional—"Marching, Marching."

Invocation—S. Kahohalahala. Chorus—"Every Day I Need Thee," Training School. Palm exercise—Boaz and Jaehin, 15th and 4th.

Announcements—Mrs. Wilcox. Introduction of Miss Caborn. Song—"Work On," Class of 1916. Song—"Little Pilgrims," Kawaiahao Sunday School.

The Story of Moses—Normal department. Double Quartet—"Somebody Cares," Training School.

Presentation of Diplomas—George Shaw, '14. Chorus—"The Fight Is On," Training School. Benediction—Rev. H. P. Judd.

FROM THE ORIENTAL PRESS HERE AND ELSEWHERE

JUDGE WILDER'S INTERVIEW

(From the Hawaii Hochi.) The Honolulu Star-Bulletin reported recently the statement of former Justice of the Supreme Court of Hawaii Judge A. A. Wilder, which appeared in one of the newspapers in the city of Denver, the Denver Post. He said:

"We of Hawaii are for preparedness, you may be sure of it. We feel the closeness of what has come to be called the Yellow Peril and we feel also that sooner or later with the rest of the United States we will be compelled to action against the aggressions and spread of the Yellow Peril."

"We have a Japanese population in Hawaii of 90,000. The number is constantly increasing in spite of the 'gentlemen's agreement' between America and Japan to limit immigration from that country. But last year there were 15,000 births among the 90,000 already there."

"Japan is over-populated. She is looking for the places into which she may spread. Her people will not go to Manchuria or Korea, where living conditions are no better than at home. They are seeking a white man's country. They think they see it in the Philippines and Hawaii, and this makes for the yellow peril."

Judge A. A. Wilder is a well known and a most prominent gentleman in this territory. He knows exact condition of the Hawaiian Islands as well as we do. He is a man of responsibility and honor. How can he make such incorrect statements to the Denver reporter? Where did he find out there were 15,000 new births among the Japanese in this country last year? He is not blind on the general trend of the world, nor is he ignorant of the immigration policy that the Japanese government is adopting toward the United States, or on what conditions Japan and the United States stand today.

We know by his character in the past that he is a man of the direct word. Whether his opinion is right or wrong, he is not afraid to express it. Then why could he not speak such opinions right here while he is with us, instead of in Denver, thousands of miles away from here? What is he afraid of? We can not understand his cowardly action. But we earnestly hope such an imprudent statement was not altogether correct. If reported, and hope that it was only the pen of the Denver Post writer adding some of its own anti-Japanese prejudice to the judge's statement. We can assure the Americans that the Japanese government or the Japanese nation has no desire to ship her immigrants to American soil at present, even if we appealed to arms. American people, whether in Hawaii or on the mainland, who understand Japan correctly, never believe in the necessity of an American-Japanese war.

UNIFICATION OF THE JAPANESE SCHOOL SYSTEM

(From the Nippu Jiji.) Time is indeed a solver of everything. The unification of the Japanese school system within the Territory of Hawaii has seemed almost impossible for the last four or five years. No matter who tried it or what ability he showed, the plan was always a failure in the end. Even the educators themselves did not consider it feasible. We now realize the power of Time, and its greatness to perform everything. Time has organized the Central Educational Association

HONK! HONK! TRAFFIC RULES NOW IN EFFECT ABOUT CIRCUIT COURT

Motorists, beware! If you have business at the circuit court, do not allow your machines to stand within the white lines which have been laid down in front of the entrance. The lines were laid down Friday and it is understood that owners of machines, who leave their cars within the enclosure, will immediately be "pinched" by the capitol policemen. So great is the traffic in front of the judiciary building that there is some talk of appointing "Admiral" S. Kaleikini as traffic officer, but there is nothing definite as to this movement.

SPRING-RICE HONORED

(Associated Press by Federal Wireless) LONDON, Eng., June 3.—Sir Cecil Spring-Rice, the British ambassador to Washington, has been created grand commander of the Order of St. Michael and St. George, in the King's birthday honor list. Sir Gilbert Parker, the novelist, is appointed privy councillor to the King. Baron Reading, lord chief justice, has also been rewarded for his services in connection with the war.

During the month of March there were landed in New York by 16 vessels 39 fars of tish, aggregating 15,000 pounds. This is an increase of about 20 per cent over the landings in February, and the number of vessels engaged in the fishery more than doubled. In addition about 10,000 pounds of tish were landed by three smacks at Atlantic City, and it is stated that probably a regular fishery for this species will be established at that place.

A Leading Chiropractic College has an average daily attendance of 1200 at its free clinic. Better see what Chiropractic can do for YOU. F. C. MIGHTON, D. C., Chiropractor, 304 Boston Bldg. Over Henri May's
