

WOULD SUGGEST SANITARY RULES IN ALL SALOONS

Board of Health Outlines Plan to Lessen the Spread of Tuberculosis

Encouraged by the success that has come to it in the anti-tuberculosis campaign carried on in local restaurants, the anti-tuberculosis bureau of the Board of Health is now considering the feasibility of extending the work of inspection to include saloons, and has written to the liquor inspectors in this regard.

Suggestion is made in the letter that glasses and other dishes used by patrons should be disinfected, and that all assistants should be required to secure a certificate from a doctor stating that they are not tuberculous. The letter, which has been received by the liquor commission through Carlos A. Long, secretary, follows:

"Pursuant to our conversation of a week ago I beg to submit herewith the suggestions of the anti-tuberculosis bureau of the Board of Health regarding the extension of precautionary measures to saloons.

"Through the cooperation of the anti-tuberculosis league the Board of Health has been enabled to institute these precautions in local restaurants with marked benefits to their patrons and the public at large. Conditions in the liquor trade are such that I feel the same success would attend a similar campaign in saloons if your commission would place its authority behind it.

"We would like to ask that disinfection of all glasses or other dishes used by patrons be satisfactorily made after each use and before again being returned to the counter, and that all help, particularly in saloons, have a physician's certificate to the effect that they are not tuberculous. In restaurants we have also required fly-proof kitchens and proper storage of food but would suggest that this would be sufficiently covered in the case of saloons by requiring sanitary conditions meeting the approval of this board.

"I would be glad to have your opinion as to whether the commission is able to make these requirements part of the conditions of the license. The tuberculosis bureau will be able to make the special inspections necessary for the enforcement of the provisions.

"Hoping to hear favorable from you on this matter, I remain,

"Yours respectfully,

"D. L. MACKAY, Secretary Anti-Tuberculosis Bureau." It was stated today that no action

CHILD SEVERELY CUT IN LAWN-MOWER. Little Alfred Marks of Kalihi cut his right hand in a lawn-mower this afternoon. The 5-year-old boy was carried to the emergency hospital by his father, Antone Marks. Police Surgeon R. G. Ayers dressed the badly crushed member and removed several small pieces of bone.

MAINLAND JAPANESE WOULD AID OZAWA FIGHT. Japanese in the State of California have sent word to Honolulu, it is reported in the Oriental community, that they are willing to back Takao Ozawa in his fight to get United States citizenship. His naturalization was denied by Federal Judge Clemons. Ozawa has not yet made known whether he will appeal to the California court or take the case higher, but his friends say he will surely fight it further. The case is being watched with international interest. A Japanese newspaper of California says that Japanese all over the United States wish to add their support to the appeal.

WIDOWS OF CITY EMPLOYEES, KILLED, COMPENSATED. Mrs. Fred Wright, widow of the motorcycle officer killed in an accident a number of weeks ago, was awarded \$40 a month for six years, \$100 funeral expenses and \$50 for hospital bills at a meeting of the Industrial Accident Board this afternoon. Mrs. John K. Aylett, widow of a driver in the garbage department, who was killed while at work two months ago, was awarded \$100 funeral expenses and 40 per cent of his wages of \$15 a week for six years.

Yong Mar Tai, an employe of the Wing Hop Wai rice plantation, had his compensation cut from the \$4.92 a week allowed him for total disability for the last 16 weeks to a sum to be determined when he returns to work, allowed for partial disability. This will be 50 per cent of the difference between his former wage and that which he is able to earn now.

KUHIO WHARF USE STILL UNSETTLED. After considerable discussion at the meeting of the harbor board this afternoon a motion was passed authorizing the harbormaster at Hilo to allow the Hawaii Consolidated Railway Company or other transportation companies permission to store sugar 25 sacks high on Kuhio wharf. L. A. Thurston stated that a large amount of sugar is arriving from outside districts, and said the problem of caring for it with less height to the piles was difficult. The instructions sent to the harbormaster are for temporary action awaiting the final draft of the harbor board rules.

The discussion brought up the old question of the non-use of the wharf by big Matson and American-Hawaiian steamers. "If these vessels are going to insist on lightering sugar from the wharf rather than using the wharf direct," declared Chairman Forbes, "then I am opposed to making a storehouse of the place. At present the board is getting a raw deal in the matter."

has yet been taken by the liquor commission, but the matter will probably be taken up at the next meeting of that body.

NUMBERS ARE BOOKING PASSAGE TO HILO FOR GREAT CELEBRATION

"There will be a hot time in Hilo on July 4," said L. W. de Vis Norton today, when asked regarding the big celebration on Hawaii. More than 70 reservations have been received by the Inter-Island Steamship Company for the excursion which leaves Honolulu on July 1, and it is expected that all of the accommodations will be taken before the date of departure.

"With the big regatta, the ball games, parades and an opportunity for a holiday at the volcano there is certain to be a banner crowd going to Hilo. The low round trip rate of \$15 is especially inviting for those who have an opportunity to spend three days on Hawaii," he concluded.

July 1 the Great Western Sugar Co. will contribute among holders of the common stock the remainder of the common shares now in the treasury amounting to 4,556,000.

CONTRACT MADE FOR MANGANESE ORE MILL PLANT

Mineral Products Arranges for Building Which Should Be Finished in Six Weeks

Relative to contract for a part of the Mineral Products plant the Patterson Irrigator of May 27 says:

According to information received from President Glnaca of the Patterson and Western the contract will soon be let for the plant, or rather one of the plants, which the Mineral Products Company will erect here.

The building will be erected on the company's site at the southern edge of town, and will cover a ground space of 72x125 feet. It will be constructed of wood in such a manner that the exterior can be plastered later on with the cement which the company expects to manufacture.

This plant, the first to be erected, will be for the treatment of manganese ore. After it has been completed and is in operation other plants will be put up for handling other ores and making different products. All the machinery for the manganese plant has been ordered, and will be on the ground when needed.

The Patterson and Western has now been constructed to a point about nine miles from town. The contractors have had some trouble in keeping a full crew of men at work on account of the poor water in the canyon, and consequently progress has not been as rapid as expected.

A report received from Mr. Glnaca after the above article was written states that the contract for the plant has been signed and that the building will be erected within six weeks.

FINANCIAL FINANCIAL FINANCIAL

INVESTMENT BONDS

A fair proportion of each individual's capital should be invested in bonds. Bonds assure fixed income, positive safety of the invested principal, and the means of realizing cash immediately should the necessity arise.

The Comptroller of the Currency reports that, from June, 1910, to June 1915, the holdings of Public Utility Bonds by all banking institutions reporting to him, have increased 38.8%, against an increase of only 22.9% in holdings of all other classes of securities.

The above figures suggest the bankers' estimate of three important investment elements—Safety, Yield, Marketability.

We own, offer, and recommend

Public Service Company of Northern Illinois

FIRST AND REFUNDING MORTGAGE 5% BONDS

Outstanding \$13,624,000 Due October 1, 1956

Interest Payable April 1 and October 1

The company supplies gas, electricity and water in 13 counties in the northeastern part of Illinois, serving one of the best manufacturing districts in the country, as well as the entire residence territory tributary to Chicago.

The bonds are now secured by first mortgage on important parts of the property. On the balance they are direct lien subject to \$15,178,000 divisional bonds, for retirement of which bonds of this issue are reserved.

Measured by the present market value of the outstanding preferred and common stocks, the equity over and above the total funded debt is in excess of \$19,000,000.

The constituent properties, under the management of Mr. Samuel Insull and associates, have been in successful operation for many years. Net earnings for the year ending December 31, 1915, were \$3,153,858, as against \$1,485,540 interest charges.

Price 95 and interest netting about 5.33%.

We have been associated with the financing of this public utility from its inception, and our recommendation is based upon expert analysis of accurate information, covering the legal status, physical condition and business prospects of the property on which the bonds are secured.

These bonds are offered subject to prior sale and change in price. Complete information furnished on request.

Has Faith in Remedy

Mrs. H. S. Carlson of Wakefield, Neb., testifies to the relief she experienced from the use of Fruitola and Traxo:

"I used Fruitola and Traxo with very good results, having passed almost a cupful of gall-stones with the first bottle. My skin is clear now, and I have a good appetite. I have lots of faith in Fruitola and Traxo."

Fruitola is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clearly indicate its efficacy. Traxo is a splendid tonic-alterative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion and removes bile from the general circulation.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through representative druggists. In Honolulu they can be obtained at Benson, Smith & Co., Ltd.
