U. S. Revenue Men After Harrison Act Violators

CHINESE DOCTOR ARRESTED, HALEY SIGNING WARRANT

Five Violations of Narcotic Law of 1915 Charged to K. F. Li

CASE ONE OF SEVERAL, SAYS REVENUE COLLECTOR

Campaign to Wipe Out Illicit Traffic in Cocaine and Other Drugs Pushed

With revenue officers in possession of a prescription for a "rational cure" of the opium habit, which, they claim, converts a user of the poppy drug into a morphine and cocaine fiend, Dr. K. F. Li, well-known local Chinese physician, was arrested just before 1 o'clock today on a complaint sworn to by Collector J. F. Haley, charging him with five distinct violations of the Harrison Narcotic Act, which became effective on March 1, 1915. The prescription, according to the evidence of the federal sleuths, is one of Li's.

Commissioner George S. Curry this afternoon fixed Li's bond at \$1000. It was expected that the defendant would be released with Leong Lum and Mun You as his bondsmen. A hearing of the case will be had at 10 o'clock next Tuesday afternoon. The law firm of Thompson, Milverton & Goshorn is representing Li.

In the arrest of Dr. Li, Collector Haley and his deputies believe they have taken another step forward in their campaign to wipe out the illicit traffic in cocaine, morphine and other drugs in Honolulu, which campaign began with the taking effect of the Harrison act. When the campaign was begun, it was pointed out today, the drug stores in Honolulu showed monthly sales of narcotics to habitués amounting to \$4000. Today \$100 would cover the monthly sales.

Collector Haley states that the Dr. Li case is only one of several similar cases which may be opened up at any time. He points out that his office is in possession of Dr. Li's records of sales, many of which are alleged to be under fictitious names, and also a prescription for the opium habit. According to Haley, this prescription, when taken by an opium fiend, will transform him into a morphine and cocaine fiend.

In the revenue office's fight against the illicit drug traffic, Haley says that he and his deputies have had the cooperation of the Medical Society and many of the local physicians. As a result of the department's fight illicit cocaine is now selling at \$21 an ounce and the smuggling of the drug also has decreased to a marked extent.

The first charge in the complaint against Dr. Li is that he dispensed 50 grains of cocaine to one Marie (or Maymie) Crystal and to other persons, whose names have not been learned, without keeping a record of such sales. It is also alleged that he sold

BERLIN, Germany, June 28.—A great battle is raging in the Volhynia sector of the southeastern front. There the reinforced Germans have succeeded in checking the onrush of the Russians and are inflicting severe reverses.

The Germans have captured the village of Winiewka, including Russian positions south of there.

The decree ordering the army demobilized has been signed by King Constantine.

GERMAN OFFICIAL CABLEGRAMS

GERMAN HEADQUARTERS, June 28: Western war theater: Fighting activity on the German front is directed toward the west, against the English, and north wing of the French army considerably in the last two days. West of Morthomme hostile night advances failed in artillery machine gun fire. Right of Meuse attacks of very strong forces in the evening against German positions on Ridge Froideterre ended with complete failure for the French. The French were everywhere repulsed, partly in hand-to-hand fighting, within German lines, and suffered great losses.

German air squadrons attacked English camps near Pas, west of Domellens, with bombs.

Eastern war theater: Partial lively artillery activity and some engagements of small detachments took place. Otherwise there is nothing important on the northern part of the front.

Army groups under Gen. von Lin-singen: West of Sokol and near Zature, violent engagements continue, which are successful for the Germans. The number of prisoners taken since June 16 reached 61 officers, 11,097 men. The booty reached 2 cannons, 54 machine guns.

The situation of G. N. Count von Bothmer's army is generally unchanged.

This gives every laborer on the plantation the bonus money for the first two months of labor under the new system. Japanese in Hawaii are very much pleased at the attitude taken by the sugar company.

War Department orders received by mail today at the Hawaiian Department remit the unexecuted sentence of Pvt. Kilgerman. This will enable him to accompany his company to the border on the July transport. Kilgerman has already served a month and a half of a six months' sentence.

HONOLULU AD CLUB LAUDS CYRUS H. K. CURTIS' WORK

(Associated Press by Federal Wireless)
PHILADELPHIA, Pa., June 28.—The Associated Advertising Clubs in convention here today selected St. Louis for the 1917 convention.

Herbert S. Houston was reelected president of the Associated Clubs. Cyrus H. K. Curtis, publisher of the Philadelphia Public Ledger, the Saturday Evening Post, the Ladies' Home Journal and other publications of national and international repute, was lauded today by the Honolulu Ad Club for his activity in boosting for Hawaii.

Through arrangements with the Star-Bulletin, the Ledger is publishing a daily column of Hawaii news for the benefit of Honolulu's advertising the great Ad Club convention in the Quarter City. Mr. Curtis arranged for this service with the Star-Bulletin and through it and in other ways has been a great boomer of Hawaii's attractions since he was here some months ago on a visit.

The Ad Club at its luncheon today unanimously passed the following resolution, which will be wired to the Ledger this afternoon: "Resolved, That the Honolulu Ad Club expresses its appreciation of the splendid service given by Cyrus H. K. Curtis through his Honolulu news in the Philadelphia Public Ledger during the convention of the Associated Advertising Clubs of the World."

Tom Sharp introduced the resolution.

HOSPITALS NOT HOSPITABLE TO LUM TAI CHUN?

When Lum Tai Chun lost four teeth and suffered a severely injured face from a flying sledgehammer in the Pearl Harbor navy yard yesterday and was brought here for medical aid, it is alleged he found various hospitals not in a receptive mood. Finally his brother was located and he was taken to the home on Fort street, near Pau-oo road.

Chun was first taken to the Queen's hospital, but was refused admittance, the police report. Then he was hurried to the emergency hospital, where Police Surgeon R. G. Ayer extracted broken teeth from a smashed gum and administered first aid generally. Then Dr. Ayer ordered him to the government hospital at Fort Shafter because, as he understood, the man was refused at the Queen's hospital.

But Fort Shafter officials declined the injured man's case, says Dr. Ayer, on the grounds that they took no one there other than enlisted men and officers. Dr. Ayer thought because Chun was a government employe that he would be admitted at Fort Shafter, but he was mistaken and had to try again.

"I couldn't keep him in the emergency ward," said the doctor, "for he was not seriously injured although nearly unconscious and hardly able to talk when he came in. I supposed the Queen's hospital people had refused the man on account of their new policy in reference to compensation patients, as published in the Star-Bulletin yesterday. We had a merry time of it for a while but finally delivered him into the hands of his brother, Tai Atung, and he is all right today."

Werner Roehl, superintendent of the Queen's hospital, who has precipitated the crisis in the compensation affair, denied today that any man was turned away from that man's hospital.

"I have made a thorough investigation," he said.

U. S. OCCUPATION OF NOGALES AND SONORA IMMINENT; REPLY BY CARRANZA MAY BE COMING

Telegram From Mexico City Says First Chief May Answer on Demand For Release of Prisoners at Chihuahua

(Associated Press Service by Federal Wireless)
EL PASO, Texas, June 28.—Indications that Mexico has yielded to the United States came late today when news arrived here that Gen. Trevino has ordered the American soldiers interned at Chihuahua City taken to Juarez with their arms and accoutrements and released.

COLUMBUS, N. M., June 28.—Cowboys determined to avenge the murder yesterday of Will Parker and his bride rode across the line into Mexico today in pursuit of the fleeing Mexicans. Complications are feared on account of the critical diplomatic situation.

NEW YORK, N. Y., June 28.—Upon his arrival here today to dine with Charles E. Hughes, Col. Roosevelt found hundreds of letters and telegrams from men offering their services in the volunteer division, which it is reported Roosevelt is preparing to raise in the event of war with Mexico. It is reported that he will command the division with the rank of major-general, if granted a commission. He declined absolutely to discuss this.

It is announced that the Hughes-Roosevelt dinner will be entirely private and that no statement will be forthcoming as a result of it.

(Associated Press Service by Federal Wireless)
WASHINGTON, D. C., June 28.—Officials of the administration regard this as the crucial day in Mexico's relations with the United States.

Developments of today are expected to mean war or peace between the two countries. This is probably the last day the Mexican de facto government will be allowed in which to act upon the peremptory demands of the United States for the release of the American troops taken in the fight at Carrizal and now held in jail at Chihuahua.

Unless Carranza complies with the demand for the release of the 10th Cavalrymen, the president has made it known that he will act. If no reply arrives tonight from the Carranza government, or if the reply that does come is unsatisfactory, the president is determined to go to Congress, probably tomorrow, and ask authority to rescue the men by force of arms. That it is admitted, means war with Mexico.

Anything short of immediate release for the men is declared to be unsatisfactory. Suggestions or proposals that there be mediation or negotiation over this matter of the release of the men will not be accepted, it is declared in high government circles.

The war department believes that it has perfected all arrangements to provide with victuals and clothing and with military equipment all the troops that will be used in the campaign, no matter how many or what disposition is made of them along the border.

One meager development of the day was the receipt of a telegraphic despatch by the state department from Special Agent Rogers in Mexico City. Agent Rogers telegraphed that he expected there would be a reply from Carranza today.

Major Brook Tells His Men to Shoot if Suspicions Are Aroused

(Associated Press Service by Federal Wireless)
NOGALES, Arizona, June 28.—The American occupation of Mexican Nogales and of the state of Sonora looms imminent today when American sentries with guns ready to shoot drove back eight Mexican soldiers who were endeavoring to cross to the American side.

Major William Brooke, who is in command, gave the orders to his men "Drop anybody who acts suspiciously. If a shot comes over the border we will cross after the man that fired it!"

Yale Students Called to Border, Prof. Phelps Hears by Cablegram

(Associated Press Service by Federal Wireless)
COLUMBUS, N. M., June 28.—Officials here are investigating a report, still unverified, that six Mexicans, said to be the murderers of Will Parker and his wife, have been caught on the American side and all killed. The bodies of Parker and his bride were found at their ranch near Hachita, New Mexico, yesterday. A force was put on the trail of the men who had killed them.

Yale college students have been called to the Mexican border. This information was received by cable this morning by Professor William Lyon Phelps of Yale, just before he left in the Matsonia.

The cablegram stated tersely that the government has ordered one battalion of Yale students' voluntary military organization to mobilize at once on the New Haven campus, preparatory to entraining for the Mexican border.

Professor Phelps believes the same call has been sent to other colleges and universities with similar military departments.

Old Eli can throw 3000 physically fit and trained men into the ranks upon short notice and with full equipment, according to Professor Phelps. Millionaire youths, farmer boys, prospective lawyers, scientists, in fact, students from every department of the university who recently quit the classroom for the summer holidays are speeding back to slim-shaded New Haven to don fighting togs. The "bull dogs" have heard the call.

About 200 have been called, according to the cablegram, but other college students are momentarily expecting a demand for more and the slumbering campus has awakened and is seething with excitement that rivals that of the football season before the Harvard game.

Trevino Seizes Railroads and Mountain Trails; Yaquis May Aid

EL PASO, Texas, June 29.—General Trevino, commander of the de facto government's troops in Chihuahua, has completed the redistribution of the forces under his command. He is believed to have between 25,000 and 40,000 men with him, placed in positions threatening the American lines of communications, and blocking the way of the Americans should they attempt to make a move toward the City of Chihuahua.

Most of his men are distributed on the lines of the railroads, and in advantageous positions commanding the main trails and roads. Reinforcements have been sent to him by the Carranza government at the City of Mexico, and despatches from that city last night stated that 40,000 Yaqui Indians have abandoned their ancient quarrel with the Mexican government and aligned themselves with the Mexicans, ready to attack American soldiers as soon as the word is given. General Pershing is reported to have
