

GERMANS SHIFT ARMIES TO REPEL SLAV HORDES

Carranza Diplomacy Wins Point Won't Send Hawaii Guard to Line

HOME DEFENSE IS FIRST FUNCTION, SAYS WASHINGTON

Distance From Border and Expenses of Transportation Are Cited

WON'T BE INCLUDED IN AUTHORIZATION TO WILSON

Special Congressional Action to Provide for Use of State Troops

(Associated Press by Federal Wireless)
EL PASO, Tex., July 6.—The bodies of Capt. Charles T. Boyd, 10th Cavalry, and 1st Lieut. Henry R. Adair, 10th Cavalry, together with those of seven troopers, all victims of the Mexicans in the fight at Carrizal, arrived here today. The bodies were stripped of their uniforms, but not mutilated. Eight of them were found in a ditch where they had been covered with soil. The ninth, a trooper who died of wounds, was a mile from the ditch.

(Associated Press by Federal Wireless)
SACRAMENTO, Cal., July 6.—The authorization from the war department for Capt. Wilson D. Burt of the regular army to take the command of the 2nd California National Guard Regiment came too late, as the regiment had departed. Maj. W. H. White of Ohio will be promoted and take command.

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—Departmental commanders have been authorized by Secretary of War Baker to discharge enlisted men of the militia who have been taken into the federal service and who have one or more dependent relatives.

BY G. S. ALBERT.
(Special Star-Bulletin Correspondence)
WASHINGTON, D. C., June 19.—Because of remote distance, heavy transportation expenses and time required for expeditionary movement, the Hawaiian militia organizations were not invited to participate in guarding the Mexican border. Furthermore, the militia of the territory is regarded more nearly as a local organization, for purely home defense, than any other body in the National Guard. This is the explanation given by the war department officials, following the president's call for mobilization issued to the governor of every state except Nevada, which possesses no defensive organization. The District of Columbia was in the favored class and contemplated turning out a large number of men in proportion to the size of this capital city.

Some officers invite attention to the fact that under the call it is proposed to leave a sort of nucleus in each state, where a portion of the National Guard will be left to perform such duties as may arise. These would include labor troubles, strikes, rioting and the usual class of disturbances that result in the guard being brought into local requisition. In any event, the Hawaiian militia will not see service on the Mexican border at present. The organization might be called out on a subsequent call, but none is in sight. There is no reason to believe the territorial militia will be included in the authorization to be given by Congress for using the segregated forces of the country in Mexico. Under existing laws the militia may not be sent out of the United States.

President Wilson immediately requested that this act be modified so the National Guard could be sent across the border into Mexico. If the troops of Hawaii are not included in this broadening of the statute, the last chance of its members to see active service in Mexico will be gone for the present, at least.

GREAT UNIVERSITY HERE, LEUSCHNER PREDICTS

"Hawaii should have an institution of learning second to none," said Professor Armin Otto Leuschner, dean of the graduate school of the University of California, and a graduate of the University of Michigan, before the members and guests of the University Club at luncheon today.

"Art, literature and science should flourish here, and the beginning that has been made shows that the people of Hawaii are interested in education, but they can go further and work out the principles that have been followed in the march of education. Westward the course of learning wends its way, and it is still marching to the setting sun. California on the western shores of the continent, and Stanford University have become great institutions of learning, and the time will come when Hawaii shall have its own institutions of learning."

WILSON ACCEPTS PROPOSAL TO TALK OUT DIFFERENCES

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—President Wilson will accept Carranza's assurances that the de facto government will safeguard foreign lives and property in Mexico and join the United States in punishing the border bandits. This has been definitely decided. Formal acceptance of Carranza's proposal that the differences between the two countries be settled by direct negotiations will be despatched to Mexico City soon, the president and Secretary Lansing have decided. Lansing leaves on a month's vacation tomorrow. The indications are that the reply to Carranza will start in a few days.

BLAME DRINK AS CAUSE OF DEATH PRIVATE FRANE

Booze Used in Celebrating July Fourth Alleged to Have Caused Troubles

(Special Star-Bulletin Correspondence)
SCHOOLFIELD BARRACKS, July 6.—The death of Private John W. Frane on the evening of July 4 has brought deep gloom to F Battery, 1st P. A., and to the entire field artillery at Schofield. Frane was a young man of 25, from South Bend, Indiana. He transferred a few months ago from the 6th Field Artillery, and was on his second enlistment. Last month he took part in the races at Kapoloni Park, and carried off third prize in the exciting Roman race. He was rated as one of the best athletes in the regiment, and was slated to play shortstop on the regimental baseball team. In spite of his popularity in his battery and regiment, there is deep sympathy for Private James M. Jones, the battery barber of Battery F, who gave Frane a belt with his fist that, without doubt contributed toward his death. It is felt that the direct cause of death, if it were not the direct cause, is the result of their investigation. It is evident, however, that the testimony of eye witnesses is very conflicting and there are many points about the case that can be seen from two angles. Drink induces trouble. Frane was drunk, in fact he was very drunk. He had been celebrating the Fourth with several other members of the battery, in Waikele Gulch, or "Laudry" Gulch as it is commonly called. Booze was the means of celebrating, and booze is the culprit that

DOMINGO REBELS FIGHT, LOSE TO MARINES OF U. S.

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—News arrived here today that 250 revolutionists of Santo Domingo and a detachment of American marines engaged in battle previous to the word having reached the rebels that the disarmament agreement had gone into effect. Twenty-seven Dominicans were killed and five captured, while the American losses were one marine killed and eight wounded.

HAWAIIAN BOARD MAY BRING MAN FROM JAPAN

The Hawaiian Board of Missions, now holding a meeting at Hilo, has appointed a secretarial council, this doing away with the general secretaryship. The following persons compose the council: H. P. Judd, corresponding secretary; Theodore Richards, treasurer; N. C. Schenck, superintendent of the Chinese department; F. S. Scudder, superintendent of the Japanese department, and Akaike Akana, superintendent of the Young People's League. The board has decided to extend an invitation to Merie David, secretary of the Y. M. C. A. at Tokio, Japan, to come to Honolulu to take charge of publicity and Filipino work. movement still further toward the west. "It was a great source of pleasure to me to watch the work that has been done by Thomas A. Jagger, Jr., at the volcano. Hawaii has need for such men, and the research work should be furthered."

ALL GUARDSMEN ARE REQUIRED TO ENLIST AGAIN

New Ruling is Made to Comply With Requirements of Defense Act

All officers of the National Guard of Hawaii must take a new oath of office and all enlisted men must sign a new enlistment contract and subscribe to a new enlistment oath, an order from the militia bureau of the war department, received Wednesday and made public today by National Guard headquarters, requires. This rule affects every National Guard organization in the United States and territories, despite the fact that so far as Hawaii is concerned, both the officers' oaths and enlisted men's contracts contain the dual pledge of allegiance to the territory and the United States. Guard headquarters today mailed to every department and company commander instructions as to the method of procedure required. Prompt compliance is necessary, as no funds appropriated under the National Defense act passed June 3 can be expended on any part of the present organized militia until recognition is extended them under the provisions of the act. There is no substantial difference in the wording of the new oath from the old form but compliance with the rule will nevertheless mean a good deal of work for organization and company commanders, as compliance is absolutely necessary before any enlisted men or officers can receive their pay as provided by the new law. A list of all officers and enlisted men by name will be forwarded to the militia bureau, as it has been requested.

'DEATH AN HOUR' RECORD IN N. Y. IS MAINTAINED

(Associated Press by Federal Wireless)
NEW YORK, N. Y., July 6.—Twenty-four additional deaths from infantile paralysis occurred in Greater New York in the last 24 hours, keeping up the previous day's record of a death an hour. Mayor Mitchell this afternoon instructed the city comptroller to provide \$50,000, to be raised through a bond issue, for the use of the health department in employing nurses and physicians in battling with the disease.

FINE SHOWING MADE AT KAUAI BY MEN OF 4TH INFANTRY, N. G. H.

That the 4th Infantry was mobilized in two hours at Lihue, Kauai, on July 4, is stated in a radio message received at National Guard headquarters late Wednesday from Brig. Gen. Samuel I. Johnson, commanding the National Guard of Hawaii. "The complete regiment of 12 companies, hospital corps and band, was mobilized in two hours," says Gen. Johnson's message, dated July 5. "This is an excellent military achievement. The regimental parade, review, competitive military and athletic events, were all surprisingly good, with the showing of the 4th Infantry, and predicts that it will soon be one of the crack regiments of the group. The greatest crowd in the history of Kauai attended the July Fourth celebration. Weather was ideal. The governor banquets the National Guard officers of Kauai tomorrow evening."

SUNDRY CIVIL BILL GOING ALONG WITH \$128,299,284

(Associated Press by Federal Wireless)
WASHINGTON, D. C., July 6.—The sundry civil bill, carrying the big sum of \$128,299,284, has been agreed upon by the house and senate conferees. It is expected to be approved by the house and senate today, as no obstacle to its passage is now in sight. An amendment to the bill provides that the appropriation for the new government powder factory may be used for the purchase or construction of a plant, or for the enlargement of one now owned by the government.

HIGH HONOR TO BE PAID TO K-8 AND CREW ALSO

Coveted "E" is Believed Won and Division Trophy is Thought Retained

Officers Waiting for Notification

Highest honors awarded any submarine in the United States navy, the coveted "E," given each year to the undersea raider making the best score in torpedo practice, will probably go to the K-8 of the third submarine division, Pacific fleet, stationed at Pearl Harbor, it was learned today from an authoritative source. Last year the third division won the division trophy, but not the individual. This year as a result of last month's torpedo practice off Lahaina, Maui, they have retained the former trophy, and comparison of the 1916 records made by each submarine of each division, so far as obtainable here, makes it practically certain that the K-8 has won the individual trophy, earning the right to paint "E" in white on her bow, denoting the highest efficiency attained by any submarine in the American navy during 1916. Formal notification from the navy department that the K-8 has won the individual trophy, is being awaited by officers of the third division. The letter "E," token of this trophy, means "excellent," and accompanying it will be a pennant and a cash prize, amounting, it is said, to about \$20 for every man in the submarine's crew. According to the Navy Directory of May 1, there are eight divisions, four with the Atlantic fleet, three with the Pacific fleet (of which the third division, stationed here, is a unit) and one, consisting of nine submarines, with the Asiatic fleet. The third submarine division of the Pacific fleet, stationed at Pearl Harbor, consists of the K-3, K-4, K-7, and K-8. Other boats of the K type are in the fourth division of the Atlantic fleet, which has the K-1, K-2, K-5 and K-6. The first submarine division of the Pacific fleet consists of the F-1, F-2, and F-3, now "in ordinary" at Mare Island, undergoing repairs. They are sister-ships of the ill-fated F-4 and were formerly stationed here. Commanding the K-8 is Lieut. J. W. Lewis. His assistant is Ensign C. B. Byrne. Commanding the third division is Lieut.-Comdr. Thomas C. Hart.

NEARLY 300 DIE IN SICILY MINES

Aftermath of Stromboli Outbreak is Severe Earthquakes at Caltanissetta

(Associated Press by Federal Wireless)
ROME, Italy, July 6.—Following the outbreak of the volcano of Stromboli early yesterday there was a severe earthquake at Caltanissetta, Sicily, today. Nearly 300 men at work in the sulphur mines there were entombed by cave-ins or otherwise killed.

BRITISH DRIVE CHECKED, SAYS BERLIN DESPATCH

Germans Beginning to Take Prisoners, Asserts Official Cablegram

HEAVY FIGHTING IN EAST, RESULT IN DOUBT

Britain's offensive on the west is checked and the Germans are beginning to take prisoners, according to the official Berlin cablegram for yesterday, received this morning. It says: "GERMAN HEADQUARTERS, July 5.—From the east up to Ancre, only artillery and mine-throwers are in activity, besides small reconnoitering combats. "During the last few days 48 officers, 1867 un wounded British soldiers were prisoners on the right bank of the Ancre. On both sides of Somme since yesterday evening fresh, heavy combats were engaged in, the enemy nowhere gaining serious advantages. "West Meuse: The French again attacked with strong forces, but without success attempted to advance against our positions northwest of Thiaumont. "East front: The Courland coast shelled without effect from sea. "Hindenburg army: The enemy continued enterprises against this front, especially on both sides of the Smorgon. German air squadrons copiously bombed railroad and troop concentrations vicinity of Minsk. "Prince Leopold's army: Russians resumed activity on the Ziria front, until south of Baranowitsch, being repulsed in very tenacious hand-to-hand fighting or ejected from places where they penetrated defenses. The enemy suffered heaviest losses. "Linsingen's army: Both sides of Kostuchnowka and northwest of Czartorysk and northwest of Koliki combats engaged in. Russian detachments which crossed the Styr west of Koliki were attacked. At many places north and west and southwest of Luck, to the district of Werben and northwest of Berestekko all the enemy's attempts undertaken with strong forces, in order to reconquer advantages obtained by us, failed. Besides heavy bloody Russian losses we captured 11 officers and 1139 men. "Our flyers attacked railroad and troop concentrations in Luck. "Bothmer's army: South of Baryas the enemy temporarily obtained footing in one small track in first line. Our success southeast of Tlancz was extended."

MAY AGAIN MENACE LEMBERG; HARD FIGHTING ON THE WEST

Contradictory Reports From Allies and Teutons—German Submarines Get Victims—Paris Claims Success on Somme

(Associated Press Service by Federal Wireless)
BERLIN, Germany, July 6.—After the Russian attacks on the positions taken up by Gen. Count von Bothmer's army in Galicia had been repulsed, the Teutonic armies were started to shifting in order to reinforce the neighboring sectors, where the Slavs are continuing the attempted offensive. In the section between Ancre and the Somme, on the west, the heavy fighting continues today. Minor progress has been made by the British near Thiepval, but it is balanced by German counter attacks. Further south the British obtained a footing in an advanced trench salient. The Germans have evacuated the village of Hem. The French have captured Belle-en-Santerre, southwest of Peronne.

PETROGRAD, Russia, July 6.—More than 10,000 Tautons have been captured in recent fighting, half of whom were taken on the Dnieper front. (Associated Press Service by Federal Wireless)
LONDON, England, July 6.—Great advances made by the Russians on the east during the last few weeks are bringing the Czar's armies down again on that part of Galicia which leads to Lemberg. Furthermore, the latest reports show that with the weather favorable the Slavs have taken the offensive on the entire eastern front. Petrograd despatches today report successes, all the way from Riga to the Carpathians, and there are rumors that the Russians have penetrated some of the Carpathian passes and are working down into the plains of Hungary, close to the Rumanian frontier. In the Galician country beyond the river Strypa the Russians have crossed the railway between Delatyn and Korosmezo and have captured Mokoupczine. Their progress here is so steady that it is believed the Austrians may withdraw towards Lemberg, thus fighting over the ground won many months ago, after Franz Josef's soldiers had dislodged the captors of the Lemberg fortress.

Attacks on West Front Today Thrown Back, Germany Declares

(Associated Press Service by Federal Wireless)
BERLIN, Germany, July 6.—Both on the French and British fronts today numerous attempts of the Allies to take the offensive were met with such determined resistance that the attacking parties were broken down and annihilated or forced to give back under heavy losses. The French made a stiff attempt southwest of the fort position of Vaux, on the Verdun line, to advance but were repulsed. An endeavor to recapture the Dambloup Hill battery was equally unsuccessful. From the Aisne district the French made a strong effort to rush the German lines northwest of Rheims, but were thrown back with serious losses.

Fighting Around Hem, Says Paris; Verdun Cathedral Under Hot Fire

(Associated Press Service by Federal Wireless)
PARIS, France, July 6.—The Germans today succeeded in capturing two small pieces of woods north of Hem. The French also took a wood which had been the center of sharp fighting. No infantry attacks occurred today at Verdun. The Germans today are attempting to bombard the Verdun cathedral, many of their shells passing close to the famous towers.

British Claim Steady If Slight Advance Marks Day's Results

(Associated Press Service by Federal Wireless)
LONDON, England, July 6.—Near Thiepval, on the part of the western front where the British have taken the offensive, the British soldiers today made a further slight advance. A number of prisoners were taken. Having captured the whole German second line south of the river Somme to Bellow, the French have resumed activity today on the north. They have cleared the bank almost to Clerly and established themselves at Sormont farm. Here they threaten Clerly. Along a line from Hardicourt to Commeourt the British are heavily engaged today, the Germans making a strong resistance.

German Submarines Operating; One Gets Back From Spain Port

(Associated Press Service by Federal Wireless)
BERLIN, Germany, July 6.—Two special successes of German submarines were announced today. An enemy destroyer operating in the North Sea was attacked and sunk by a German submarine, and another German submarine, returning from Cartagena, Spain, sank the armed French steamship Herault. It seems likely that this latter submarine is the one reported a few days ago as having reached Cartagena with a letter from the kaiser to King Alfonso of Spain.

AUCTION OF Q. M. C. GOODS YIELDS \$1031

A total of \$1,031.87 was realized this afternoon when the auction sale of condemned equipment and livestock of the Quartermaster Corps, U. S. A., had finished. The auction was conducted by the James F. Morgan Company, with E. L. Schwartzberg as auctioneer. There were 13 horses and two mules auctioned, the returns from them averaging \$89 each. Harness, carts and other condemned equipment also went on the block. It should be judged and marked. Another meeting will be held tomorrow morning.

FOSTER L. DAVIS TAKES PASSAGE ON TRANSPORT THOMAS ON WEDNESDAY

Foster L. Davis, former clerk of the U. S. court, left for San Francisco in the transport Thomas Wednesday evening. According to a brother, Davis intends to go into business in the coast city, and may remain there for about two years. Davis was indicted on a charge of irregularities in the business of his office, but was exonerated in a decision from Judge W. W. Morrow of the court of appeals of the fifth circuit. The government has appealed the decision.
