RUMOR GOULDS TO PURCHASE A PART OF IRWIN ESTATE

Report of Plan to Build Handsome Residence at Waikiki Is Denied

Grounds Often Said to Be Site for Hotel

Crocker's Now Opening Beautiful Home Annually, On Summer Trips Here

A report from apparently good authority reached the Star-Bulletin today that Mr. and Mrs. Jay Gould are planning to establish a handsome home at Waikiki, and that they hope to purchase half of the beautiful Irwin estate east of the Moana Hotel. When the report was referred to Mr. Gould, he said, "There is absolutely nothing to it."

The same report had, however, been heard by one or two businessmen and given credence, though it was understood that no deal had been closed.

It is reported that Mr. and Mrs. Templeton Crocker, who have been much with the Goulds since the latter arrived from New York, had joined with friendly interest in the plan. Mrs. Crocker was Helene Irwin.

The project, it was also said, definitely does away with any plan for selling the Irwin property with its handsome, ancestral home, one of the interesting sights of Honolulu to visitors along the beach.

That this property could not figure in any plans for a new hotel site is understood to have been learned while James Woods, the St. Francis hotel manager, and others were canvassing the situation here, on the lookout for available grounds for a beach hotel. For years past there have been frequent rumors that the Irwin property would be disposed of to hotel promoters and on at least one occasion a local real estate man went to the coast to see the late W. G. Irwin in an effort to get an option. Upon his return he said that the price at which Mr. Irwin had the property was beyond his reach.

Mr. and Mrs. Crocker now visit here each summer, opening the fine home during their stay.

SPECIAL PAY TO BE GIVEN THOSE IN BORDER WORK

Senator Reed's Amendment Providing for "Foreign Service" Rating Is Adopted

WASHINGTON, D. C., July 26.—The senate today adopted an important amendment to the army bill offered by Senator Reed of Missouri, providing that guardsmen and regulars on the Mexican border receive foreign service pay, even though they are on duty on the American side.

During the debate on the appropriation bill today, Senator Works of California charged that guardsmen on the border are there on account of politics. The charge was contradicted by Senator Reed, who said that if the guardsmen are withdrawn the lack of protecting forces might result in raids of Mexicans across the line.

"A submarine attacked a small British auxiliary but did not hit it."

MOILLILI MAY GET MUCH-NEEDED PARK
Moillili stands a good chance of being provided with much-needed park and playground reservations. At last night's meeting of the supervisors Logan announced that Land Commissioner Rivenburgh had promised to endeavor to secure for that section two pieces of land for park and playground purposes. One of the lots is adjacent to the church premises, and the other a portion of public domain near the girls' industrial school. In moving that the matter be referred to the committee on schools, parks and playgrounds, which carried unanimously, Logan spoke of the great need of recreation places for the Moillili children. He said that the new bungalows on the school grounds took up so much space that but little room was left for games, also that playing on the road by the youngsters had cost at least one young life within the last few years.

FOREST RESERVE AT ROUND TOP IS DECIDED UPON

Forestry Board Recommends To Governor Whole Area Be Set Aside

Round Top, all of it, is to be a public park. The board of agriculture and forestry at a short meeting this morning recommended to the governor that this entire tract of government land be set aside as a forest reserve. No mention was made of the suggestion of A. L. C. Atkinson, one of the members of the board, to open homestead lots on the lower end of the tract. He was in court, unable to be present.

The governor requested the board to take this action, so it is deemed certain that he will comply with the request. After he has signed the executive order setting aside the land a public meeting will be held and the public given a chance to file protests, if there are none the land will be turned over to the board and administered by it.

Round Top will not legally be a park, for all public parks are under the jurisdiction of the municipal government. But the forestry board has promised to plant trees on its sandy soil, and if funds are donated for its further beautification to administer them.

Round Top was first proposed as a public park over a year ago, but it was not until the spring when the Ad Club took the matter in hand that public sentiment crystallized on the project. After a number of discussions the club held a Sunday morning picnic on the site, in April, and the

WOODS' REPORT TO BE FAVORABLE TO HOTEL PROJECT

St. Francis Manager Says the Start Depends on Transportation and Good Roads

Favorable recommendations to maintain capitalists upon a large hotel project for Honolulu, and the selection of two Honolulu men as directors for the big company to be formed, are indications that James Woods, St. Francis hotel manager, has found his visit to Hawaii not only pleasant but important from a business standpoint.

In the most definite statement made since coming here, Mr. Woods told the Star-Bulletin this morning that his report will be favorable.

The news that he had selected two men here for directors was learned after he had left—learned on good authority. Businessmen with whom he has talked say that within 10 days after he reaches the coast they expect to hear that his recommendations have been accepted or rejected by the capitalists he represents. They consider that the situation is bright for the formation of a large company. They also think that if his recommendations are followed a site will be selected along Waikiki beach east of the Moana hotel.

James Woods' recommendation to the interests he represents in California will be generally favorable to embarking in some hotel enterprise here. Woods made this statement shortly before leaving today in the Matsonia. He has surveyed the whole field and declares Honolulu's opportunities are unlimited.

A Star-Bulletin representative put a few point-blank questions to Woods

Coast-Hawaii Port Exams to Be Lifted Now

American Vessels Exempted From Medical Examination and Quarantine Inspection, New Order

(Associated Press by Federal Wireless)
SAN FRANCISCO, Cal., July 26.—American and Hawaiian ports are relieved of the necessity of quarantine stoppage and doctors' examinations, by order from Washington received today.

Dr. F. E. Trotter, surgeon commanding the U. S. Public Health Service here, had not heard of the order when the Star-Bulletin at noon gave him the news printed above. It is conjectured that he will shortly receive notification of the new order.

The suggestion that the U. S. health service examination of vessels between Pacific coast ports and Hawaiian ports be abrogated has been made several times in the last few years. Some months ago it was revived at a meeting of the Hawaii Promotion Committee. The committee talked over the matter and decided to abide by the recommendations of the U. S. health service officials here and the territorial board of health. Dr. J. S. B. Pratt, president of the board, opposed the lifting of the quarantine examination plan, on the ground that every precaution to safeguard the health of the territory should be observed. Dr. Trotter's recommendation was also against doing away with the examinations. He opposes the abrogation of these safeguards.

It was supposed until the receipt of the news above that the agitation had been ended.

With this new order in effect, the work of the local office of the U. S. service will be cut about in half.

An arrangement for inspection of vessels with the doctors' examinations of the vessels would be saved delay and passengers saved inconvenience.

McCLURE REFUSED STAY IN ENGLAND

American Publisher Must Return on Steamer Philadelphia—Reason for British Action Not Given

(Associated Press by Federal Wireless)
LONDON, Eng., July 26.—S. S. McClure, the noted American publisher, who was refused landing at Liverpool when he arrived on the liner Philadelphia, must return to the United States Saturday on the same steamer, British officials have decided. The home office has refused to grant him a permit to remain here.

McClure was released from the liner after representations had been made by the American embassy in London. Why he is refused permission to stay in England is not stated. McClure visited Germany last winter and on his return to the United States wrote articles in which he said some things in praise of the Germans. This may have had something to do with the attitude of the British government.

RUSSIANS CAPTURE ERZINGAN; ARMENIA CLEARED OF TURKS; BRITISH NOW HOLD POZIERES

VON HINDENBURG'S SLASHING ATTACK NEARLY CUTS SLAV LINES, PETROGRAD ADMITS, BUT GENERAL'S ARMY IS FINALLY REPULSED—GERMANY DOES NOT ADMIT VON LINSINGEN'S REVERSE IS SERIOUS

(Associated Press Service by Federal Wireless)
WASHINGTON, D. C., July 26.—With the German submarine Deutschland apparently ready to make her dash for the open sea from Baltimore, the British patrol is planning to intercept the craft. An official report today to the U. S. navy department tells of the entry of a British cruiser in lower Chesapeake Bay. Secretary Daniels has ordered the cruiser North Carolina for "neutrality duty" off the Virginia Capes.

BALTIMORE, Md., July 26.—Capt. Koenig today secured clearance papers for the Deutschland. He requested of the customs authorities that his manifest be withheld from publication "for a reasonable time." Koenig told local pilots today: "The time of our departure is definite."

PETROGRAD, Russia, July 26.—Pressing forward through Armenia, west of the Lake Van region and far south of Trebizond, the Russians have added another to the chain of Turkish strongholds that have fallen to their new offensive.

Erzingan, in Central Armenia, has been captured by the Slav forces directed from the Caucasus by Grand Duke Nicolaievitch. With the capture of this fortress, the Turks have been cleared from Armenia, the generals of the Russian armies in this region report. Congratulations have been sent by the Czar to Gen. Udenitchin, who led the victorious force against Erzingan.

Russians Press Forward on East; Von Hindenburg's Coup Just Fails

(Associated Press Service by Federal Wireless)
PETROGRAD, Russia, July 26.—The Russians on the east front are gaining further successes. They are continuing their drive in southern Volhynia, pressing back the Teutons near the Slonevka river. Great losses have been inflicted upon the retreating forces.

A serious reverse was very nearly sustained by the right wing of the Russian army which is campaigning in the Riga region. Gen. von Hindenburg's army made a sudden, slashing attack near Kemmern, Riga, and nearly succeeded in penetrating the Russian front line, but was finally compelled to retreat. More than 4000 prisoners were taken by the Russians before the German force extricated itself.

In the region of the Slonevka river the Russians inflicted great losses upon the retreating Teutons.

British Capture Pozieres; Now Dominate New German Trench-Line

LONDON, Eng., July 26.—Gen. Sir Douglas Haig, commanding the British offensive campaign in France, has succeeded in capturing Pozieres, the disputed point on the west where the Germans and British have been fighting for days. The capture of this point gives the British domination of the highest hill overlooking the plateau where the Germans have established themselves in fortified lines.

The West Territorials advanced against the Germans, capturing two trenches.

BERLIN, Germany, July 26.—The British have established themselves at Pozieres. East of Fouraux wood and near Longueval, British attacks have been repulsed.

Civilians of Ghent Executed For "War Treason" Says Reuter's

LONDON, Eng., July 26.—A Reuter's despatch reports that six civilians have been executed by the Germans at Ghent, Belgium, for "war treason." The same agency has a despatch saying that 7000 men and 2000 women have been taken by the Germans from Roubaix, department of Nord, France, to Germany for use in agriculture.

LONDON, Eng., July 26.—A despatch from Algiers says that the British steamer Olive has been sunk, but without casualties.

German Official Statement Does Not Admit Reverse to Linsingen

Official German cable news received today does not admit that the cutting of von Linsingen's line on the east, reported yesterday, is a serious reverse for the Teuton cause. Other details of land fighting are also declared not unfavorable to Germany. The despatch says:

"GERMAN HEADQUARTERS, July 26.—After the failure of a British attack on July 23, the Anglo-French forces made a decisive thrust against Pozieres and Maurepas.

"The attack mostly broke down in fire at separate places after hard hand-to-hand fighting east of Pozieres, near Fouraux wood, and near Longueval and Collemont.

"Again Brandenburg's grenadiers and the gallant Saxon 104th Reserve Regiment distinguished themselves. South of Somme, simultaneous strong French forces stormed the district of Estrees Soyecourt. The enemy temporarily gained terrain south of Estrees, but the attack broke down under the heavy enemy losses. In the Meuse sector temporary violent artillery duels took place.

"West of Meuse, insignificant hand grenade combats are going on.

"East of Meuse the enemy's attempts to reconquer the Froid de Terre slope were frustrated in certain fire. North of Balachweller a German patrol brought in 30 prisoners from French positions.

"Lieut. Baldamus, south of Binareville, shot down a French biplane, which is the fourth aeroplane disabled by him.

"On east front feeble Russian detachments southeast of Riga and patrols on Duena were repulsed.

"Linsingen's army front: The enemy's attacks on Slonevka front, south of Beresteczek, reached the first line on a small breadth. West of Burkanov a Russian aeroplane was shot down in an air combat."

The following report from the German admiralty, announced in Berlin, reached here by official German cablegram today:

"On the afternoon of July 24 a German submarine brought down by fire at sea a British biplane. The inmates, two officers, were imprisoned by a German aeroplane. They were then transported, together with the enemy's aeroplane, to Zeorugge on board a torpedo boat."
