## The Purpose of a Bit Brace

The first purpose of a bit brace is to hold a bit, but its final purpose is to bore a hole, accurately and quickly, with the least expenditure of time and effort.

See Our **MILLER'S FALLS TOOLS** Window

Any bit brace will hold a bit, but if you have fine work to do or a lot of holes to bore—if you want to save time and labor—you need a good brace—a Miller's Falls tool.

If you are interested in good tools of any kind, let us show you what we have.

## BOARD MEETING TONIGHT TO BE LIVELY AFFAIR

Discussion Over Pearl City School Trouble Will Be Principal Feature

The meeting of the board of supervisors this evening in assembly hall should be a very lively affair, with several important matters coming up for discussion and a large number of spectators are expected to be present. Injunctions are being served today on the members of the board by the city attorney's office and what will be done in regard to the matter relative to obtaining legal advice and counsel to represent them in the fight will be watched with keen interest. The injunction is to stop the building of a school bungalow at Pearl City, for which the board has appropriated \$550 out of the Central Grammar school fund and which the city attorney declares is illegal. Of the seven supervisors, Robert Horner is the only one who believes that the attorney's office is correct in its stand, but the rest are up in arms and before the matter is finally settled in the court an exciting fight is anticipated.

The supervisors are making their fight on Section 8 of the revised laws, which was introduced by C. H. Cooke at the last session of the legislature, which states that the board of supervisors, with the approval of the superintendent of public instruction, may reappropriate balances from one special fund to another and around the wording of this section the case is expected to center.

**King Street Extension Up**  
Other business which will come before the board will be the passing of the assessment roll for the King street extension project over which no trouble is anticipated, the pay roll and general expenses of the city, and the petitions from A. E. Arleigh & Co. and Wall, Nichols Company for placing news carts on the streets of Honolulu.

A. M. Cristy, deputy city attorney, is drafting a new deed to the Liliuokalani Garden, which will be presented this evening. The mayor and board have already accepted one deed to the property, but the Civic Federation, which is giving the land, has requested that a new clause be inserted stating that the garden be kept in good condition or the land revert to its former owner. The restriction was in the first deed of three lots of the gardens, but not on the other five. The board will also take up the question of reducing the meter water rates from 6½ cents to 5 cents.

## PROMOTION COMMITTEE HAS MANY MATTERS TO CONSIDER AT MEETING

Members of the Hawaii Promotion Committee were to meet this afternoon at 3:30 o'clock in the Chamber of Commerce rooms for the first time in two months. A number of the members have been to the mainland and this meeting has been called to hear the reports from those who have recently returned.

W. D. Adams, one of the committee, will tell of the growth of publicity on Hawaii. According to Adams, Hawaiian music has played a great part in promotion work and he will explain some of the special features at the meeting today.

Wade Warren Thayer will be present at the meeting and will discuss the proposition of restocking the tanks with Hawaiian fish in the Hawaii building at the old San Francisco exposition grounds. The colored fish have proved to be a popular feature, and Thayer will explain the work that the Preservation League has been doing in regard to continuing this feature.

Chairman Emil Berndt will leave for the mainland on the Wilhelmina next week.

## LANE BE NAMED PAUL, NOT LIKO, IS REQUEST

A petition signed by Mrs. Harrie Paul Paes and 37 other residents of Pauoa district to the mayor and board of supervisors asking that a lane running off Pauoa lane be named Paul lane and not Liko lane, as another petition has requested, has been received by the county clerk. The petition states that the signers of the other petition are not all residents of the lane in question.

## BUILDING PERMITS.

J. P. Medeiros, owner; dwelling and garage, Makiki Heights; architect, R. W. Keen; builder, Sanko Co. Cost, \$6277.

## A Perfect Complexion

Your social duties demand that you look your best at all times and that your appearance be in good taste. Ladies of Society for nearly three-quarters of a century have used

## CHEMISTS OF HAWAII PREPARE FOR MEETING

Library of Hawaii to Be Scene of Many Interesting Papers on Sugar Growing

The annual meeting of the Hawaiian Chemists' Association will be held in Honolulu at the Library of Hawaii October 11 and 12 and interesting sessions are being planned by the committees in charge.

During these two days a large number of papers will be read relative to the growing of sugar and those who will have special reports to present and their subjects are as follows: G. H. Halden, "Field Distribution of Yield;" A. Gartley, "Fireproof Eticlenov;" W. K. Orth, "Evaporation and Boiling;" A. Kraftt and William Searby, "Milling;" W. R. McAllen, "Progress of Glucose Determination;" Horace Johnson, "Clarification and Filtering;" J. H. Pratt, "Curing and Marketing;" P. S. Burgess, "Agricultural Chemistry;" and S. S. Peck, "General Topics."

In addition, several important subjects will be considered in other special reports, such as "Refining Value of Hawaiian Sugar," which will receive special attention, and members not under assignment are also invited to present papers on subjects not included in the committee reports. As the Hawaiian Engineering Association meets the same week, October 8 to 10, members of this association are especially invited and urged to attend and join in the discussion of that convention and the engineers are requested to visit the chemists' meetings.

Among the various business matters which will come up before the meeting will be an amendment to the by-laws to increase the annual dues to \$3.

Prof. H. S. Walker of the College of Hawaii is chairman of the entertainment committee and is planning a number of interesting features. Tuesday afternoon, October 10, the Chemist "Tigers" will take on the Engineer "Sluggers" at Moili'i Field for a baseball game. There is keen rivalry between these two clans and a royal battle is anticipated. Wednesday evening at the Commercial Club a banquet will be held with the engineers and after the banquet a number of vaudeville "stunts" will be put on.

## BUSINESS KEEPS A. W. EAMES OUT OF HOUSE RACE

Alfred W. Eames, well known young Republican, and a member of the Wahlawa precinct, fifth district, has decided to withdraw from the race for the lower house of the next legislature. He wrote a letter yesterday to Territorial Secretary Thayer notifying him of his withdrawal.

Unexpected pressure of private business has made it impossible for him to continue in the race. He may have to go to the coast shortly and it is possible that he will not be able to be in Honolulu during the 1917 session, as his pineapple business is absorbing more time than he expected would be the case this fall.

Eames is popular with all elements of the party and the leaders are sorry he is forced to quit the race.

## SOUTH AFRICA SEEKS ALGAROA BEANS FROM HAWAII IN QUANTITIES

Hawaii's algaroba beans are becoming famous the world over, and numerous inquiries have been received lately by the Hawaii Promotion Committee from distant countries, and particularly Australia and New Zealand. A letter received yesterday by the committee from Graaf Rienet, South Africa, indicates that a field is there for the introduction of the Hawaiian algaroba.

This is the second letter within a week received from South Africa by the committee making inquiry concerning the algaroba bean. The inquiry from Graaf Rienet is made on the letter head of the African Banking Corporation. The bank states that it has a client who is extremely anxious to import these beans and would like to have a heavy shipment of the same forwarded at once.

A similar letter was received in the same mail from a Pretoria, South Africa, firm, asking for a like amount of beans. In the past year 25 or 30 inquiries have been received from Australia and South Africa.

## PHYSICAL CULTURE PROVES ATTRACTIVE

Members of the classes in the physical department at the Y. W. C. A. have started their work for the year under the instruction of Miss Leonard Anderson, physical director. More than 50 have enrolled to date, which is the high water mark at this time of the year.

Special attention is being paid to the classes for children, and inasmuch as this phase of the work was popular last year, it is expected that a large number will be in attendance. Miss Reeper, the swimming instructor, will arrive from the mainland on October 3 and classes in her department will begin immediately after her arrival.
