PRICE FIVE CENTS

BRYCE WARNS BRITISH AGAINST "TRADE WAR" ON GERMANS

Striking Mob Cows Police, Seizes Cars With Laborers

SHERIFF'S MEN POWERLESS, SEE BOLD ACT DONE

Resistance to Excited Crowd of Men and Boys Would Have Led to Pitched Battle, Says Rose, Admitting His Officers Unable to Protect Strike-Breakers From Molestation

SHIPPERS HAVE PLENTY OF MEN AT WORK TODAY

Organizing to Give Them Lodging on Docks; More Labor Than They Can Use at Existing Scale of Wages, They Say, and Declare Vessels Will Be Despatched on Time

Lawlessness among the striking waterfront and their sympathizers reached a new height early this morning when a mob estimated to number 1000 men and boys interfered with Oahu railway cars taking strikebreakers to the docks by the railroad tracks.

One car was switched off to a siding under intimidation of the strikers but later picked up by the engine and taken on. Another was not only seized but held so defiantly that in order to avoid trouble, the police allowed it to be taken back to the O. R. & L. station and so far as can be learned, after it was opened and the frightened strikebreakers emerged, none of them got to their employment on the docks.

Reports were first that both cars had been taken down the O. R. & L. line to a point in the Kalihi section and there the strikebreakers told to "beat it" but this proved incorrect, according to the emphatic statement at the police station at noon. Police officials say that but one of the two cars seized was actually kept from reaching the dock.

Sheriff Rose's men were unable to control the situation and the strikers admittedly took the upper hand. The sheriff says that if his men had used force there would have been a general melee and a pitched battle with the strikers and their gangs of followers.

This was the most sensational development in a day which otherwise showed the employers as very obviously winning in their determination to "move the freight."

By organized effort and resolute assistance, the shippers are now securing laborers in large quantities. Many are coming from down the country, and it is understood that it was the carloads of these, reaching the city early today, that gave the strikers the opportunity to overawe the police.

The Star-Bulletin was informed today by shippers that they are getting as many men as they can use and plenty to spare, and a trip to the wharves bore out this statement.

"We have the strike virtually beaten right now," said an employer this morning. "We have plenty of men and we are paying them the existing scale of waterfront wages. We are moving freight and despatching the vessels and in another day or two it will be obvious that the strikers cannot win."

The Star-Bulletin also finds a disposition to meet the waterfront men fairly in the matter of an increase of wages, but the employers have no intention of dealing with the strikers through union organization led by any paid agitator.

It is very probable that events will so shape themselves in the next 24 hours that the issue of a wage increase will be partly or wholly solved, but meanwhile the shippers are getting their labor, and if a wage increase is granted, stevedores who have taken the extreme attitude of refusing to go back to work until their demands are granted will find that the waterfront has an abundance of men to do the work.

NEW YORK STOCK MARKET TODAY

Following are the closing prices of stocks on the New York market today, sent by the Associated Press over the Federal Wireless:

SAN FRANCISCO, Oct. 2.—Sugar: 36 deg. test, 5.93 cents. Previous quotation, 5.83 cents.

YOUNG AMERICAN, SON OF OFFICER HERE, AT FRONT

Maj. Donald McRae Cables His Father, Adjutant Hawaiian Dept., of His Move

A short, terse, cablegram, "Going to the front," signed "Don," just received by Col. J. H. McRae, adjutant of the Hawaiian department, conveyed the news to his family that Maj. Donald McRae, 23rd Battalion of British Infantry, has left England for "somewhere in France," and is now actively engaged in the first British attacks that have characterized the fighting on the western front during the past few days.

Maj. McRae has had very rapid promotion since his arrival in Canada in January of this year, when he enlisted as a private in the American Legion, which was being organized there at that time.

Leaving his studies at the Massachusetts Institute of Technology, where he would have graduated in June in the mining engineer's course, Donald went to Toronto, Canada, where he enlisted as a private. Three years at West Point had fitted him

PRODUCTION OF OLAA TO MONDAY IS 21,428 TONS

Mill Has Three Days to Grind to Complete Work; Prices Received Are Good

With three days to grind the production of Oloa Sugar Company is 21,428 tons for the 1916 crop. These are the figures that were given members of the stock exchange this morning. They were compiled as of Monday, and the grinding is to finish it is expected Wednesday. Brokers estimate that the extra grind from the date of completion of figures will add about 300 tons to the figures given and that the final figures for the year will be very close to 21,750 tons.

Considerable interest has attached to the probable final figures of the Oloa crop. There was a considerable reduction from original figures made and then a further reduction of 500 tons in a still later estimate. The figures given above are somewhat in excess of the last reduced estimate. It is further said among the stock brokers that the prices being obtained for Oloa shipments are considerably higher than the price upon which estimates of earnings have been based and that therefore earnings will not be affected to the extent that some had feared.

WORLD'S SERIES WILL START ON SATURDAY; PHILLIES LOSE

BROOKLYN, N. Y., Oct. 3.—Brooklyn wins the National League pennant. Brooklyn won from New York today and Philadelphia dropped the second game to Boston, 6 to 1.

NEW YORK, N. Y., Oct. 3.—The National Commission has decided that the first game of the world's series will be played at the Polo grounds in this city on Saturday afternoon. The second contest will be played in Boston on Monday, and the third and fourth either Philadelphia or Brooklyn Tuesday and Wednesday, the latter arrangements depending on who wins the national pennant.

LIGHT QUESTION IS CONSIDERED BY COMMISSION

Whether Gas Company is Supplying Street Illumination is Point of Interest

When is a street light not a street light? In an effort to solve this question for the public utilities commission, Senator James L. Coke, attorney, and Commissioner W. T. Carden have arranged to walk the downtown streets tonight on a journey of investigation.

Lights kept up by the Honolulu Gas Company, Ltd., are to be the subject of study, for upon the decision of the utilities commission may hinge the question of whether or not the Gas Company will be asked to furnish free 50 street lights for the city of Honolulu.

Carden has already rendered an opinion on the status of the lights. In July of last year, acting as deputy attorney-general, he filed an opinion that "if the company is engaged in furnishing illuminating gas for lighting sidewalks even though the light furnished is supplied from some other contrivance rather than a lamp post, the company would, under the terms of Section 908, Revised Laws of Hawaii, be liable to furnish free, the street lights provided for in Section 905.

At the conclusion of the opinion Carden passed the "ball" up to the commission by stating that the question of whether the gas company is thus engaged is for the commission itself to decide.

Carden, at the time of filing the opinion, was not a member of the utilities commission. He was acting then in his office as territorial attorney. When the question came up for discussion yesterday afternoon, however, he expressed the belief that so long as lights are outside of windows and over sidewalks they are lighting streets.

Chairman Forbes had already voiced the opinion in his report that these lights are merely used for advertising purposes or for lighting windows, and as long as they are under awnings they are not street lights.

Attorney Coke's letter to the commission, which was read at the meeting, referred to the opinion rendered by Carden as deputy attorney-general, and concluded:

"I beg to say that an opinion upon this subject was rendered to your commission on July 1, 1916, by W. T. Carden, Esq., deputy attorney-general, which opinion was approved by I. M. Stainback, Esq., attorney-general. This opinion construes the question of law involved and of course leaves the question of fact involved to be determined by the commission.

"It appears from the report before me that the Gas Company is not lighting the streets, roads, or other places designated in Section 908 and defined in the opinion of Mr. Carden. If I am correct in assuming that your commission so finds, then the liability to furnish free 50 street lights has not been incurred by the Gas Company.

Coke Has Own Opinion

The contention of the company's attorneys has been that so long as lights are not on poles they are not properly street lights. This contention is borne out personally by Senator Coke. The section says in part: "Said W. W. Dimond shall also have the right to erect and maintain lamp posts or other appliances for lighting streets, roads, or other places and of connecting the same with the supply pipes; provided that such use of said streets, roads, or other places shall first be approved by said superintendent of public works; provided further, that if said W. W. Dimond shall manufacture and supply illuminating gas, as well as gas for fuel, and shall erect lamp posts as aforesaid, he shall, on requisition of the superintendent of public works, furnish free of cost gas for 50 street lights, and thereafter shall each year furnish five more in addition to the number furnished the preceding year."

Coke bases his argument on the part

NEW 'DRIVE' OF ALLIES FAILURE, GERMANS ASSERT

Official Cablegram Says Anglo-French Offensive Tried Yesterday on Broad Front

RUMANIANS GAIN SOME TRANSYLVANIA TERRAIN

British Detachments, Active on Right Struma Bank, Are Engaged

GERMAN HEADQUARTERS REPORT, Oct. 2.—On the western front, in the battle field north of the Somme, a new battle is on today. Over a front more than 20 kilometers long, between Thiepval and Rancourt, the British and French, after a very heavy artillery preparation, sallied forth for an attack.

The battle went on the whole night and was in full swing today. South of the Somme there was some lively artillery dueling.

North of Lesmentil a German reconnoitering detachment returned from a successful raid with one officer and 38 men captives.

The military establishments of Calais were attacked by one of our airships.

On Prince Leopold's front, eastern war theater, five airships are increasing west of Luck. The enemy charges were frustrated in our certain fire. Russian artillery attempting to drive forward the soldiers by fire directed on their own trenches, did not change the situation.

Some reconnoitering positions are in our hands and the enemy left 1500 prisoners with us, all hostile attempts falling, as well as new campaigning on both sides of the Brody-Lemberg railroad.

On Archduke Carl's front the combat east of the Zlota Lipa has continued.

In the Transylvania war theater, on both sides of Kokel, the Rumanians gained terrain near and north of Orsova, where the attacks of our allies, however, are now gaining success. In the Hatzeg mountains hostile attacks on both sides of the Strehl valley were repulsed and a height conquered by Austrians.

In the Balkan war theater hostile troops obtained a footing on the right of the Danube. Southwest of Topliara enemy attacks were repulsed. On the Macedonian front violent combats between the Serbians and Bulgarians at Kaimak Kalan are going on. We have attacked British detachments advancing on the eastern Struma bank.

BERLIN ADMITS ZEPPELIN LOSS

BERLIN, Germany, Oct. 2.—German admiralty report: On the night of October 1-2, several naval airships successfully bombed London and the industrial establishments on the Humber. In spite of violent shelling by hostile flyers, the airships returned safely, except one, which was observed by the other airships to be set on fire by shots from enemy batteries and fell above London.

Governor Pinkham today granted a full and free pardon to Robert Joseph Rowe, a paroled prisoner from the territorial penitentiary.

Work on the King street extension project is progressing rapidly. All the preliminary work is now practically finished and the street is to be closed today for the laying of the pavement. The improvement work extends from McCully street to Bertania street and should be completed in about four months. Lord-Young Engineering Company is the contractor.

"CAMPAIGN OF HATE" RAPPED BY NOTED BRITISH STATESMAN; RUMANIAN COUP DAY'S FEATURE

KING FERDINAND'S GENERALS THROW FORCE ACROSS DANUBE AND MENACE VON MACKENSEN, WHO IS REPORTED TO HAVE EVACUATED TURTUKIA—MORE AGITATION IN GREECE

BIRMINGHAM, England, Oct. 3.—Lord Bryce, noted English statesman and diplomat, in an emphatic speech here today warned the British people against carrying on a campaign of hate against the Central Powers which would lead to measures of lasting bitterness.

He criticized particularly talk of crushing Germany economically by a long trade war at the conclusion of the military conflict.

Lord Bryce's speech, delivered earnestly and with eloquence before a large gathering, indicated that he believes in a plan of world arbitration. He decried the spirit of hate which, he said, had been exhibited against the Germans in the talk of a lasting trade war. He adverted to the proposal of a league to restrain aggression by any power, no matter how strong, and to compel arbitration.

"If there is to be a recurrence of wars, each becoming more terrible with the unceasing advance of science, we may well despair of the future," he declared.

Rumania's Invasion of Bulgaria May Cut Off von Mackensen's Army

LONDON, Eng., Oct. 3.—News reached here today that the leader of the Teuton-Bulgarian forces in the recently-invaded Dobrudja, district of Rumania, Gen. von Mackensen, has withdrawn his troops from the fortress of Turtukai, the stronghold on the Danube, in Silitria, taken a few weeks ago from the Rumanians.

The news comes from Rome and is believed to mark the beginning of an effective counter-offensive by the Rumanians.

Military experts hold that the Rumanian coup may upset the German strategy in the Balkans. The stroke of throwing a force across the Danube into Bulgaria is the outstanding feature of the eastern war arena, and if the force proves to be formidable in size, it will constitute a serious menace to the army commanded by von Mackensen. The latter will then have the Rumanians and Russians in front and on one flank, and the allied armies of the Serbs, British and French and possibly the Greeks, in the rear, and his army may be cut off.

Germans Take Offensive on Northern Part of East Line; Soon Checked

PETROGRAD, Russia, Oct. 3.—The Germans yesterday and today took the offensive south of Dvinsk, displaying activity on a part of the eastern line that has long been comparatively quiet. They attacked the Russians near Nova Alexandrovsk. When the Germans met the Russian defense they were forced back to their original positions.

Greek Ex-Premier Gounaris Trying to Hasten Fighting With Allies

PARIS, France, Oct. 3.—A despatch from Athens says that a new political party is being organized in Greece, which will favor intervention on the side of the Allies. The party is being organized by Ex-Premier Gounaris, who served a brief term after Venizelos was forced out and has long favored entering the war.

Violent Fighting on Western Front

PARIS, France, Oct. 3.—Violent fighting took place today on the western front north of Rancourt. The French broke down and checked German attempts to debouch from the St. Pierre-Vaast wood and flank the Allies.

LONDON, Eng., Oct. 3.—British aeroplanes today attacked German airship sheds in the vicinity of Brussels. One British aeroplane was lost in the raid.

POLICEMAN WHO TOOK \$15 FROM JAPANESE GIVEN FINE OF \$100

Because he took \$15 from a Japanese named Kimura as "bail money" after threatening him with arrest on a charge of fishing on Sunday, William Spencer, former police officer at Ewa, was fined \$100 and costs by Circuit Judge Asaford today. Spencer was charged with extortion and pleaded guilty.

"There must be something held out to the officials of this territory as a warning against acts similar to the one you committed," said the court in passing sentence. Judge Asaford added that he thought Spencer was getting off very lightly.

Spencer will spend one day at hard labor in Oahu prison for every dollar of fine and costs not paid.

COUNTY CLERK'S OFFICE READY SATURDAY'S VOTE

Supplies in the form of ballots, pencils and envelopes, the latter to be used in sealing the used ballots, are being prepared by County Clerk David Kalanikani and will be ready to be used on Saturday.

REPUBLICANS GATHER TONIGHT FOR RALLY IN FIFTH DISTRICT

With the primary elections near at hand, the Republicans this evening will renew their campaign with a big rally in the fifth district, the meeting place to be Little and School streets. Among the speakers will be A. Leiserson, candidate for the delegateship; candidates for the senate and the fifth district candidates for the house. A Hawaiian quintet will furnish special music.

The second meeting of the week will be held at 7:30 o'clock tomorrow evening at Punahou park, this rally to be for the voters of the Punahou, Makiki, Manoa and Thomas square sections. On Thursday night a rally will be held in the fifth district. There will be no meeting in the fourth district tonight.

warded to the various precincts in the next two days for use at the primary election Saturday, October 7.

Next week similar supplies for the second election will also be collected and sent to the precincts when the election is held.
