An Effective Laxative For Growing Children

Dr. Caldwell's Syrup Pepsin Highly Recommended as a Family Remedy

In children the slightest irregularity of the bowels has a tendency to disturb the entire digestive system, and unless promptly remedied invites serious illness. The experienced mother knows that by training her children to regularity in this respect, and when occasion arises administering a mild laxative, she will have little need for the doctor's services.
Mrs. Leo Weigand, 3251 Central Ave., N. S., Pittsburg, Pa., whose two boys, Frank and Joseph, are shown in the illustration, writes that she has found Dr. Caldwell's Syrup Pepsin a most effective laxative, not only for the children but also for herself, and that she will always keep it in the house to use when needed. Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts easily and naturally, without griping or other pain or discomfort. It is pleasant to the taste so that children like it, and is equally effective on the strongest constitution. Dr. Caldwell's Syrup Pepsin can be

obtained at any drug store for fifty cents, and should have a place in every home. It will save many times its cost in lessened doctor bills and maintain the health of the entire family. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois, or by calling at Benson, Smith & Co., wholesale distributors, Honolulu.

IMPERIAL BAR IS UNDER PROBE OF LICENSE BOARD

Report of Inspector May Be Taken Up at Commission Meeting This Week

Reports from Liquor License Inspector Fennell, dealing with alleged violations of the license commission's rules at the Imperial bar, are under investigation by the commission, said its Secretary, Carlos A. Long, today and may be heard at a meeting of the commission on Thursday or Friday.
Until the commission has decided whether to call in James E. Thompson, proprietor of the saloon, before it, the inspector's reports will probably not be made public. Secretary Long said today in response to questions that the report deals with alleged infractions of what the board holds is good policy. From other sources there are rumors that the inspector's reports criticize the management of the saloon in various particulars which, if substantiated by the committee's investigation, may call for disciplining.

STANDARD OF KAM. SCHOOLS IS DISCUSSED

Trustees Say Are Gradually Working Toward Basis Similar to High School

A plea for a raise in the standard of the studies in the academic department of the Kamehameha schools, so that the institution would be in a better position to compete with the conditions of the day, was voiced last night at a meeting of the Kamehameha Alumni Association. W. O. Smith and A. F. Judd, trustees of the Bishop Estate, took an active part in the discussion.
John Wise, superintendent of Kapiolani Park, and Clarence Kinney said they would be willing to send their 10 boys and girls to Kamehameha if the standard of the school was raised to that of a high school. Rev. Akaiho Akana told the trustees that Hawaiian boys on the other islands are going to the Hilo Boarding school and Lahainaluna, and that he could furnish Kamehameha with 400 more students if the standard was raised.
Mr. Smith told the members it would be impossible to raise the standard to that of a high school at present, but that this is being gradually worked up to. Mr. Judd urged that the alumni members work together for the best interest of the school. He advised those who are not members of the association to join at once, as in no other way could they accomplish more for both the school and the organization.

ROYAL Baking Powder

is the greatest of modern-time helps to perfect cake and biscuit making. Makes home baking pleasant and profitable. It renders the food more digestible and guarantees it safe from alum and all adulterants.

Royal Cook Book—500 Receipts—Free. Send Name and Address.
Box 589, Honolulu, Hawaii, or Royal Baking Powder Co., New York, U. S. A.

AGRICULTURAL DEPARTMENT OF COLLEGE OF HAWAII PROGRESSES

Facilities Are Combined With Enthusiasm and Ability of New Instructor

(Special Star-Bulletin Correspondence)
COLLEGE OF HAWAII, Oct. 3.—The agricultural department of the College of Hawaii is one of the greatest and most valuable assets of the entire institution, not alone from the benefit which the territory will derive from its efficiency but for the high standard it sets to other colleges. On being interviewed, Professor Henke, agronomist, said he hopes it will be only a matter of a short time before the college would have, under such ideal conditions as it possesses, the ranking agricultural department of any college in the world. No other college possesses such a large combination of advantages, both as regards soil, climate, and the facilities at hand. On the 60-acre farm lying between the college grounds and the Manoa stream, practically all tropical and temperate zone crops may be cultivated to the highest degree of efficiency. The proximity of Manoa stream makes the cultivation of such crops as need irrigation possible.
In connection with the farm the college has a splendid herd of dairy animals of both the Holstein and Guernsey breeds, Tainworth and Berkshire swine, and the necessary horses to do the farm work. Poultry will be added as soon as the ground on the new poultry site can be cleared. The feed for the stock is, of course, supplied from the growing crops, in addition to the cultivation for experimental purposes.
Close to the farm the agricultural laboratory is well equipped with the necessary apparatus for carrying on the laboratory experiments in connection with classroom work, as well as

individual research work. The apparatus for the study of soil physics is unusually complete. The laboratory also contains a collection of typical Hawaiian soils, seeds, dried plant specimens, feed stuffs, fertilizers and animal models.
The buildings on the farm consist of a piggery, milking shed, dairy, horse stable, feeding shed for cattle, shed for farm machinery, tool house, and three new laborers' cottages. Most of these buildings are built on concrete and are absolutely sanitary in every respect.
The standard agricultural magazines are received weekly at the college, and there can also be found in the college library a very complete list of the publications and bulletins of the United States department of agriculture as well as those of the various state experiment stations.
With such resources at hand, and the unlimited prospects of the future, it is the hope of the college that mainland students will be attracted, especially those who are interested in tropical crops. There are excellent opportunities for research work in all branches, and courses are arranged especially for graduates of mainland universities and colleges. The principal efforts of the department, however, are directed for the benefit of the Hawaiian student, and he is thoroughly fitted for the most exacting requirements of modern agriculture.

POPULAR TRAFFIC MAN GETS SERGEANT'S JOB IN ENWRIGHT'S PLACE

It is now "Sergeant, Sir," to E. K. Alapai, former traffic officer, for he appeared bright and smiling this morning behind the receiving desk in the police station in brand new uniform with gold trimmings in the place vacated Saturday by the resignation of John J. Enwright.
Alapai's pleasant smile and helping hand has almost become a fixture at the corner of Fort and King streets, where he waves the crowding traffic hither and yon day after day and many who will miss him there should know that he has gone higher by a deserving promotion.
For eight years Alapai has been in the Honolulu police department, starting as a patrolman. He is one of the most popular and competent men in the department, according to his companions.

SALTS FINE FOR ACHING KIDNEYS

We Eat Too Much Meat, Which Clogs Kidneys, Then Back Hurts and Kidneys Bother You

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.
You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.
A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

NIGHT SCHOOLS OF Y. M. BEGIN YEAR OF WORK

Classes in business and general educational subjects opened at the Y. M. C. A. night school last night. The classes started out with good enrollments and this week will be given over to further enrollments.

The mechanical courses, the machine shop apprentice course, algebra, geometry, trigonometry and drafting classes start tonight and it is expected that the big enrollment at the association school will be swelled by this addition.
The machine shop course, which will be given in two classes of apprentices at the various shops of the city, is open to young men in the machine shops, pattern shops and drafting rooms in the city. The class meets on Tuesday, Wednesday and Friday nights. Work is given in shop plan reading, shop mathematics and shop mechanics. For the second-year men in the class special work will be given in chemistry of metals and alloys and in higher mathematics.
The Y. M. C. A. schools this year for the first time will issue certificates to students who satisfactorily complete the courses.

DANCE AT MOANA HOTEL TONIGHT

Tourists, officers of the army and navy and local society people are cordially invited to a dance to be given this evening at the Moana Hotel, beginning at 9 o'clock. Hawaiian music during dinner.—Adv.
