

JAY GOULD GOES WITH BIG ALOHA FOR HAWAII NEWS

Denies Report of Purchase of Home Here, But Expects to Return Later

"We have had a wonderful time in Honolulu; never enjoyed ourselves better in our lives," said Jay Gould this morning 10 minutes before he and his family left on the Matson steamer *Wilhelmina* for San Francisco and New York.

"I want to come back? I certainly do, and just as soon as I can get around to it," commented the New York millionaire as his friends placed about a dozen leis around his neck until he was decorated almost up to his ears. Mrs. Gould and the children were similarly adorned.

"Honolulu's hospitality is abundant and wholehearted," said Gould. "There is nothing else just like it in the world and we have certainly appreciated the way your society folk do things."

Gould said there is no truth to the report that he had purchased a residence here. He added that he came on July 4, making his stay in the islands exactly three months to a day. He and his family expect to reach New York about the end of this month. They are occupying two de luxe state-rooms on the *Wilhelmina*.

SEGEL STARTS "BEATING BACK" IN NEW STORE

NEW YORK, N. Y.—Just one mile north of the spot where he made and lost millions of dollars, Henry Segel has become a New York merchant once more.

The opening of the Emporium Cloak & Suit company at Broadway and Thirty-fifth street came two years and nine months after Segel's Fourteenth street store and its subsidiaries passed into receivership.

When the first customer stepped across the threshold of the new store Segel realized the dream to which he has clung tenaciously since he lost his fortune.

He went to prison vowing that he

DOGS RECEIVE MENTION FOR WAR SERVICES

(By Associated Press)

PARIS, France.—Citation of dogs in regimental orders is now common at the French front. Fox, of the 19th Company of the sixth regiment, is one of these illustrious quadrupeds.

The afternoon war bulletin of July contained the following: "An enemy raid directed against one of our small posts in the Paschendale region failed under our fire." It is learned from an official source that the failure was due to Fox, who was thus referred to in next day's regimental orders: "Fox, Series F-4, No. 221, Kennel A., prevented a raid attempted on one of our first trenches by the Germans. Taking advantage of the darkness, and when a gale was blowing, the enemy succeeded in reaching our barbed-wire without being seen or heard. The dog, Fox, of the 19th Company, on sentry at the end of the trench, twice gave the alarm and thus allowed us to receive the enemy with grenade fire. The surprise attack failed."

Two other dogs, Diana and Cybele, have been distinguished in the same way, and all three have, besides, been introduced by the moving pictures to the Paris public.

Anecdotes of occasions on which these "war dogs," as they are known, have saved critical situations during actual fighting by acting as despatch runners are innumerable, and staff officers have calculated that in one section of the front alone six thousand soldiers were saved from death or danger by these always modest auxiliaries.

Two hundred and fifty corset workers of the Bay State Corset Co. of Springfield, Mass., went on strike.

Waste water is purified by a process employing colloidal clay and milk of lime that has been invented by a French scientist.

Woods "come back," he walked forth to freedom six months ago, promising that he would once more enter business and pay back the money the depositors of his department store bank had lost in his failure.

RAPID TRANSIT COMPANY GIVES OUT ITS VERSION

(Continued from page one)

matter of extension and filed with the superintendent of public works an application for approval of a new rail section much heavier than formerly used and especially adapted to the modern method of street paving. As soon as the application was approved the Rapid Transit immediately ordered the rails, etc., necessary for re-laying the tracks.

"Had we been in a position to place the order six months ago delivery before the end of this year would have been possible, but on account of present manufacturing conditions it is not possible to get early delivery of the material. According to advices we have received we need not expect the arrival of any material until September, 1917, if then. It must be borne in mind that we are not responsible for the conditions in the rollings mills in the East."

As it is necessary that the operation of the Waikiki service shall be maintained without interruption, the old tracks cannot be removed from their present position until such time as the new rails are laid and service is in operation on them.

"As to the construction of a temporary track, if for a financial reason only, is entirely out of the question as it will cost from \$20,000 to \$25,000 to lay it. There is also a great risk of accidents from tracks laid on top of the ground, damages for which would have to be borne by the Rapid Transit, unless the board of supervisors hold the company free from damages resulting from such accidents."

The cost of improving Kalakaua avenue is about \$96,000, which is divided between the property owners and the city. The relocation of the tracks will cost the Rapid Transit approximately \$76,000, which this company has undertaken purely from a pro bono publico standpoint, and it would seem, from our point of view at least, that it is all the people and board should expect from us.

"The plans and specifications for the improvement of Kalakaua avenue show a distance between curbs of 56 feet, nineteen feet of which on each side of the road is to have concrete pavement and the 18 feet in the center, excepting the portion where the new rails will be laid will be paved with asphaltum macadam. The makai side could easily be paved at once, with half of the center, thus giving a drive 28 feet wide which would give the public a good roadway to and from Waikiki until such time as the tracks can be relocated and the mauka side improved. Also the mauka side at a cost of from \$800 to \$1000 could be scarified and rolled, thus providing a temporary thoroughfare until the concrete could be laid.

"There is no reason so far as we can see why Kalakaua avenue improvement project should not proceed and relieve the public of a disagreeable condition of roadway at the earliest possible moment."

There are infinite opportunities in Washington for the fostering and building up of Hawaii industry through proper legislation. Ocean transportation, government roads, the tourist traffic, the coffee industry, the sugar industry, the fruit industry—these and many more offer the Delegate to Congress openings to improve the commercial conditions of this Territory.

If the voters of Hawaii elect me Delegate to Congress, legislation such as the above mentioned require for their development and encouragement will be my continuous care.

Complete fulfilment of my promises and real, tangible results—these are the standards by which I want my time at Washington judged; and I assure all thoughtful voters that such standards will not be lacking if I am elected at the coming election.
