

WATERFRONT NOW QUIET; SHIPPERS ARE OPTIMISTIC

(Continued from page one)

Williams, 70 Japanese and the balance Chinese and Filipinos. The stevedoring firm asserted it has all the men it wants.

Sentinel Guard Pier 6
No trouble was experienced at Pier 6 discharging and loading the U. S. army transport Logan this morning. Two gangs of strike-breakers, one of Japanese, the other Filipinos, 20 men each, were taken to the pier in launches this morning about 7 o'clock, half an hour before the transport docked.

Regulars armed with rifles were posted at the Allen street entrance to the pier and their business-like look and the efficient army weapons they carried kept a large number of union men from making any demonstration. The 20 Japanese strike-breakers were in the Logan's hold, while the Filipinos handled the freight on the dock.

Generally the tone of the stevedores' strike along the waterfront today and last night has been quiet. One more arrest was made late yesterday afternoon and another early this morning. Apparently the police have the situation well in hand with a better organization.

About 6 o'clock this morning an exceptionally large crowd was gathering in the vicinity of Pier 16 but they did not congregate as a mob and many who carried lunches were probably laborers about the town who had stopped on their way to work to witness any excitement which might take place similar to the railway trouble of Tuesday and Wednesday.

Police There in Force
The police in adequate numbers mingled with the crowd watching for any concerted indications of rowdiness but there seemed to be none. When a railway engine occasionally rumbled in the yards the strikers were all attention to see if strike-breakers were to be rushed past them, but apparently there was no intention of this.

Railway officials say they have no

orders for more trains and Jack Belsler said this morning that he had plenty of stevedores at present.

Court Cases Continued
Attorney Robert W. Breckons appeared in the district court this morning for all strikers who had been arrested. The trial of each case was continued to October 11.

In several cases the bonds set by Sheriff Rose of \$250 were reduced by Judge Monsarrat to \$50 and one striker defendant was released on his own recognizance. In another case the bail was increased to \$1000. The dispositions in court were as follows:

Sam Halstead, accused of inciting the men to riot yesterday, bail \$250.
Kalema, suspected of assisting to derail locomotive, \$1000 bond.

D. Kekooval, said to have assumed threatening attitude, \$250 bond.
Leando, Choy Chong Wo and Kasa-koff, accused of rioting Tuesday, \$50 bonds.

Dewey Mookins, thought to have been one of the leaders in the Wednesday morning riot in the railway yards, released on his own recognizance.

All of the defendants are at liberty under bond for the bail specified in each specific case, excepting Leando. **Didn't Want Picture Taken**
Manuel de Mello, one of the younger strikers who has been arrested, objected to having his picture taken during the excitement yesterday morning and is said by Jack Belsler to have threatened to break the latter's kodak.

Sheriff Rose says de Mello is more than a boy and that the latter had probably done nothing more than to become incensed because he had been snapped.

The sheriff is very well satisfied with the general condition along the waterfront today and believes that yesterday and Tuesday's trouble has had a reflex action on the strikers which portends no more mob violence.

Although the strikers are quiet today the police are not relieving their rigid surveillance of the dock area. In fact they are increasing their force rather than cutting it down.

"Chef" Sanders Roasts Beef
Three big squares a day are being served up in the city jail now by Marcus Sanders, desk clerk, who was designated yesterday by Deputy Sheriff Asch as "chef" pro tem of the police station.

Eating facilities for 30 men have been obtained for the extra police who are being housed at the jail while off duty and last night they obliterated the mountains of fish, spuds, poff, tea,

KALAKAUA AVE. WORK SHOULD PROCEED NOW

That the work of paving the makai side of Kalakaua avenue should proceed as soon as possible regardless of what the Honolulu Rapid Transit & Land Company can do about relocating their tracks, is the opinion of George Collins, city engineer. He believes there is no reason for the work being held up and that all the construction possible should be accomplished.

Supervisor Ben Hollinger also holds the same view. He said today that this is not the time to jump the Rapid Transit. "Let the contractors do all the work they can," he said, "and when they can do no more because of the presence of the tracks, get after the railway then."

Supervisors Hatch and Logan happened to meet each other after Manager Ballentine's interview was published yesterday afternoon, agreed, according to a statement by the latter today, that if there was no hope of having the track relaid within a short time, the best thing to do was to have the paving of the makai side of the avenue proceed at once, also to have the mauka side of the road temporarily repaired to carry the traffic until the other work was completed.

et cetera, which Sanders set before them.

Sanders was once a cook for the Inter-island boats and seems to like the temporary respite from the jangling bells of reporting petrolmen. The policemen take well to the change of diet and say Sanders is all to the good when it comes to handing out the grub. Ham and eggs was the bill of fare this morning and when the "chef" was asked by a reporter if there would be mulligan for lunch, Sanders was indignant and pointed proudly instead to a monstrous roast sizzling in the oven.

Curiously enough, Sanders' chief assistant was a striker who had fallen into the meshes of authority. Now that he is gone the "chef" is looking for another aide-de-camp.

Home-Like Scene at Pier
With long rows of new mattresses and pillows supporting sleeping forms of strike-breakers the scene about 7 o'clock this morning at the rear end of Pier 16 was especially home-like and peaceful. Outside on the Bennington some of the stevedores were happily eating breakfast and several others were enjoying the new shower baths.

Strike-breakers came through the strikers this morning, singly and in pairs, and entered Pier 16 to go to their work unmolested.

"I hardly have work for any more strike-breakers," said Belsler, "but some who have asked for work have been given jobs. These I told to come down this morning and they are doing so without interruption."

Police and others gathered around Pier 16 this morning said that many of those who were loitering about the place were not striking stevedores, but agitators who had nothing to do with the union and had interested themselves in the strike after it had started.

All Quiet, Says Baker
Captain Baker, in charge of all extra policemen working in the strike district, says that the strikers could not be more orderly and peaceful than they have been last night and so far today. He made the rounds late last night and says there was absolutely "nothing doing."

The captain says that the only crowd which gathered last night congregated near Pier 15 to hear speeches from their leaders condemning the actions of Tuesday and Wednesday, and tabling violence.

Four Japanese Intimidated
At Pier 16 this morning there were 80 regularly employed Japanese stevedores and 40 Japanese strike-breakers working under Lame Mizusaki, who said his old men are coming back to him and the number is increasing every night.

This morning at 5:30, when Mizusaki's men came downtown on a Liliha street car towards the wharves to work six union men were standing at the corner of Liliha and King streets and prevented them from transferring to a King street car. Four of them returned to their homes to avoid further trouble.

Railroad Offers Reward
A reward of \$500 has been offered by the Oahu Railway & Land Company for the arrest of the men who were instrumental in derailing its locomotive. The task of discovering the men for the police has been turned over by Sheriff Rose to Chief McDuffie of the detective department.

Harry Evans, who was one of the eye-witnesses of the affair and who can identify the men, is assisting McDuffie.

City Attorney Arthur M. Brown and Chester A. Doyle, Japanese interpreter in circuit court, visited the railroad wharf early this morning to see the strike-breakers go to work and to watch any interference which might be offered by the strikers.

TO HAVE TALK ON HILLEBRAND WITH GOVERNOR

(Continued from page one)

various details suggested today by the commission.

Taylor Outlines Plans
Engineer Taylor outlined the plans today in a comprehensive manner. He said the cost of the project will be about \$33,000, but that this will take in water from a catchment area of 125 acres in one portion and 175 acres in another. He also stated that the cost is much less than any other proposition for getting water from neighboring areas.

The general speed of the stream in the ditch and tunnel will be less than three feet a second, which will be a safe rate of flow. The maximum capacity of the plan will be 24,000,000 gallons a day. Taylor pointed out that in future years, if need arise, Kalia can also be tapped from this project without much expenditure of money.

Mr. Taylor, George K. Larrison, superintendent of hydrography, and others interested in the project will be invited to Wednesday's meeting.

Campbell Notifies Attorney
One of the features of the meeting was a brief letter from Marston Campbell acknowledging receipt of the letter which stated that his bill for work in Nuuanu valley is disallowed. Campbell informed the board that he has placed the matter in the hands of his attorney. The letter was filed by the commission.

Taylor's bill of \$33 for auto hire on his own machine bobbed up again, and will probably be paid. Engineer Kirchhoff being given the suggestion to look over the matter and turn in a repair bill or something equally effective. Taylor presented his claim to the commission today.

"If I had put in a bill for John Jones, auto hire, it would have been paid without question," he said. "It is a small sum to me, of course, but still I think it only fair to pay it."

Forbes thought so, too, but not under his present name. John Jones would easily have been allowed twice as much, he said.

Ed Lord At Work
Kirchhoff reported that the Lord-Young Engineering Company is at last putting the punaluu streets in condition, and a murmur of delight was heard as the notice was read.

The engineer also reported that the steam driven pump at Kakaako sewer station is working satisfactorily and has stood a standard test given it. The meeting adjourned at 12:30 o'clock.

WIDENING OF TWO STREETS IS ENGINEER'S PLAN

With George Collins, city engineer, back at his desk after a short vacation work in the road department was given an added impetus today and figures and estimates are being drawn up for the widening of several streets about the city.

Two places which are being given special attention are on Hotel street Ewa of Fort street and on Beretania street Waikiki of Nuuanu street.

At the first place Collins will work on the plan to cut off the block at the maka-zwa corner of Fort and Hotel streets to the extent that it sticks out into Hotel street. The other place is on the mauka side of Beretania street Waikiki of Nuuanu, on which is situated a Japanese employment bureau. If both of these projects go through it will greatly facilitate traffic.

More than 30,000 government civil employes are paid less than \$820 a year.

SWIMMING WILL BE FEATURE OF Y. W. C. A. CLASS

Miss Madalyn Roper Has Made Great Success as Swimming Instructor in California

Swimming will be a big feature of the activities of the physical department of the Y. W. C. A. this fall. Since the arrival of Miss Madalyn Roper, the new instructor, the schedule of classes has been completed and registrations are now being made.

Miss Roper comes from the Los Angeles association where she has made a great success as a swimming instructor. During one month alone she gave private instruction to 175 new pupils in addition to handling a large class enrollment. One feature which should be popular is the club afternoon which is being arranged for all of the clubs. The enrollment is now more than 200.

Miss Roper will also have charge of the tennis classes which will be held on the Homestead courts. She will receive applications for these classes during this week. Miss Leonora Andersen, physical director, reports a large enrollment in the gymnasium and esthetic dancing classes, which begin this week. Much interest is being taken in the morning classes for women and afternoon classes for children.

POLICE NOTES

P. L. Camara has been arrested on a charge of molesting children.

Lena, a Russian woman, was given a suspended sentence for drunkenness.

A charge of assault against Christina Rodrigues was stricken from the police court calendar.

For smashing an accordion which only six months, deserted her husband and for refusing to pay for it, Kolorovsky was arraigned before Judge Monsarrat this morning and was discharged when he promised to make good the total loss of about \$3. Detective Rudolph Stein made the arrest and interpreted the defendant's explanation.

The case of Frank Marks, whose name has been on the police court calendar for some time on a charge of using threatening language, was dismissed this morning. The police say that a former attorney for Marks pleaded guilty to the charge without the knowledge and consent of his client, and that another attorney changed the plea later and won the case.
