

### PUBLICITY GIVEN TO BIG WORK OF HAWAIIAN BOARD

#### Sympathy and Support of Businessmen of Honolulu is Urged at Luncheon

Sympathy and support of the work of the Hawaiian Board of Missions from the business and professional men of Honolulu was urged today at a luncheon in the auditorium of the new Mission Memorial home. About 100 representative businessmen were the guests of the board, the idea of the luncheon being to put before them, briefly but comprehensively, the work being done by the board throughout the territory.

F. J. Lowrey, president of the Hawaiian Board, presided. Graphic charts were hung at one end of the auditorium explaining in detail the work which has been done and which is now being done by the various departments of the organization.

#### Tells of Rapid Growth

The rapid growth in membership in the last 10 years was shown in a brief talk by Rev. F. S. Scudder, superintendent of the Japanese department. He pointed out that in 1906 the membership in the churches was 6517 and that today it is 9236. The church departments, he added, now have the following enrollments: Hawaiian, 4588; Union, 1957; Japanese, 7647; Chinese, 508; Portuguese, 270; and Filipino, 266.

Rev. H. P. Judd said that the board believes in preparedness, and, to be successful, must have vision, concentration, faith, unity and efficiency. He said that \$10,000 has been added to the budget this year and that a Bible school has been started for the training of young people desiring to enter the ministry. Some of the needs of the board, he added, include a new field secretary and more emphasis on the Filipino work. The board is also advocating systematic giving.

#### Christian Endeavor Progress

Christian Endeavor work and the rapid advance of the Young People's League were explained in detail by Rev. Akaike Akana, who declared that Hawaii is the chief center in the Pacific for bringing the nations of the world together and that work for the young people must be given special emphasis and attention. The Christian Endeavor societies now have an enrollment of 3600 and this is increasing, he concluded.

Norman C. Schenck, in charge of the Chinese department, urged sympathy and support from the businessmen of Honolulu. "I have never seen a businessman balk when the Kingdom of God was made big enough for him to see," he declared. "We have just begun to undertake our task and we want your sympathy and support."

### OPPOSES VISITS OF POLITICIANS TO LEPER COLONY

#### Maui Resident Upholds Stand Taken By Star-Bulletin and Adds Reasons

That political campaigning in the leper settlement at Molokai, began now after a cessation of eight years, will be a seriously detrimental thing to the inmates is the declaration contained in a letter to the Star-Bulletin from a prominent resident of Maui and one familiar with conditions at the settlement.

This citizen, who requests that his name be not used, praises a recent editorial in the Star-Bulletin which criticized the decision of the territorial board of health to allow political campaigning in the leper settlement.

"Your reasons for criticizing the action of the board of health are all well founded and to the point," he writes. He says that in past years the campaigning created much discord among the inmates and that for their welfare candidates should keep out of the settlement.

No criticism is made of the candidates who are going to campaign on this part of Molokai, but it is emphasized that deleterious results of the excited debates and stump speeches are apparent in the settlement for months after the elections are over.

It was at the instance of Dr. J. H. Raymond, who is a candidate for the senate, that the board of health revised its attitude maintained for eight years and decided to allow candidates in the settlement. It is said that some of the candidates are refusing to avail themselves of this opportunity, and the Star-Bulletin has been informed that H. A. Baldwin, who is in the race for the senate in opposition to Dr. Raymond, has declined to go to the leper settlement because he does not think political campaigning there is wise.

The memorial water fountain, which will be presented to the city and county of Honolulu by Japanese residents of the territory in commemoration of the accession to the throne of Emperor Yoshihito, will arrive the latter part of this month. The Japanese Masons' Association will start foundation work at the Kapiolani park about the end of this week.

"We have just begun to undertake our task and we want your sympathy and support." The work of the Hawaiian department was explained by Rev. J. P. Erdman.

### DEMOCRATS WILL HOLD LAST RALLY IN AALA PARK

#### Democrats will gather at Aala park this evening for the last general rally before the primary elections are held. There are to be precinct rallies Friday evening, but the meeting tonight is to be the final central one of the present campaign in Honolulu so far as the Bourbons are concerned.

Speaking of the meeting today Chairman Bryan of the central committee said that the Democrats had not advertised it so much as they could have desired owing to uncertainty of getting the park and the final date selection. He added that there would be a dozen or more good speakers and held out, as an offer that he considered a choice morsel, that Attorney Gabriel K. Kaewehaku would tell his audience "the strange history of Daisy."

At the meeting tonight announcement will be made of the precinct meetings which will be held Friday evening.

### 18 FILIPINOS SECURE INITIAL CITIZENSHIP DOCUMENTS AT ARMORY

George R. Clark and William L. Rosa, clerks in the local United States court, took their naturalization record books to the National Guard armory last night and received the declarations of intention of 18 Filipino guardsmen to become citizens of the United States. The Filipinos are members of the recently reorganized Company B, Capt. Sherwood Lowrey, Capt. Lowrey told the clerks that a large number of additional Filipinos soon will be ready to take out their "first papers."

Under a decision handed down by Federal Judge Charles F. Gleason a few months ago, Filipinos are entitled to American citizenship. Since the decision three Filipinos have been naturalized, and a large number of others, principally members of the National Guard, have filed their declarations of intention to become American citizens.

### COWS THAT HAVE TUBERCULOSIS KEPT IN HERD

#### Territorial Veterinarian Reports Dairyman Will Not Remove Diseased Cattle

In a report to the board of agriculture and forestry on "Bovine Tuberculosis Control," and dated September 20, Victor A. Norgaard, territorial veterinarian, takes up the matter of the refusal by the owner of dairy cows that have been pronounced tubercular to have the animals killed or even removed from the dairy. In part his report says:

"I beg to call attention to the appended report of the assistant territorial veterinarian in regard to the last tuberculin test on the Kuloouou lands belonging to Mr. Charles Bellina. Sixteen cows reacted to the test and, as stated in this report, Mr. Bellina refused to remove them from the herd. Under these circumstances letters were addressed to the president of the board of health and to the city and county physician of Honolulu, respectively, calling attention to the fact that the condition referred to appeared to be an infringement on both the sanitary code of the board of health and the municipal milk ordinance. These two regulations require that all dairy cattle must be tuberculin tested, and classify as "adulterated" milk from tubercular cows or from cows recently exposed to an infectious or transmissible disease.

#### Process Destroys Germs

"Mr. Bellina delivers his milk to the Honolulu Dairyman's Association and the fact that this association has installed up-to-date pasteurizing machinery does not seem to me to warrant Mr. Bellina's disregard of the said ordinances, both of which aim at keeping the dairies free from infectious and contagious diseases, but say nothing about treating the milk for contamination.

"In my opinion pasteurization, under efficient and official control, may be relied upon to destroy the tubercle bacteria in milk, but in view of the fact that this board has endeavored for the past six years to eradicate bovine tuberculosis, and has succeeded in so far as 80 to 90 per cent of the local dairy herds are concerned, it would seem this time were ill chosen for setting aside this policy and resorting to pasteurization. It would, in fact, be a great injustice to the many dairymen who have cleaned their herds of tuberculous animals at great expense, and who are constantly endeavoring to keep disease out of their herds, as experience has fully proven that tuberculous cattle on neighboring premises are very likely to transmit the disease to the clean herds surrounding them.

"What action the territorial board of health and the municipal authorities will take in the matter remains to be seen and until decided upon it would, in my opinion, be well for this board to defer further action."

Inquiry at the office of the health department elicited the information that such department had received a letter similar to the one sent to the board of agriculture and forestry, that since its receipt there had been no meeting of the health board and that there probably would be such a meeting in a week or ten days.

## You Need a Worker!

The unanimous demand of the thoughtful voters of this Territory is that their Delegate to Congress be a worker. They want a representative in Washington who will work tirelessly and unceasingly for the national recognition of Hawaii's place in the sun.

My record as an intelligent and persistent worker is one that should establish complete confidence in my enthusiasm and capacity for work.

In the Fall of 1908 I visited Washington and there worked hard for the development of our agricultural industries. I have worked hard on my ranch for nineteen years to make it a success in the face of unusually adverse conditions. I have made a record as a man whose confidence in ultimate success is not to be shattered by the most discouraging handicaps.

I pledge myself to work with the workers of Hawaii, and to gain for this Territory the position its importance as a great center justifies.

#### MY MOTTO:

"The man who wins is the man who works, Who neither labor nor trouble shirks, Who uses his head, his hands, his eyes, The man who wins is the man who tries."
