

# 16 MEMBERS OF GUARD HOPE TO STUDY FLYING

### Board of Medical Examiners Named Today to Conduct Examinations

Sixteen applications from Hawaii's National Guardsmen as candidates for enrollment in the aviation school at San Diego is the emphatic answer made thus far to the army's recent offer to take militiamen into training for aviators.

This was the announcement given out this morning at guard headquarters, together with a notice of orders naming a medical board to pass upon the physical fitness of the 16 men.

Names of applicants will not be given out until after the examination, it was stated today, but at that time a list will be issued containing the names of such as have passed. It is understood that one of the applicants is from Hawaii.

The examining board as announced this morning is as follows: Maj. E. D. Kilbourne, Capt. R. W. Benz and 1st Lieut. Jay H. Kuhns. At Hilo the examination will be conducted by Maj. Leo L. Sexton.

Questions asked and tests given the applicant are considered quite strenuous. Much emphasis is placed upon the sense of sight, of hearing, and the extra sense of balancing.

The candidate is given a thorough going over with various methods to determine whether or not his hearing is all right. Hot water and cold water are squirted gently into his ears at intervals and the results noted.

He must tell whether or not he gets dizzy when swinging or at great heights; he must relate his seasick experiences, if he has ever had any; he is asked as to any severe headaches in the past, or injuries to the head.

After the examiners from the guard are through with him he is sent to a regular board from the army, and upon being passed from there is ordered to the aviation school. Several more applications are expected at headquarters.

## WILL DANCE TOMORROW NIGHT AT BIG ARMORY

Hawaiian National Guardsmen and their friends will dance tomorrow night at the armory from 8 o'clock to shortly before midnight. Officials at headquarters stated today that all will be in readiness for the hop.

A guard officer and his wife will attend as chaperones. Every effort is being shown by those in charge, it is stated, to have the dances conducted in an orderly manner. Music will be furnished by the Glee club from the Hawaiian band.

# SALOON MAN TO APPEAR BEFORE COMMISSIONERS

Attorney General I. M. Stainback will take steps to summon James E. Thompson, proprietor of the Imperial bar, before the liquor commission at its next meeting, according to a statement made to the Star-Bulletin today. A request for this was put up to Stainback at the board meeting yesterday afternoon.

Thompson's booze has been diluted so much that four samples of it which Food Commissioner Hansen had on exhibit at the meeting contain almost half water, which is in violation of the law, even though a few drinks will produce intoxication.

Three proprietors of saloons were cited before the board on charges of selling liquor on credit.

S. I. Shaw, proprietor of the Merchants' Exchange, received a reprimand. John S. Teixeira of the Mint saloon was ordered to close his saloon October 12 and 13. John Gillis of the Royal Annex was ordered to close from October 11 to 14 inclusive.

# SECOND HUMAN LEG IS FOUND AT KOKO HEAD

(Continued from page one)

tragedy has occurred, but has no idea what it can be. The matter has been turned over to Chief McDuffie of the detective department, who will start a rigid investigation.

There are no reports from about the island or from ships of persons being missing. If the legs came from bodies which were buried at sea, the skin would show some signs of violent tearing apart, but this is not the case.

"The leg found this morning appeared to have been cut from the body at the hip with a sharp instrument," says Dr. Ayer, "and from end to end there is not a scratch. It is in an excellent state of preservation, and though it might have been in the water for a few days, it appears to have been dismembered quite recently." He explains that the flesh of a limb detached from the body is preserved for many days when in salt water.

Ash thinks that other portions of the body may be discovered any time now. He expects to make a trip to the scene Saturday to investigate further.

Investigating this afternoon, McDuffie has learned that there were a large number of fishing parties which went to Koko Head Sunday and the chief is anxious to get in touch with any of these, whether they have any knowledge of a tragedy or not. If any of these fishermen will call up McDuffie's office—the number is 1654—he will appreciate it, for it may help him to ferret out the mystery.

Delmar P. Crowley, six years old, was struck and killed at Middletown by an automobile driven by Dr. John H. Mountain of Middletown. The boy it was said became confused and ran in front of the machine.

# PREFER CHARGE AGAINST STRIKER TO GRAND JURY

(Continued from page one)

could take on more sugar and canned pineapples.

Unloading Work Goes On At 1 o'clock this afternoon strike-breakers were put to work discharging the 2200 tons of nitrate brought in this morning by the Grace steamer Columbia, which arrived off port from Toopolia last evening.

The O. S. K. steamer Inaho Maru arrived this morning and will dock at Pier 7 between 4 and 5 o'clock this afternoon to begin discharging 1265 tons of fruit. She has in her hold for Honolulu, McCabe, Hamilton and Renny say they have more men than they can use.

Filipinos Let Go Secretary Moses K. Kahue of the local stevedores' union said today he had heard that Jack Belsler had discharged 200 strike-breaking Filipinos because they would not work. Belsler said at noon in answer to this rumor that 75 or 100 Filipinos had laid off this morning because there was not work enough to go around. He added that he now has more strike-breakers on hand than he can use.

Governor Lucius E. Pinkham and Brig-Gen. Samuel I. Johnson, commanding the National Guard of Hawaii, paid a visit to the strike-breakers' camp on Pier 16 this morning about 10:30 and made an inspection of general conditions there, paying attention to the sanitary and other facilities. They are said to have remarked that the men seem well taken care of and that the camp is clean and in good condition.

There will not be a heavy rush of incoming freight before Tuesday evening or Wednesday morning, when the Matson steamer Matsonia will arrive from San Francisco. Advice by wireless today to the local agents say she has 7601 tons for this port and 771 for Hilo. The Hilonian is due tomorrow morning from the coast, but has only 2869 tons.

Waterfront is Quiet "Quiet as a country graveyard," was the statement regarding the strike zone which Sheriff Rose, Capt. Baker and a Star-Bulletin representative agreed upon following a trip along the waterfront this morning.

The sheriff still has his extra policemen at hand for emergencies and they are being fed at the jail, but there has been no sign of disorder by the strikers since Wednesday morning when the Oahu train was derailed near Twifield road.

Jack Edwardson seemed very optimistic of the outcome for the strikers and denied a rumor that some of the union men had returned to work.

Court Cases Postponed Six defendants, arrested on various charges in connection with the strike, were arraigned in the district court this morning and their cases postponed to next Wednesday when several more strikers will be heard. Attorney Robert W. Breckons represented the defendants and Attorney John W. Cathcart is assisting Prosecutor Chillingworth.

All of the defendants have been released on bail. Japanese Would Return An important development of the strike situation is that numbers of the Japanese stevedores who left their work in sympathy with the strikers or from intimidation are returning to the jobs they left where possible. Where they left to affiliate with the union some are expressing dissatisfaction.

This morning Mizusaki had 90 of his regular stevedoring force at work for him and 20 who were engaged by him when his old men left him. This brings his force up to 110, which is almost up to the usual force which he employs.

Resolutions Alter Their View When cable advices yesterday informed local Japanese of the action taken by the federation of labor at Eureka in passing strong anti-Japanese resolutions they had a decided effect upon those here who were hesitating on which side to cast their lot. These are now willing to return to the shippers if they are assured of protection.

Send Delegates to Paper Last night three delegates were sent from the Japanese who joined the union to the Nippon Jiji. These three men said that those who had sent them wished them to say that they did not quit work from any desire to join the union, but felt that they were compelled to do so; that their employer blamed them for not returning to work when they feared violence from strikers and said he did not want any "chicken hearted" men under him. They added they have found matters with the union far different from what they expected.

Mizusaki said this morning that if any of the Japanese who had joined the union desired to return to work and would leave the union he would receive them and would find jobs for them.

Circuit Judge Ashford has appointed Harry H. Holt as administrator of the estate of the late John D. Holt, under bond, in the sum of \$1000.

# SCHOONER GOES ASHORE IN CALM NEAR KAAPALALI

(Continued from page one)

men, and could not make his part as with a kona blowing instead of the trade winds, there was no breeze by which he could tack his ship and work off shore. As the vessel had no motor auxiliary power it was practically helpless.

The cruiser St. Louis, lying off Lahaina with the U. S. submarine tender Aleret and the K-3, K-4, K-7 and K-8 of the third submarine division, was notified of the disaster and at once proceeded to the Muriel's assistance, but her help was not needed.

According to Manager John K. Clarke of the local office of Hind, Rolph & Company, the Muriel, owned by this shipping firm, has 650,000 feet of northwest lumber consigned to the Pioneer Mill Company. The lumber is worth about \$10,000.

Towed to Kaapalali Another wireless received today by H. Hackfeld & Company, agents for Pioneer Mill, gave the following later information. The wireless was sent from Lahaina by the Pioneer's offices, and says:

"Schooner got off reef without assistance, moored at Kaapalali 9 a. m. in tow of Columbine. Keel partly gone; making two inches of water per hour." The radio from the Star-Bulletin's Waikuku correspondent says the cruiser St. Louis pulled the Muriel from the rocks.

The Muriel's lumber cargo is insured in the insurance department of Hackfeld's. Previous advices last night from the vessel were that her deck load had been discharged while the schooner was on the rocks. It was probably loaded on barges. This lightened the schooner considerably and made it easier for her to float off. Muriel is Old Vessel.

According to shipping registers, the Muriel is a small schooner, 162 feet long, 36 feet beam, 12 feet draft, 536 net and 483 gross tons, built at Alameda, Cal., in 1895, with San Francisco as her home port. Hind, Rolph & Company are her owners.

# CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

### When Cross, Feverish and Sick Give "California Syrup of Figs"

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

# NECKWEAR INSPIRATIONS

Inspiration for the new neckwear to be seen at Jeff's must have come from Paris direct, for the new styles are as French and pretty as they can be.—Adv.

CHINESE VS. 25TH INFANTRY The 25th Infantry and Chinese will meet in the second game of the doubleheader at Athletic park on Sunday afternoon. This will be the first game of the Hawaii world's series. In the opening game the fast St. Louis team will meet the Braves, who won out from the Chinese last Sunday. These two games are perhaps the best scheduled during the past three months, and a record crowd is looked for when the first game is called at 1:30.

Coral Gardens Hotel "Nature's Own Aquarium." Glass-Bottom Boats Daily passenger auto service leaves Hawaii Tours Company 9 a. m. Reservations Hawaii Tours Company, phone 1923; our phone, Blue 612.

Tomorrow, Saturday, from 3 to 5 o'clock, the new premises of the Japanese Children's Home, on Nuuanu street, just above School street, will be open to the public. All are cordially invited to be present. There will be brief exercises at 3:30 o'clock.

# EAT LESS MEAT IF BACK HURTS

### Take Glass of Salts to Flush Kidneys if Bladder Bothers You; Drink Lots of Water

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; make a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

### In A New York Journal Comments Thus On Modern Paid Publicity:

In a Great Many Ways it is being demonstrated that advertising is really the efficient handmaid of the best impulses of human nature.

If it were not so why should it be appealed to to argue the cases of all kinds of people and concerns that wish to get the good opinion of the public?

The Long Island Railroad implores people to try and save their own lives and limbs—through advertising in the newspapers and street cars; and the people promptly stop getting themselves killed on L. I. R. R. crossings.

The Interborough Company and its striking employees appeal for fair hearings—through page ads in the New York newspapers; and New Yorkers continue to think what they must about the strikes that embarrass them. But they know the arguments of both sides.

It is a rare week that does not see some great cause argued in newspaper advertisements, some fervid appeal made to the better instincts of people.

The advertisement is becoming the great preacher to all the people.
