**ARBOR AND CONSERVATION DAY**

The practise, now widespread on the mainland, of setting aside one day each year as Arbor Day, began in Hawaii eleven years ago. Since then, here as well as elsewhere, the larger movement for the conservation and development of all natural resources, of which Arbor Day represents only one phase, has made great progress. Seven years ago, in consequence of the quickening of the public conscience and interest in these matters and the practical results therefrom in the inauguration and extension of active work along these lines, the scope of the day was enlarged.

Accordingly, I hereby designate Friday, the 17th day of November, 1916, as Arbor and Conservation Day for the Territory of Hawaii, and recommend that on that day appropriate exercises be held in all the schools of the Territory and that a part of the day be devoted to the planting of trees and shrubs.

Given under my hand and the Great Seal of the Territory of Hawaii, at the Capitol, in Hawaii, this 12th day of October, A. D. 1916.

(Seal) LUCIUS E. PINKHAM, Governor.

By the Governor: WADE WARREN THAYER, Secretary of Hawaii.

**KOREANS REPLY TO ACCUSATIONS AGAINST DR. RHEE AND Y. M. PARK**

**Say Japanese Here Misrepresent Their Activities in Raising Funds**

October 12, 1916.

Editor Honolulu Star-Bulletin, Honolulu, T. H.  
Dear Sir: The recent attacks made on Editor Young M. Park and Dr. Syngram Rhee by a "well-known Japanese" in Honolulu and a severe criticism against the Koreans at large by the local Japanese papers were a cause of considerable excitement among the Koreans. A mass meeting was held last Saturday night at the Korean National Association building and a resolution was passed to the effect that a committee be appointed to reply to the groundless accusation leveled by the Nipponese.

The object of Japanese papers, according to their comments, is only to disturb our peaceful community and to insult our respectful leaders. They say Editor Park and Mr. Rhee are always squabbling for their personal influence among the Koreans; these two figures are dangerous factors in Korean Community; Park and Rhee are anti-Japanese while the Koreans at home and abroad are all pro-Japanese, thanking for the Japanese enlightened administration and for the royal marriage between the Korean prince and Japanese princess; while Dr. Rhee teaches the school children to be anti-Japanese, Editor Park has a deeper theory to train his young countrymen to be soldiers to fight for their independence, but 80 per cent of Koreans in Hawaii have not such foolish idea even in a dream; etc., etc.

**Obiect to Japanese Domination**

Judging from these statements, we Koreans are nothing more than rotten grasses or senseless stones, except the two leaders above mentioned. Are we surely the pro-Japanese Koreans, thanking for the "enlightened" administration and for the royal marriage? Nay, we deny that until the last drop of our blood runs in our veins. If there is any Korean in Hawaii or anywhere else who is thankful for the destruction of his own country by the enemy we wish the Japanese papers can pick out even a few men from the great mass. We would like to remain as the slaves of Japan rather than to be the subject of Mikado. Of course, we know that the Japanese are trying to make our race known to the outsiders as those who are utterly ignorant of politics or government, but we are yet political animals and we do know how to resist against the tyrannical ruling.

Since Japan annexed Korea what was done during the past six years? Particularly in educational lines, schools closed; text books burned; general education limited to high school grades; political theories and law courses prohibited in teaching; the Japanese language substituted for the Korean mother tongue; no student allowed to go abroad; and in no other ways, newspapers and magazines entirely abolished; Christians as well as Confucians equally persecuted; no passports given to merchants or travelers; old customs of all the tortures restored one after one; etc., etc. These are the so-called "enlightened administration" that the Japanese people and their officials claim to the world that they are reconstructing the land of Morning Calm today.

**Misunderstanding Cleared Up**

The local Japanese papers seem to be quite worried over the alleged "personal squabbles between Editor Park and Dr. Rhee," while there is no squabble of any kind that neither Park nor Rhee knew anything about. We do not deny that there was some misunderstanding among some Koreans in Honolulu, just as other nationalities are subject to misunderstanding at times, but now it is only a history of the past. We all know that there are constant squabbles among most of the Japanese papers in this city but we take no notice of them and they are not worried over them either. We do not see why they should be so anxious about harmony among a couple of Koreans that they should make so much noise recently through their papers.

They all denounce Editor Park and Dr. Rhee as "anti-Japanese." What is the ground for such a charge? The term "anti-Japanese" is often too widely applied. Every one who is not Japanese either by birth or in heart is called "anti-Japanese." When Americans try to protect their interests, individually or nationally, Japanese would always be sure to cry out "anti-Japanese." All the patriotic Chinese are also condemned under the same category. Koreans today have turned everything into the hands of Japanese, either willingly or unwillingly, and have kept quietly under the Japanese iron-heel rule, and yet when they try to do something for themselves they are unmercifully condemned as anti-Japanese. If every Korean Christian who would refuse to bow before the mikado's picture, guided by his religious conviction, and every Christian pastor who happened to preach on "Thou shalt love thy enemy" be in the category, we shall have to confess that we are all more or less anti-Japanese.

Nearly all the Japanese papers declare that the independence of Korea is only a dream. Yet they are over-anxious about the so-called "war fund" subscribed by a handful of Koreans. It does not clear to us why they, mighty as they are, should worry about somebody's dreams. Some of the Japanese papers reported that the Korean war funds has reached an amount of \$5000, while the others brought the figure as low as \$300. Do they fear that this \$300 might wring from the hands of Japan the lost liberty of Korea?

**Measures Against Park**

We are informed that the Japanese government has put Park's name in the "personal non grata" list and that the Japanese consul general at Honolulu will conduct a strict investigation

for he thinks that Park is collecting the money fraudulently for personal use only. Bring all the illuminating that Japanese money and Japanese genius can possibly furnish and investigate everything under heaven! We challenge the Japanese consul or anybody to discover anything fraudulent in Park's collecting money.

W. K. Ahn, one of the most careful and quiet men among Koreans in Honolulu, went home to visit his parents recently. The local Japanese papers declared that this man has gone to Korea on a mission to collect money for the "war fund." We will not be surprised at all if they had sent a cablegram to Tokio and thence to Seoul already to the effect that this man has gone to Korea in order to start a revolutionary war and with that charge they may arrest him as they usually do. Ahn has been living in Hawaii over 20 years, during which time he has proved himself as a worthy friend and a successful businessman not only among Koreans but also among Americans. For many years he has been one of the most influential leaders of the Korean Methodist church. Leaving his business and lovely family behind, he is going home mainly in order to see his old father who may not live many years more. He is not quite as foolish as some might think so as to make any attempt at raising funds for revolutionary war against Japan.

The Japanese papers talk so much about Japanese and Korean relations in Hawaii and point out that many Japanese and Koreans have married here. But the truth is that Japanese as a rule do not favor the intermarriage between Japanese and Koreans. It was well pointed out by Jack London in his beautiful article, which appeared in the September number of the Cosmopolitan, that while Americans and all other nationalities have intermarried, hardly any number of Japanese women have married any other race than their own. A couple of Koreans in Hawaii have married Japanese women but in every single case the Japanese community as a whole raise a great opposition against it. If the Japanese consul thinks that his people in general favor their women marrying other races, by my study more of the real situation to know anything about it.

Yours truly,  
AHN HUN KYUNG,  
K. O. KIM.
