SENATE IN CLOSED SESSION ON JAPAN AND IMMIGRATION

Works of California Declares Elimination of Reference to "Gentlemen's Agreement" a Mistake

(Associated Press by Federal Wireless)
WASHINGTON, D. C., Dec. 11.—A sensation was caused in the senate today when Senator Works of California attacked an amendment to the immigration bill proposed by the immigration committee which would exclude reference to the "gentlemen's agreement" by which Japan for several years past has stopped the immigration of male Japanese into the United States.

The attack caused the senate to consider the subject today in executive session. Treaty rights of foreign nations are involved in the issue now up. Previous to the senate going into executive session, Senator Works said:

"Whenever this agreement is abrogated the entry of Japanese into the United States will be unrestricted and it shall be at the mercy of Japan if we have no other safeguard or restrictions except the agreement. The proposed bill makes conditions worse than now—we leave it to Japan to determine in the future when her citizens can come."

Will Argue 8-Hour Law

WASHINGTON, D. C., Dec. 11.—Arguments on the constitutionality of the Adamson eight-hour railroad law are set for hearing before the supreme court on January 8.

Vernon Ayau Goes To Seattle Club

Vernon Ayau, shortstop of the Chinese Travelers' baseball team, will play with the Seattle club of the Northwest League next season. Ayau is the first Chinese ball player to be given an opportunity to perform in a league of this strength. Bill Beard, who will manage the Seattle club next year, signed Ayau this morning after a short conference.

Vernon Ayau is well known to the baseball fans of Hawaii, as he has starred for a number of years with the Chinese team. His great work with the Chinese Travelers has attracted attention throughout the country, and, according to the members of the All-Americans, is one of the fastest fielders in the business.

There is no question about Ayau making good in the fielding line, as he will have it on any of the short fielders in the Northwest circuit. Few players in the game today can go as far to the right and throw runners out. Without a doubt he will be a real sensation in the league. He has campaigned during the season and this work will mean much to him. Against the visiting pitchers he has hit well and will without doubt hold his own in this department. Two or three weeks ago the Star-Bulletin discussed the matter with both Swain and Leard and both agreed that Ayau was a smart ball player, capable of making good in fast company.

Honolulu has sent Johnny Williams and Barney Joy to the minor leagues, and "Lefty" York, who pitched for the 1st Infantry, will play with Vancouver next season. Ayau is a popular player in Honolulu and will without doubt make good with the fans in the Northwest League. He has good habits, and, furthermore, is always in condition. Honolulu will watch with interest the work of the popular shortstop next season.

ALLEGED INSULTER OF WOMEN ARRESTED; WILL COURT MARTIAL

Sunday morning an arrest was made at Fort De Russay as the result of complaints of women living in the Pierpont-Cressaty-Humme district to military and police officials that they have been insulted by a soldier on the path leading from Kalia road across the marches on the military reservation to the street car track on Kalaheua avenue.

Thursday night a woman of that section was insulted by a soldier whom she recognized to be the same one who had acted in a similar manner towards her a few nights before. She reported to Maj. J. B. Douglas, commander of the post, and Sunday morning every soldier was scrutinized by her. It was not until the man in the guard house had been brought out, however, that she identified a man as the one wanted. He will be court-martialed.

Maj. Douglas says a pretty compliment to the courage of the woman who was brave enough to face the whole army in search of one who

GOVERNOR CONFERS WITH D. E. METZGER

Territorial Senator Delbert E. Metzger came to Honolulu from Hilo last Saturday and has had a conference with Governor Pinkham, but on the best authority it can be said that there have been no developments in the secretaryship situation. Metzger is not after the vacancy made by W. W. Thayer's resignation, say his friends, and it is understood that no recommendation has been made by the governor. Neither is inclined to discuss the report, which was given in Baker, Oregon, a few days ago, after 16 months' absence from Hawaii.

Metzger still retains business interests in the Northwest and may go back for a short trip this winter, but his plans are now to spend the next few months in Hawaii, mostly at his home in Hilo. He has not given up residence in the territory and does not intend to. Recently he leased the Waialua quarry near Hilo to Richard Deming for the American Surety Company, on the same terms as he had leased it to Contractor Marshall, for use in building the Hilo breakwater extension.

FILIPINO WOMAN FREED OF MURDER

Elena Rojas, a comely Filipino woman, walked out of Circuit Judge Ashford's court this morning free. She had been charged with first degree murder, having shot and killed a Filipino man at Waipahu, but, at the instance of City Attorney Arthur M. Brown, her case was nolle prossed.

\$1200 War Relief, Alsace-Lorraine

Twelve hundred dollars was voted by the War Relief Committee of Hawaii this morning to be sent to war sufferers in Alsace-Lorraine. This makes more than \$125,000 that the committee has forwarded through New York for the relief of war-stricken Europe.

should be driven out of their ranks, for their good as well as for those living in the vicinity of the fort.

SOLDIER DROWNED, ANOTHER GONE, IN SCHOFIELD TRAGEDY

One Schofield soldier is dead in the post hospital, another is still missing and a third is saved out of a trio which capsized in a canoe in the Wahiawa reservoir near the military reservation about 8 o'clock last night. All were of the 1st Infantry. The drowned man's body has been sent to Silva's undertaking parlors and comrades are still searching for the body of the third man.

WAIKIKI SCHEME HALTS FOR MORE COMPLETE PLANS

Opposition to proceeding with the Waikiki reclamation project with the so-called Unit No. 1 portion outlined by Charles R. Forbes and the public works department or with any portion until a complete and careful survey of the entire area has been made was the chief feature of a lengthy meeting in the governor's chamber at the capitol this morning.

WALTER F. DILLINGHAM LED THE PLEA FOR A COMPREHENSIVE SCHEME AND WAS SECONDED BY ARCHIE YOUNG, JOHN BOWLER, JUDGE W. L. STANLEY AND W. W. CHAMBERLAIN, ALL OF WHOM SPOKE BRIEFLY ON THE SUBJECT.

Dillingham's argument led to the point that the government—by damming up Makiki and Manoa streams had been largely responsible for the present condition of the Waikiki swamps. He opposed making the property owners pay for all of such a project when the government "has turned on the hose." He emphasized the need of a complete survey of the whole area which exceeds by 100 per cent the business district of Honolulu.

John Bowler voiced the same feeling in stronger words. He said that even now Kalaheua avenue is being put through without thought of head or tail, a "piece of damn rascality which the property owners are paying for."

Forbes in the beginning of the meeting outlined his reasons for drawing up plans for the project. A letter from Deputy Attorney-General A. G. Smith followed, giving the reasons for a more comprehensive scheme than outlined in Forbes' plans for one unit.

Governor Pinkham declared toward the close of the meeting that he saw no reason why, with the territory's big income and good financial standing, it should not help out largely with the Waikiki and other projects.

GOVERNOR DEFENDS NORMAL SCHOOL SYSTEM; PLACES MATTER OF RAISING STANDARD BEFORE SCHOOL COMMISSIONERS TODAY
Superintendent of Public Instruction Kinney read to the school commissioners this afternoon shortly after 3 o'clock a letter from the governor in response to the letter sent the governor, Kinney and the commissioners by the College Club criticizing certain phases of the normal school and public school teaching system in the territory and requesting that a federal school survey be made.

The governor's letter admits that there may be room for improvement in the Normal school but upholds in general its aims and accomplishments, as well as the ability of its graduates, saying that "the Normal school has more effectively carried out its mission than some of our higher institutions, and at a far greater tax on the teachers." He says in his opinion the school commissioners are able to cope with the problem of improvement presented, and that if the standard of the school is not high enough, it should be raised.

After lapse of one week without any hearings, the public utilities sessions over the Inter-Island rate question began again this afternoon with Auditor Matthew M. Graham on the stand. In response to a query by Attorney L. J. Warren, Graham stated that that item of Field's report to the effect that on March 1, 1915, the construction and repairs fund was closed was not correct.

"As a matter of fact," said Graham, "there was no account closed out on that date as far as my knowledge goes. The account in question was in existence and had a credit balance of \$105,000."

TO TRY FUJIMOTO CASE WEDNESDAY

M. Fujimoto, alias Waichi Fujimoto, charged with first degree murder, will be placed on trial in Circuit Judge Ashford's court at 9 o'clock next Wednesday morning. He is charged with having murdered Hiroki Emoto, who was a chauffeur for James B. Castle.

The murder of Emoto was one of the most brutal in local police annals. Emoto and his wife were found in bed in their house at the Castle place at Waikiki. The man was dead as the result of wounds inflicted with a knife or some other sharp instrument and the woman, also severely cut, was removed to the hospital in a serious condition. She recovered.

Emoto, his wife, the defendant and several other Japanese had attended a party the night before the murder and it is alleged by the prosecution that the defendant had a grudge against the dead man due, it is contended, to jealousy.
