MAUL SCHOOL IS UNDER NEW PLAN

(Special Star-Bulletin Correspondence)

WAILUKU, Maui, May 3.—By Act 100, lately passed by the legislature and signed by the governor, and which goes into effect on June 1, Lahaina school is taken out of the control of the board of commissioners of public instruction of the territory and placed under the jurisdiction of a special commission of four members, all of whom shall be Maui residents. One of these, who shall be the ex-officio chairman, is to be the Maui commissioner of public instruction, and the other three are to be appointed by the governor.

MacDonald To Stay It is stated officially from Honolulu that Principal MacDonald, who presented his resignation some time ago, has consented to withdraw it and will remain at the head of the school upon the new regime.

Has Salary Money Been Appropriated? Some question has arisen here on Maui as to whether or not appropriations were made in other bills as provided for in the new act. If not it seems likely that the school might find itself without funds for carrying on its work.

The salary of the principal, teachers, servants and officers of the school shall be such as may be from time to time appropriated by the legislature. It is not known yet whether or not any such appropriation was made.

DEMOCRATS WILL MEET EACH NIGHT

Democrats announce the following schedule of meetings for the primary campaign:

Tonight—Mokuaea road; Punchbowl and Luso streets.

Saturday—Aala park.

Monday, May 7—Molili school-house; Liliuokalani school.

Tuesday, May 8—Waianae.

Wednesday, May 9—Kalihi park, Kalihi-uka; Scauol and Liliha streets.

Thursday, May 10—Wilder avenue and Metcalf streets; Ohua lane, Wai-ali.

Friday, May 11—Waipahu and Lanai.

Saturday, May 12—Kaneohe, 9 a. m.; Waikane, noon; Kahana, 2 p. m.; Hauula, 4 p. m.; Late, 7:30 p. m.

Sunday, May 13—Open date.

Monday, May 14—Vineyard and other streets; Kalihi-waena school.

Tuesday, May 15—Open date.

Wednesday, May 16—Pumping station, Waihiopio; Laimi road, Nuuu-ua valley.

Thursday, May 17—Open date.

Friday, May 18—Aala park.

The Democrats have settled on the points of argument and at their meeting last night under the banyan tree in Palama they told what fine roads they would build and promised free garbage if put into office. They also naturally panned the Republicans for what they had not done along these lines with emphasis on the lack of road construction in the fifth district.

All the Boarding were on deck, including L. E. McCandless, who, although not running for any office, is campaigning for a Democratic administration. C. D. Pringle and J. J. Jones, the former with his circus car, were promised that everything would be different if he was elected. Other speakers were the 14 supervisory candidates.

Simple Living Economy

is not scrapping one's food, nor subsisting on an unpalatable diet, but it is cutting out indigestibles, surplus quantities, and planning meals to balance up essential food values.

The ordinary diet is generally deficient in some of these values, such as the mineral elements, the lack of which is often responsible for anemia, listlessness, nervous breakdown, and general inefficiency.

A daily ration of

Grape-Nuts

FOOD has been a boon to thousands. Made of prime, hard wheat and malted barley, it contains all the nutriment including the vital mineral elements, phosphates of potash, etc.—which Nature has bountifully stored in these rich food grains.

Grape-Nuts is long-baked, very easy to digest, and comes ready to eat direct from the packet. A crisp, appetizing food that combines good, simple living and true economy.

CUBAN SUGAR SITUATION CENTERS NOW SOLELY ON OUTTURN OF CROP

Little Credence Given to Recent Attempts to Color Reports Increasing Low Estimates

(Special Cor. Facts About Sugar)

NEW YORK, N. Y., April 11.—The Cuban situation, in so far as its influence on the American market is concerned, has been considerably clarified during the past week. It is generally conceded in view of the many confirmed advices recently received by the local sugar trade that the Cuban revolution and its accompanying disturbing influences are now to be considered as largely eliminated.

With this knowledge at hand the trade has naturally confined its present interest in the Cuban situation to a conjecture as to how closely the various estimates made of the reduced Cuban crop which have freely circulated of late approach the fact.

Laid to Inferred Pressure An attempt to minimize previous reductions of Cuban crop estimates was made early in the week. The improved statistical position of the crop was based on the publication of a report emanating from the state department to the effect that the previous unfavorable crop estimate quoted by a United States consular officer of 2,500,000 long tons, should be increased by 10 per cent.

This attempt to influence values as a matter of record fell flat in the local market inasmuch as it was well known that the 10 per cent increase indicated was predicted on the immediate resumption of normal harvesting conditions, an event which even the most optimistic forecaster of the present Cuban crop outturn

could not honestly expect to be realized.

Late advices from Cuba clearly indicate that President Menocal is in complete command of the situation. His reelection which was clinched by the elections held during the present week in the disputed province of Oriente has definitely settled the disturbing political situation that was the primary cause of the late revolution.

With peace restored among the Cuban political factions it is only logical that the harvest in Cuba will proceed from now on at a normal rate in the Western provinces and at an increased rate in the Eastern provinces, where the production has been most seriously retarded. It must be borne in mind in this connection that from the most authoritative sources such little information as can be gleaned is to the effect that any resumption in the Eastern provinces of a production closely approaching normal is yet a long way off. While it is true that grinding has been resumed by the centrals located on the northern coast it must also be taken into account that the mills located on the Cuba railway are still to a large extent restricted as to their output by the fact that transportation facilities are to date practically unobtainable.

While it is undoubtedly true that many of the earlier reports relative to the hampering of Cuban production issued solely on the influence of the Cuban revolution may have been somewhat overdrawn it can also be truthfully stated that the restoration of normal production by many of the affected centrals in Oriente and Camaguey provinces is practically impossible.

THREE FEATURES AFFECTING SUGAR ARE CONSIDERED FOR REVENUE BILL

Nothing Definite Yet Determined and Differences of Opinion Quite General

WASHINGTON, D. C., April 13.—Discussion among members of Congress as to the revenue legislation to be adopted for the purpose of meeting in part the financial burden of the war reveals that there is still no general agreement on this subject. The decision to authorize the issuance by the treasury department of \$2,000,000,000 in short-term certificates of indebtedness to be taken up out of revenues indicates the probable sum that the new taxes will aim to realize. It will serve also to give Congress time to consider and debate the revenue bill rather more carefully than it could otherwise, as it will obviate the necessity of rushing through legislation in order to begin immediately to swell the treasury receipts. It is agreed, however, that the general plan and scope of the bill should be determined as early as possible in order that the business world may know what burdens it will be called upon to bear.

Proposals Affecting Sugar So far as concerns the features of the revenue legislation likely to be of special interest to the sugar industry (three possibilities are under discussion. One of these is an increase of the tariff on sugar and other commodities. Another is the plan to impose a direct consumption tax on all sugar, domestic and imported, as well

as on tea, coffee, cocoa and various other articles. The third is the repeal of the drawback provision of the tariff law for the purpose of discouraging exports.

It is well understood that the administration is disinclined to disturb tariff schedules at the present time. As to the consumption tax there is considerable difference of opinion. Many congressmen are strongly opposed to it because it will add to the cost to consumers of the commodities on which it is laid and so will increase the growing burden of the high cost of living. In other quarters where it is generally would be opposed there is a disposition to accept it as an emergency measure provided it is applied to a sufficient number of products to yield a considerable amount of revenue.

The repeal of the drawback clause of the tariff, while it would mean some increase of revenue, is likely to meet opposition on the ground that it would hamper the work of supplying the Allies with needed products.

Dislike Consumption Tax In view of the opposition in both parties to the imposition of taxes on consumption it is possible that the Democratic leaders may decide instead to put a revenue duty on tea, coffee and some other articles now admitted free.

Within the next week or 10 days considerable progress probably will be made by the ways and means committee in preparing a bill.

ARMY DESERTERS SURRENDER; WANT TO FIGHT FOR U. S.

GRAND JUNCTION, Colo.—John A. Manion, first sergeant of Troop M, Fourth cavalry, and Private Max Skleph of the same troop, who departed at Calixco, Cal., on March 6, have answered to the call of patriotism by surrendering to Corporal H. C. Hawkins, in charge of the local army recruiting station. Manion had been in the service twelve years, serving in Mexico, Honolulu and the Philippines, and had attained the rank of first sergeant. Both are anxious for return to duty in order to fight Germany.

This has been a hardship on the post office as well as the newspapers, because a great many inquiries by telephone and in person are received every day by the office from business firms and individuals wanting to know the time mails will close for mainland and foreign points.

"We are in the same fix as the newspapers," said the postmaster this morning. "I wish you would tell the public that wherever the information is available we will answer inquiries as to the closing time of mails. We are not allowed to give out anything more."

BROADER TONE IS SEEN IN MARKET

More breadth was shown in the stock list today than for several days past though the volume of business was somewhat smaller than yesterday. Generally the tone was firm. Several stocks not traded in every day appeared among the transactions. Prices on sales were Oiaa 15, Wailua 31.34, McBryde 10.12, Onomea 54.14, Pacific Mill 17.12, Oahu 29.34, Pioneer 37.14, San Carlos 18.12, Pahang 19.12, Brewer 16, and Ewa 32.12.

The market for unlisted stocks was in direct contrast and was narrow in tone and small in volume. Mineral Products lost its recovery of yesterday and receded below the earlier low price of 70 cents to 69 cents. Other prices on sales were Engela Copper 36 and Mountain King 40 cents. Quotations were Oil \$2.95@43, Montana-Bingham 38@40c and Madera 28@29c.

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When Cross, Feverish and Sick Give "California Syrup of Figs"

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sour, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt—Adv.
