

DEMOCRATS TO OPEN CAMPAIGN AT PUMP PLANT

First Meeting of Series is Set for Tomorrow Night at 7:30 in Kalihi

While the Republicans are rallying at Aala Park tomorrow evening the Democratic aspirants for city and county offices will be holding forth at the Kalih pumping station, this meeting to be the first of a long series going to make up the general election campaign.

Tomorrow's Bourbon meeting will be for the entire fifth district, and the rally is being held at the pumping station for the reason that it was that precinct that gave the Democratic candidates the banner vote for mayor and sheriff in the primary election.

Prof. W. A. Bryan and L. L. McCandless, campaign managers, met last night with the candidates and made arrangements for the part each candidate will play in the general election. Topics were also assigned, these being taken from the Bourbon platform.

The Democrats are planning to hold at least one meeting a night from now until the close of the campaign on June 4.

TO PROCEED WITH BERETANIA ST.

The supervisors' meeting last night was short, continuing scarcely an hour. True to his promise at a meeting of the road committee the night before at the McKinley High school to discuss the Beretania improvement from Alapai to Punahou street, Supervisor Charles N. Arnold introduced a motion that the city and county engineer immediately prepare plans and specifications for that project. Also carrying out his declaration that the continuation of the Beretania improvements would be carried through to the intersection with King street in Molliff as soon as possible Arnold moved that the engineer be authorized to take preliminary steps with that work. Both motions were passed unanimously with Supervisor Dan Logan in the chair in the absence of Mayor John C. Lane.

In another matter relative to Beretania street, Engineer Collins recommended that the improvement district from Nuuanu avenue to River street be accepted as soon as the contractors filed a bond insuring it for five years. The recommendation was tabled until such a bond is forthcoming. With this one improvement district completed and the other two under way the notorious highway of bumps is destined to become one of the city's finest and most traveled thoroughfares cutting deeply into the King street traffic.

POLICE COURT RATHER QUIET

Liquor cases were the chief business on a police calendar this morning which at first showed no new arrests but finally revealed one, that of Manuel Santos, arrested last night for assault. He will be heard May 25. He and two others were the only arrests made last night. The other two were John F. Silva, held for safe keeping, and Robert T. Edwards, a soldier in the 1st Co. C. A. C., said to have been drunk.

Ten liquor cases were called and each one postponed to a later date. Each defendant was charged with selling booze without a license and was arrested as a result of liquor inspector Hutton's activities in and around Honolulu. Judge Monarrat granted a motion of Attorney Charles F. Chillingworth to set aside sentence in the case of Kam Ling on the grounds that the interpreter made a seduction from the defendant's statement by pleading guilty at a former arraignment.

FREIGHT RATES UP 15 PER CENT

Although located 2100 miles from the Pacific coast, terminals of all transcontinental railroad lines, Honolulu shippers will after July 1 be hit hard by an increase of 15 per cent on all classes of transcontinental freights, the second in a year.

Advices received in the last mail from San Francisco by General Agent H. E. Vernon of the Santa Fe's Honolulu office, say that effective July 1, 1917, all transcontinental freight rates by all lines will be advanced 15 per cent. "This has been covered," said Vernon today, "by a special supplement issued by R. H. Countiss, agent of the Transcontinental Freight Bureau, representing all railroad lines to the coast."

Vernon attributes the coming increase as directly due to the new Adamson eight-hour law, recently declared constitutional by the Supreme Court of the United States. This law, railroad authorities assert, increases the cost of operation of all transcontinental lines by millions of dollars a year. The raise which goes into effect July 1 has been authorized by the interstate commerce commission to meet increased expenses of operation.

ROSE DENIES HAVING KNOWLEDGE OF MORE ALLEGED BRUTALITY

Relative to a story in the morning paper today of more alleged brutality to enlisted men by officers of Sheriff Rose the sheriff said this morning that in most cases where such charges were made he usually could locate the case upon which such a charge was hung, but in this instance he was unable to even do this.

"There is no specific time, place or officer named," he said in a discussion of the story after he had read "and my men profess to know nothing about an arrest to which this might be attributed. The most specific detail in the story is that it occurred in the Auwalimu district within the past few days.

"As to a statement of no report being made the sheriff explains that a report of every arrest of an enlisted man is made when he is turned over to the provost guard."
