"ENGLAND STARVED OUT IN TWO MONTHS" SAYS GERMAN

FOUR ARRESTED FOR ALLEGED VIOLATION OF TERRITORIAL LABOR RECRUITING STATUTES

Action Follows Probe By City Attorney's Office Which Charges Prisoners With Attempting to Obtain Filipino Laborers Here for Work in Alaska Salmon Canneries

Following two weeks of rigid investigation, G. S. Snyder of Seattle, Wash., Frank S. Winder, presumably of the same city; Pablo Manlapit, former editor of a local Filipino newspaper, and B. Cruz, a Filipino, have been arrested at the instance of the city attorney's office on a charge of illegally recruiting Filipino laborers for Alaskan salmon canneries.

Warrants for the arrest of the four defendants were issued by Circuit Judge Heen on information sworn to by City Attorney Arthur M. Brown, and an affidavit sworn to by Detective Harry T. Lake, who conducted the investigation for the city authorities. The defendants will be taken before Judge Heen at 9 o'clock tomorrow morning for disposition of their cases.

Snyder came here about a month ago from Seattle, and it is reported that Winder came on the same steamer. In each case the information filed with the court asserts that the defendants "did then and there unlawfully engage in soliciting, inducing, procuring and hiring certain laborers, residents of Honolulu, to go beyond the limits of the territory of Hawaii, and did then and there act as immigration agent without obtaining a license to do so."

Lake's affidavit is to the effect that as a detective, he watched the movements of the defendants for two weeks. Lake asserts that they acted as immigration agents without having licenses. It is alleged that the activities of the defendants covered a period of 30 days prior to June 13. Snyder, 300, Filipino, Charge.

According to the city attorney's office, Snyder came to Honolulu with the intention of recruiting about 300 Filipinos for work in salmon canneries in Alaska.

"Our position in the case," says Deputy City Attorney Will T. Carden, "is the same as in the case of O. A. Steven."

Steven, formerly an auctioneer, was charged with acting as an immigration agent without a license and was given a heavy fine.

"The future development of this territory depends largely upon its having an adequate labor supply," Carden continues, "and to protect this supply, as well as the laborers themselves, there are stringent statutes governing the recruiting of laborers."

It is provided, among other things, that any person who recruits laborers must secure a license, must file with the territorial treasurer a bond of \$5,000 to cover suits for damages that might be filed by persons whose laborers were taken, and a bond of \$100 to cover each laborer recruited.

Carden asserts further that he believes Snyder was aware of the requirements of the law, saying that he went to the city attorney's office a few weeks ago and made inquiries. Carden says that when Snyder visited the city attorney's office the law was

THINK BONE MEAL MAY BE CAUSE OF ANTHRAX.
