HAWAII PLANS AUTHORIZED BY GEN. CROWDER

Interpreters and Registrars are Needed in 84 Precincts; August May Be Date

Upon cable advice received from Washington that Brig-Gen. E. H. Crowder, provost marshal general in charge of registration and the selective draft, has authorized the necessary translation and assistance to carry out the selective draft in Hawaii, Governor Pinkham today issued a formal call for volunteers to aid in the big job now ahead of the department.

Volunteers by scores will be needed, as every precinct in the territory must be cared for, and there are a total of 84 precincts. The governor's statement issued today is as follows: TO THE PUBLIC PRESS:

Friday, June 22, Enoch H. Crowder, Provost Marshal General, in charge of registration and selective draft, first authorized necessary translation and assistance to carry out the technicalities of the registration. When these are completed, a day for registration will be announced by the President of the United States.

Volunteers are desired for each precinct in the territory to act without pay as registrars and interpreters. The executive requests the volunteers from every precinct in the islands to send their names to the governor's office immediately and without fail.

L. E. PINKHAM, Governor of Hawaii. Governor Pinkham has been in communication for some time with the provost marshal general, making clear to the Washington authorities the difficulties that he is in the way of registration in this territory on account of the many races gathered here.

As an example of the work in registering for the local registration it may be said that there has been a total of 84 precincts to be registered for each of the 84 precincts of the territory. Among these will be Japanese, Chinese, Hawaiian, Korean, Porto Rican, Spanish, Portuguese, Filipino and Russian.

Proclamations will be translated into the various languages through cooperation with the respective consuls. It was stated today, and will be distributed to every hamlet of the territory by the consuls and deputy sheriffs of the different counties.

Though an error has been set yet for the registration, it is believed now that it will fall well toward the last of the month or possibly early in August. The amount of work necessary in getting ready for it making a date toward the middle of the month practically impossible.

THOMAS IS NAMED TO UTILITY BODY

Will P. Thomas, secretary and treasurer of the Thomas Pineapple Company, Ltd., was today announced by Governor Pinkham as a member of the public utilities commission, succeeding Charles R. Forbes, former chairman.

Thomas becomes the third member of the commission, William T. Carden becoming chairman and A. J. Gignoux chairman of the committee.

In announcing the appointment of Thomas the governor also announced that the resignation of Chairman Forbes, now a major in the reserve corps at San Francisco, was effective as of yesterday.

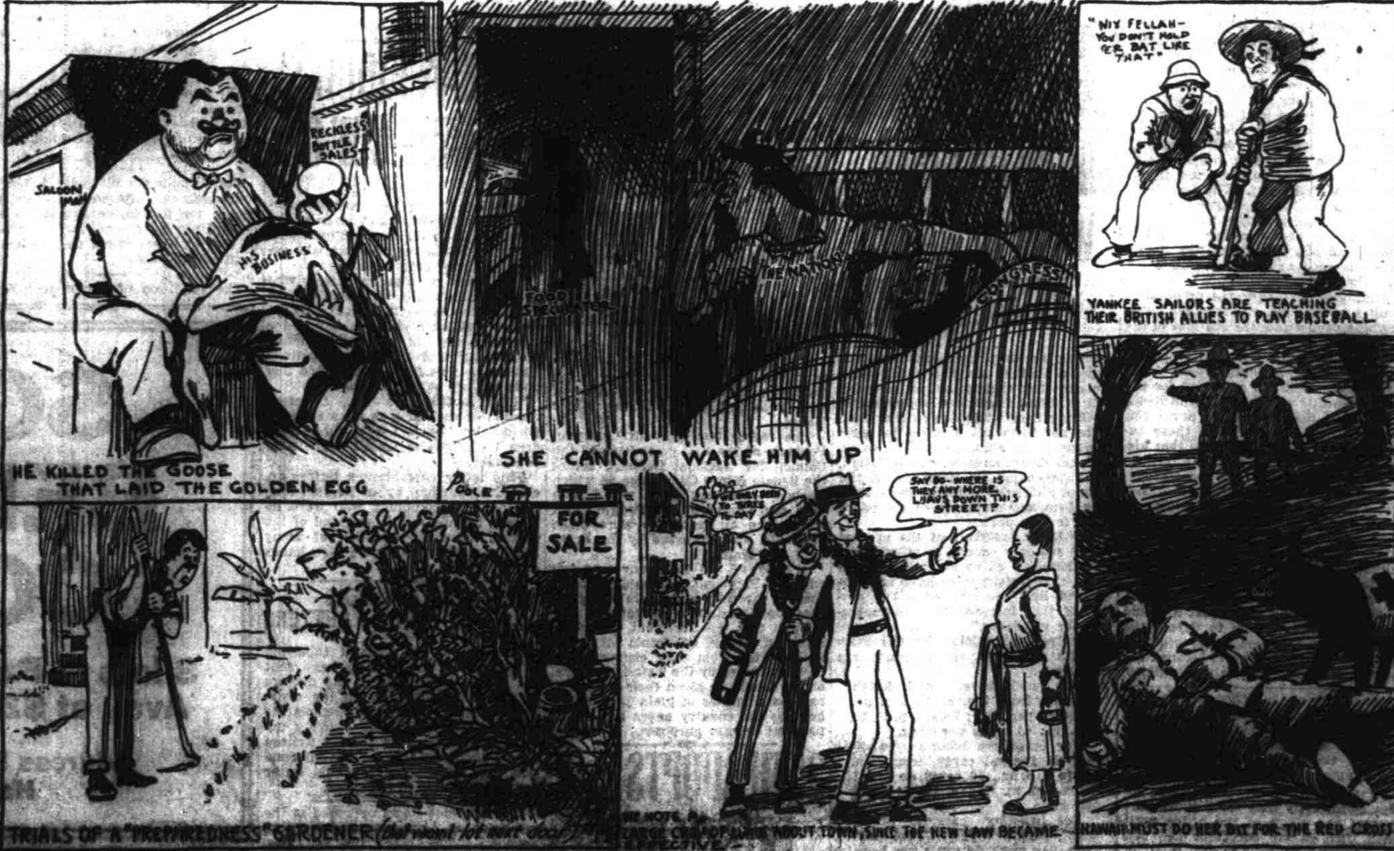

Forbes had announced at various times that he had resigned informally, but this is the first formal recognition of any resignation given by the governor.

Commissioner Thomas is well known in Hawaii, having been here for many years. He has been actively associated in building the Thomas Pineapple Company.

Postmaster D. H. MacAdam this morning made an appeal to postoffice employes to raise \$50 for the fund, and before noon \$30 of it had been subscribed, each employe contributing \$1, exclusive of the postmaster's donation. There are 59 employes in the postoffice all told. The postmaster, in a message to postoffice employes asking them to contribute to the worthy cause, said in part: "This would be but a small gift in aid of thousands of Americans who are to be numbered among the victims of the great war. HAWAII'S SHARE OF LOAN BONDS TO BE REDUCED

With an oversubscription of more than a billion dollars to the Liberty Loan, word came to local banking circles this morning that Hawaii's allotment of subscriptions probably will be reduced and when the pro rata distribution is announced by the government, the exact percentage of Hawaii's pledges to be fulfilled will be known. A. Lewis, Jr., of the Bank of Hawaii estimated that in view of the large oversubscription the original allotment for the territory probably would be reduced by one-third at least. With total subscriptions from Honolulu of approximately \$3,500,000 and two-thirds of this amount to be taken up under the oversubscription, it is figured that Honolulu would be called on to redeem about \$2,500,000 of her original pledge.
