

HAWAII AWAITS REGISTRATION; 30,000 ENROLLMENT EXPECTED

(Continued from Page 1) official copies of the proclamation by President Wilson setting aside tomorrow as a registration day for Hawaii. This is the proclamation that was sent here first by cable some weeks ago. Maui in Readiness That the island of Maui is now waiting for registration day for the young men to register is evident in the large number of registration cards which have been received already. This morning, David Kaunokāoni, county clerk, received 15 and smaller numbers have been coming from there for the past week. He estimates that at least 20 have already been sent in. As fast as he gets them, they are turned over to the general board. We expect the total registration for the territory to be tomorrow between 25,000 and 30,000, said F. J. Green, executive officer of the central board today. Here is the martial program that the Hawaiian band, led by Captain Peter Kalani, will render tomorrow from 10 o'clock to noon in the bandstand at the capitol grounds. 1. March—"The Stars and Stripes forever" Souza. 2. Selection—"The Pirates of Penzance" Sullivan. 3. Triumphant March, from Verdi's Aida Arr. by Laurendes. 4. Selection—"Patriotic Airs" Bevers. HOLIDAY FOR REGISTRATION SEEMS CERTAIN

Nearly All Stores Will Close and Business Will Cease During Day So completely has the feeling towards Registration day changed with the merchants in the past few days that now practically every store in the city will be closed Tuesday and the drug stores, too, have agreed to close during the middle of the day. According to Raymond C. Brown, secretary of the Chamber of Commerce, there are now only two or three stores so far as he knows who have not decided to close, but he expects that tomorrow morning not a single store will be open for business. This morning the drug stores announced that they would be closed from 10 o'clock in the morning to 4 o'clock in the afternoon. Registering tomorrow is the most serious thing which the young men of this country have been called upon to do and everything should be done to see that they do it," said Captain Will Wayne, assistant to the adjutant general, today, and the stores can't do less than close." The men who register promise to give their lives for their country and feeling as I do that Hawaii will eventually be called upon to send its quota I do not believe that the men should be made to work tomorrow." At today's session of the stock and bond exchange it was voted that no session will be held tomorrow, which means that the brokerage offices will also be closed.

POLICE NOTES

Nan Chun and Ah Hoong, two Chinese, were fined \$10 and costs for having opium in their possession. Eight Japanese enjoying a gambling game, were caught by the police in a raid yesterday in a small store on River street. They failed to appear in court this morning and each forfeited his \$10 bail. Miss Mary Davis, who has appeared before the court on several previous occasions, faced a charge of running a disorderly house this morning. After warning her against continuing her former practices, Judge Irwin passed a suspended sentence of 13 months on her. For driving without the proper lights, Officer J. G. Branco had five citizens of Honolulu listed on the police calendar this morning. They were A. Isenberg, whose case went over; H. R. Leach, M. D. McLain, Arthur Alwoli, J. S. Walker, Frank Coombs. The latter two were fined the usual \$5 and costs. Just how easy it is to get hurt is illustrated by the accident which befell Ah Chon, a Chinese who lives at 377 King street. In crossing Bethel street on Saturday afternoon, Chon got excited and started to move hastily. Upon reaching the other side he tripped on the curbing and was cut so badly that an officer seeing him sent him to the emergency hospital for treatment.

LETTER ON SUBMARINES GIVEN WIDE PUBLICITY

In reply to the letters sent out by the Chamber of Commerce to the chambers on the mainland explaining that travel to the islands is very safe insofar as submarines and raiders are concerned, many letters have been received by Raymond C. Brown, secretary, offering hearty cooperation and assurances that everything will be done to dispel the fear which many people may have. Clippings from the newspapers on the mainland show that the local chamber's letter is receiving wide publicity.

GENERAL OTIS DIES SUDDENLY

Gen. Harrison Gray Otis, veteran fighter and proprietor of the Los Angeles Times, who died suddenly today.

placed him in the 23rd Ohio Veteran Volunteers, his colonel and captain being, respectively, Rutherford B. Hayes and William McKinley. Altogether, Otis saw forty-nine months of actual service in the Civil war, was twice wounded and received seven promotions, including two brevets, and retiring with the title of major and lieutenant-colonel, by brevet. With the outbreak of the Spanish-American war, in 1898, Major Otis, at the age of 61, volunteered his services to President McKinley and was made a brigadier general of volunteers. He was assigned to duty, first at Camp Merritt (Cal.) and then to the Philippines, where, at different times, he commanded various divisions of the 8th Army Corps in the campaign for pacification of the native revolt. He led a brigade in person in the assault on Calocan and participated in the capture of the Ili-pino capital. He resigned his command in April, 1899, returning to the United States. Upon discharge, he was brevetted major-general for "meritorious conduct in action." Following the Civil war, Otis returned to the trade of printer, for which he had abandoned school at an early age, acquiring, finally in 1882, a fourth interest in the Los Angeles Times. Previously, he had served for four years as foreman of the government printing office at Washington. Quite early in his career as editor and publisher of the Times, for he speedily secured full control, Otis came into conflict with organized labor and thereafter until the day of his death he waged an unrelenting warfare for what he termed industrial freedom. On October 10, 1910, his building and printing plant was dynamited and twenty of his workmen killed. The arrests and trials which followed were matter of nationwide interest. General Otis acquired a large fortune, his interests aside from publishing being extensive. In politics, his paper ever reflected the attitude of its editor—aggressive, uncompromising Republican. Otis' connection with that party dating back to 1860, when he was sent from Kentucky as a delegate to the convention at Chicago which nominated Lincoln for the presidency. Aside from those mentioned, General Otis held numerous governmental positions at different periods of his life. He was prominent in the Grand Army of the Republic and numerous other patriotic orders and a member of the American Academy of Sciences. The bride of General Otis' young manhood, Miss Eliza Wetherby, was his constant associate in journalism and literature until her death in 1904. Of the five children born to them, two daughters survive.

OPIUM AND BEER FOUND BY POLICE IN ALAPAI LANE

An opium smokers' outfit, as well as 18 bottles of well-iced beer, in the possession of three soldiers, were seized Saturday night by the liquor license squad on a raid on a house in the lower part of Alapai lane. There was no one else in the house besides the soldiers, who claimed they had merely rented a room from the proprietors who were absent. The door to the kitchen was locked where the beer was stored and had to be broken down before entrance was gained. The opium outfit was found hidden in the room where the soldiers were found. It gave indication of recent use. The soldiers protested against the opium pipe and lamp being confiscated, but told the officers to help themselves to the booze. Discovery of the smokers' outfit is taken to indicate that some of the soldiers are becoming addicted to the dope habit, since they find it difficult to get liquor.

JAPANESE SOCIETY MEMBERS TO AID IN REGISTRATION

Members of the Japanese-American Citizens' Association have volunteered their services as interpreters and assistants for the registration tomorrow. More than 50 members of this association will be in attendance at the various precincts. A large number of English-speaking Japanese are assisting in every way to make the registration complete. The Hawaii Shippo published a map of the city showing the various precincts. The Nippu Jiji has had one man on hand all day explaining the points of registration to the many Japanese. The Nippu Jiji will not publish a newspaper tomorrow afternoon. S. Soza, editor, decided that his employees should register, and as a result decided not to publish an edition on Tuesday. It is predicted that all Japanese eligibles will be registered.

STRIKE OF TEAMSTERS PROVES SHORTLIVED

Reports that teamsters employed by the Husted-Beck Co., Ltd., had made demands for a raise in pay and threatened to strike were in circulation this morning. Officials of the company at noon said that the situation was simply a misunderstanding that had been cleared up, that the men were all at work and an agreement had been reached which will result in better pay for men doing certain classes of work. "Father," said the small boy, "what is an overt act?" "My son, an overt act is something that either compels you to be so afraid as to fight or so polite as to pretend you didn't notice it."—Washington Star.

and the bullet lodged in the breast of the man. His adopted daughter, John Eba Makalea, has seriously guarded Lucy Eba Makalea, who is now going on 16 years of age. She has been distressed by getting married within the last month, but her father has done all in his power to prevent her from doing so. On July 5 the father rang on the police station and told them that the girl had left the house and he believed that she had eloped with a part Chinese boy named William. The police followed and located her on July 7. She wanted to marry this boy with whom she had left home, but her father objected, saying that she was too young and also wanted her name. The girl, however, told the police that her father had made advances to her and that she could not live with him any longer. She said that he had weapons in his possession with which he had watched her. Two revolvers have been taken away from Makalea by the police, and one of them contained two shots. On still another occasion the girl claimed that her father had daggers in his possession, but the police were unable to locate them.

WOMEN DISCUSS STAR-BULLETIN'S FOOD DEPARTMENT

Plans for conducting a department in the Star-Bulletin each Saturday devoted to the women of the territory in the conservation of food, will be discussed, and probably completed, at a meeting of the woman's committee of the food commission at 3:30 o'clock this afternoon at the Y. W. C. A. Mrs. A. L. Andrews, who has been placed in charge of practical demonstrations of conserving food and utilizing waste, will outline the plans she has made for carrying on the work by which the committee expects to get in touch with every housewife in Honolulu. As regards the department in the Star-Bulletin, Mrs. A. C. Alexander, chairman, says the committee will consider the products now in the market and work out suggestions as to how these products may be best used. The food commission has not yet taken action regarding the suggestion that committees of women be appointed on the other islands to cooperate with the central woman's committee in Honolulu. The Hoover plan of enlisting the women in the territory-wide campaign of conservation may also be considered further this afternoon.

LETTERS THAT HOLEY PALI ROAD

Editor Honolulu Star-Bulletin: Sir: Having occasion to frequently use the Pali road with an auto, I am, as might be expected, a close observer of road conditions. Occasionally there is a little halfhearted patching done to the Pali road leading from this city to the Pali, but it is of the same brand as is employed right here in town—lasts about 20 minutes. People can get used to most everything, but there is an axle-breaking hole in the Pali road about a mile this side of the Pali, that has been there, to the writer's knowledge for over a year. It extends clear across the right of way, and there is no way to avoid it. It is something awful to pass over, even when driving very slowly. It has always been a mystery to the writer why the authorities allow such a place to remain without repair. Perhaps it is a mystery to them, also. It may be that people, who should be vitally interested in our roads are excusable, when they get so very "excited" while driving an auto that they seem to lose the idea of "reversing" when stuck on the Pali. AN EXPERT ON COLDS

Comparatively few people realize that a cold is a signal of physical weakness. To treat a cold with weakening physics, alcoholic syrups or drugged pills, may smother the cold but they also reduce the body powers still further and invite more serious sickness. Scott's Emulsion has always been an expert on colds, because it peculiarly enriches the blood, quickly tones up the forces and strengthens both throat and chest. Try Scott's. Refuse Substitutes.
