CAMPAIGN TO AROUSE PEOPLE TO MEANING OF WORLD WAR LAUNCHED

(Special Star-Bulletin Correspondence)
NEW YORK, July 18.—The National Security League, which has undertaken a nation-wide campaign to arouse the people to the meanings of the war and the necessity for its aggressive prosecution, announced today the active launching of the movement in 18 states. This wide commencement of the campaign, extending from Vermont as far west as the State of Washington and as far south as Louisiana—is the direct result of the conference held under the auspices of the National Security League at Chautauqua week before last. Official delegates were present from 22 states—either representatives of state councils of defense or personal representatives of governors—and all but four of the states have already reported action.

The details of the plans under way are as follows:

Vermont—Two days' conference, July 26-27, under auspices State Council of Defense, the National Security League to arrange the program and supply the speakers. In charge of Mason S. Stone, Montpelier. Ex-U. S. Senator Charles A. Towne will be one of the speakers.

Pennsylvania—Delegates from this state have appealed to Gov. Brumbaugh to arrange a speakers' training camp and conference. James M. Dickey, Pennsylvania Public Safety Committee, 702 W. 9th St., Erie, Pa., heads this movement.

Ohio—Conference held in State House, Columbus, with Gov. Cox last Wednesday, by S. Gale Lowrie, University of Cincinnati, and Alfred Bettman, Cincinnati, and John Pratt, of Toledo, at which plans were gone over for taking up the work in Ohio.

WEST ACTIVE
Iowa—Glenn N. Merry, University of Iowa, will take up with Gov. Harding the question of arranging for a campaign of patriotic education in Iowa under the auspices of the State Council of Defense. Other Iowa delegates at the Chautauqua Conference will co-operate.

Wisconsin—Richard Lloyd Jones, editor of the Wisconsin State Journal, and Professor Mullenix of Lawrence College, Appleton, Wis., will arrange for a committee of five and the employment of a secretary to plan for a series of meetings throughout that state.

Kansas—Former Governor G. H. Hodges and the Kansas delegation at Chautauqua have decided to divide the state by congressional districts, subdividing two of these districts so as to make ten subdivisions of the state. Arrangements will be made for a flying squadron of speakers to go through each congressional district. The co-operation of Gov. Capper is assured.

Washington—Through Prof. Todd of the University of Washington, an organization similar to that contemplated in Wisconsin will be undertaken and President Suzzlo of the University of Washington, who is the educational member of the State Council of Defense, will co-operate in the work.

SOUTH AWAKE
Louisiana—Nicholas Bauer, assistant superintendent of schools in New Orleans, and H. M. Gill, city librarian of New Orleans, who were at Chautauqua, have appealed to Gov. Pleasant to embody in his message to the legislature a recommendation that the proposed state council of defense have as a member an educator who would carry forward patriotic education in Louisiana. Gov. Pleasant replied by asking that all information be sent him. This has been done by the Security League.

Virginia—M. Estes Cooke and Professor Riley of Washington-Lee University will take up with Gen. E. W. Nichols, superintendent of the Virginia Military Institute and a member of the State Council of Defense, the importance of a patriotic educational campaign in Virginia.

Indiana—The Indiana delegation at Chautauqua has organized, with Prof.

Thomas F. Moran of Purdue University, West Lafayette, Ind., as chairman and Herman Babson of the same university, secretary. They will take up with Gov. Goodrich and Professor Pettijohn, who has charge of the mobilization of the educational resources in the state, the importance of prosecuting this work immediately.

Illinois—B. J. Mullaney, representing the State Council of Defense will hold a conference with Samuel Insull, chairman of the council, regarding the work of patriotic education in Illinois, and will co-operate with H. H. Merrick, chairman of the Chicago branch of the Security League, especially to utilize the Chicago headquarters of the league in handling the clerical work.

Tennessee—Sam E. Hill, city commissioner of Knoxville, will consult with Gov. Rye and start a campaign of patriotic education in Tennessee, utilizing the branches of the National Security League in Knoxville, Chattanooga and Memphis.

EAST NOT BEHIND

New Jersey—Robert C. Brennan, representative at Chautauqua of Gov. Edge, will consult with the governor in order to have the home defense leagues arrange meetings in the towns where these leagues are organized.

The National Security League will supply speakers for these meetings throughout New Jersey. The appointment of a governor's committee to have this matter in hand is probable.

New York—Dr. H. N. McCracken, chief of the educational division of the State Council of Defense, in conjunction with the National Security League and Columbia University will arrange meetings in all the counties of New York state during August.

Kentucky—H. H. Charry of Bowling Green, chairman of the publicity committee of the State Council of Defense, will take up with the state council the question of a campaign of patriotic education in Kentucky.

Michigan—Prof. William H. Hobbs of the University of Michigan will have charge of the campaign in Michigan. Rev. Arthur S. Walker, of Vassar, Mich., will call upon Gov. Sleeper and ask him to recognize the importance of the campaign and make provision for it through a special committee or through the State Council of Defense.

SENT BY GOVERNOR

West Virginia—M. P. Shawkey of Charleston, and E. T. England of Kanawha, appointed by Gov. Cornwell and representing the State Council of Defense at Chautauqua, will take up with the governor the program for the campaign in West Virginia.

Maryland—Prof. John H. Latane, representing the Maryland State Defense Council, in conjunction with Prof. Arthur O. Lovejoy of Johns Hopkins University, will handle the campaign in Maryland.

The Security League declares that it is confident this roster will be substantially increased during the coming week. A letter will go out from the headquarters of the league in this city today to the responsible authorities in all the other states in the union—to the chairmen of State Councils of Defense, where they exist, and in other cases to the governors. This letter explains the object of the campaign and enlists cooperation. It reads in part—

"In a number of states, like New York, the State Council of Defense has been thoroughly organized and an able and experienced educator has been given charge of the work of patriotic education. Public meetings are already being arranged.

"We would be glad to be informed if your state council has been organized on this basis and if a definite patriotic educational program has been either planned or is being carried into effect.

VOLUNTEERS READY

"We would appreciate this information because we want to avoid duplication of effort in your state if the work is already in progress. We believe, however, that even if your council has become active in this matter we can be helpful because we have a list of men in your state who are willing to volunteer their services as speakers in presenting the issues of the war to the American people."

The Security League will actively open the speech-making campaign in this city this week. Speakers from its list of volunteers will address the audiences at the Lincoln Cycle pictures at the Globe Theater each evening during the coming week. They will appear at 9:30 and talk for ten minutes. The speakers will be—Tonight, Prof. Robert M. McElroy of Princeton University, member of the National Security League's Committee on Patriotism Through Education; tomorrow, Joseph T. Cashman; Wednesday, Julius Hopp; Thursday, Leo Healy; Friday, S. Stanwood Menken, president of the National Security League; Saturday, Henry Rood.

The league will also send out a large corps of speakers to make open-air cart-tail addresses throughout the city, particularly on the East Side and in the Brownsville district.

NEW YORK, July 18.—Lloyd Taylor, of W. A. Taylor & Co., who is a member of the executive committee of the National Security League and has large farming interests in Orange county, will present to Food Administrator Hoover today a plan for relieving the agricultural labor situation by the application of the principle of the selective draft. Mr. Taylor's idea, set forth in the following letter to Mr. Hoover, is to utilize the existing farm bureaus in the various states for the intensive training of men drafted for labor in the production of foodstuffs.

Mr. Taylor's letter reads—"The labor situation on the farms will probably be more acute this fall and next spring than at present. I would suggest that the existing farm bureaus in the United States could each intensively drill in farming for 30 days, 50 to 75 men, making them 60 or 70 per cent efficient in plowing, milking, seeding and the care of animals. These men could be secured by volunteering, or through selective draft.

"I have interviewed many farm bureau managers and they assure me they could make very useful men in the period I have stated."

LIBERTY PLOTS
"The laborers sent to the farm at present require too much of the farmers' time to make them available. I believe this scheme put into operation would help you immensely in solving the food problem next year."

"These recruits could have charge of a Liberty plot on the farms throughout the United States, which would return you almost the amount of grain you would require for the needs of your bureau. Most of the machinery to put this idea into operation is now existing."

"If this proposition interests you I could elaborate on it and put it into more concrete, workable shape. I believe the great question before the country is the production of grains; and I think this scheme would add hundreds of millions of bushels to our average yield."

Mr. Taylor was the originator of the great preparedness parade last year and was one of the principal movers in obtaining the 1,000,000 signatures to the petition for universal military training presented by the National Security League to Congress last April. He has laid his plan before several granges and other agricultural organizations and has found it met with general approval.—Adv.

HERE IS A NEW USE FOR PEANUT BUTTER

1/2 cup peanut butter, 1/2 cup sugar, 1 egg well beaten, 1/4 cup flour, 1/4 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon soda.

Work peanut butter until creamy, add sugar gradually, egg, soda dissolved in three-fourths tablespoon hot water, and dry ingredients. Chill, roll thin, shape, arrange on buttered sheet and bake in moderate oven.

"Do you believe in second sight?"
"No, but my wife does. When I go shopping with her she always says to the assistant, 'I'll come in and look at these again.'—London Telegraph.

Hilda—Tilda, what do you think? A strange man tried to kiss me this morning.

Tilda—Really? He must have been a very strange man, dear!—London Answers.
