SAYS AUSTRALIA HAS DONE SHARE IN SENDING MEN

"New Zealand has responded nobly to the cause of the Allies," says Prof. Norwood, hypnotist, who recently arrived here from a tour of Australasia. "That country has pledged itself to send 2000 men each month to the front. At the present time they find much difficulty in securing that many men."

"In one city of 800 people in New Zealand, I played to a large crowd, and there were but five men between the ages of 21 to 45 in the audience. This condition prevails throughout New Zealand. Wellington is the busiest city in New Zealand at present. It is the port where the soldiers leave and the people come from all parts of the country to bid them farewell, consequently the city has not accommodations enough to house the crowds."

"Australia, without conscription, hasn't done quite as much in proportion as New Zealand. There is some talk at present of enforcing conscription there, as at the present time there are thousands of young men who refuse to go to the front."

"Americans were insured on a number of occasions before United States declared war, and one of the Sydney newspapers burst out in big type a cartoon of Uncle Sam as too proud to fight. The few Americans had a difficult time on account of these statements, and for a time it was proposed to bar the entrance of American automobiles. Following the declaration of war the residents of Australasia changed their attitude toward the United States."

"The mouse plague in Australia did much harm to that country. Wheat was stacked up along the railroads for miles, and owing to the lack of transportation was left there. It is estimated that 10 tons of the rodents were killed in one community, out still the plague did not cease."

Prof. Norwood is appearing at the Bijou theater in a hypnotic number, beginning on Monday.

SCAVENIUS SAYS HE WILL JOIN ALLIES IF HE CAN QUALIFY

Wilfred James Singleton, alias Fritz Scavenius, who failed to register on July 31, intends to join the British army if he can qualify.

"I am going to take my physical examination on Monday," declared Singleton this afternoon, "and if they want me I will fight for the Allies."

With Attorney Claudius H. McBride, who was retained by Singleton when he failed the federal authorities to tell why he had not registered, Singleton sauntered into the police station and waited there while his attorney attended to some business. He wore the same green felt hat and black velvet coat.

Harmony Chapter No. 4, Order Eastern Star, holds a regular meeting this evening in Masonic Temple.

MAYOR GIVEN NEW CHANCE TO NAME ENGINEER

If Appointee Doesn't Suit Republicans, Supervisors Will Fill Office; Three Appointments Confirmed, Wilson Turned Down

WITHOUT warning last night the appointments of Mayor J. J. Fern, to positions under the municipal government, were taken off the table on a motion made by Supervisor Mott-Smith and six names were acted upon, three being approved and three disapproved. The rest of the appointments were then again tabled.

The reason of this move by the Republican supervisors is the resignation of George Collins, city and county engineer, and a willingness to come to an understanding with Mayor Fern. The three appointees approved are Dr. R. G. Ayer, Emergency hospital physician; Dr. James T. Wayson, city and county physician, and J. J. Fern, chauffeur to the mayor. Those turned down are John Wilson for city and county engineer; Manuel Pacheco, for superintendent of the water and sewer department, and John Markham for superintendent of public grounds and public buildings.

With the name of John Wilson off the list and the office of city and county engineer soon to be vacated, the way is clear for Mayor Fern to appoint a man capable of filling the position and one who will be approved by the board. The Republican members of the board of supervisors backed by the opinion of the attorney's office, claim that they have the power to appoint the city and county engineer. They are, however, willing to give Mayor Fern one more chance. If he names an engineer who will be acceptable all good and well, but if he doesn't the Republicans say they will take the bull by the horns and appoint their choice.

Who will be the most acceptable to the board has not been definitely announced but it is understood that three of the board favor the appointment of Fred Ohrt, another is backing L. M. Whitehouse while E. E. Black and W. G. Allen have also been spoken of favorably.

BURY HATCHET AT HILO OVER REGISTRATION

Maj. Will Wayne, who returned this morning from Hilo where he went to arrange a truce between the warring factions on registration matters, reports that every point has been definitely and satisfactorily agreed upon and that the complete returns will be in from Hilo some time during the coming week.

"They just had forgotten that election was over," laughed Wayne, when asked for an explanation of the trouble between the county officials. "Now they've buried the hatchet until next election at least."

Wayne says that the clerical work is to be handled from now on by a clerk from the office of the county attorney, the auditor, the road department and the treasurer, with a deputy from the clerk's office as well.

All have pledged themselves to work together for the cause. Wayne went through the work with the staff and showed them what he considered the best method of handling it. About 30 Filipinos who had been arrested on "slicker" charges were ordered turned loose by the chairman who regarded their failure to register only the result of ignorance.

HILO JAPANESE MAY JOIN GUARD

Possibility that Hilo may be allowed to furnish a platoon or even a company of Japanese to the national guard is seen by guard officers in a letter from Brig.-Gen. Samuel L. Johnson. The letter is an answer to one sent by P. Arakawa of the Japanese American Association to the governor and by him referred to guard headquarters.

"The offer to assist the governor in recruiting Hawaiian-born Japanese in the guard is highly commendable and is very much appreciated. However, instead of having these young men join the first regiment, which is in Honolulu, it would be a great deal better to have those living on Hawaii, around Hilo, form a platoon, or if possible a company composed entirely of Japanese, to be assigned for duty with the 1st Battalion, 2nd Infantry, on Hawaii."

"For this I would suggest that you submit the names of not less than fifty, who desire to form a platoon and become part of the 2nd Infantry of Hilo. This action should be taken without delay."

Schofield Lodge, No. 443, F. and A. M., meets this evening in its hall at Lilehua for regular business.

WOMAN PRESS AGENT FOR HOTEL STUDIES ISLANDS

Miss Lillian Snyder, press representative of the Clift hotel of San Francisco, is expected to return to Honolulu on Wednesday, following a tour of Maui and Hawaii, where she has been studying conditions in the islands preparatory to making a campaign for Pacific coast and Hawaiian travel.

Miss Snyder has for some time been a familiar figure at the various conventions throughout the country, and her work has brought much publicity to California and the Clift hotel in particular. She is at the present time making a study of the islands, so that she may be in position to tell the tourists of the East something about Hawaii when they visit San Francisco.

Miss Snyder has been the guest at a number of affairs on the other islands, and her itinerary which includes every island in the group has been one of pleasure. Miss Snyder promises to sing the praises of Hawaii from the housetops when she returns to the mainland.

COUNTY PLANS TO OWN QUARRY

That the city and county should own and operate its own rock quarry is the opinion of the road committee of the board of supervisors and last night the city and county engineer was asked to prepare a report on the advantages of such a move and the feasibility of condemning the quarry in Moiliili which is now leased by the county.

It was pointed out by the road committee that with the city and county owning its own quarry a large amount of money would be saved as the rock question is a very important one in the permanent improvement program which has been outlined. One feature is that the city can sell the contractor rock from its own quarry, thus reducing the cost of construction.

CITY BUSINESS AND SUPERVISORS' NOTES

The request of the electric light department for new equipment, filed with the board two weeks ago, was granted and bids called for.

The Spalding Construction Co., the lowest bidder, was awarded the contract for the installation of the Kalihi sewer system at a cost of \$49,467.40.

Supervisor Arnold told the board that the preliminary plans for the permanent improvement of Puunui and Wylie streets would be finished next week.

George M. Collins, city and county engineer, last night filed his resignation to take effect October 1st. This was followed by a request for a two weeks' vacation which was referred to the road committee.

Supervisors McClellan and Petrie again voted against the pay roll last night because it included the pay of George Collins, city and county engineer, who they claim went out of office with Mayor Lane.

For the enlargement and reconstruction of the Makiki ditch the board appropriated \$2500. Supervisor Arnold said that the ditch was in such a condition that the first heavy winter rain would likely destroy a large part of it.

Supervisor Arnold announced last night that as it will be several months before the permanent paving of Punchbowl street can reach a point where the contractor can be ordered to commence work, temporary repairs will be made in the street.
