INTERNED GERMANS ARE OFF

One Hundred and Eighty Prisoners of War Board Transport Sherman for Transfer to War Camp in Utah

UNDER an armed guard of 150 American soldiers, 180 German war prisoners left at noon today on the transport Sherman for the mainland. From San Francisco they will be sent by train to Fort Douglas, Utah, for internment.

Of the 180 prisoners 159 were enlisted men and 21 were officers. They were removed from the former German gunboat Geier on February 3, and most of the time since then have been guarded at Schofield Barracks where the men worked the gardens.

At 8 o'clock this morning the prisoners left Schofield under guard of Co. D, 32nd Infantry, which will act as their guard on the trip across to San Francisco.

On arriving at the O. R. & L. Company depot the prisoners were assembled in marching order and marched down the streets to the waterfront. They were sent immediately to the wharf from which the Sherman was to sail. Here their baggage was arranged under close supervision of army officials and shortly after 10 o'clock they were marched on board. They were placed in quarters in the hold.

With the exception of Lieut. Portwich, who was detained by the authorities in connection with the investigation proceeding in the Nurse Berg case, all of the German prisoners formerly stationed here have now departed. A number of the prisoners taken at the beginning of war from the war-bound German freight boats had been sent previously.

With the departure today of these 180 officers another chapter is written in the history of the little Geier which came hither-skelter into port here three years ago with a Japanese cruiser hot on her trail. The Geier was in poor condition and was given a month to repair and leave or to intern according to the rules of war. At the end of this time she interned and vital parts of her machinery were removed to Pearl Harbor and placed under official lock and key.

On February 3, upon news that relations had been severed between the United States and Germany, the crew of the Geier sought to destroy her, pouring paint and oil into her furnaces and setting fire to it. This fire was put out by the combined work of the city department and the military authorities, and a few days later the Geier was towed to Pearl Harbor for repair.

PEACE PLEA IS REJECTED BY JAPANESE

TOKIO, Japan, Sept. 3.—The pope's plea for peace in the great European war will be rejected by Japan, it was officially announced today. Japan will join with the Allies in turning down the pontiff's plea. It was also announced that the German colonies in the Pacific and Africa, seized by England and Japan, will not be restored to the Kaiser's government.

Chicago Mayor Faces Ousting For War Stand

National Security League Takes Steps Because of Alleged Pro-German Feeling

CHICAGO, Ill., Sept. 3.—The antagonism toward William Hale Thompson took definite shape today with an announcement by the National Security League that it has taken steps to bring about the ousting of Thompson from the mayoralty because of his lukewarm loyalty to the cause of the entente allies.

In some quarters Mayor Thompson is regarded as a German sympathizer because of the numerous acts of omission and commission in an official capacity of which he has been guilty.

The public became interested in Mayor Thompson war sympathies when he refused to extend an invitation to the British commission to visit Chicago with the French mission headed by Marshal Joffre.

Later the school board which is under the mayor's domination refused to delete from the school text books paragraphs lauding the Kaiser.

HAWAII CAN LOOK FOR BIG TOURIST TRAFFIC IN WINTER

Now That People Know Results of Draft They Will Travel More, Says S. R. Jordan

"A big tourist travel to Hawaii is expected this winter by the traveling agencies and steamship lines on the coast," declared Sidney R. Jordan, manager of the Hawaii Tours company, who returned this morning on the Sierra after a two months' tour of the western states.

"It is not the fear of the reported submarines which has kept the people off of the Pacific as much as uncertainty about the draft. People have been waiting to hear the results of the draft before they make extensive trips," declared Mr. Jordan this morning.

GERMAN PRESS STILL HAMMERS WILSON'S REPLY

AMSTERDAM, Holland, Sept. 3.—The German press continues to belabor President Wilson in the bitterest tone for his recent reply to Pope Benedict's peace proposals.

The socialist paper, Vorwaerts, also comes in for a severe criticism for demanding that the nation take good advice regardless of the source and institute democratic reforms, which must be a preliminary condition to any peace negotiations.

Organs of the Conservative party claim that the Socialists have weakened the position of Germany in the eyes of the Entente Allies.

Miss Isabella Naman, president of the Kaunakakai Intermediate Christian Endeavor Society, will give an entertainment at her home in Kaplanui and Prospect street tonight at 7 o'clock in honor of James Akimo, a member of the society who is to leave for the coast on Wednesday morning on the steamer Maui.

'WITH U.S. IN FIGHT WE LOSE'

--Hun Officer Captured German Commander, After Interview With General Pershing, Realizes Futility of Teuton Cause

PARIS, France, Sept. 3.—That the Germans have not yet come to a proper realization of the strength which the United States is planning to throw on the side of her Allies, is shown in the statement made by a German officer recently captured at Verdun, when he laughed at the thought of America ever being a factor to be taken seriously in the great world war.

"It is a pity so much blood has been shed in vain," asserted the officer when interrogated by French staff officers, referring to the failure of the Crown Prince to capture that blood-soaked sector of the western line.

The captive officer was taken before Gen. J. J. Pershing, commander of the United States forces in France, who enlightened him as to the serious intent of his country to see the war through to a victorious issue. When he left, he had tears in his eyes, and on bidding Pershing goodbye said: "That being the case, all is over—we have lost."

MANILA, P. I., Sept. 3.—The Philippine government has decided to send President Ferguson of the Insular bank to the United States in an endeavor to protect the products of the islands from being included in any possible price fixing which the food control board may assume, and to explain conditions now pertaining to the islands.

The value of the peso has risen above par, and the exportation of the coin has been prohibited. Certificates of the face value of a peso have been authorized in order to retire the silver money.

U. S. Drinks Up 164,665,240 Gallons Booze

WASHINGTON, D. C., Sept. 3.—All records for the consumption of whisky were smashed during 1916-17, figures compiled by the internal revenue office for its annual report, which were made public today. The consumption of spirituous liquors totaled 134,665,240 gallons and at this rate the supply of liquor on hand after the new food control law prohibiting the manufacture of whisky after September 8, becomes effective, would last the nation for two years.

Soldier Seen With German Under Arrest

Court Martial Probably Awaits Schofield Officer of Guard Who Went Golfing With Interned Prisoner

HELD under "arrest at quarters," a sergeant of the 1st Infantry, Schofield Barracks, is said to be facing investigations under charges connected with his association with one of the German officers that until today have been held as prisoners at that post.

The exact nature of the charges to be placed against the non-commissioned officer has not been ascertained by the Star-Bulletin, but his orders to consider himself under arrest were given after he had been seen on the golf links at Schofield alone with the German officer, driving golf balls, early last week, it is reported.

The non-commissioned officer was sergeant of the guard on Monday. Since that date he has not left the barracks save to take the usual setting up exercises with the men. It is said, and his belt and bayonet have been taken from him.

The story goes, the sergeant joined the German officer first at the canteen, the two entering into conversation and indulging in a smoke and a soda.

The German was bound for the golf links, it seems, a quarter-mile or so distant. The sergeant volunteered to carry his clubs and together they wended their way across to the grounds. It was when they had reached the grounds and were busy making practice drives thereon that they were noticed by one of the captains of the regiment.

This officer, it is said, was not the commander of the sergeant's own company—the latter being sergeant of the guard at the time. But the officer reported the matter at once to the sergeant's company commander.

This captain went directly to the two men and is said to have taken the sergeant to task in no mincing words. The two are said to have engaged in a hot debate for a moment after which the captain ordered the non-commissioned officer to his quarters where he has since remained. It is rumored at Schofield Barracks that a court martial awaits the enlisted man.

The German officer is said to have been one of those allowed considerable freedom on parole. This was not given to all of the prisoners, by any means. There was one officer in particular who has always been trailed by a veteran soldier as guard.

Not a move was made by him without the guard close beside him. It is said that even when he went to the bathroom the guard with his rifle was a close attendant. Just why this was is not known definitely. One report which is pretty generally believed was that he was caught one night flashing supposed signals with a "bug" light from a window of the guard house.

NEGROES ATTACK WHITE SOLDIERS

LEXINGTON, Ky., Sept. 3.—Ten negroes were injured in a clash here with members of the Kentucky National Guard as a result of bitter racial feeling recently developed in this state.

The soldiers are alleged to have started the trouble by shoving negro pedestrians off the sidewalks. This action was resented and a riot ensued, in which several blacks were severely manhandled. Guardsmen are patrolling the city.

COMBINED LAND AND SEA ATTACK BY HUNS FORCES EVACUATION

Disaffection Among Troops Proves Potent Ally of the German Armies, Several Russ Regiments Voluntarily Retiring—Crossing of Dvina River By Teutons Menaces Defenders

PETROGRAD, Russia, Sept. 3.—It was officially announced by the war department today that the Russian troops defending Riga had abandoned that city.

Serious disaffection was again manifest among the Slav troops, several regiments voluntarily abandoning their positions and retiring northward.

The Press Association, giving a summary of the fighting in the northern end of the 1000 mile eastern front, says that Riga was abandoned under the combined threat of sea and land forces.

The deciding blow was struck on Saturday when the Teuton armies effected a crossing of the river Dvina, about a dozen miles south of the beleaguered city. The Slav garrison was also menaced from Mitau, 20 miles to the southwest of the gulf city, and all efforts to stem the oncoming rush of the Germans proved futile.

The Russian fleet is anchored on the right flank of Riga, and the movements of the war vessels are uncertain as much will depend on the size and purpose of the Teuton plans of offense.

BERLIN, Germany, Sept. 3.—After a heavy artillery preparation, our troops crossed the Dvina on both banks at Uxhal. Russians are in full retreat and are burning villages and farms. Russians rear guards are desperately fighting to hold back the victorious Teutons on the roads to Riga.

ITALIANS PUSHING FOE BACK

With the Return of Pleasant Weather on Western Front Germans Attack But are Repulsed

ROME, Italy, Sept. 3.—Gen. Cadorna continues to carry the fight into the enemy territory, despite desperate counter attacks by the Austrians.

Italian troops are advancing surely though slowly in the Brestovizza valley, South of Gorizia several violent counters have been repulsed, and the new positions held by Cadorna's men have been consolidated and are firmly held.

UDINE, Italy, Sept. 3.—Though vile weather prevails on the front, fighting still continues. The battling has resolved itself into hand-to-hand combats with small detachments of Austrians who have been caught in shell holes and galleries, isolated by Italian fire and unable to retreat.

The Italians are gradually straightening out their new line, and the Teuton defenders, wholly unable to advance or retreat, are surrendering wholesale.

Many counter attacks have been bloodily repulsed by Cadorna's men, and many prisoners are passing to the rear to intern camps. These seem mostly fresh troops brought up in an effort to turn the tide of battle, and are well equipped.

The attacking armies have not lost a single yard of ground taken in the last great offensive, and the morale of the Austrians in face of the terrific hammering is decidedly weaker.

BRITISH FRONT IN FLANDERS, Sept. 3.—Fine weather is prevailing along the Flanders front, and the ground is drying up fast, which will permit of infantry activities being soon renewed.

Today artillery duels are in progress, and many air raids have been conducted against enemy positions far in the rear of the German front lines.

PARIS, France, Sept. 3.—French troops along the Aisne today bloodily repulsed several stubborn German attacks, wave after wave of attackers melting under the terrible machine gun fire poured into their ranks by the French. Heavy artillery duels are in progress around Verdun.

LONDON, England, Sept. 3.—Favorable weather along the Belgian front is again reported, and hostilities were resumed today by the Germans throwing powerful counter attacks against the northern lines.

All were repulsed, however, and a successful raid on Teuton trenches was carried out at Monchy Le Preux.

GERMAN NAMED IN BERG CASE DETAINED HERE

Lieutenant Portwich Not Sent on Transport at Request of City Attorney's Office

Lieut. Portwich, former officer of the Geier, whose name has been mentioned in connection with the circumstances surrounding the death of Miss Florence Berg, former Queen's hospital nurse, has been detained in Honolulu by the military authorities following a request from the city and county attorney's office. When the German prisoners left Honolulu this morning on the transport Sherman, Lieut. Portwich was not with them.

The discovery that letters had passed between a nurse in Honolulu and the German officer while he was a war prisoner at Schofield Barracks, gave the investigation of the Berg case a new turn last week. That the nurse was Miss Berg and that the letters had reference to her condition has been the belief of the army men investigating the case.

The officer will now be held pending further investigation of this phase of the case by the civil authorities.
