Mrs. William C. Train, who has presided at innumerable affairs of interest in the last few months since going to her Burlington home for the summer, will entertain this evening at an enjoyable dinner party that will assemble a group of her neighborhood friends.

No event of the summer has inspired more of genuine interest than this evening's benefit affair, at which not only the grown-ups, but a number of the children of Burlington and San Mateo will take part in the program. There will be a stunning patriotic tableaux posed by Mrs. Christian de Guigne as France, Mrs. Bernard Ford as the Goddess of Liberty, Miss Helen Keeney as Belgium, Miss Emily Pope as Russia and Miss Arabella Schwerin as Japan. Nearly every one of the thousands of housewives who do their housework electrically, began with the Westinghouse Electric Iron

And—practically every Electric Iron sold leads to the quick purchase of other Electrical Appliances.

A woman can't iron with any comfort in a room where a stove is burning. Therefore, in the old way, she has to trot back and forth to change irons. And she never gets an iron at just the right heat—at the best, it's a guess!

But with the Electric Iron—the room is cool. The iron is always at the exactly right heat and stays so, uniformly. No changing; no trotting; no waiting. Everything is ironed to a nicety—clean, smooth and spotlessly white!

The next thing she wants is an Electric Washer; then a toaster, fan, grill, and so on. It's the same old story, over and over again.

Join the merry throng of housewives who have taken the drudge out of washing and ironing and the dread out of housework.
