Matson Liner Brings 160 Pas-
sengers and 7985 Tons
of Freight

With representatives Honolulu busi-
nessmen, territorial officials, other
island residents, the Matson Liner
steamer Maui, and a number of tour-
ists, the Matson steamer Maui ar-
rived early this morning from San
Francisco and docked at Pier 15.

Aside from the entertainment pro-
vided by the musical comedy com-
pany, the voyage was uneventful. A
christening and a concert were two
of the events presented by the thea-
trical troupe.

The concert was given on last
Monday night, the night before the
captain's dinner as the Maui pas-
sengers' calendar specifies it. Accord-
ing to the passengers and the ship's
officers there is much good talent in
the troupe and the entertainment was
much appreciated.

But it was the christening which
excited the most interest among the
passengers. As it happened, this was
a genuine christening and not a
"stage" one. The seven-week-old
son of Mr. and Mrs. Frank Budd was
baptized, the voyage offering the first
opportunity for the ceremony, as his
parents have been traveling much
since his birth. The christening was
performed by Rev. J. S. Smith, an
Episcopalian minister, who was one
of the passengers. Afterwards a sub-
scription was taken up from the
ship's passengers which will give the
young traveler a good sized bank ac-
count for a start in life. Mr. Budd,
the father of the child, is the tenor
singer of the musical comedy com-
pany.

Prominent among the Honolulu
passengers aboard the Maui were
Col. Charles McCarthy and A. N.
Campbell, of the Waterhouse Trust
Co., who with Mrs. Campbell returned
from a pleasure trip to the states.
The territorial treasurer returns after
spending several months in New York
where he went to make arrangements
for the sale of the 1917 series of
Hawaii bonds.

Capt. Wm. R. Foster, the Honolulu
harbormaster, returned from a vaca-
tion spent on the mainland. He
was accompanied by Mrs. Foster and
will resume his duties tomorrow, re-
lieving W. H. Curtis, who has been
the acting harbor master during his
absence.

J. A. McCandless, the Honolulu
capitalist, and wife returned from a
trip to the coast, during which they
visited Frank McCandless of Tacoma,
Wash., a brother of the Honolulu
resident.

Roger Taylor, a member of the
Honolulu customs' staff, comes back
from a three months' trip to the
states.

Mrs. E. S. Cunha and her daughter,
Mrs. H. B. Murray and two children,
were among the other well known
Honoluluans aboard the Maui. Mrs.
Murray is the wife of Dr. Murray, a
Honolulu physician who is now do-
ing his "bit" on the western front.

Dr. W. L. Adams, Dr. W. C. Hobbs
and Dr. H. K. Hope were profession-
al men included in the Maui passen-
ger list.

Mr. and Mrs. B. J. Baron, and
Mr. and Mrs. A. G. Wilkes were
among the tourists arriving. Both the
men are heavily interested in Wyo-
ming development work.

The Maui had a total of 160 cabin
passengers and 25 in the steerage.
Her cargo consisted of 7985 tons, in
which is included 53 automobiles.

A crew of four men arrived here on
the Ventura to take the schooner
Marian to Zamboanga in the Philip-
pines. The vessel has been delayed
here several weeks, because the crew
which brought the vessel from San
Francisco did not wish to continue
the voyage. The Marian is expected
to sail in a day or two.

**MAY MOVE WHEAT
WITH BIG BARGES**

[By Associated Press]
MELBOURNE, Aust.—The British
government has been in communica-
tion with the Australian government
with a view of requisitioning all avail-
able shipping in Australian waters for
the transport of cargoes overseas. Al-
ready the interstate and coastal trade
has contributed about 700,000 tons of
shipments but a considerable addition-
al amount is believed to be now forth-
coming.

Among other things it is proposed
that the large lighters employed at
the principal Australian ports should
be loaded with wheat and other com-
modities and towed to South Africa,
where the cargoes could be discharged
into steamers for England, thus sav-
ing both time and tonnage.

As regards shipbuilding in Austr-
alia, the outlook is now more satis-
factory, largely as a result of a recent
series of conferences between repre-
sentatives of the government and of
the men. An effort is being made to
guarantee continuity of employment
so that a large number of ships may
be laid down and completed on the
standardized system.
