NEW OFFICERS NAMED TO PATCH UP CHURCH ROW

As result of the general disagreement among the officers, teachers and pupils of the Kawalaha church Sunday schools, a special election of the new officers was held last night in the meeting room of the church.

Mrs. Mary Wilcox, superintendent of the Sunday schools, who, it was announced a few days ago, tendered her resignation, to take effect at the end of this year, stated last night that she could no longer remain as superintendent on account of the general disagreement.

Following are the new officers of the Kawalaha Sunday schools: Theodore Richards, superintendent; Solomon Kahoohalahala, assistant superintendent; George P. Castle, treasurer; John Ke, secretary; Rodna Burgess, assistant secretary; Henry Kaeo, music teacher; J. C. Davis, auditor; Mrs. Abbie Harrison, consulting member.

About forty members were present at the meeting.

NEW SHIP LINE TO RUN TO S. F.

H. Larkin, general manager of the governmental fleet to Australia, was one of the passengers on the Niagara yesterday, on the way back to Australia after having completed a survey of the Pacific coast as to its needs. While he was in San Francisco Mr. Larkin made arrangements with the firm of Balfour, Guthrie & Company to act as representatives of the government steamers.

Relative to the matter of his government's having gone into the steamship business, Mr. Larkin said: "Australia has great quantities of wheat stored and awaiting shipment. The shortage of ships caused by taking off the ships from the Peninsular and Oriental line, and also the withdrawal of many freight boats plying between Australia and England, has made it almost impossible to find ships for this wheat. There is now cargo for about 250 steamers at Melbourne. The commonwealth of Australia went into the steamship business about a year ago, with the purchase of 17 ships. Since that time this number has been considerably increased.

"To cut the time shorter it may be decided to ship everything first to San Francisco and other coast ports, and have it shipped by rail to Eastern ports. In this way many more trips could be made from Australia to the Pacific coast."

IF FOOD DISAGREES DRINK HOT WATER

When food lies like lead in the stomach and you have that uncomfortable, distended feeling, it is because of insufficient food supply to the stomach, combined with acid and food fermentation. In such cases try the plan now followed in many hospitals and advised by many eminent physicians of taking a teaspoonful of pure bisurated magnesia in half a glass of water, as hot as you can comfortably drink it. The hot water draws the blood to the stomach and the bisurated magnesia, as any physician can tell you, instantly neutralizes the acid and stops the food fermentation. Try this simple plan and you will be astonished at the immediate feeling of relief and comfort that always follows the restoration of the normal process of digestion. People who find it inconvenient at times to secure hot water and travelers who are frequently obliged to take hasty meals poorly prepared, should always take two or three five-grain tablets of Bisurated Magnesia after meals to prevent fermentation and neutralize the acid in their stomach.—Adv.

ing he was discharged from the institution.

At the assembly period Monday, the students of the College of Hawaii were addressed by A. J. Fomilyant of the Fibre and Products Co. of Hawaii, on the manufacture of coconut fiber. Mr. Fomilyant is taking some special work under Dr. Roubert in the physics department of the college. His talk was similar to that given before the Rotary club recently.

Edward Darvill, with the law firm of Callagan and company, of Los Angeles, returned from Hawaii yesterday morning where he had been visiting the volcano. Mr. Darvill has been in the islands two months and has made visits to Hawaii, Maui and Kauai. He will return to Los Angeles in the steamer Maui on Wednesday.

The second night of the motorcycle squad's activities resulted in the roundup of several more traffic offenders. C. E. Gentry was charged with reckless driving and driving without a license. C. J. Willett was charged with reckless driving. A. W. Seabury was charged with exceeding the speed limit and S. O. Bridgens was arrested for operating a car with the cutout open.

The case of Sam Goldino, former Advertiser employe, who is charged with stealing Oahu Railroad tickets and selling them at reduced rates without authorization, has been postponed until Saturday morning. In police court this morning, Judge Irwin granted the prosecution's request that the case be deferred owing to the absence of the prosecutor's witnesses. Three sailors from the Alert, who are to appear against Goldino, were unable to leave their ship this morning in time to be present at court.

STATES ROTARY OFFICIAL COMES TO BIND LINKS

Dr. Dewey Powell Talks to Local Branch on Rotarians' Work in War

On a tour of inspection, which incidentally is his initial trip to the islands, Dr. Dewey Powell of Stockton, California, governor of the thirteenth district of the International Association of Rotary clubs, arrived in Honolulu yesterday. He is accompanied by Mrs. Powell and the couple will remain here a week. They leave for a visit to Hilo and the Volcano Saturday. Dr. Powell, governor of the largest geographical district of the Rotary club organization, is down here to forge a stronger link between the coast clubs and the local chapter. The thirteenth district includes clubs in New Mexico, Arizona, Nevada, California and Hawaii. Dr. Powell has no special business to attend to, but is merely carrying the good wishes of the coast clubs to the Honolulu Rotarians.

The visiting Rotarian addressed the Honolulu club this noon at a luncheon in the Young hotel. His subject was a patriotic address, "Rotaries Work in Time of War." Prior to the luncheon a reception was held in the lobby of the hotel in honor of Dr. Powell.

Dr. Powell is greatly pleased with Honolulu. This is his first trip here and it has made a great impression on him. "The island is wonderful," he said, "but the hospitality of the people cannot be beaten."

Escorted by Major Charles Mettler, Dr. Powell will make a flying trip to Schofield this afternoon. This evening a pot supper is being given in the visitor's honor by the Rotarians at the home of President Watkins at Niu.

TONIGHT TO BE "AT HOME" FOR U. S. ENLISTED MEN This evening at 8 o'clock will be held the first "at home" for the enlisted men, given by the Women's Society of Central Union church in the Sunday school room at the rear of the main auditorium, and a large crowd is being prepared for.

There will probably be a few formal introductions but each civilian present is expected to become a committee of one to greet these guests of honor. Home-made cake and delicious hot coffee for which the women of Central Union are famous, are to be served, and there will be sleight of hand tricks, club swimming and music to aid in the evening's entertainment.

All of the members of the church and congregation are urged to come early so as to be in readiness to hold out the hand of welcome to the boys in khaki and to make them feel the spirit of hominess and good cheer which Central Union hopes to stand for in the estimation of the boys.

LETTING PEOPLE KNOW THE advertising of the Army and Navy Field Comfort Committee, briefly noted in Printers' Ink last week, is bringing in returns at the rate of \$1000 a day. There has been no falling off thus far in the daily return. The page advertisement appeared in two Sunday papers on August 26 and three Evening papers of the following day. The campaign is noteworthy because it relies chiefly on paid advertising for its support. The funds for the space that has been used thus far were contributed by outsiders especially for that purpose and \$3000 additional is already on hand for the extension of the campaign to other cities. Moreover, C. Donald Fox, the executive secretary, has devised a plan for future advertising that will render the committee partially independent of the solicitation of large contributions for advertising. Mr. Fox has other plans under way for adding to the fund. The important feature, however, to Printers' Ink readers, is that the success of the undertaking is largely due to advertising, for which cash is paid, and that the public is going to be asked to contribute toward this advertising. This points the lesson that the committee believes in advertising as an economy and that it is of the opinion that the public does, also.—Printers' Ink. Paid Publicity Will Do It.
