

To be obliged to beg our daily happiness from others bespeaks a more lamentable poverty than that of him who begs daily bread.—Colton.

Honolulu Star-Bulletin

The four cornerstones of success are self-control, a reasonably good education, industry and ambition.—Theodore H. Price.

LIVE PUBLICITY MAN IS COMING TO SEE ISLANDS

Other Boosters Will Accompany Congressional Delegation, Says A. H. Ford

BY A. H. FORD.
SAN FRANCISCO, Oct. 4.—Harry J. Burnhans, styled the liveliest publicity man west of the Mississippi, is coming to Hawaii as a guest of the Pan-Pacific Union. He will arrive on November 7 with the congressional party, many members of which are his personal friends.
Mr. Burnhans has the backing not only of the National Forestry service of the national parks board, but that of many senators and congressmen who have been helping him for years to bring the American people to a realization of the fact that in their national forest reserves and national parks they have scenic wonders surpassing anything abroad. It was Mr. Burnhans who stood by his guns at the Pan-Pacific conference in San Francisco, and carried through the plan for a permanent conference board of all the tourist associations from Denver to Hawaii.
There may be five of the six members of the Western publicity board arriving in Hawaii on November 7. There will be three at least, for F. V. Owen of the Utah region will be with us, and I don't intend to miss being with this party. We are trying to persuade Herbert Cuthbert of the Northwest Tourist association, and Frank Wiggins of Los Angeles to come with the party.
Everyone will come with the idea of working up the plans to cooperate with the government in getting the greatest amount of publicity before the American people concerning our national parks, the greatest of which is Kilauea, and we feel certain that much will soon be done to make Kilauea, Haleakala and Waimea canyon even better known to the American world. Mr. Burnhans has done much to make Kilauea known as a national park. He looks on Denver as its gateway. I learn from the best authority that Secretary of the Interior Lane considers him the most patriotic publicity man in the West. Certainly Mr. Lane's department gives this man of Denver every backing in his work to draw Americans, not to Denver, but to the entire West.
The Pan-Pacific club of San Francisco and the Ad club are arranging for a big luncheon to the congressional party at the Palace hotel the day before they sail, and the president of the Pan-Pacific club here, W. H. Hammer (who is also president of the Foreign Trade club), hopes to come to Hawaii with us that he may learn more of the Pan-Pacific movement.

MINISTER OF LAHAINA COMES TO HONOLULU

LAHAINA, Maui, Oct. 13.—At a meeting held by the Maui Aid Association on Monday it was voted to release Rev. W. B. Coale of Lahaina for the Kaili Union church, Honolulu. He will spend October at Kohala, Hawaii, supplying for Dr. John F. Cowan, who is away on a vacation; November at Lahaina and begin at Kaili Union church December 1.

URGE 100,000 Food Sermons On October 21

WASHINGTON, Oct. 4.—The food administration today sent out letters to the heads of all church organizations asking that one hundred thousand sermons be preached on October 21 in behalf of food pledge week. The administration's pledge card campaign will be waged the week of October 21 to 28.

ASKS LENIENCY FOR GUARDSMEN

Leniency on the part of local firms who may have employees among the Japanese company that is at present patrolling Nuuanu watershed is urged by Lieut. Frank E. Midkiff.

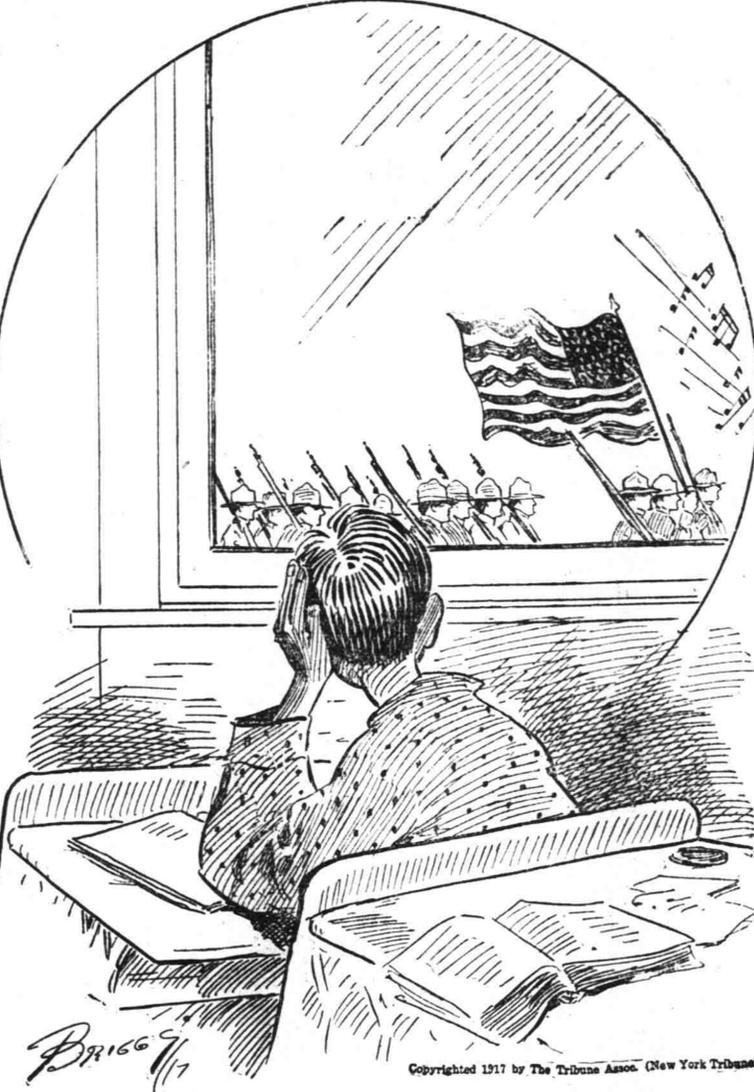

CRANE ARRESTED FOR TRAFFIC VIOLATION

From its new outpost at Alapai and Beretania streets, the motorcycle squad continues to haul in violators of the traffic laws. Since Beretania street has been opened to traffic motorists apparently take great delight in speeding along the smooth highway. Last night Officers Branco and Ferrera arrested Charles S. Crane of the Advertiser, and charged him with failing to display proper lights. He was to be given a hearing today. J. W. Dassel and N. Tomi were also arrested for traffic violations.

THREE GENERATIONS OF WOMEN

The young women of this generation, their mothers and grandmothers have proved from actual experience that Lydia E. Pinkham's Vegetable Compound overcomes the sufferings caused by female ills and restores them to a healthy condition. This famous medicine contains no narcotics or habit-forming drugs—but is made from medicinal roots and herbs, nature's remedy for disease. If you are suffering from any form of female ills, it will pay you to give it a trial.—Adv.

When a Feller Needs a Friend - - By BRIGGS

ASSERT BRYAN'S CHANCES FOR GOVERNORSHIP GOOD

That Professor William A. Bryan of the College of Hawaii, now on the mainland, is likely to be considered by the president for nomination as the next governor of Hawaii, is the word received by Honolulu friends of the Democrat leader. These same advisers hold that Governor Pinkham's chances are very slight.
It is reported further that Senator John Sharp Williams of Mississippi, Senator Saulsbury of Delaware and Senator Smith of Arizona are urging that, if a new appointment be made, the appointee be a Democrat.

HILO SCHOOL LAUNCHES SAVINGS BANK PLAN

With a proper accounting system installed, the commercial department of the Hilo high school, under the supervision of Miss Alvah Webster, is to have a savings bank department, to be run in accordance with the other banking institutions. The bank was to open its doors last week.
Each pupil in the school will be given a chance to deposit his or her money in the bank, and as deposit or withdrawal is made, the pupil will fill out the voucher. In this way the pupil will be able to learn the savings bank business.

POSTAL INSPECTOR IS BACK IN COAST CITY

Postoffice inspector in Charge Stephen S. Morse returned to San Francisco recently from a 7-weeks' tour of inspection of the Hawaiian islands postoffices, says the San Francisco Chronicle. Morse visited from 30 to 40 postoffices and investigated mail losses. During his stay at Honolulu Morse obtained a confession from James E. Higgins, postal clerk, arrested on a charge of stealing registered mail packages. Other losses are still under investigation. During Morse's absence City Inspector W. I. Maderia was in charge of the office.

DOYLE SENDS UNIQUE 'LETTER' TO FRIEND

Thomas Keating, assistant manager of the St. Francis, has received a unique "letter" through the mails from Chester Doyle, Honolulu interpreter. It was a huge coconut about one and a half feet long and a foot in diameter, says the San Francisco Chronicle. It was embellished with greetings sent by Doyle and with a photo of Kilauea, and came through the mails with a 12-cent stamp on it.

ON THE ROOF

Next Wednesday, Oct. 17, a beautiful silver loving cup will be presented by the Bergstrom Music Co. to the lucky couple who are announced as winners in a prize one-step contest. Dancing until a m. Tables may be reserved in advance.—Adv.

SELL FISH BY POUND, NOT BY COUNT—CHILD

"I used to be like a lot of people who talk through the press; I thought I knew something about the fish business," says J. F. Child, assistant executive officer of the territorial food commission. "But the farther you get into the matter, the more it becomes like a Chinese puzzle, and less clear becomes the solution of the high price of fish problem."
"It is very well to say that the food commission should establish a lower price. Suppose we did. Suppose we cut the price in two. The fishermen are not making as much now as they could make in canneries or on plantations. If their income is reduced, then the supply of fish is going to be reduced. It is easier to be critical than to be correct."
"The best suggestion I know of to avoid overcharges on fish, if there are any, would be to publish the auction price of fish on a blackboard in each of the public markets, and make a regulation that fish be sold by the pound and not by count. But when this suggestion is put up to competent attorneys, they doubt the legal aspects of such a regulation and the authority of the commission to make such a regulation. Therefore I have been looking around to find some methods of increasing the supply of fish."
"Many people think that because there is plenty of salt water in the ocean, there should be plenty of fish. But the fishermen say that this is not so. There is a lack, they declare, of banks or feeding grounds near the islands."
Sam Goldino, charged in police court with receiving stolen goods, has been committed to circuit court for trial by a jury.

A Sensitive Society Subject

Toilet and hygienic cleanliness is a subject of much interest to the scientific, social and laity world. It deserves all the attention it is receiving, and a great deal more, because upon a better understanding of its value rests the comfort and longevity of the human race. The way to obtain and retain it is, of course, to keep clean, and to do this from a toilet and hygienic standpoint there is nothing more suitable than Tyre's Antiseptic Powder. The nature of the composition of this article makes it an almost indispensable adjunct to the toilet of every careful woman who appreciates the value and comfort of hygienic cleanliness. Tyre's Antiseptic Powder has a large and growing number of friends in the scientific, social and laity world. In solution when used for diseases of the mucous membrane and for prickly heat, poison oak, tender feet, offensive perspiration, etc., and in many other ways peculiar to woman's requirements, it is unexcelled.
Tyre's Powder does not stain, possesses no odor, and its use is accompanied by a most delightful sensation. Being inexpensive, its employment is not opposed by patients of moderate means. It is sold in original packages only at twenty-five cents and one dollar each, by the manufacturer, J. S. Tyre, Chemist, Inc., Washington, D. C.

NO NEW CASES OF TYPHOID DISCOVERED

No new cases and no more deaths from typhoid were reported yesterday to the board of health, according to Dr. J. S. B. Pratt, president of that body. Since the first of the month four deaths have occurred from the disease.
All the employees of the board of health have been inoculated with anti-typhoid serum as a precautionary measure, and Dr. Pratt says he would be glad to see all the people of Honolulu take the same precaution.
The four deaths which have occurred from typhoid fever since October 1 are as follows:
Ah Chin, at Waianae, October 4; Dorothy Baker, Department hospital, October 8; J. N. Kameakua, Honolulu, October 8; Matsui Katayama, Honolulu, October 12.
The first meeting of the Waikiki Reclamation and Sanitation Commission was held yesterday afternoon in the governor's office. Present were Governor Pinkham, W. R. Hobby, R. Buchly, A. S. Cantin, B. G. Rivenburgh, I. M. Stainback and A. A. Young. The commission will probably meet again on Thursday evening when the governor will address it.

Restaurants of Canada Adopt Meatless Day

WASHINGTON, D. C., Oct. 16.—It was reported today from the food controller's office that 16,000 hotels and restaurants in Canada have adopted the policy of meatless days with the view to reducing the consumption of bacon by 51 per cent and that of beef by 40 per cent.

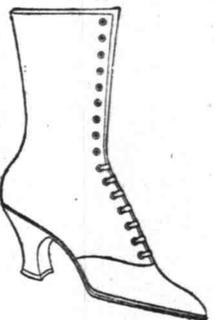

TWO FORMER 'Y' MEN SERGEANTS

Word has been received by the local Y. M. C. A. officers of the appointment of two former Honolulu "Y" men as sergeants in the American army. One of the men is in training ready to be sent to France, while the other is already in Europe seeing active service.
Ira D. Canfield, for many years connected with the Hawaiian Electric Co. has been appointed a sergeant in the ambulance corps, and is in training on Long Island. Canfield left Honolulu recently and took up his residence in Lock Haven, Pa. When an ambulance company was organized there, Canfield was one of the first to join. He expects to be sent to Europe very shortly.
Waldo H. Heinrichs, a former Y. M. C. A. officer here, left Honolulu in 1915 to accept the position as secretary to the Madras, India, Y. M. C. A. When the call to the colors was made, Heinrichs left India and made his way to France over the Suez canal route. He enlisted in the aviation section of the United States army, and was recently appointed first sergeant. He is under contract to return to India after the war.

UTILITY FIRMS DO NOT EXPECT FUEL SHORTAGE

Local Gas, Electric and Carrier Companies All Have Long Time Oil Contracts

That the oil shortage which is now threatening the public utilities corporations in Hilo has not yet reached Honolulu is evidenced by the announcement yesterday of four large local public serving concerns that they are plentifully supplied with fuel oil and that they have received no intimation that this supply is to be materially reduced or cut off entirely.
The Honolulu Gas Co., a large user of oil, reports that it has "had no trouble so far." This company is being supplied with all the oil it can use, having a long-time contract with the Union Oil Co. The Hilo Gas Co., however, recently requested a loan of oil but the local concern was unable to fulfill it, having no surplus on hand.
Another long-time oil contract is held by the Honolulu Rapid Transit & Land Co., which reports that it is experiencing no trouble in securing the fuel. "We have received no notice that this supply is to be reduced," said the acting manager yesterday.
Announcements similar to the foregoing are made by the Oahu Railway & Land Co. and the Hawaiian Electric Co. Both these concerns have long-time contracts and are having no trouble securing oil.
The concerns in Honolulu which have suffered from lack of fuel oil are those having no contracts running any great length of time. The White Seal laundry was recently forced to close down on account of a shortage of oil, and has not since reopened. A large number of Chinese and Portuguese bakeries also suffered, but their troubles have been overcome by the installation of new burners and the substitution of kerosene for fuel oil.

Children must have rich, pure milk!

Every mother knows how essential this is. She knows, too, the difficulties of doing so—especially in warm climates.

There is no food so suitable for baby as that provided by Nature, but in some cases Condensed Milk has at times to be used, and no Condensed Milk will be better for baby or give better results than Highlander.

It is here that Highlander Condensed Milk will prove of such value to her. Tens of thousands of mothers throughout Australasia and the Pacific use it.

Absolutely germ-free, Highlander Milk is prepared by a process that ensures sterilization. It is the richest, purest milk from specially selected herds in the famous dairying pastures of Southland, New Zealand—with part of the water evaporated and the purest No. 1A Cane Sugar added.

Highlander Milk

There's a free copy of the Highlander Cookery Book awaiting you—nearly 200 beautifully illustrated pages of practical economical tested recipes. Send your name and address to-day to "Highlander," Dept. "A" c/o L. Waldron, Ltd., Agents, Honolulu.
