Quite a number of passengers left Maui for the Coast on the Centennial yesterday afternoon.

A V. Gear, of Gear Landings Co. was over on Lanai and Maui last week looking after the various interests of his firm.

Judge Kepoikai has been retained by the Olowalu Japanese, who seem determined to make a fight to the finish.

Mr. Helmick, former foreman of the News left for the Coast on the Centennial. He will be succeeded in the News office by Mr. Frank Enos.

The Honolulu mails arrived a day late this week, which was rather trying on the nerves of the Maui people who were waiting anxiously for news from congress.

Makawao and Kula are receiving abundant showers of much needed rain. It is even alleged that it rained at Kihui the other day, but it was not proven.

Now that the police are freed from quarantine duty, they are making up for lost time, and as a result, there is a marked increase of business in the District Court.

No meeting of the Maui Racing Association was held last Saturday evening on account of the absence of the President and secretary who were in Lahaina on legal business.

Mr. Helmick desires to express, through the medium of the News, his sincere thanks to the young men of Waialuku and all others who have so fraternally stood by him in his hour of sickness and need.

MEETING NOTICE.—The postponed meeting of the Maui Racing Association will be held at Waialuku, Court House on Saturday, April 28th, at 7.30, P. M.

Geo. Hons,
Sec. M. R. A.

There seems to be considerable insomnia prevalent on Maui, and singularly enough, it seems to principally confined to the subscribers of the NEWS, who have not paid their subscriptions. Send us \$2.50 and we will send you a recipe.

The work of renovating Kahului is still in progress. On tearing up the floor of the Depot warehouse, several dead rats were found. The entire floor will be removed, and a new floor will be put down, after thoroughly treating the soil underneath with sulphuric acid.

Superintendent Taylor of the Waialuku water works has gone to Honolulu to be absent a couple of weeks. On his return he will probably bring his family over to recuperate from city life, in the balmy air of Waialuku. Mr. Field has charge of the work during Mr. Taylor's absence.

It seems to be necessary to disinfest the resolutions of the Maui Sanitary Committee before submitting them to the public through the medium of the News. Else why the delay?

There is a rash of incoming and outgoing freight at Kahului, the handling of which taxes the utmost energies of Supt. Miller and his men. The difficulties are much increased by the strict quarantine which is still being maintained in the infected district.

The Olowalu Japs are still out for a strike, and it is thought that they will not resume work till affairs are adjusted on a satisfactory basis. They demand a jury trial, and as that cannot be had till June, in case it is decided that they are entitled to jury trial, the outcome is rather complicated.

Dr. Weddick has commenced the erection of a new residence on Main street nearly opposite Judge Kepoikai's residence, but nearer the junction of Main and Market streets. "There are others", and the noise of the hammer and the saw will soon be making music on many of the streets of Waialuku.

J. J. Conroy, of the Depot Store has gone to Honolulu to buy goods on special orders for a number of customers in Waialuku. He will probably have to take prophylactic treatment and remain seven days in Honolulu before returning, unless the Honolulu quarantine is raised in the meantime.

We learn from a Nahiku correspondent that Mrs. Mossman and

three daughters who were shut up on the other side of the Island by the quarantine, recently returned home on the Claudine. The Nahiku plantation is making steady and satisfactory progress. Judge McKay still has considerable work to do on his road contract, having been very much delayed by the difficulty in securing lumber and iron.

The Maui Soda and Ice Company has secured a new site on the north side of the road from Waialuku to Kahului, between the Waialuku depot and the slaughter house. Mr. Wads worth has purchased about three quarters of an acre from Enos & Co., and has commenced to get material on the ground to build. The machinery will be placed on the ground next Monday, and in one week, the company will be delivering soda water manufactured at the new stand. A week later the ice plant will be in operation.

Dr. John Weddick of Waialuku received 8 tubes of prophylactic serum from Honolulu on Thursday morning, and, assisted by Dr. Winslow, "shot" eleven willing victims the same day. These are ten men who are engaged in renovating Kahului, four Japanese, five Chinese, one Hawaiian and Dr. Winslow, the latter of whom submitted himself as the first victim. Dr. Winslow and some of the others state that a very nauseating effect resulted to them from the use of the serum but several experienced no disagreeable effects whatever.

SHIPPING

The Centennial has booked 14 cabin passengers.

The Schooner, Alice Kimbal, arrived from Honolulu yesterday instead of the Lehua which was expected early this morning. She was sent in place of the Claudine, and brought some freight.

The Claudine is taking the Kinau's run to Hawaii, on account of an injury to the propeller of the latter which is being repaired at Honolulu.

The high seas caused by the north-er on Wednesday caused the Mokihana to break from her moorings. She is piled upon the beach near Mr. Zumwalt's house, high and dry. Only one man was saved from the wreck, - but as it happened he constituted the whole crew at the time.

The Haydn-Brown carried away her moorings, but having plenty of sea room, experienced no damage.

The stem moorings of the Centennial carried away early in the Wednesday's blow, and she bumped against the Emily F. Whitney, carrying away a good part of her own bridge and smashing one of her boats, besides damaging five of the Whitney's side planks.

The Lurline also lost her stern lines and bumped the Whitney, but was secured before any damage was done. The Lurline had 13 tons of giant powder aboard, but fortunately the caps had been landed the day before.

The Hawaiian Bill Passed by the House. Many Amendments. Dewey and Miles Presidential Aspirants.

WASHINGTON, April 6.—The House, after four days of debate, today passed the substitute for the Senate bill providing for a Territorial form of government for Hawaii. The bill now goes to conference. Several important amendments were agreed to today, among them the following: To nullify all labor contracts in the islands; to extend the alien contract labor laws to the islands; to prohibit the sale of intoxicating liquors in saloons; to limit the large holdings of corporations to 1,000 acres and to substitute for the House provision relating to the appointment of Judges and other officers of the islands the Senate provision. The House provision lodged the appointing power in the Governor; the Senate placed it in the President.

Robinson of Indiana offered an amendment to nullify all labor contracts made since the date of annexation, providing that hereafter no law should be enacted to enforce them. Adopted, 45 to 42.

Gillett of Massachusetts offered an amendment to prohibit the sale of intoxicating liquor in saloons in Hawaii. The amendment would not prohibit the sale of liquor in hotels, he said, but it would prevent the sale in the saloons where men gathered.

Berry of Kentucky opposed the amendment on the ground that it was the universal experience that the more stringent the liquor laws the worse the liquor and the more it was drunk. The amendment was adopted, 66 to 60.

Newlands of Nevada offered an amendment, which was adopted, to limit the holdings of real estate by a single corporation to 1,000 acres, not, however, to interfere with existing holdings.

On motion of Shaffroth of Colorado the Senate provision lodging the appointment of the Judges and other officers in the President instead of the Governor was substituted for the House provision.

An amendment was adopted to postpone for one year the time when the coastwise laws of the United States should be extended to Hawaii. An amendment was added to the end of the bill providing that no Chinese who obtain a certificate in Hawaii under the terms of the bill shall be allowed to enter any State or Territory of the United States.

De Armond of Missouri offered an amendment compelling all Asiatics who have entered the islands under contract since the date of annexation to leave within one year. It was adopted.

The committee then reported the bill and amendments to the House. Bartholdt of Missouri moved to recommit the bill with instructions to strike out the amendment prohibiting liquors in saloons in Hawaii and report the bill back forthwith as amended. The motion was lost—59 to 83. The bill then passed—120 to 28.

LONDON, April 6.—Lord Roberts reports that five companies of British troops have been captured by Boers near Bethany. The following is the text of his dispatch to the War Office announcing the capture: "Bloemfontein, Thursday, April 5.—Another unfortunate event has occurred, resulting, I fear, in the capture of a party of infantry, consisting of the Royal Irish Fusiliers and two companies of the Ninth Regiment of Mounted Infantry, near Reddersburg, a little eastward of Bethany railway station, within a few miles of this place. They were surrounded by a stronger force of the enemy, with four or five guns.

"The detachment held out from noon April 3 until April 4, 9 a. m., and then apparently surrendered, for it is reported that the firing ceased at that time. Immediately after I heard the news, during the afternoon of April 3, I ordered Gatacre to proceed from Springfontein, his present headquarters, to Reddersburg with possible speed, and I dispatched the Cameron Highlanders' horse to Bethany. Gatacre arrived at Reddersburg at 10.30 a. m. without opposition, but could obtain no news of the missing detachment.

"There can be no doubt that the whole party has been made prisoners."

LONDON, April 5-5 a. m.—It looks today as though the Boers had conceived the audacious plan of attempt-

ing to invest Lord Roberts at Bloemfontein, or at least to endeavor to delay his northward advance by harassing the British lines of communication. On his side Lord Roberts is concentrating his forces and preparing to take every advantage of the bold but risky tactics of the enemy. He is not likely to strike at any of their forces until he is certain of delivering a crushing blow.

NEW YORK, April 7.—(Afternoon Service).—A dispatch to the Tribune from London says:

"The game of counter-stroke has been played both sides with success. Gen. Methuen has entrapped a small body of Boers near Hoshof, surrounding them and taking fifty-four prisoners, after a four hour fight. His force included the Imperial Yeomanry, whose exploit will be a popular one in England, where great interest has been taken in this body of Rough Riders and crack shots. The casualties were nearly equal on both sides, apart from the prisoners."

BRUSSELS, April 4.—The would-be assassin who fired twice at the Prince of Wales at the station here today is a thinsmith named Sipido, a resident of Brussels, 16 years of age. His pockets were found to be full of anarchist literature.

When examined by the railroad station officials Sipido declared he intended to kill the Prince of Wales, that he didn't regret his act, and that he was ready to do it again if given a chance to do so.

LONDON, April 7.—A special dispatch from Shanghai announces that the American, British, French, and German ministers have sent a joint note to the Chinese foreign office demanding the total suppression of the society of "boxers" within two months and announcing that otherwise the powers mentioned will land troops and march into the interior, "horrid" provinces, "Shantung and Chi Li, in order to secure the safety of foreigners.

According to the same dispatch the American, Italian and French legations are now provided with naval guards from the large gathering of warships at Taku. Liu Kun Yih, viceroy of Lang Kiang has had three audiences with the Dowager Empress relative to the emperor and it is believed that he has impressed her with the advisability of restoring his majesty to power.

FRANKFORT (Ky.), April 6.—The Court of Appeals of Kentucky today decided that John Grips Wickliffe Beckham is legally the Governor of this State. Two Republican Judges joined with the four Democratic Judges in making this decision, leaving Judge George Durrell (Republican) as a solitary minority of one. Republicans say they will appeal to the United States Supreme Court.

NEW YORK, April 6.—Henry E. Youtsey, the Newport stenographer now under arrest for complicity in the assassination of Goebel, has, it is said, made a complete confession of the crime. He charged that the fatal shot was fired by Jim Ward, a noted Clay county feud leader, who previously had one murder to his credit.

KANSAS CITY (Mo.), April 6.—John R. McLean, brother-in-law of Admiral Dewey has engaged elaborate quarters at one of the leading hotels for the Democratic convention in July. The rooms are very choice, and it is hinted that they are to be shared by Admiral Dewey. When the selection was made Mr. McLean, it is said, announced that the rooms would be occupied by himself and a friend.

NEW YORK, April 6.—The "world" says: General Nelson A. Miles is willing to be the Democratic nominee for President. He has so stated so to his friends, and ten days ago visited William C. Whitney to talk with him about the possibility of being nominated.

YAKKA, April 6.—The Chairman and Secretary of the Democratic County Committee and several leading Democrats met William Jennings Bryan at the Oregon line to-day and rode as far south with him as Montague, Oregon, to prevail upon him to come to Yreka and speak. He was asked about Dewey's candidacy, and replied that he had to speak on many questions, but that this was one upon which he had nothing to say.

Rumor Says Judge Zane.

Persistent rumors are afloat in Honolulu that the question of the Chief Justiceship of the Hawaii Supreme Court will be decided by the appointment of Chas. Zane, at present Chief Justice of the State of Utah. One reason for lending ear to this rumor is the fact that Judge Zane is a warm friend of Senator Cullum, and a staunch Republican of the old school. The rumor first gained notice in the press by a statement credited to Judge Zane when Senator Cullum was on his way home after his labors as a Hawaiian Commissioner here. It was then stated that the office would be at the beck and call of the Judge, but the rumor was promptly denied by him.

A prominent attorney of Honolulu expresses his belief that if any outsider is appointed, Judge Zane will be the lucky man, as he has the full confidence of President McKinley. Several years ago Judge Zane was elected to his high office by a combined vote of Gentiles and Mormons, although the latter had suffered in years past by his rigid enforcement of the Edmunds-Tucker act against polygamy.—Advertiser.

NOTICE

The Merciful Man
Regardeth the Life of His Beast. . .

The undersigned begs leave to inform his friends and the public that he is in the business of horse dentistry, rasping or shaping horses' teeth which have become abnormal in shape. I have just received a fine class of instruments from the East for this work and guarantee satisfaction in all work. Horsemen understand and practice this treatment. I do business on the "no cure, no pay" principle. Will examine free of charge and leave owner to examine and see if the work is needed.

A noted horseman says: "The first thing I do with a colt whose speed I wish to develop is to have a veterinary dentist examine his teeth, for if his teeth are not all right he will not come up and make a good, strong hold of the bit." This is equally true of saddle, driving and work horses, and mules.

The only difference between my work and that of a veterinary dentist is that where he charges \$3 I only charge \$2.50, with a slight reduction on a number of animals.
