

## LOCALS

Bring your job work to the NEWS Job Office.

Circuit Court meets in Lahaina next Wednesday, December 3.

Don't miss the Kentucky Minstrel show at the K. of P. Hall tonight.

Maui has been delivered into the hands of parti colored minstrelsy this week.

During December nearly all the mills on Maui will start up on the 1903 run.

Starlight nights, showery mornings and warm days are prevailing in Wailuku.

Send us the local news from your neighborhood, if you like to read it in the NEWS.

The Nebraskan brought a large amount of goods and merchandise for the Christmas trade.

The work of grading and graveling the streets of Wailuku is progressing satisfactorily.

The Kentucky Minstrels concluded their Thanksgiving entertainment with an enjoyable dance.

Thanksgiving was very generally celebrated in Wailuku with lots of turkey and pumpkin pie.

The road to the cemetery should be gravelled. It is a shame to leave it in its present condition.

Many train loads of sugar were received at Kahului this week, for shipment on the Nebraskan.

The Iao Stables have purchased a first class hearse, and it is expected to arrive by next Wednesday's Eclipse.

The entertainment of the Honolulu Minstrels at K. of P. Hall last Monday evening was all right, but rather lengthy.

There was no Thanksgiving service at the Episcopal Church, Canon Ault being quite ill with the prevailing influenza.

The road roller was put to work this week on the newly gravelled portion of Main street, mauka of High street.

The Morning Stars and the Kentucky Minstrels will play a match game of base ball tomorrow afternoon, at Wells Park.

The championship game is to be played today, between the Maui and Honolulu polo teams, with a good show for Maui to win.

Rain showers and wind prevailed at Wailuku during the early part of the week, with a phenomenal surf at Kahului on Tuesday afternoon.

CORN FOR SALE.—This year's crop. Telephone or apply to E. H. BAILEY, Makawao.

The Maui polo team defeated the Kauai at Honolulu on Tuesday by a score of 9 to 5, and the Honolulu defeated the Hawaii by a score 20 to 2.

The NEWS is the recipient of a beautiful poem by Prof. J. Pryor Looney, commemorative of the marriage of Mr. Arthur Waal and Miss Freida Bortfeld of Lahaina.

FOR SALE.—An incubator of 100-egg capacity, and a brooder of the same size. Write to E. SNYDER, Ulupalakua.

It was necessary to shut off the water from the reservoir after last Saturday's heavy rain. till the stream could run clear, and Wailuku "went dry" for a short while, Sunday morning.

The recent windstorms on Maui have interfered somewhat with the telephone service, but the management have been indefatigable in their efforts to keep the lines in repair.

Preparations are being made for a delightful entertainment at Alexander Hall next Friday evening, December 5, for the benefit of the Kinkergarten school, and everybody should go.

The Paia Plantation Store is out with a brand new Christmas ad. on the first page of this issue, and the reputation which this store has gained on Maui will insure it a big Christmas trade.

NOTICE.—There is still one store to let on the first floor of Pythian Hall building, and any one desiring to secure it should make immediate application to D. L. MEYER.

## Wedding Dance.

(The following was received too late for last week's issue.—ED.)

The daintiest luau and most successful dance ever held in Lanaina was given by Mr. Arthur Waal, at the Pioneer hotel, in celebration of his wedding to Miss Freida Bortfeld.

No better proof could be had of the high esteem in which the genial Postmaster is held by the residents of Lanaina. Everybody who could turn out came, and over 70 persons sat down to a most sumptuous repast arranged and provided by miss host Freeland.

Mr. Vetlesen had charge of the dancing, and great credit is due to him for the splendid manner in which he discharged his duty.

Mr. George Freeland, the popular manager of the Pioneer Hotel has proven without a doubt that there is not his equal in Lanaina for arranging and running any kind of a function, and all Mr. Waal's friends left at an early hour in the morning wishing him and his young bride all possible happiness.

## Minstrelsy on Maui.

Two minstrel troops have been amusing the pleasure loving public of Maui this week, the Honolulu Minstrels and the Kentucky Minstrels, the former being imitation and the latter being genuine darkey minstrels. While they did not exactly revive the good old days of Emerson, Rice and Billy Cotton, still they were perhaps as good as was expected from travelling troupes. The Honolulu gave a performance at K. of P. Hall last Monday night, and left on Tuesday for Hilo to return and play at the K. of P. Hall tonight. The Kentucky Minstrels gave a very good show at K. of P. Hall on Thanksgiving night, and engaged the K. of P. Hall again for tonight, shutting out the Honolulu. They are also billed to play at Lahaina on Monday night.

## 1902-1903.

Aprolonged toot of the whistle last night, at the biggest mill on earth, announced that Puunene has closed its work for 1902, and begun on the crop of 1903, without a break in the running of the mill. The total of the 1902 crop is 25,000 tons, and the estimate for 1903 is 35,000 tons.

## Representative Wanted.

A responsible young man can find pleasant and remunerative work soliciting subscribers to "Side Lights," Hawaii's monthly agricultural journal. Good commissions and exclusive agency for Maui to a thoroughly live worker. Address Side Lights, Hilo, Hawaii.

It is rumored that Henry E. Cooper is booked for Superintendent of Public Works. Mars Robinson could have the Treasury portfolio, but will not accept it.

## Island Geology.

Mr. Whitman Cross, of Washington, D. C., a geologist connected with the United States Geological and Topographical Survey department, has spent the past several months on the Islands, for the purpose of making a preliminary report to Chas. D. Walcott, Director of the department.

Mr. Cross has already visited all the Islands except Maui, and he visited the eastern end of this Island last week, and devoted this week to central Maui and Haleakala.

Congress will be asked for an appropriation for the purpose of making a topographical and geological survey of the Islands, which will doubtless be granted, and when this is done, a station will be established on the Islands, and a complete survey will be made. The Survey have been instructed to give particular attention to water supply, conservation of water and analysis of soils, and a survey of the Islands will doubtless be the means of collecting much useful and interesting information on these points. It will probably be a year or so however, before the Survey Department takes up this work.

## Bogota Strikes Home.

PANAMA, November 42.—The first American casualties as a result of the revolution occurred yesterday. The Columbian fleet captured a boat having on board correspondence snatching the whereabouts of two revolutionary schooners loaded with provisions. The government war ships headed for the place, and arriving there the Bogota, formerly the Jessie Banning, manned by an American crew, commanded by Captain Marmaduke, lowered two boats with armed men, but the schooners were aground they waited until high tide to attack them. In the meantime the revolutionists were discovered in ambush close to the beach, and when the Bogota's boats pulled ahead the second time the rebels opened fire on them, killing the ship's armorer, Richard Kane of Washington, and wounding George Walker, who was shot through the legs. A seaman named Clarke and Lieutenant Vasquez were also wounded, but not seriously.

The Bogota and Chucuito then opened fire on the enemy and killed every man in sight. One shot fired at a group of ten rebels who were most actively engaged in shooting at the boat's crew killed every one of them.

Gunner Cross of the Bogota thinks that from forty to fifty rebels were killed.

One of the schooners, the Helveia, loaded with rice, was captured, but the first shot at the second schooner set her on fire and she was completely destroyed, with her cargo.

The body of Kane will be buried here with military honors.

## Guatemala Overwhelmed.

SAN FRANCISCO, November 13.—Advices by the steamer Newport show that only a part of the terrible tale of property destruction and loss of life in Guatemala wrought by the recent volcanic eruptions has reached the rest of the world. It is thought the real facts cannot be suppressed much longer and that the afflicted republic will soon be appealing to the world for aid for its destitute. Mount Santa Maria has belched a covering of white ashes over many provinces that has buried coffee plantations several feet deep and killed thousands of cattle. The loss of human life is said to be appalling. The coffee crop of the republic is said to be ruined, and great destitution is imminent.

When the Newport left Champerico, gold was at a premium of 1,200 per cent, and business was at a standstill.

The coffee plantations in the districts of Costa Cuca, Chuva, Reforma, Palms, Costa Grande and Colbutz have been buried several feet in volcanic ash and debris. Thousands of cattle have been destroyed, and the loss of human life is thought to be immense.

When the Newport was at Champerico the officers found the people of that port in a panic-stricken turmoil. The steamship Acapulco, bound south, arrived at Champerico while the Newport was there and carried to San Jose de Guatemala all the passengers that could crowd aboard. Details from the scene of the great damage were hard to get. Kock, Hagaman & Co. offered \$2,000 to any person that would go to their Miramar plantation in Costa Cuca and bring them some news of conditions there. When the Newport sailed this offer was still standing, no man having been found who dared to go into the ash-covered interior.

## Stray Notes.

The storm of last Saturday and Sunday did much damage in Honolulu.

The president's message will touch on the Hawaiian fire claims and coinage bill.

Lahaina is setting Wailuku a shining example in the matter of social festivities.

A grand republican luau was held in Honolulu on Thanksgiving Day, at Hackfeld's wharf.

The Alameda is at the Riscon Iron Works in San Francisco, having oil-burners installed.

Many fish ponds which have stood for the past forty years on Molokai were destroyed by the recent storms.

Ed. Taylor, a younger brother of James T. Taylor had left Guatemala before the fatal eruption, and is in Chile.

The fact that Paris and Desha are both republicans cuts no ice. There should be a recount of the Hilo precinct.

The eruption of the volcano in Savail, is almost as much a surprise as would be occasioned by an eruption on Oahu.

James H. Boyd applied for and received a bill of particulars, on which his prosecution is based, and it makes some ugly reading.

The Japanese woman who was poisoned with Capt. Andrews at Hilo, and is the chief witness against his wife, has been poisoned again.

The island storms form only a small section of the area of the North Pacific region in which storms have been raging for the past ten days.

The Senate has voted to appoint a committee to draft a municipal and county government bill,—at least Achi and the Home Rulers voted it.

Special officer McDuffie has returned from the Coast after a fruitless search for Wright, and thinks that Wright is in Central or South America.

If it turns out that it was Lawyer Magoon and not Mr. Magoon who helped Wright to escape, it will bother the jury and Judge just a bit.
