H. C. & S. CO. BREAKS RECORD

New Mill Turns Out Two Thousand One Hundred Tons of Raw Sugar in One Week---
Improvement Association Meets.

WAILUKU'S CONCRETE SIDEWALKS.

Work Begins on the Construction of the Concrete Sidewalks of Town.—Rubber has Bright Prospects—Officers Inspect Koolau Rubber Co's Plantation.

A RECORD BREAKER.

Last week the Hawaiian Commercial & Sugar Company's mill at Puunene ground over fourteen thousand tons of cane and manufactured two thousand one hundred tons of raw sugar. This was done in six days time, and is the record breaker of the world, and far in excess of anything thought possible a few years ago. It is an average of three hundred and fifty tons per day.

Within the corner stone of the new Wailuku school house is a copy of a newspaper presented by the Honorable H. P. Baldwin, which gives an account of one of the meetings of the Hawaiian Sugar Planters Association when he was a young man and in attendance for the first time. The report in this paper shows that at that time the output of sugar for the entire Island of Maui was five hundred tons per annum, and he is said to have prophesied then that the day would come when the output of sugar for this island would in time reach two thousand tons per year, at which optimistic statement all the sugar planters laughed. And now within a life time one of his plantations alone manufactures in one week's time over the amount that he thought it possible for the whole island to produce in one year.

WAILUKU IMPROVEMENT ASSOCIATION MEETS.

The Wailuku District Improvement Association held its monthly meeting in the Wailuku Court House on the evening of the 10th inst.

The minutes were read and approved. The Vineyard Street Improvement Committee was granted further time, and are to have a report of something accomplished at the next meeting. The tree planting committee, consisting of W. J. Coelho, made a report of much interest. Trees have been secured, permission to plant the same along the roads has been granted, and many patriotic citizens, including R. W. Filler, R. A. Wadsworth, J. L. Osmer, W. S. Mountcastle, Bro. Frank, Judge A. N. Kepoikai, W. T. Robinson, J. L. Coke, C. Crowell, D. H. Case, J. N. K. Keola, J. K. Kahookole and others have offered to plant and care for trees along sections of the roads.

Especially has Kahului taken an interest in the matter and much good will be accomplished.

The report of the committee was received, and on motion of Mr. D. H. Case, a vote of thanks was extended to Mr. Coelho. The motion was carried unanimously.

The matter of caring for the trees was discussed and Mr. Case offered to take up a subscription to pay for the care of the trees until the matter could be taken up by the Board of Supervisors of Maui County, as it was believed these could be cared for out of road funds.

Mr. Copeland, chairman of the anti-mosquito committee, reported that a consignment of top minnows would reach Maui next Saturday.

Oiling of stagnant pools was then taken up. Mr. Geo. Weight, sanitary inspector, reported on the work done by his department.

A resolution was moved by Judge McKay that the secretary write to the principals of the various schools asking their assistance and cooperation, and also that of the teachers and pupils, in trying to minimize the mosquito pests in the district.

NEW CONCRETE SIDEWALKS.

Work on the new concrete sidewalks of town has begun. Contractor T. B. Lyons has a force of men at work near Kihel getting out stone for the work and dirt is being hauled to make the proper filling to raise the grade for the walks, the old planks are being torn up

and the cement work will be begun next week. While the fire in San Francisco has caused a scarcity of cement and will necessarily cause a delay in the construction of the work the residents of town will be benefited to such an extent that no complaints will be made by the delay that will necessarily follow the causes that are in no way chargeable to the contractor.

Even though the old side walks were laid with the planks lengthwise and therefore caused many a fall and many slivers to run into the feet of the children and caused at least one broken ankle they served a good purpose in their time and were better, at least, in wet weather than no walks. None will regret to see them give place to concrete.

When this work is completed and the new walk built down to the depot the next improvement that should be agitated is the laying of a concrete walk on High Street out to the new school house after which should follow the erection of a new Court House on the site of the old tumble down buildings that are now makeshifts for a Court House and temporary jail.

Mr. W. O. Smith was seen this week by a representative of the News and expressed himself in the strongest terms in favor of the erection of a suitable Court House and was surprised to find the old building in such a dilapidated condition.

He said that while he favors the strictest economy in the administration of the Territorial financial affairs he believes the interest of the community would be served by the building of a new Court House here and was surprised that the administration had not included in its plans the erection of such a building out of the funds available at this time.

RUBBER HAS BRIGHT PROSPECTS.

Messrs R. A. Wadsworth and W. L. Decoto of the Koolau Rubber Company have returned from a personal inspection of the company's plantation at Nahiku and are highly pleased with the outlook of rubber on their plantation and the others in that vicinity. Mr. Wadsworth says the trees that were planted from seed last June are now as high as fifteen feet and are thriving beyond belief. The company has twenty five acres planted or ten thousand trees all of which are doing well. Practically all of the lands are cleared and ready for planting and as soon as the seed and plants arrive, which will be soon, the work will go rapidly on.

The lands were practically all covered with a heavy growth of trees and brush and it has cost but six dollars per acre to clear the land while the digging of the holes for the planting has cost but one cent per hole. This is due principally to the fact that the soil is loose and free from stones and as it is free from grass it is an easy proposition.

All of the buildings necessary are already built and the expense of the up keep of the plantation will be light from now on.

It is confidently expected that the growing of rubber will be one of the most successful industries on the island and will make possible the utilization of many acres of land that are now useless.

NO LIMIT ON HEIGHT OF BUILDINGS

Any Height of Buildings in San Francisco on Wide Streets---Oil Wells of California Not Injured by Earthquake.

MRS. BOTKIN TAKEN TO SAN QUENTIN.

Mrs. Botkin, Convicted of Poisoning an Enemy by Sending Her Poisoned Candy, Must Pay the Penalty of Her Crime in Prison.

OAKLAND, Cal., May 15.—The Reconstruction Committee of San Francisco has reported favorable to placing no limit on the height of buildings located on the wide streets of the city. The decision is the result of an inspection of the skyscrapers of the city, and is indicative of the small amount of damage done these buildings during the earthquake.

OAKLAND, Cal., May 15.—The earthquake of the 18th of April and shocks following have not injured the oil wells of the State.

SHENANDOAH, May 15.—Five miners were torn to pieces today and twelve badly burned in an explosion at the Shenandoah City colliery.

OAKLAND, Cal., May 15.—Mrs. Botkin, the convicted poisoner, was today taken to San Quentin prison to serve sentence.

ST. PETERSBURG, Russia, May 15.—A strike is in progress at the Zenical coal mines, which resulted in a conflict with the gendarmes. Three workmen were killed and five wounded.

ST. PETERSBURG, May 15.—Two hundred thousand working men observed May Day, and work was generally suspended.

There was a riot at Volgoda, and many are reported wounded. The Cabinet has decided to grant a measure of amnesty which is short of the popular demand.

WARSAW, May 15.—A police captain and one policeman were killed and several wounded here by the explosion of a bomb. A riot followed the explosion, and four rioters were killed and nineteen wounded.

LONDON, May 15.—The London and Lancashire Insurance Company has increased its capitalization \$2,500,000. The losses of the company in California will foot up \$6,000,000.

WASHINGTON, May 15.—President Roosevelt has issued a long statement denying that he has changed his position on the railway rate bill.

GREYTOWN, Natal, May 15.—Serious fighting is reported in Zululand.

CHICAGO, May 15.—The attempts of the Zionists to settle their difficulties among themselves have been abandoned, and the trouble will be carried into the courts.

STOCKHOLM, May 15.—The first Chamber of Parliament has adopted a bill providing for a scheme of universal suffrage.

OAKLAND, Cal., May 14.—The Relief Fund for San Francisco has reached \$295,000.

The damage to the San Francisco waterfront state properties is estimated at half a million dollars.

The S. S. Mariposa, which has arrived from Tahiti, reports that there was no shock of earthquake felt at that island on April 18, when the severe earthquake visited San Francisco and other parts of California.

LOS ANGELES, May 14.—A new registration of the Chinese of California will probably be demanded as many of the Chinese lost their certificates in the San Francisco fire.

MINNEAPOLIS, May 14.—Bishop Dahl has ordered the Lutheran missionaries in China to leave the dangerous districts. A rising is feared in Honan.

NEW YORK, May 14.—The funeral strike has been adjusted. The drivers have won shorter hours and recognition of the union.

NEW YORK, May 14.—The insurance losses from the San Francisco disaster have been estimated at \$113,441,595.

SCRANTON, Pa., May 14.—Work has been generally resumed in the anthracite collieries.

SEBASTOPOL, May 14.—The battleship John Slakoust has been launched.

TOKIO, May 14.—United States Ambassador Luke Wright has arrived.

NAPLES, May 14.—The eruption of Vesuvius at present is not serious.

TIFLIS, May 14.—The police have discovered 250 bombs here.

OAKLAND, May 12.—When the new saloon licenses are issued in San Francisco, the license fee will be increased.

The number of employees of the city and county of San Francisco are to be reduced for the purpose of economy.

The vault at the post office was opened today. It was found that the stationery had suffered much loss.

The Stock Exchange will soon reopen.

CONSTANTINOPLE, May 12.—The Turkish Government has decided to accept the terms of Great Britain, made known in the recent ultimatum, in the matter of the alleged encroachment of Turkey in the Sinai Peninsula.

WASHINGTON, D. C., May 12.—It has been learned by the authorities that the Santo Domingo revolutionists are using Porto Rico as a base from which to conduct their operations against the Domingan government.

WASHINGTON, D. C., May 12.—The deadlock in the Senate over the type of canal to direct the Panama Canal Commission to construct across the Isthmus, may be broken by the vote of Senator Carmack of Tennessee who may decide against the lock type and in favor of a sea level canal.

ANNOUNCEMENT

Dr. Frear, the dentist, will be in Paia at Pieper's Hotel next Wednesday, May 23rd, for a few days only.
