Few people give enough thought to the earning capacity of a dollar. When you look at a dollar, do not think of how much it will buy, but

HOW MUCH IT WILL EARN.

When you find yourself thinking of your dollars in this way, you are starting on the only straight and sure road to wealth. Idle dollars are of no more use to the world than idle men. Every dollar you make over the cost of actual necessities should be immediately placed under the safeguard of a strong bank and kept busily at work earning other dollars for you. We pay four per cent interest on savings accounts and figure the interest every six months.

REPUBLICANS START CAMPAIGN.

Last Saturday a party of Republican County nominees composed of County Attorney D. H. Case, Sheriff Wm. E. Saffery, Treasurer L. M. Baldwin, Auditor C. Wilcox and Clerk W. F. Kaae departed for Molokai aboard the steamer Like-like sailing from Lahaina.

The party landed at Kaunakakai and went stumping up to Halawa. At the various places where the campaigners held forth they were heard by large attendances and all feel certain of Republican success on that Island.

On Thursday they returned to Lahaina and there preached the Republican doctrine to large crowds. Lahaina, it is said, will go Republican strong, although the Home Rulers claim it as their stronghold. The district officers of Lahaina, Supervisor Henning and Deputy Sheriff Lindsay, are working hard and their efforts have met with success.

Much has been heard of Eugene Devauchelle's intention to run for Deputy Sheriff of Molokai on the Independent ticket. Eugene sought the nomination at the convention, but being turned down avowed that he would run independently. "Tis certain he will not be elected, though he may spoil the chances of the Republican candidate there.

As to the independent candidacy of J. M. Vivas for the office of County Attorney much has been said and still more can be said. The Home Rulers have refused to endorse him, and furthermore it is said on good authority that the Portuguese voters in the County will not support him. Still he is going to run, and to use the words of a local politician: "He can run, no one is holding him."

In Wailuku district things have been a little quiet, although a large amount of thinking has been done. The Home Rule candidates are working at Waihee and are not so very successful as of yore. There has been a large number of conversions to the Republican side in that precinct during the last year and these threaten to do harm to the Home Rulers in the coming election.

S. E. Kaiue, candidate for Supervisor, Chas. Lake, for Deputy Sheriff and M. P. Waiwaiole for Representative on the Republican ticket are very popular and strong at Waihee, and expect a large support from there. This is the home precinct of R. J. K. Nawahine, candidate for Representative and of Thos. Clark, candidate for Deputy Sheriff on the Home Rule ticket and they seem to feel somewhat blue as to their chances.

Another party of Republican candidates composed of W. J. Coelho for Senator, Joel Nakaleka, Philip Pali, M. P. Waiwaiole, John Kaluna, A. J. Gomes and Levi Joseph for Representatives are stumping East Maui and in a couple of weeks expect to tackle Molokai and West Maui. They have been very successful and their meetings are attended by large crowds.

The whole County will again be worked, it is expected, when Delegate Kuhio arrives.

The Board of Registration will sit in Wailuku on Monday from 9 a. m. to 3 p. m. and on Tuesday will sit from 1:30 p. m. to 3 p. m. at Waikapu from whence it will again hold daily sessions from 9 to 3 p. m. until the 9th of October when the registration of voters will close. The board has spent the past week between Hana and Haiku. The registration does not show up as well as that of last year.

The Young Men's Republican Club held a meeting Tuesday evening and discussed several matters relating to the present campaign. The Portuguese Republican Club will hold a meeting Sunday morning in Robinson's Hall, Market street. They will discuss the possibility of holding campaign meetings in the various precincts where there are a number of Portuguese voters, and will also discuss the necessity of urging the Portuguese voters to register.

SINGER SEWING MACHINES

Cannot be obtained through merchandise dealers. They are delivered directly from maker to user only through the Company's own employees. There is as great a difference in the cost of making sewing machines as there is in making watches. A cheap watch will indicate time with fair accuracy for a short time. Fairly good stitching can be done on some of the old patterns of cheap sewing machines when they are new, but they always work hard, are noisy and soon wear out. Every SINGER MACHINE is tested by actual sewing at the factory. It is always ready for every kind of stitching and will do better work and do it longer than any other because it is of better design and construction. A Postal Card to

HONOLULU, Sept. 28.—
The P. M. S. Mongolia and the U. S. transport Buford have just arrived from Mid-way Island.

J. W. Kalua, the Home Rule candidate for Sheriff, has been following the Board of Registration for the purpose of challenging Portuguese voters, but so far has met with no success whatever. He now claims that he followed the Board for no other purpose than that of meeting personally each and every voter. Nevertheless the Portuguese Club of Wailuku will do all possible to assist the Portuguese voters to register and defeat Kalua.

VISIT RUBBER PLANTATION.

On Tuesday of this week Senator Hayselden, C. L. Scrimger, Attorney J. L. Coke, and R. A. Wadsworth, returned from Nahiku where they went last week on a tour of inspection of their rubber plantation there.

The gentlemen are most enthusiastic over the wonderful results shown by rubber in the few years that the plantation there have been in operation, and point with pride to the rapid growth of the trees there and the healthy condition of the same.

Rubber is destined to be one of the leading products of the island and as the land suitable for the profitable growth of rubber is of little value for any other crop, it will in no wise interfere with the agricultural industries now in existence.

Some of the varieties of trees there are showing a greater growth than in their native soils and are producing rubber of such quality and quantity that all of the parties interested are most sanguine as to the ultimate success of the enterprise.

Captain Filler at The Helm.

During the absence of Captain Randall, master of the tug Leslie Baldwin of Kahului, Captain R. W. Filler, better known as the Superintendent of the Kahului Railroad, is at the helm and handles the tug with the skill and confidence of an old salt.

At the present time the harbor is full of buoys that have been put in during the dredging operations that have been in progress for some months and as several vessels are in the harbor and the dredging is by no means completed it requires considerable skill to keep the tug and vessels in tow from fouling in the lines that mark the operations of the dredger and yet this is what the new Captain does without a hitch.

Large barges piled high with freight are landed with perfect ease without a mishap and put in place with perfect precision.
