Paia's Results Will Be Hard to Beat

Prospect Good for Banner Year for Maui Agricultural—Extra Dividends Declared.

L. Weinheimer, manager of the Pioneer Mill Company, spent last Monday in visiting the Paia plantation. He expressed himself as much impressed with the conditions under which that plantation is working.

The outlook for the Maui Agricultural Company's production for this season is for a record breaker. Manager Harry A. Baldwin has recently reported to Alexander & Baldwin that conditions have been very favorable.

A part of one field, about one hundred acres, harvested last week yielded ninety-three tons of cane per acre. It took only 8.5 tons of cane to make one ton of sugar, so that the output of this particular hundred acres was 1400 tons of sugar—exactly fourteen tons per acre.

Foss Making Good Progress At Hilo

Brother of Contractor Also on Job In Charge of Concrete Work—Well Known on Maui.

Contractor James C. Foss has everything well under way on his contract for building the Kuhio Bay wharf road and approach. Over one hundred men are employed on the job and good headway is being made on the proposition.

On the Mauna Kea, arriving yesterday, J. H. Foss, a brother of Contractor Foss, an engineer and an expert concrete man, came to join the forces that are working on the new road, and was in charge of the big undertaking that was engineered by the Pioneer Mill Company when it put its long ditch and other works through in the mountains near Lahaina. The newcomer to Hilo will be in charge of all the concrete construction work that his brother has contracted for.

The work on the road is being rushed as much as possible, but there are many difficulties to overcome. It is expected that, in about eight weeks time, the actual laying of the concrete roadbed will be started.

The contract for the construction of the wharf shed on the Kuhio wharf is also in the hands of J. C. Foss, and he expects to begin work on that project within a couple of months.—Hawaii Herald.

It is felt by those in charge of school affairs that the mainland readers are not applicable to the schools of Hawaii as would be a special local reader, inasmuch as the mainland readers treat of so many subjects which the mind of the Island child cannot grasp. The last legislature provided for having this work done and Miss Needham is well qualified for the task.

Great Crowd and Delightful Time By All—Fair Nets Goodly Sum.

At the Sunday morning services at 8 o'clock and again at 10:30 o'clock, Father Athanasius and Father Ambrose celebrated the impressive masses.

No small part in the success of the affair was due to the generosity of many persons who donated materials. Dr. Raymond, Supervisor Drummond, and the Cornwall Ranch each donated a steer for the feast. Thanks is extended to all who helped in any way towards making the affair a success.

Case Will Leave Island In July

Supervising Principal A. L. Case, who was last week appointed principal of the Paaulo, Hawaii, school, does not expect to accept the new position, but will leave following the close of the present school term for Sacramento, California, where he will go into business. Mr. Case's decision is due in no small part to the poor health of Mrs. Case, who was obliged to go to the Coast a few months ago on this account, and who has not been well since her return.

The many Maui friends of both Mr. and Mrs. Case will regret to learn of their decision to leave the Islands.

A Congress Junket Aftermath.

The employment of A. J. Ery, of Washington, as "publicly man" to assist in handling the Congressional party on its trip to Hawaii, has started a row through the presentation of a bill of \$250 to the Promotion Committee to help pay Ery's expenses. Jack Desha, the Delegate's private secretary, who engaged Ery, says Supervisor Hollinger has started the trouble because he is "sore" that his firm did not get the baggage handling contract of the party. Hollinger says he is protecting the Promotion Committee, of which he is a member, and that Ery had no warrant for his little joy trip. How the matter will end remains to be seen.
