HUNTING FOR PINEAPPLE SEED.

Pineapple seeds are almost as scarce as hen's teeth. About one fruit in a million has them. The packers want new pineapple varieties and so want seed. To get the one in a million seed-bearing fruit they have posted a standing reward in the factories, the laborer who finds one and turns it in gets a day off on full pay. As a result, a stock of several hundred pineapple seeds has been collected from the autumn pack, and more will undoubtedly be forthcoming next summer. One good seed planted now may be the forerunner of a variety which will be just what the planters need ten years hence.—Advertiser

The board of supervisors will hold its January meeting beginning on Wednesday, January 12.

The Women's Guild of the Church of the Good Shepherd will hold its regular monthly meeting with Mrs. J. S. Aiken, Kahului, Tuesday, January 4, 1916 at 2:30 p. m.

The steamer Mauna Kea, on her up trip, last Saturday evening, was unable to land either mail or passengers at Lahaina on account of the rough weather on the southern side of the island. The landing was made, however on the following Monday, the weather having moderated.

The first big military ball ever to be held on Maui takes place tonight. Everything is in readiness, and the work of the various committees is being put through with true military precision and thoroughness.

The Armory, which has just been enlarged by the addition of 25 feet to its length, is beautifully decorated. It is now assured that the attendance will be larger than for almost any other similar affair ever held on Maui.

The entertainment committee announces that it has a lot of features to present which will include the work of some of the best Honolulu talent.

General Sam L. Johnson, who will lead the grand march, arrived from Honolulu this morning. A number of Honolulu staff officers are also here.

The Fourth Cavalry Band is also on hand, and will alternate with Mary Hoffman's quintet club in furnishing the music for the dancing.

Through the efforts of Miss O'Leary, principal of the Waialuku Public School, a series of lectures has been arranged for the coming school term, to be given in the assembly room of the school on the second and fourth Fridays of each month. These lectures will be by well known Maui citizens, and will be on topics of general interest.

While the talks are intended primarily for the pupils of the Sixth, Seventh and Eighth grades of the school, an invitation will be extended to the public generally to attend.

Besides the lectures on these occasions, a very short program will be given each time by the school pupils, which should be of interest to parents and friends of the young people.

The first talk will be given by D. H. Case, on Friday, January 14th, and the subject of his discourse will be announced later. Among the other speakers who have consented to help out in this course are—L. R. Mathews, Dr. William Osmer, Senator H. E. Penhallow, Rev. R. B. Dodge, Mrs. W. H. Field, Prosecuting Attorney E. E. Bevins, Rev. J. Charles Villiers, Mrs. L. R. Mathews, and Rev. A. C. Bowditch. Other names may be announced later, as arrangements are made.

Filipinos of Maui Celebrate Rizal Day

In memory of Dr. Jose Rizal, the Filipino patriot, who was executed by the Spanish authorities on charge of treason, Filipinos of all Hawaii celebrated yesterday, December 29, as a holiday, with big gatherings at many places. On Maui not only was Thursday given over to holiday-making but today and tomorrow will be merged into the celebration as well.

Big meetings were held at Hamakua, at Haiku, and at Waialuku. These included speeches and feasting. Most of the addresses were of a patriotic character, and almost all speakers urged loyalty to the United States.

At Haiku the pineapple cannery employees of the Filipino race, listened to addresses by Jose Dias (Ando) Damazo, Joe Arbelada, Pedro M. Esqueras, and by some of the white officials of the Haiku Fruit & Packing Company, including C. E. Barter, E. C. Smith, W. G. Partridge, and H. Kinberg.

At Hamakua the speakers were—Joe Arbelada, Francisco Panchon, Jose Dias, Miriano Alfaro, Conchita Damazo, and Lucio Luis. Pedro Esqueras acted as toast-master at this affair.

Honolulu Crooks Are Here For Race Meet

Sheriff Crowell has been warned by Honolulu police that a number of card sharps and other crooks of the city, have come to Maui to take in the races. At least one of the bunch recently caught in the New Allington raid, and fined \$250 each, is known to be here. He is said to be a top-notch card player in his profession. The wise ones will steer clear of any "little games" suggested during the next few days.

The minister who is so literal about following the idea of "turning the other cheek" should, to be consistent, give all that he has to the poor, go without scrip or purse, clear the money-changers from the temples, fast forty days, preach on the seashore, eat with publicans and sinners, go up into a mountain to pray, have no place to lay his head, and otherwise imitate the life of Christ.—The Service

Christmas Storm Is General In Islands

Small Property Loss On Maui, But Eight Lives Are Lost.—Other Island Suffer From Wind and Rain.

The kona storm which had been brewing for a week or more, broke over Maui at an early hour Christmas morning, and for three days the rainfall was almost continuous. On Tuesday evening the trade winds became re-established, and conditions are again about normal. It was a wet Christmas, but the spirit of good cheer prevailed generally in spite of adverse weather conditions.

While all parts of Maui received a generous share of the deluge, the storm was probably most severe in the Upalapua and Kona sections, where the rain at times attained cloud-burst proportions. However no great amount of damage to life or property has been reported, save the tragedy which cost eight lives in the Kihel section, an account of which occurs in another column.

Other Islands Suffer.

Oahu and Kauai, and Hawaii all experienced extremely heavy rainfall on the southern coasts, and much damage is reported. On Oahu many of the barracks buildings at Schofield were unroofed by heavy wind, and several soldiers were seriously injured. At Port Allen, Kauai, the Chilian bark Ivanhoe, recently at Kahului with cargo of nitrates, dragged her anchors and went upon the rocks, being a complete loss. Two members of the bark's crew lost their lives.

Wireless Crippled.

The Mutual Telephone Company's wireless plant at Lahaina was out of commission a portion of Monday, on account of damage from high wind; while the Oahu and Kauai stations lost their aerials which interrupted service for some time. Static conditions also have interfered considerably with the service during the past week, it being necessary at times to relay messages between Honolulu and Hawaii through the Maui station.

Tells of New Ways To Use Roselle Fruit

The crop of roselle is not finding as ready a sale as its worth warrants, says a leaflet issued recently from the Extension Division of the federal experiment station. It may be used in a number of ways.

In her book, "How to Use Hawaiian Fruit," Miss Alexander gives nine recipes for roselle. As jelly or jam roselle is similar to cranberry. Roselle and pineapple combined make a delicious jelly or jam. Mrs. Watson, of Haiku, gives the following recipes:

Roselle-Pineapple Jam. Boil 1 1/2 lbs. roselle calyx, 1 qt. grated pineapple and 1 qt. water for fifteen minutes. Add a cup of sugar to a cup of juice and boil until it thickens.

Roselle-Pineapple Jelly. Make the same as the jam, but strain the juice through a bag before adding the sugar.

Roselle is now on sale at the Territorial Marketing Division. Housekeepers on Maui may have it mailed to them from Haiku at five cents a pound, postpaid. Address the Extension Division at Haiku, and the order will be passed on to a grower.

EXCURSION CALLED OFF.

Because of the kona storm last week, which did a great deal of damage at Schofield Barracks, the excursion of the steamer Kilauea had to be called off. Over 100 men of the 4th Cavalry had booked to come up, were obliged to stay at home and repair damaged quarters. The 4th Cavalry Band arrived, however, by the Claudine, as well as a good sized crowd of civilians on both the Claudine and the Manoa.

A Traveler. — Representative Billy Wilson, who dwells in Chicago, found himself in the upper peninsula of Michigan doing some fishing and hunting. While there he conversed with the guide that he had hired in order to have somebody around to talk to.

"Must get mighty all-fired cold up here in winter," replied Wilson one morning.

"Yes, it often gets away down to forty-five below zero," replied the native.

"Don't see how you stand it," said the Congressman.

"Oh, I always spend my winters in the South," explained the guide.

"Go South, eh? Well, Well! That's enterprising. And where do you go?"

"Grand Rapids," said the guide.—Collier's.

Telephone Rates To Be Raised At Once

Utilities Commission Approves Petition.—One Formal Protest.—New Rates Effective Tomorrow.

HONOLULU, Dec. 29.—The public utilities board, at its meeting yesterday afternoon, granted the petition of the Maui Telephone Company to increase its rates, which had been under consideration for some time past. The action brings to an end the discussion both for and against, and, in return, the telephone company will do its best to install complete and efficient telephone service, which will repay the people in the end. Although there have been many kicks against this raise, only one was sent in before the utilities commission, which, after being discussed by the commission, was overruled.

Edwin C. Moore presented the only objection. He claimed that the present service for which the people already were forced to pay a large price, was wretched, and he did not see why any raise should be made in the rates, when the rates at present were far too high for the convenience they bring. He said that the company at present was making money, and he did not see why the new rates should be allowed.

In connection with the same matter, a reply was made to J. L. Osmer, who is in the employ of the Maui board of health, and who recently asked to be allowed to use the phone while doing official business, without charge. The matter, which was brought up before the commission before, had been referred to the attorney general, and his answer led the commission to refuse the request. Deputy Attorney General Heen and Attorney General Stainback were unanimous in stating that "the Territory of Hawaii has no right to exempt itself or any of the counties from the public utilities rates."

The new rates, which become effective today, increase the rate for business phones from \$2.50 per month to \$5 per month, and establish a toll rate of 15 cents between Hana and central Maui points, and 10 cents between Lahaina and central Maui, on each message. The resident rate of \$3.50 per month is not increased, except as affected by the toll system.

Elephant and Tiger Enemies.

One of the most interesting employments of the elephant is in hunting tigers. From the lofty back of his elephant, at a height which, increased by the howdah, may be twelve or fourteen feet above the ground, the hunter can take his aim at a tiger with a coolness that he would not possess if facing the animal on terra firma. If, as sometimes occurs, the tiger makes a leap for the elephant he seldom succeeds in attaining the man in the howdah, although the driver in his exposed position on the elephant's neck, is in greater danger.

There seems to be a natural enmity between elephants and tigers, although an elephant will not attack a tiger unless cornered or compelled to do so by the tiger's own fault. But then a good fighting elephant will if he can once get his tusks to bear on his enemy gore him to death or literally crush him by kneeling on him. It is said that the mere presence of a dead tiger will drive some elephants to fury.—Spokane Spokesman-Review.

The Land of Long Words.

Humboldt once said that nothing in Mexico strikes Europeans more forcibly than the excessive length of the words. This length, moreover, does not always depend on their being compounded, as in the Greek, the German or the Sanskrit. Thus the Mexican word for that simple thing, a kiss, is tetennamiquiltil.

But that is nothing, says Mr. Charles W. Donville-Fife in his book on Guatemala, to what the Central American can do. His best efforts eclipse even Shakespeare's often quoted "honorable abilludinfatibus," in "Love's Labour's Lost," for if you wish to call the boy who carries newspapers, you have but to murmur "amatlacuilquitentiaxahulle," and he may possibly come.

Steam and Gas.

True dry superheated steam has every property of a true gas save one—it is not permanent. When heat disappears what appeared to be gas soon becomes water. Heat oxygen, hydrogen, nitrogen as hot as possible in any expansion container and they will come rare, occupy more space, but allow the heat to vanish and the gases will resume their original temperature volumes. Freeze these gases down to liquid or solid, when the cold is so intense that it cannot be imagined. Restore the heat and the solids or liquids will be gases again—that is, they are permanent gases at terrestrial temperatures. But steam is not permanent at these temperatures and is therefore a vapor of water.—New York American.

Built From the Coliseum.

Many of the important palaces of Rome are made from stone taken from the ruins of the Coliseum, which, in spite of the ravages of two earthquakes, remained intact until the eighth century. The Barberini, Farnese, and Cancelleria were all built from the walls of this edifice, but the spoliation is not so unworthy when we realize the stone had fallen from repeated earthquakes, thus suggesting its transportation.

Mainland Anglers Here To Try Sport

Catalina Island and its game fishing grounds had better look to their laurels. H. Gooding Field and the Hawaii Tuna Club, after two years of campaigning, are beginning to get results. F. P. Newport and Mrs. Newport, both of whom are adepts at the art of angling for the monster master of deepsea game fish, the tuna, are here to give the statements made by the Tuna Club a fair trial.

They arrived on Maui on Wednesday evening, and will try their luck in the water off Lanai and Kahoowale and Molokai. Ono, a cross between the giant tuna and the sword fish, the blue fin tuna and the ulua will be fished for by this pair. All of these fish are fighters from the strike, and no one is sure of victory until the finny monster is safe in the boat.

Other fishers from the mainland, men and women who for years have been spending their time and their money at Avalon, Catalina Island, chasing the tuna, the yellow tail and the albacore, are coming down here to try their luck with the Hawaiian fish.

One party, headed by E. M. Jump of Los Angeles, will reach Honolulu within a few days. It is more than likely that Mr. Jump, who is a wealthy retired business man, will bring with him his own lunch and tackle, as well as his friends, and will spend several months enjoying the sport here.

Scripture Revised.—"The Bible tells us we should love our neighbors," said the good deacon.

"Yes, but the Bible was written before our neighbors lived so close," replied the mere man.—Philadelphia Record.

MISS TURNER REMEMBERED.

(Communicated.)

Many of the Waialuku friends of Miss Charlotte L. Turner united in sending her at Christmas time a handsome purse containing seventy-five dollars in gold. It was the intention of those friends who remembered her that with the money she should get some one thing that she would particularly like to have. Former Waialuku friends living on the Mainland also assisted.

The gift is an expression of the love and high esteem in which Miss Turner is held in the community to which she has given so generously of her love and sympathy through the many years that she has lived in Waialuku.
