Performance Under Auspices of Ladies Aid Society A Delightful Success—Parts Well Taken And Splendidly Sustained

A well-filled house greeted the production of "The Man Who Married a Dutch Wife," last night at the Wailuku Orpheum.

The play was the chief feature of an entertainment presented by the Ladies Aid Society of the Wailuku United Church which annually raises funds in some such manner.

The committee to whom a large part of the credit of last night's success was due comprised Mrs. R. B. Dodge, Mrs. E. R. Boying and Miss Betty Cramer.

All of the characters carried their parts with scarcely a flaw, maintaining a self-control in humorous situations which would do credit to professionals.

A charming number on the program was a song by Alma Ross assisted by Elton Nelson and Mildred Bevis.

The last number was a short sketch "The Work House Ward," in which two puppets, in their brazen and malicious, came out, honors even, both being so successfully emulated that it was difficult to distinguish H. Washburn Baldwin and Richard Lillie in their dialogue.

Master Leonard Bond, Judge Master Frank I. Hoops, Master Adam Emson, Lawyer Master Simon Collins, Doctor Master Mrs. D. T. Carey, Master Jean Mauder, Surgeon Master Serafin Dolanier, Apothecary, Miss Winifred Wadsworth, Glib Boileau, Secretary.

Miss Myrtle Taylor, A Blind Fiddler, Mr. Richard Lillie, Catherine, Botals Wife, Miss Olive Lindsay, Mrs. H. B. Penhallow, Alison, Botals Servant, Miss Vera Durney, Mademoiselle de la Garandiere, Madame de la Brune, Miss Eva Rodriguez, The Candle Man, Miss Ethel Palmatier, The Chimney Sweep, Miss Rosalie de Rego, First Doctor's Assistant, Miss Helen Palmatier, Second Doctor's Assistant, Miss Ruth Whitehead.

Expects Maui To Again Make Clean-Up In Poultry

James Lindsay, of Haiku, who has taken the place of W. F. Pogue as Maui representative on the poultry and rabbit section of the territorial fair, is enthusiastic over what Maui will be able to do at the big show.

Maui made good last year in this section, bringing back most of the important ribbons and other trophies, including the silver cup for the best pen of fowls of any class at the fair.

The report that Honolulu fanciers have been busy importing a lot of high class birds doesn't disturb Lindsay at all. He is confident, he says, that Maui is stronger this year than last in this department.

Among the expected exhibitors from Maui this year are W. F. Pogue, leghorns and broeze turkeys; James Lindsay, barred rocks; Dwight Baldwin, Indian runner ducks and rabbits; H. D. Elgert, rabbits; Kula, Santarima, penneys and guinea fowls; George Freedland, blue barred pigeons and bantam chickens.

LOUISVILLE, Ky., April 21.—(Associated Press)—Japanese agents are negotiating with American distillers for the purchase of machinery in their plants after prohibition becomes effective.

A bill before the Japanese Diet would prohibit use of rice in the manufacture of sake, the Japanese national drink. Japanese distillers now want foreign made machinery in which corn and other cereals can be substituted for rice, Kawahara said.

Ushimura had evidently just started in the business but he had about 250 gallons of "beer" ready for the still. The pit in which the plant was located was covered by a very small structure resembling in all respects an ordinary outhouse. It was this that concealed the ladder by which the place was entered.

Income Tax Tips

(All replies in questions in this column given free of tax.)
Puzzled—Don't be bluff. Simply put all extra leaves in dining-room table, grasp tax returns firmly with both hands, and throw it flat on its back. When you have it down brand it on first page with hot ink.

C. H.—Yes, algebra may be used in figuring your return. Personally we employ trigonometry, although many prefer calculus and a couple of lawyers.

Taxpayer—Your problem is as clear as a Chinese laundry-ticket. Simply deduct the net profit of losses (plus inventories at end of year) and add income from salaries, wages, bonuses, director's fees, and pensions. Nothing to it!

Confused—No, you should have figured the amounts in Items 34, 60, and 69 as net losses from Wear and Tear, Obsolescence and Depletion Charged Off (see K (2) on Page 8 of Instructions) before entering total in Item 94, Schedule O. It's perfectly simple.

L. F.—Don't worry about your 1919 tax. You may not have any income.—Brooklyn Eagle.
