

The present problem of making the world safe for civilization is more serious than was the question of making it safe for democracy four years ago.—Frank Comerford.

Mandamus Started To Reinstate Bevins

Judge Burr Must Defend Ruling Before Supreme Court—Hearing Tomorrow In Honolulu—Action In Disbarment Not Yet Filed.

A writ of mandamus from the supreme court was served on Judge L. L. Burr, on Wednesday morning, requiring the 2nd circuit court jurist to show why he should not be required to permit County Attorney E. R. Bevins to practice as a private attorney in his court or to appear in court in his official capacity for the county. The papers are returnable tomorrow morning in Honolulu.

Last week Bevins, through his deputy, W. F. Crockett, Jr., entered a motion asking that the ruling of the court prohibiting him from practicing pending the result of the disbarment proceedings against him instituted by Burr, be reconsidered. The motion was taken under advisement, but on last Monday morning Judge Burr entered another order denying the petition and sustaining his previous ruling.

Bevins went to Honolulu on Monday night's Mauna Kea, and on Tuesday, through his attorneys Peters & Smith, sought a mandamus from the supreme court to secure his reinstatement before the bar. The papers from the higher court arrived Wednesday morning by the Mikahala mail, and were served by Sheriff Clem Crowell before noon. Bevins also returned by the same boat.

Judge Burr departed for Honolulu on Wednesday evening, in company with Mrs. Burr, enroute to the Coast for a 2 months vacation. Contempt Matter Still Pending

In the meantime the supreme court has not yet announced a decision on the habeas corpus action instituted two weeks ago by Bevins after he had been served by a mittimus from Burr's court ordering him to jail for failure to pay the \$50 fine assessed against him for alleged contempt. The matter was argued in Honolulu last week and taken under advisement.

As to the order by the local judge to Attorney General Harry Irwin to bring disbarment proceedings against Bevins, that action will probably be taken shortly, though it may be some time before it is thrashed out and a final decision rendered. The present proceedings are really but the preliminaries to the big battle to come.

TEACHERS TO HAVE TRANSPORT

HONOLULU, June 19—Chairman W. S. Benson of the United States Shipping Board has written the directors of construction urging early completion of the transport Cantigny so that the new vessel may be used in carrying the school teachers of Hawaii to the Coast next month and returning with the teachers in the fall, according to advices received today by Governor McCarthy from the Secretary of the Interior.

Quits Auto Business Becomes Mule Dealer

Frank E. Lacey, for the past several years local manager of the Royal Hawaiian Sales Co., has quit the automobile business in order to devote his entire time to the importation of mules. He left Maui last Monday night with his family for Honolulu, and departed two days later for the Coast to arrange for another shipment of the long-eared animals.

Lacey has already brought two shipments of mules to the Islands with results so satisfactory to himself that he resigned his position with the automobile company to devote his entire time to the new enterprise. His place in the local agency is being filled by Harry Holt, who has been with the company for the past several years here and in Honolulu.

John Kalei, an employee of the Maui Telephone Co., was painfully hurt on Tuesday afternoon when a telephone pole, which was being erected fell and struck him upon the head and shoulders. He escaped with a number of severe contusions, fortunately sustaining no serious injury.

Japanese Give Up Big Oahu Strike

The strike of Japanese plantation workers which has been on since January 19, on Oahu, came to an end on last Wednesday night when the Japanese organization adopted a resolution calling the strike off unconditionally.

Large number of Japanese, have returned to work, although the plantations have made no concessions in either wage or bonus.

It is also announced that none of the strike breakers will be dismissed to make places for returning strikers.

It is understood that the Maui delegation attending the general conference of strikers held last Tuesday, was strongly in favor of giving up the fight.

Manoa Arrives Early To Sail Saturday Night

The Matson steamer Manoa arrived at daylight this morning from San Francisco, via Honolulu, with 1134 tons of miscellaneous freight for Maui consignees, and some 50 or 60 passengers, the latter mostly from Honolulu.

Mr. and Mrs. D. H. Case, who have spending a 2-month's vacation in Berkeley, Henry Pogue, who has been in school at Santa Clara, and Mrs. W. Bartlett Mel, who comes from San Francisco to join her husband, who is assistant manager of the Pauwela Pineapple Co. were among the through passengers on the boat.

The Manoa takes on 2500 tons of Maui sugar cargo and about 20 tons of general merchandise. She will get away for Honolulu late tomorrow night.

New Spuds Arrive

The Manoa brought 40 cases of new California potatoes for local merchants—the first of the new crop to arrive. They are in much better condition than any potatoes to arrive for some months.

A few boxes of apples also on the perishable cargo list—the first to come to Maui for more than a month. They are not of this year's crop, however.

A small consignment of miscellaneous vegetables in the ship's ice house, and a couple of hundred boxes of oranges, lemons, etc., make up the rest of this fruit and vegetable list.

KUHIO ON REHABILITATION

HONOLULU, June 25—Delegate Kuhio today explained to members of the Hawaiian Civic club, which is a native organization, the various clauses of the Rehabilitation Bill, which is to come up for consideration of Congress.

The Delegate was not slow in making it known that he favors the measure. In part, he said:

"The Rehabilitation Bill is the finest measure that has ever been drawn both for the Hawaiian people and for the Territory. We don't want the sugar lands. Sugar is all right, but that industry is for the big capitalists. Congress does not believe in homesteading lands worth from \$500 to \$1,000 an acre but does want to try, in every possible way, to rehabilitate the Hawaiian people.

"Under the terms of this bill, I think it can be done. You never will succeed unless you hustle. Now you have your chance and it is all up to you. You are nobody unless you are proud of your race and if you don't take an interest in your own people, the American people will take no interest in you.

"It is a pity we are setting aside much that is worthy in our customs and traditions. There is much that the Hawaiian people can teach Americans. It has been said that Hawaiians never stand together and too often it has been true. Let us prove to the world now, that this statement is not always true."

A meeting of the members of the Maui County Fair & Racing Association has been called for next Thursday, July 8, to hear a report on the Fourth of July race meeting and to approve plans of the directors and of the executive committee for developing the property of the organization and for the big fair next fall.

Harbor Commission Inspection Kahului

Planning For New Ships Wharf—Will Also Look At Mala Wharf Site—Governor McCarthy Sees Fair Grounds.

Accompanied by Governor McCarthy the board of harbor commissioners arrived this morning from Honolulu by the Manoa and are looking over the proposed wharf site at Kahului harbor.

As reported some time ago Alexander & Baldwin has proposed to the territory to release the license it holds to build a ship's wharf along side the east breakwater, and to turn over to the territory the Claudine wharf. The plan has in general the approval of the administration, and the idea is to get the matter in shape for submitting to the special session of the legislature which will probably meet some time this fall.

In the party which is looking into the matter are Superintendent of Public Works Lyman J. Bigelow, Norman Watkins and W. H. McClellan.

The board will be on Maui until Saturday night, during which time it will also look into the Mala wharf project, the survey for which has been approved, and \$220,000 appropriation for which will probably be available from the sale of territorial bonds within a few months.

Governor McCarthy has to return to Honolulu this evening, and as a consequence is making his observations with that end in view. He is inspecting the Mala wharf site this afternoon.

This morning he also visited the county fair grounds, where he expressed much interest in the improvements being made there, and the plans for the future development of the grounds and buildings.

NEW TELEPHONE DIRECTORY ISSUED

The Maui Telephone Company has just issued a new telephone directory corrected up to July 1. It is much better arranged than any previous directory, and more convenient for reference. It contains about 150 more names than the previous book, and is 14 pages larger. The directory is from the press of the Maui Publishing Company, Limited.

Johnnie Williams Here To Play Ball And Sell Autos

Johnnie Williams, who came out of the brush in Honolulu about a decade ago and a number of years thereafter traveled in upper-strata baseball circles of the mainland, arrived on Maui this morning. He is here for a double purpose; to help Stanley Mackenzie's Waikikis to take home the bacon, if he can; and to help A. B. Corcoran, of the Newton Auto Exchange, to sell Paige cars to Maui people. Johnnie is now with the Newton Auto Exchange, selling high grade automobiles and playing baseball with the Waikikis. He is making good at both. He is on the card as pitcher for the Maui series, but will probably hold down 3rd a part of the time.

FORMER MAUI RESIDENT SUICIDES IN ALAMEDA

Walter E. Shaw, formerly of Maui, but for the past 10 or 15 years a resident of the Kaimuki district, Honolulu, committed suicide in Alameda on June 28 by jumping from the second story of the residence in which he was living with his wife at the time. The deceased had been a dealer in hides for some time, and the falling market is supposed to have unbalanced his mind.

A new Dodge automobile of the von Hamm-Young Company, driven by Miss Ruby McVay, and a Chevrolet owned by the Wailuku Vulcanizing Co., and driven by John Cabral, crashed at the corner of Main and High streets shortly before 2 o'clock this afternoon. The Chevrolet was attempting to turn from Main into High, when the Dodge, coming down the hill on Main street, struck it amidships, almost upsetting it. Both machines sustained some damage.

Bank Opening Is Festive Occasion

Hundreds Of Maui Residents Visit New Bank Of Maui Home And Admire Handsome Appointments—Program Has Carnival Touch

The formal opening of the new banking building of the Bank of Maui, Ltd., in Wailuku, last Saturday, was a pleasant occasion to hundreds of Maui residents generally and a matter of well-merited gratification to the officials of the institution. From 9 o'clock in the morning until after 10 o'clock in the evening an almost constant stream of visitors were passing through the handsome building under the escort of Manager C. D. Lufkin, Cashier J. Garcia and the directors and employees of the bank.

Each guest was given a handsome souvenir of the occasion, and besides cigars and cigarettes were available for the men visitors and bonbons for the ladies.

The big feature of the day's entertainment occurred in the evening when the street in front of the bank was roped off against vehicles and a tremendous crowd danced to the music of the Puunene band and to an orchestra upon the asphalt paving, and watched the open air motion pictures provided by P. H. Ross for the occasion. There was also a fine display of fireworks, while the whole scene was rendered festive by the profusion of colored lights and streamers.

During the evening confetti battles raged from time to time, and the spirit of carnival was strong upon all.

T. K. K. BOATS STILL BOOK FOR U. S. PORTS

HONOLULU, June 25—Agents of the T. K. K. line are still accepting bookings for sailing on their ships between American ports. This action is taken because the agents believe that under the Merchant Marine Bill recently signed by the president, which does not go into effect until 90 days after such signature, the provisions of the coastwise shipping law hitherto suspended are automatically kept suspended until the merchant marine bill goes into effect.

Central Maui Plantations End Grinding Season

The Wailuku Sugar Co., finished its grinding season on Tuesday of this week and is now drying off. The turn for the year is about 15,200 tons, or some 200 tons above the December estimate. Although the mill got a late start in grinding owing to the delay in arrival of various machinery, it finished in very good time. The production is a few hundred tons short of last year's.

The Hawaiian Commercial & Sugar Co., finished grinding last week with about 57,000 tons to its credit. This is about the same as the 1918 crop but 7 tons better than last year's. It is considerably higher than the estimates.

The Maui Agricultural Company finished its year's work on Monday with something over the estimated 26,000 tons. Earlier estimates had been 29,500 tons, but unfavorable weather caused a marked revision downward.

For squirting water from a hose upon his neighbor Ige, in the Paia mill camp last Friday, Sume, another M. A. Company employee, was fined \$10 and costs in the Makawao magistrate's court this week. Some claimed that he was watering his garden and that the wind blew the water across the boundary and upon Ige. However it happened it started a fight between the two, followed by a warrant for Sume's arrest for assault and battery, on which charge he was found guilty.

Weather bureau reports made public indicate that the drought on Maui in the Lahaina and Wailuku districts show that May was the driest month in 16 years.

The public schools closed on Wednesday for the summer vacation.

San Francisco To Have Another Dock Strike?

A cablegram was received by Manager J. J. Walsh, of the Kahului Store yesterday, suggesting that in view of a probable strike of dock workers in San Francisco, larger orders should be placed at once. Mr. Walsh accordingly doubled his orders already on file.

So far as known this is the first intimation of a pending strike on the San Francisco water front that has been received here, and nothing is known as to the causes or what forces are involved.

No Nomination Yet

Up to 3 o'clock this afternoon (5:30 Coast time) the Democratic national convention in San Francisco was still struggling with framing a platform, and no ballots had been taken on presidential candidates. Bryan it is reported has injected a dry plank which is causing an upheaval. Wilson is said to be still in the saddle.

Wailuku Sugar To Get Fine Holstein Cows

Six high-pedigreed cows, of Holstein stock, are due to arrive in the near future from California for the Wailuku Sugar Co., according to information received this week by Manager H. B. Penhallow from Prof. Gordon True, of the University of California who made the selection of the animals. The cows were purchased at a recent sale of dairy stock in California and Prof. True states that he believes they will prove entirely satisfactory. Four others were ordered at the same time and these will be purchased shortly.

The cows are to form a part of the foundation stock of the company's dairy at Waihee. With such animals as the recent purchase, and with the splendid champion bull now owned by the company to head the herd, the results in a few years are bound to be most gratifying.

The recent development of the Waihee flats for forage crops and grasses has proved so successful that Mr. Penhallow states the ranch is now producing more than sufficient for its needs and some of the alfalfa and sudan grass are being made into hay and sold.

CIRCUIT COURT NOTES

In the matter of the estate of the late F. W. Hardy, the widow, Mrs. Lillian Hardy, petitioned the court on Wednesday to issue temporary letters of administration to W. O. Aiken to handle the affairs of the estate for the purpose of collecting certain outstanding notes and other claims which should be attended to before the probating of the will. Judge Burr granted the petition, fixing the bond of the temporary administrator at \$20,000.

A divorce was granted on Tuesday to Shigoro Sakatani from Kiyono Sakatani on grounds of desertion.

The court authorized J. S. Souza, administrator of the estate of Joseph Neves, deceased, to sell 55 head of cattle and 3 mules belonging to the estate, fixing a bid price of \$35 per head for the cattle. The administrator represented to the court that the property is not able to support the animals, and that the estate is deteriorating on account of them.

All law cases on the calendar were continued by Judge Burr on the calendar until September 23 until which time the Judge will be away on vacation.

A small blaze in the kitchen of Luiz Gregulho's residence on Vineyard street, last Tuesday evening called out the fire department, but the blaze was about out when the apparatus arrived. The fire was caused by an oil stove.

Mrs. A. V. Crockett was acting principal of the Wailuku public school during the several closing days following Miss Crickard's departure. In order to get a booking for the coast it was necessary for Miss Crickard to go by the Matsonia which left Honolulu the first of the week.

Maui High Class Of '20 Is Graduated

Big Crowd Of Friends See Four Young People Rewarded For Work Well Done—Pretty Setting—Brilliant Dance.

The Paia Community House was crowded to its capacity on Wednesday evening on the occasion of the fifth annual commencement of the Maui high school. The graduating class numbered four members and consisted of—Miss Mary Ernestine Lindsay, Miss Ruth Charlotte Lindsay, Mr. Cyrus Nils Tavares and Mr. John Dole Walker.

The assembly room was beautifully decorated in the class colors—red and white—and the stage was a veritable bower of flowers and foliage. The members of the class were overwhelmed with the mass of floral tokens brought by their many friends.

The program was as follows:
High school chorus "Morning Invocation" Veazie
Invocation Rev. J. C. Villiers
Hawaiian Art (Essay)
..... Miss Ruth Lindsay
The King of Fruits (Paper)
..... Mr. Cyrus Nils Tavares
Freshman Girls' Glee Club "Love and Summer" West
Address Rev. Henry P. Judd
High School Chorus, "Forget Me Not" Giese
Presentation of Diplomas
National Anthem Unison.
Dance Is Brilliant

On Tuesday preceding the commencement, interesting class day exercises were held at the high school, at which the diplomas of the grammar school graduates were presented, and the various class stunts were indulged in.

Last evening the annual ball, in honor of the graduates, took place at the Paia Community house and was a very delightful affair and largely attended. The ball was given this year by the High School Alumnae association and the Junior Class.

SUIT IS BROUGHT TO ESTABLISH IDENTITY OF PLANTERS ASS'N.

HONOLULU, June 25—Attorney Lorrin Andrews, acting in behalf of a Filipino named Avinga today filed suit in the Circuit court to establish the identity of the Hawaiian Planters' Association and to recover \$500 alleged damages claimed by the Filipino. The plaintiff asserts that the planters refused to transport him back to the Philippines at the end of his three-year contract term. The planters on the other hand declare that the Filipino being on strike is not entitled to such transportation under his contract.

Andrews says there is no record in the territory to show that the planters exist as an association. He is therefore serving the papers on the heads of every plantation on Oahu.

County Finally Gets Smith Estate Land

Through a writ of possession issued to the county of Maui by Judge Burr on Wednesday, the county at last comes into control of the William Smith estate property which has been sought through condemnation for more than a year for the purpose of extending the Malulani hospital buildings and grounds.

The court on the previous day had entered an order fixing the value of the land in question at 12 cents per foot, or \$6589.20. One building on the lot was given a value of \$1200 and the other \$800. There had been no contest of the condemnation, and Chairman Kalama, of the board of supervisors, paid the price fixed shortly after the amount was known.

As the curtain raiser of the Sunday ball game the Beauts and the Waacs, Jr., two of the leading teams of the junior league, will play a game beginning at 1 o'clock. The big game will start at 3 p. m.

The Pioneer Mill Company finished grinding its 1920 crop yesterday. When drying off is finished its production for the season will amount to about 29,000 tons.
