

### MAUI TWENTY YEARS AGO

(From Maui News, August 25, 1900.)

Mr. and Mrs. C. B. Wells of Wailuku, were the guests of Manager Meyer of Hamoa last week.

Mr. and Mrs. Walter Lowrie of Spreckelsville returned to Maui on Wednesday to superintend the completion of the reservoir and pipe laying at the mauka end of the pipe line.

Mr. Raven the civil engineer at Hamoa has gone to Lahaina to look after the railroad contract of Hugh Howell who has been quite ill with malaria but who is now able to be about again. W. L. Hardy has also had a severe attack of a gripe but is now convalescing.

To Mr. E. H. Bailey of Wailuku must be accorded the credit of having introduced a new enterprise on Maui which will in time develop into a very profitable one, that of manufacturing guava jelly on a large scale for the home and foreign market.

In addition to this, he has plowed up about fifty acres of land at his Makawao ranch with a view to settling it out in poha. The poha makes the best jelly and jam of any island fruit and bears prolifically. Formerly there were hundreds of acres of poha bushes in the pasture lands of Makawao and Kula but the ravages of cattle have nearly destroyed them. He will put the poha seed in a nursery at first and transplant them. The poha is an annual and will bear fruit in six months. This will doubtless prove the inception of a very important industry on Maui and if he proves successful it is quite sure that thousands of acres in Makawao and Kula will eventually be planted to poha.

We were this week shown some peaches and lemons grown by Mr. E. H. Bailey at his Makawao ranch which were notably choice fruit. The peaches were grown on trees imported from Florida and are quite equal to the Florida peach in size and aroma and but little behind them in flavor. The lemons are quite as large as and of equal quality with the celebrated California lemon. This is an object lesson in the possibilities of fruit culture on Maui.

The Maui Telephone Company have about completed the new system with a central in Wailuku under the management of Mr. Charles Brown. Individual service has been given and Maui is really to be congratulated on its telephone service. Supt. Carley made the change from the old to the new system without making a break in the regular telephone service which was really quite a feat. The new appliances are of the most approved pattern and the result is that the Maui service is second to none in efficiency.

Wailuku is to be amused. Mr. John Garcia has organized an amateur theatrical and musical society which will make its collective bow before the public on September 1. The young folks are busy rehearsing and the entertainment promises to be of more than unusual merit. This will be the first of a series of bi-monthly entertainments. A special train will be run from Paia, Spreckelsville, and Kahului if desirable.

Mr. Taylor, auditor for Alexander & Baldwin arrived on the Claudine to spend several weeks on Maui. He states that he may make his home permanently in Wailuku.

Mr. F. J. Wheeler, bookkeeper for the Wailuku plantation who has been visiting on the Coast with his family for a couple of months has returned to Honolulu and will be on Maui next week.

Mr. Jas. T. Taylor, superintendent

of construction of the Wailuku and Kahului waterworks returned to Maui on Wednesday to superintend the completion of the reservoir and pipe laying at the mauka end of the pipe line.

Manager Lindsay of Paia Plantation is enlarging the plantation store to accommodate increasing business. The office has been moved from the side of the store and its place will be occupied by an extension which will give the store nearly double its present width. A new office is being built adjoining the store.

**Quite the Contrary.**  
Jennie—So you finally proposed to her. I suppose she said, "This is so sudden."  
Jack—No; she said it wasn't sudden enough. She had accepted Tom the night before.—Boston Transcript.

### LOSES ARM IN CORN SHREDDER

John Fernandez, a 14 year old boy employed on the Haleakala Ranch as a farm hand, had his arm caught in the rollers of a corn shredder, at which he was working, about two weeks ago, and the member so badly crushed and lacerated that amputation was necessary to save his life. The boy is in the Paia hospital and is recovering.

**Paying For Broken Poles**—Three out of the eight persons whom the city attorney's office asked to pay for light poles broken down on Kalakaua avenue, Honolulu, by motorists, have paid the bills rendered. The remaining five are to settle up or they will be prosecuted.

**Looking Up**—"So you want to marry my daughter. What are your prospects?"  
"Well, sir, I have a wealthy bachelor uncle, sixty-five years old, who has just taken up aviation."—Life.
