

Women of Sweden Are Slow To Use Ballot

STOCKHOLM, Jan. 13—(Associated Press Mail)—Less than half of the women of Sweden entitled to vote exercised their newly-won franchise rights at the polls in the elections of 1921, the first year of full suffrage for women, according to a report of the Swedish Central Bureau of Statistics just made public. However, the officials report of the 1921 elections give the suffragist leaders at least two causes for rejoicing. The men did not show a much better record than the women, and the number of women voters exceeded the male voters in the capital of Stockholm by more than 5,000 voters.

The official report shows that 47.1 percent of the Swedish women voters cast their ballot while 61.9 percent of the men voted. The total women's vote in the city of Stockholm was 75,565, while vote cast by men was 71,198.

The general impression throughout the country seems to be that the Swedish women have not fully realized the importance and significance of their new privilege. It is believed that in the future they will make a better showing at the polls.

The heavy women's vote in Stockholm, which is to a large extent an industrial city, may indicate that the working women, especially women trade union members, grasped the opportunity to register their votes. However, other women cannot be said to have neglected the ballots as a whole.

Council of Action Would Stop All War

SYDNEY, N. S. W., Jan. 3—(Associated Press Mail)—The Council of Action, consisting of 13 delegates appointed by the Melbourne "All-Australian Trades Union Congress," has just decided how all wars may be prevented.

The solution lies in the convening of a Pan-Pacific Congress of delegates from labor organizations throughout the world, with a view of arriving at an understanding to prevent war. The following motion was adopted:

"We do not believe that the Washington conference is likely to evolve any scheme of value for the prevention of any future wars. Further, we believe that the best way to prevent wars will be for the Australian workers to arrive at an understanding with labor organizations in other countries and we are of the opinion that an endeavor should be made to bring about a Pan-Pacific conference as early as practicable."

It was decided further that another meeting of the Australian Trades Union Congress should be held next June and that in the meantime, the Council of Action should endeavor to progress with the industrial organization and the establishment of a labor research and information bureau.

Return to Wages of Pre-war Days Needed

SYDNEY, N. S. W., Jan. 2—(Associated Press Mail)—The Colonial Sugar company, whose activities have been the mainstay of Fiji for some 40 years, has announced that the fall in sugar values on the world's markets has rendered it impossible for the concern to continue paying higher than pre-war rates for cane.

Sugar grown in Fiji has to compete with the staple grown in other tropical countries where cheaper labor is utilized, the wage in Fiji being more than double the scale elsewhere the company stated. The Fiji Vancover Sugar Co., has decided to close its mill and estates in Fiji while another large sugar company, with headquarters in Melbourne and estates in Fiji probably will duplicate this action soon.

LONDON, Feb. 8—(Associated Press)—Austen Chamberlain government leader in the house of commons, gave notice today that he would introduce a bill on Thursday which will give effect to the Irish agreement.

Breakdown at School System in Russia Sad

MOSCOW, Jan. 4—(Associated Press Mail)—The virtual breakdown of Russia's school system is one of the tragedies of the general economic situation. Outside of this city, in the dozens of smaller places where the correspondent travelled, the poverty of both teachers and pupils is appalling.

Those in the United States who got their education by tramping for miles through the snows to the little red schoolhouse were far better off than the eager students of this land.

"How can I teach?" asked a woman teacher in Samara. "I have barely enough clothes to cover my body, I sleep in a cold room and I have next to nothing to eat. For months my salary has not been paid. I keep life together by trading in the public market, selling goods on commission. Nor can I expect the children to learn. They come to school hungry, poorly clad and, as the rooms are cold, we go through the motions of learning, that is all. They haven't any books, there is no chalk for the blackboard. The discipline goes to pieces."

In Moscow, teachers salaries hadn't been paid for many months, until recently, when they were given from 300,000 to 500,000 rubles each, as a month's salary, equivalent to the price of 10 pounds of butter, half enough to buy a pair of shoes, or one-tenth the cost of a suit of clothes. The men and women teachers are ragged, wearing clothing that is literally falling apart. Some of them have secured the privilege of living in the school buildings where some heat is furnished. The clothing of the pupils is on a par with that of the teachers. In Moscow schools, notwithstanding,

ing, there is a good discipline and the pupils show an abiding will to learn. They are astonishingly light-hearted. Except some rather strange religious opinions, they are happy and merry for all their poverty and just like American school children. They are not at all Communist.

They make fun of their comrades or teacher who wear long hair and call themselves Bolsheviks. They attend lectures by Lunacharski Commissar of schools or Madame Lenine, or others, that run through a whole afternoon and they do this on empty stomachs and yet do not complain.
