

To the Public.

The undersigned has this day purchased the entire interest of Mr. John P. Clum in the DAILY and WEEKLY ARIZONA CITIZEN, including the good will and all rights and fixtures belonging to it, and Mr. Clum now severs his connection with the paper.

It is my intention to improve the paper in all respects as rapidly as possible. I have taken steps to procure the services of a popular and capable editor, and one, too, adapted to a mining region like Arizona. No pains will be spared to make THE CITIZEN a welcome paper to all interested in the prosperity of the Territory, and especially of Pima county.

I have bought the concern because I am sure it is worth the price paid, and will continue to be a paying institution. Mr. Clum sells because he prefers to engage in other pursuits. He is a true and good man. He has rendered valuable service to Arizona, and I am pleased to say that he is to remain and "grow up with the country."

I respectfully solicit the patronage of the public. THE CITIZEN is noted for doing the best job work of any office in Arizona and at the lowest prices. I expect to merit the patronage of the people.

Yours truly, R. C. BROWN.

Having sold my right, title and interest in THE CITIZEN, to Mr. R. C. Brown, my connection with the paper as proprietor will be severed from this date. For nearly two and a half years my labors and energies have been devoted to the public welfare in this connection, and I have been rewarded by kindly encouragement and a liberal patronage. In the discharge of these, and in fact all my public duties in Arizona, my desire has been to secure the greatest good to the greatest number, and I may be pardoned for believing that I have attained, at least a degree of success. My purpose is still to remain with and work for the great interests of our prosperous Territory in whatever sphere I may find myself best fitted. Mr. Brown will fulfill all subscriptions paid in advance and all subscriptions now due, are due and payable to him. Thanking those who have been the liberal patrons of THE CITIZEN, I trust they will continue the same generous support to the new proprietor, whose integrity and industrious habits are well known, having already been connected with the office over eight years, and who will spare neither care nor energy in building up a truly great journal.

Very respectfully, JOHN P. CLUM.

An Unparalleled Extent of Rich Mineral Lands.

Without doubt Pima County contains the largest area of valuable mining land of any equal extent of the earth. Just let your mind's eye take a glance at Oro Blanco on the west, and thence eastward glance at Patagonia, Huachuca, San Jose, Tombstone, Dragoon, Swissland, Chiricahua and Dos Cabezas Mountains before reaching our Eastern border; and each of these mountain districts are full of hopeful miners, many of whom have their fortunes in their hands or assured in the near future. In addition to these, all of which have developed mines of great worth as well as hundreds of prospectively valuable claims, there are half a dozen other districts in Pima County of rich promise. West and southwest of Tucson and also north and northwest are districts being quietly developed with encouraging results; and these latter are convenient to the railway line as well as to the great mercantile and financial metropolis of Arizona, Tucson. The Tombstone and Corbin companies are now shipping nearly \$4000 per day. Will any one sit down and make a conservative estimate of the vast sum all this immense mineral region of Pima County will be shipping in ten—aye, five years from today?

TELEGRAPHIC.

Southern Pacific Railroad Near Picocho Pass.

Another Railroad Gobbled Up by Jay Gould.

The Celestial Cremation Due to Opium.

Tide of Travel—Stock Quotations.

(Special to THE CITIZEN.)

The Southern Pacific.

CASA GRANDE, February 6.—The work of construction goes steadily on. Steel is being pushed steadily forward and the track is now completed within five miles of Picocho pass.

Justice at Last.

WASHINGTON, February 6.—The Indian Commissioners endorse the removal of Hayt, and say no other person was implicated with him. Independent and leading Republican eastern papers are disposed to throw cold water on the action.

For Grant.

PHILADELPHIA, February 6.—The Pennsylvania Republican Convention instructed their delegates for Grant.

Gould's Railroads.

SAN FRANCISCO, February 6.—It is reported here today that Jay Gould has bought the Wichita and Texas railroad, and will extend it to meet his Colorado and Pacific road.

Negroes Burned.

CHARLESTON, S. C., February 6.—Nine colored people were burned to death near Columbia last night.

Suspended.

WASHINGTON, D. C., February 6.—John Wasson, U. S. Surveyor General, Tucson, Arizona: Suspend action under circular of January 19, 1880, relating to deposit system, until further orders.

Assessments.

SAN FRANCISCO, CAL., February 6.—Assessments have been levied on Potosi and Chollar, fifty cents each.

Opium's Work.

SAN FRANCISCO, February 6.—Another body was found this evening, making eleven Chinamen who were burned to death. It is supposed they were stupefied with opium and the fire caught from a pipe.

Travelers.

COLTON, February 6.—The following passengers passed here to-night bound east: P. Hull, Sacramento; W. Puckins, N. Gilbert, M. B. Clapp and wife and two children, Oakland; Geo. Parsons, E. Fender, C. Webber, J. Fox, J. H. Foreman, H. Healy, J. Lenn, P. Aswell, G. Anderson, T. J. Hubbard, A. Brook, S. Lewis, San Francisco.

The Donnelly Murder.

LUCAS, ONT., February 5.—It is now ascertained that the murder of the Donnelly family was perpetrated by a vigilance committee, they being suspected of a series of incendiary fires recently occurring in the neighborhood.

Pennsylvania Republicans.

HARRISBURG, PA., February 5.—The Republican State Convention, by a vote of 133 to 113, instructed the delegation to the Chicago Convention to support Grant for the Presidency, and by a viva voce vote instructed them to vote as a unit on all questions coming before the convention.

Congress.

WASHINGTON, February 5.—The House Select Committee on the State of the Electoral Law has accepted the report of the sub-committee in favor of Representative Bicknell's joint resolution, proposing a Constitutional amendment to provide for the election of President and Vice President by the people. The committee have stricken out that portion of the resolution providing "that a contest in any State shall be passed upon by its highest judicial tribunal," and with this change have instructed Bicknell to report the rest favorably.

Good for Wealthy Criminals in Territories.

WASHINGTON, February 5.—The bill passed the Senate providing that a writ of error from the Supreme Court of a Territory to the Supreme Court of the United States shall lie in criminal cases, when the accused shall have been sentenced to capital punishment, and in such case the allowance of such writ shall operate as a supersedeas, and all such cases removed from the Supreme Court of any Territory to the United States as provided by the Act shall have precedence of hearing in said Court. The act applies to all cases heretofore tried and determined, in which judgment has not been executed. In such cases the defendant shall have six months from the passage of this Act in which to obtain and perfect such writ of error.

Death's Doings.

PHILADELPHIA, February 5.—Hon. A. E. Borie, Ex-Secretary of the Navy, died here this morning.

Parliament Open.

LONDON, February 5.—The Queen opened Parliament this morning with great ceremony.

Chinamen Roasted.

SAN FRANCISCO, February 5.—A China wash-house on Pine street, near Taylor, was burned this morning. It is not definitely known how many occupants were in the building, but at one o'clock today eleven bodies had

The Indian Campaign in New Mexico.

From the New Mexican we condense the record of operations against Victorio and the Mesquiteros: Since January 17 Major Morrow's column has been hot on Victorio's trail; on the 23d and 24d only two hours behind him, and not allowing him to go into camp on either night, but constantly on the march. On the evening of the 23d Major Morrow caught up with Victorio, who, however, did not show fight, but left at once and in a hurry. Major Morrow captured over 100 head of horses and mules and an immense amount of stolen plunder, such as tents, most of which was immediately destroyed. This occurred in the Sierra San Mateo, and about twenty miles south of Monica Springs. On the 24th several Mexicans from Monica and Loeza Springs came into Major Morrow's camp, bringing offers of surrender from Victorio. Major Morrow, however, would not have anything to do with them, as he would only make a compromise with a complete and unconditional surrender as a condition of war.

Political.

HARRISBURG, PA., February 4.—The Republican State Convention chose Russell Errett temporary chairman, a victory for Grant's interests.

RAILROAD CAPS.

Their Manufacture in St. Louis—Westward the Star of Empire Takes its Place.

We had occasion to visit the works and shops of the Missouri Car and Foundry Company, and were indeed astonished at the remarkable activity prevailing in every department. As is well known, most all transportation lines were caught unawares by the sudden business boom and general revival of trade, and were short of rolling stock to haul the immense amount of freight offering from all sides. The result was a great and sudden demand for new cars, and to supply this want the Missouri Car and Foundry Company are kept running day and night, turning out new cars with the rapidity illustrative of American enterprise and energy.

Among the orders on the books of the company we noticed one from the well-known brewers, Anheuser & Busch, for 100 new refrigerator cars of an improved pattern, devised by this brewing firm and he result of their long and varied experience with refrigerator cars.

It is claimed by Anheuser & Busch that their new cars will carry their celebrated beer to Eastern and Western cities without change of temperature, and the beer will be unloaded at New York and Boston just as cool and fresh as when drawn from their vaults and served to their patrons in those distant cities.

It is also stated that the new cars are being furnished to the breweries of the West, and that the beer is being shipped to the coast in the new cars, and that the beer is being shipped to the coast in the new cars, and that the beer is being shipped to the coast in the new cars.

Profitable Investment.

The mining industry is absorbing a great deal of interest just now in the east. In New York, Boston and Chicago there are journals devoted to the mining interest, and the regular newspapers devote a portion of their space to mining matters. Eastern investments in mines have given such a satisfactory return—have afforded so much greater profit than the ordinary class of investments there—that they are very popular. Eastern people do not look for big dividends; they are satisfied with a fair rate of interest, and for this reason small mines are in demand in preference to the large ones. There are numberless small mines on this coast capable, by judicious and economical management, of easily paying right along for years a high rate of interest, treble what a similar amount of capital involved in any other kind of investment. Such investments are as safe as the best railroad stocks. There are times in the history of a railroad when it does not pay; so there are in mines. But we can cite numerous instances where the dividends paid in dividends are a greater amount than the par value of their capital stock, and are still either good mines or have excellent prospects. Unless a mine is gutted purposefully or by mismanagement, it worked without keeping ore reserves, and prospecting ahead of the ore extraction, almost any mine on the coast that has been demonstrated to be a mine by the actual production of ore may be said to be a permanent one. Permanence is not exactly the word to apply to any human enterprise, but it is applicable to mining in any other material interest in this country.—S. F. Stock Report.

Tombstone Notes.

The Nugget reports a better showing in the claims in the neighborhood of the Merrimac, and speaks particularly of the Sulphurets, which at a depth of 200 feet is producing rich results. New discoveries are being made to the east and south of Military Hill.

Tombstone has an Amateur Dramatic Club.

The Public School was opened last Monday with Miss Lucas as teacher and an attendance of about twenty-five scholars. Charles Achley has been appointed a Deputy Mineral Surveyor, resident in the District.

The School Fund.

The Miner says the Territorial Board of Education held a special meeting on the 28th ult., at which there were present M. H. Sherman, Superintendent of Public Instruction, Gov. John C. Fremont and J. F. Meador, Deputy Treasurer of Arizona. The meeting was called for the purpose of appropriating the school moneys now in the treasury. The appropriation was made as follows:

Table with columns: COUNTY, CHILDREN, AMOUNT. Rows include Apache, Maricopa, Mohave, Pima, Yuma, and Total amount.

Col. C. P. Sykes, manager of the Calabasas Land and Mining Company and the San Xavier mines in Arizona, made us a pleasant call on his home trip to San Francisco.

The Colonel speaks enthusiastically of the mining outlook in the Territory, and is making extensive developments in the valuable property that he represents. He is an energetic and progressive gentleman—formerly in the newspaper business—and is bound to succeed.—[L. A. Commercial.]

A VERY strong feeling exists in favor of the appointment of Major Geo. M. Lockwood, Chief Clerk of the Indian Bureau, as Commissioner of Indian Affairs.

Lockwood is one of the ablest officers in the Department, fully familiar with all the details of the Indian office, and specially fitted to transact his duties. He possesses closest confidence of the President and Secretary Schurz.

The news of the revolution in Lower California is confirmed by late arrivals at San Diego.

Globe Notes.

[From the Belt of January 31.]

The Telegraph line from Camp Thomas to San Carlos cost \$2740.75. It is estimated that a line from San Carlos to Globe will cost \$3,228.74 and application has, or will be made to Gen. Albert J. Meyer, Chief Signal officer, by a gentleman who is now in New York, for the Government to furnish the wire, insulators, battery and cut-offs for a line to Globe from San Carlos, to be operated under Government control, the citizens to furnish the poles and labor necessary to put it up.

The mill now in course of erection, under the supervision of Major M. A. Baldwin, at the Wheatfields, has been named the Arizona Mexican Mill. The work is progressing satisfactorily.

The Belt gives the aggregate of the gold and silver bullion shipped from Pinal county during the month of January at the good round sum of \$76,092.72.

There is a proposition on foot to build a Methodist chapel in Globe and Mr. Charles A. Fisk, son of General C. B. Fisk, comes forward with a proposition to furnish \$500 when the citizens of Globe and vicinity duplicate said amount by a subscription. The Belt devotes nearly a column to this subject and refers to it as an evidence of their progress.

Prescott Dots.

[From the Miner of January 29.]

Snow in the mountains is from 3 to 5 feet deep.

Secretary Gosper returned from a trip to the Eastern States per stage this morning.

A farmer who offered to sell out two months ago for \$800, informed us today that he had raised the price to \$800.

Hon. T. J. Butler, Territorial Treasurer, will return home next week from a three months' cruise in California. W. M. Bufum, a pioneer merchant of Prescott, returned from a visit to Massachusetts, his old home this morning.

The quartz mill at Centennial, we are advised by letter, is running satisfactorily to the owners, and is making money at a rapid rate.

The Markham sensation in Prescott is greater than that caused by the mysterious disappearance of Charles Ross or the stealing of the remains of A. T. Stewart. The reward however, is not so great.

No new developments, today in regard to the whereabouts of Miss Pauline Markham, although the stage driver who came in from Mohave county yesterday reported having met her on the outgoing hubboard yesterday, the other side of Williamson valley.

Tombstone to be Re-organized.

The Nugget publishes a call for a miners' meeting to be held at Tombstone February 21, at 2 o'clock for the purpose of defining boundaries, adopting rules and regulations, electing a Recorder and transacting such other business as may be proper. The call is signed by 123 persons, whose names are to be given next week. It has often been predicted that much litigation would arise over Tombstone property, but here is a little plan which promises to do more toward it than anything yet devised. Let the lawyers rejoice; it will be their bonanza.

A HARBLEN boy was heard telling why he didn't go to Sabbath-school. "I went most a year," he said, "expecting to get a reward, or be in at a Christmas-tree-picking, anyhow, there was nary a reward or nary a Christmas-tree. It was too thin, I took her."
