

Report of the Territorial Grand Jury.

To the Honorable the Judge of the Third Judicial District, in and for the County of Yavapai, Territory of Arizona, June Term, beg leave to report:

That they have found seven true bills of indictment and ignored three charges. In the matter of the alleged infant warrant, we find the evidence insufficient to warrant a criminal charge, but believe it their duty to recommend the mother of the child, murderer, and to charge her of being guilty of criminal carelessness in allowing her children to have and use deadly weapons while at their play.

And we recommend the appointing of a guardian for the said child, by the proper authorities, to the end that he may be more strictly guarded, and that his lawless disposition may be checked.

We think the city authorities should take measures to prevent the use and discharging of fire-arms, by boys, within the city limits. We find the books of the Treasurer of the county in perfect order.

The books and accounts of the Justices of the Peace, this precinct, we find correct and in good order. We find the books of the Sheriff's office kept correct, and the prison cells tidy and clean; that the prisoners confined therein have good and wholesome food.

We find that the escape of prisoners from the jail is chargeable more to the general insecurity of the jail than to gross negligence of the keepers thereof. One prisoner escaped while doing errands; one escaped while at work on the fence that surrounds the jail, and we think the officer who had them in charge censurable for employing the said prisoners in either capacity as laborer or errand boy.

After examining carefully the bids given upon the contract for marking a survey and specifications of the proposed road from Prescott to Bradshaw City, and examining all the evidence appertaining thereto, we are unable to discover any reason why the contract should not have been awarded to the lowest bidder, and we think it our duty to recommend that the same be so awarded.

We find something irregular in the manner of auditing certain accounts against the county, as in the case of the account of G. D. Kendall, of April 5, 1876, wherein the said account is audited and allowed, Kendall and one other member of the Board of Supervisors being present at the time.

We think of the greatest importance that some means should be devised by which the expenses of caring for the indigent sick of the county shall not be so severe a tax upon the resources of the county. Said expenses for the month of April, 1877, was \$650. There is a looseness of form in the material points of account between the Board of Supervisors and W. E. Day, that leaves the said Board unprepared to combat acts of injustice on the part of the said W. E. Day, were he disposed to act unfairly, and to this fact, as much as any other, may be attributed the exorbitant large charges that have been and are now making severe inroads upon the treasury of the county.

We think it unjust to the taxpayers of Yavapai county to be compelled to pay so large an amount for the caring of their sick, when evidence shows plainly that nearly all the money so paid is net profit to the contractor who has charge of the county sick.

We think the Library Association for the use of its well furnished rooms, being well aware of the inconvenience of its members during our duty hours.

We think that Paul Weber, District Attorney, is entitled to a great deal of credit for having the business of the county, that requires the attention of the Grand Jury, arranged in so perfect an order that no delay became necessary in any of the numerous cases brought before them by him.

Mining Items.

From outsiders who have come to Prescott on business connected with Court, we have gleaned a few items of interest not previously noticed.

The heated term set in strong on the 6th inst., and everywhere south from Prescott we hear of hot weather.

The Sheriff brought in seven men as jurors from the Peck District, and others are present from the Basia, Bradshaw, and Black Canyon.

Forty men are at work in the Peck mine, and at Luke's mill and mines forty-two more are busy.

Prospecting is all the rage from Turkey Creek to Phoenix, and occasionally a rich strike makes a little stir in camp.

Several good prospects have been recently found on Turkey Creek, in gold, silver, and copper, by Messrs. Archer, Dougherty, Dennitt, Godfrey and others, east of the Peck District; but the latest real sensation was produced in Alexandria, a week ago, by the exhibition of a lot of ore from a new discovery, named the "Eastern Slope."

A repetition of the news from the Silver Prince, Black Warrior, and Peck mines may seem unimportant, but it is certainly encouraging to be able to say that these veins are still yielding plenty of rich ore.

A repetition of the news from the Silver Prince, Black Warrior, and Peck mines may seem unimportant, but it is certainly encouraging to be able to say that these veins are still yielding plenty of rich ore.

Wool Market.

Boston, May 6.—Wool has been quiet and steady during the past week. The demand has been principally for California fall and spring and super and X pulled. Fleece wool has been comparatively quiet.

The heated term set in strong on the 6th inst., and everywhere south from Prescott we hear of hot weather.

NEW ADVERTISEMENTS.

Spanish Club. Every evening at the office of Jack of all Trades, the white table cloth and the black and white table cloth.

Hot Weather Has Come! Waterbury's hair ointment. Waterbury's hair ointment. Waterbury's hair ointment.

Lawyers, Attention! Jack of all Trades, who is a lawyer at the office, offers a special price for Spanish and French, a number of copies of the book, "The Law of the State," for sale at a discount.

Strayed or Stolen. From my yard in the town of Prescott, on the night of Saturday, the 9th, a small bay pointer, F. L., on the right hip, and a small black pointer, on the left hip, and a small black pointer, on the right hip.

Notice. To W. W. Spaulding and all others in the Continental Mine, situate in the Territory of Arizona, District of Yavapai County, Arizona, I hereby give notice that if you do not appear, within thirty days from the date hereof, and pay in full the amount of your indebtedness to me, I will cause a writ of attachment to be issued against you.

Summons. In the District Court, Third Judicial District, Territory of Arizona, County of Yavapai. MARY ISABELLA SHOWERS, Plaintiff, vs. ANDREW JACKSON SHOWERS, Defendant.

Summons. Action brought in the District Court of the Third Judicial District, and for the County of Yavapai, in the Territory of Arizona. The Territory of Arizona, being generally discredited. I am now at the same hotel, and I do not see how it could have been possible.

Summons. The Turkish Government is desirous of being virtually bankrupt, its debt being \$92,000,000, on which the annual interest is \$5,000,000. Still this state of affairs does not interfere with her ability to carry on the war, but forces her creditors to extend still more her obligations in order to have a chance to save the old debt.

ARIZONA MACHINERY AND SUPPLY AGENTS. HENRY B. MURRAY. Sole Agent for the Sale of STEAM ENGINES, FROM TWO HORSE POWER AND UPWARDS, SAW-MILLS, WORKING MACHINERY, HOISTING RIGS, MECHANICAL TOOLS, STAMP PUMPS, COMPRESSORS AND DRILLS, Turbine Wheels, Etc., Etc. Babcock Fire Extinguishers, Patent Automatic Fire Feeders, Blake & Wheeler's Rock Drills, Struck-off and Rock Drills, Waterbury's Patent Fire Engines, Patent Engine Governors, Leather & Rubber Belting, Dreyfus Oil in Bulk, etc.

COMPLAINTS.—We have received two complaints, for publication, from persons claiming to have been arrested and imprisoned by Indian Agent Clinton in the San Carlos reservation, for no reasons except that Mr. Clum had an antipathy against them. As every person has a right to resort to the courts of justice for any wrong or persecutions inflicted on them, we prefer that the innocent, injured parties should apply to the courts for relief. We do not think Mr. C. would perpetrate such an outrage against him unless he had some reason for so doing.

INDIAN NEWS. A dispatch from the Commanding Officer at Camp Bowie, dated June 9, received today, states: "Lieut. Toney returned from a most energetic pursuit of renegades. He overtook them in the Las Animas mountains. They escaped in spite of his extraordinary efforts."

The Las Animas mountains are about 100 miles southeast of Bowie, in New Mexico, and Lieut. Toney must have made heavy marches to go so far and return, with the means he possessed. The number of Indians was very small, and of course more difficult to capture when overtaken. These Indians operate in such small parties that the only practicable method to capture them seems to be the one practiced under Gen. Crook, and that is, to order the Indians on the San Carlos reservation to capture them when they come in there, as they are certain to do in time.

It seems very pretty certain that all the renegades at large are not more than 25 or 30, and if the heads of three or four of them could be had, it would stop the depredations that have been going on ever since the Chiricahua Reservation was broken up.

TROUBLED. The Riverside Weekly News, undoubtedly a little jealous of the importance into which Yuma City in this Territory is springing, comes out in a long article telling its readers what the future downfall of Yumaets—forgetting however that should the railroad only make that place a kind of way station, that the rich mines that line the border of the great Colorado for a distance of 300 miles, which must necessarily get their supplies through Yuma, and send their glittering metal in return, is enough to keep Yuma a thriving town. Then again they forget that the whole country north, comprising an area of several hundred square miles including the counties of Mojave and Yavapai, unparalleled in mineral, pastoral and agricultural resources, propose to get their supplies through Yuma, all of which will go towards making Yuma a lively, healthy city. We cannot see any reason why Yuma is not destined to become a large and important town. The Gila and Colorado river bottoms contain arable land sufficient, adjacent to Yuma, of themselves to support a town, equal, if not more important than Riverside. Just because Yuma happens to be on the Arizona side of the Colorado, Mr. News, don't try to cry her down, she will live thereon, and become and remain a town of note when some of the one horse places are dead and a forgotten.

Gov. A. P. K. Safford and R. N. Leatherwood, Esq., returned yesterday. They have been with the Arizona scouts since the 18th of May, and made an extensive and hard scout through the Chiricahua mountains, into Sonora and for a long distance through mountains by way of Altar westward to the Cananea and back to the mountains. The scouts are now in the mountains. The Indian scouts acted with zeal and perfect obedience and in all things showed a desire to find and punish hostile Indians. Governor Safford has labored hard in this matter and made a sacrifice of time and money, and all honest people honor and respect him for it; and the same honor to Mr. Leatherwood.—Tucson Citizen June 9.

We are pleased to know that Ex-Governor Safford has returned to Tucson unharmed. That Safford is a hard worker no man would deny, but it seems to us that the Governor has been working against fate. He has been trying to prove to the world that he was right in his Indian theories and that General Kautz was all wrong. We would really like to hope that the scouts who formed that grand line in Tucson three months since and fired off a salute in honor of his majesty would have succeeded, at least, in capturing one old squaw, but alas, they found nothing in all their ramblings, save the fresh and numerous trails made by the United States Regulars belonging to the Arizona Territory, who are continually in the field and on the alert for renegade Indians. The Citizen omits to state whether any valuable mines or stock ranches were found and located. We think the better course for the Arizona Militia is to disband, acknowledge their inability to perform any duty, none exist, and adopt some other calling for which they are better adapted.

OUR NEW SECRETARY, ETC. Hon. J. G. Gosper, our newly appointed Secretary, is one of our best men, and we find him a very genial gentleman, entirely free from sectional feeling and narrow-mindedness, has clear and liberal ideas about the Territory, and we agree entirely with him that the people should not let personal prejudices carry them from the line of duty, whereby one portion of our fair Territory may be neglected, or a general agrégement of another. We should know no east, west, north or south, but work for the achievement and general welfare of the whole United Territory. These have been our views always, but Wasson, with his usual grasping propensities, forever crying out lying villains of Yavapai, etc., kept us busy answering his insinuations and malversations on an innocent people. We have never let the opportunity pass, however, in speaking kindly of our southern neighbors, knowing as we do from personal observation, that the people of Pima have a good country, filled with resources unsurpassed, mineral or otherwise, by any portion of the Territory, with the exception of the Territory of Utah, who have contended for the right and shall ever do so. We have been misrepresented by the Citizen, and in our answers to that paper we do not want to be considered as writing or standing in antagonism to the people south of the Gila. That the Americans who live in the southern part of the Territory are not just as good as those north, none but an idiot would assume. We have plenty of room in our Territory, and the inducements are such that a large immigration will necessarily come in, and they will find rich fields for investments and operations in every corner, from New Mexico on the east, to the Colorado on the west, or from the Gila to the San Juan on the north, to the Gila borders of Sonora on the south. Therefore, we say, lay down your war weapons and let us agree, hereafter, peace and harmony from this day on.

Immense shipments of mining machinery are passing Colton daily en route to Arizona, consigned to the great mill builders of San Francisco, Messrs. Allen & White. These mills are the Jack Horner's finger and thumb that will pull the gigantic auriferous plumb out of the wealthy Christmas pie of Arizona.—Colton Semi-Tropic.

The whole of Warner's ranch wool clip, at San Diego, consisting of 29,000 pounds, was brought on the last instant by Stewart & Co. of San Diego, for direct shipment East.

Nearly 20,000 alligator skins are yearly used by the boot and shoe manufacturers in the United States.

GRANT'S SPEECH. General Grant, on the 24th of May, in response to a complimentary address by the Mayor of Manchester, England, said: "It is scarcely possible for me to give utterance to the feelings evoked by my reception upon your soil, from the moment of my arrival in Liverpool, where I have passed a week ago, and demanded a further advance of my feelings, which I have witnessed in your streets, the elements of greatness as manifested in your public and industrial buildings, I may be allowed to say that no person could be the recipient of the honor and attention you have bestowed upon me without the profoundest feeling. Such has been invited in me, and I find myself unable to restrain my expression. It was my original purpose on my arrival in Liverpool to hasten to London, and from thence proceed to visit various points of interest in the country. Among these I have regarded Manchester as the most important. As I have been aware for years of the great amount of manufactures, and of what I find their ultimate destination to my own country, so I am aware that the sentiments of the great mass of the people at Manchester went out in sympathy to that country during the mighty struggle in which it fell to my lot to take some humble part. This expression of the people of Manchester at the time of our great trial incited within the breasts of my countrymen a feeling of friendship toward them distinct from that felt toward all England. In that spirit I accept, on the part of my country, the compliments paid me as its representative, and I thank you."

IRREGULAR, BUT JUST. Three Negroes Hung, Without Trial, for an Atrocious Murder. [Special dispatch to the New York Herald.] COLMERS, Ga., May 28, 1877.—Last Friday morning, before daybreak, Mrs. C. C. Chambliss, of Steward county, was murdered by three negroes of the neighborhood. They fixed their eyes on her, and she fled from the house. The negroes then proceeded to the house to rob it, and were met by Mrs. Chambliss, a beautiful woman, aged eighteen years, armed with a gun. One of the negroes, Jerry Snead, took the gun from her and lodged its contents in her head, causing her death instantly. The negroes turned the corn crib and drew her husband away from the house. The colored participants in the lynching threw the lifeless bodies into an old field to rot, and it was with great difficulty that the whites could persuade them to permit a burial. The culprits met their fate jeeringly and sneeringly, glorying in the deed, and taunting their executioners. A cotton rope was first used on Abrams, but it broke, and he asked the crowd to get a stronger one. No other rope could be found, and trace chains were used.

NEW MINES. Bellzara—Gold and silver; Turkey Creek district. Locators—Jas. Guid and Charles Stewart. Buckeye—Gold and silver. Locators—H. A. Rose, W. H. Grove and O. Lincoln. Bluff—Silver. Locators—H. GRAND JURORS. The past winter in the Dominion of Canada, we learn from a private letter, has been open, and was followed by an early spring. Relatives of the writer of this, who live in Canada on the banks of the beautiful St. Lawrence, who have been compelled heretofore to spend their winters in Florida and the Southern States, on account of the extreme cold in Canada, were permitted to enjoy a mild winter on the St. Lawrence.
