To use a hackneyed but expressive phrase, the political cauldron is beginning to seether in this section of the Territory. A Democratic mass-meeting is called, to be held in Florence next Saturday, for the purpose of organizing the party. Divided interest is manifested by certain parties. In fact, the Democrats of Yuma, Pima, and Pinal seem decidedly in earnest, and interesting developments may be expected when they become fully awake and warmed up to their work. It is always amusing to watch from a disinterested standpoint the working of the unterified Democracy. There is a large, intelligent class in the parts of the Territory where your correspondent has recently visited who are opposed to organizing political parties in the Territory at present, thinking any movement in that direction to be premature, and not likely to be productive of the territory at present, thinking any movement in that direction to be premature, and not likely to be productive of the locality. VERDE MILL, FARMING, ETC. EDITOR MINER:-All is quiet along the Verde. The farmers are busy putting in their crops, fencing, etc. Recent rains have caused the young grass to grow finely, which gives an excellent prospect for good grazing. The Jordan brothers and Mr. Fox are busy on the ditch and water-power for the

case it was spoken of as a little mill. Now, we of this valley are naturally, and perhaps pardonably, proud of our first mill, and do not wish it to be underrated. We are told to a ton or more, was turned out during the heat John Hurtin and J. M. Sanford and same lode to the north, only 300 feet off, and not wish it to be underrated. We are told by a party who professed to know, that the stones are larger and of better quality than any of those in Salt River Valley. They are three feet in diameter, and the best that could be bought of their size in San Francisco. I am told by the owners, that it is their object to make as good flour as can be made from wheat.
